

33rd VICTORIAN ALGEBRA CONFERENCE

Western Sydney University, Nov 30 - Dec 2, 2015

The main aim of the annual Victorian Algebra Conference is to foster communication between algebraists in Australia.

We interpret algebra broadly, including topological algebra, algebraic logic, graph theory and coding theory.

Invited Speakers

Anthony Bak	<i>Bielefeld</i>
Jon Berrick	<i>Singapore</i>
Daniel Chan	<i>New South Wales</i>
Volker Gebhardt	<i>Western Sydney</i>
Detlev Hoffmann	<i>Dortmund</i>
