

2015-16 Application

WGEA Employer of  
Choice for Gender Equality

Western Sydney University

# Introduction

The WGEA Employer of Choice for Gender Equality citation is designed to encourage, recognise and promote active commitment to achieving gender equality in Australian workplaces.

**This document is a record of the responses your organisation has provided in your WGEA Employer of Choice for Gender Equality citation application and the related responses from your compliance report for 2015-16.**

The WGEA Employer of Choice for Gender Equality citation replaces the EOWA Employer of Choice for Women citation which, since its introduction in 2001, has succeeded in differentiating recipients by ensuring public recognition for their efforts in the area of equal opportunity for women in Australian workplaces.

Commencing in 2014, the new citation is strategically aligned with the *Workplace Gender Equality Act 2012 (Act)*, reflecting the change in focus of the legislation to promote and improve gender equality for both women and men, while recognising the historically disadvantaged position of women in the workplace. The citation is a leading practice recognition program that is separate to compliance with the Act, and applications are confidential.

This citation recognises that gender equality is increasingly critical to an organisation's success and is viewed as a baseline feature of well-managed and leading organisations. Research shows that groups with diverse perspectives and flexibility in thinking almost always outperform homogenous groups, leading to higher levels of creativity, innovation and organisational agility.

The criteria were developed in consultation with leading academics in workplace gender equality and current citation holders. They reflect the areas of focus of those organisations which have elevated gender equality as a business imperative, moving beyond compliance and leading the way with sustainable and measurable outcomes in gender performance.

The WGEA Employer of Choice for Gender Equality citation will provide recipients with significant differentiation in a competitive marketplace.

Used in recruitment and other promotional materials, the citation provides public recognition of an organisation's focus on gender equality, which supports its ability to attract and retain the best possible talent to build a high performance workforce and reduce the costs of employee turnover.

The citation is also an excellent driver of change within an organisation.

# Criterion 1

## Leadership, accountability and focus

### Overview

This criterion assesses an organisation's overall strategies, policies and processes to achieve gender equality. It recognises that creating a workplace culture in which women and men are equally represented, valued and rewarded requires:

- leadership from the CEO, executive team and senior managers
- accountability for improvement through performance measures and
- organisational focus on this as a business priority.

This criterion considers the way an organisation reflects the following factors:

**Leadership** Leaders believe in, advocate for and role model gender equality and must set clear expectations for others to follow.

---

**Accountability** Accountability is embedded throughout the organisation. Results are often most effectively achieved when accountability is linked directly to remuneration outcomes.

---

**Focus** Gender equality is recognised as a priority within an organisation's overall operational strategy. Gender equality initiatives and desired outcomes are clearly articulated, measured and reported.

**1.** This prerequisite relates to question 1 in your compliance report.

If you have answered YES to question 1.10 ONLY in your compliance report (ie that you only have a formal policy and strategy in place in relation to gender equality overall), you must confirm that the overall gender equality policy and strategy covers all the areas in questions 1.1 to 1.8 of your compliance report (that is, recruitment, retention, performance management processes, promotions, talent identification/identification of high potentials, succession planning, training and development and resignations):

## Criterion 3

# Gender remuneration gap

### Overview

This criterion assesses an organisation's policies, strategies and processes to address gender remuneration equity and show progress in closing any gender remuneration gaps over time.

Gender remuneration gaps can occur either at a like-for-like and/or on an overall organisation-wide basis as explained below.

### Like-for-like gender remuneration gaps

Like-for-like gaps are pay gaps between women and men undertaking work of equal or comparable value (comparing job to job at the same performance standard), for example, comparing two senior engineers in the same organisation.

### Overall organisation-wide gender remuneration gap

The organisation-wide gender pay gap is the difference between the average remuneration of women and the average remuneration of men across the organisation.

This gap is largely due to occupational segregation where men are often in higher paid roles and women in lower paid roles. This can reflect a range of structural and cultural barriers that inhibit women from undertaking higher paying roles, including gender stereotypes about 'men's work' and 'women's work' and the undervaluing, hence underpayment, of work traditionally carried out by women.

An analysis that assesses the value of roles in terms of skills, knowledge, responsibility, effort and working conditions, often reveals that female-dominated roles are undervalued when compared with roles of similar skills, knowledge, responsibility, effort and working conditions that are traditionally held by men. When this analysis is carried out, and action is taken to appropriately remunerate work of equal or comparable value (rather than just within the same occupational level), it can have a positive impact on closing an organisation's overall gender remuneration gap.

Closing the gender remuneration gap requires organisations to take a multi-faceted approach, which is captured in each of the elements of this criterion.

**21.** This prerequisite relates to questions 3, 3.1, 3.2 and 3.3 in your compliance report which you have already answered so no additional responses are required.

24(a). If you selected "No unexplainable or unjustifiable gaps identified" to whether you have taken actions as a result of your gender remuneration gap analysis in your compliance report, please provide details on how you came to this conclusion and why any gaps are explainable or justifiable below:

Yes

No

## Criterion 4

# Flexible working arrangements and other initiatives aimed at supporting women and men including for those with family or caring responsibilities

### Overview

This criterion assesses an organisation's policies, strategies and processes to encourage the use of flexible working arrangements<sup>1</sup> for women and men at all levels of the organisation.

This criterion recognises that access to, and utilisation of, flexible working arrangements – for both women and men - drive gender equality for individuals in combining their work and caring responsibilities.

It enables those with caring responsibilities to remain in the paid workforce and continue to have opportunities for growth, development and promotion.

### Parental leave

Any government scheme that funds parental leave at the full salary of all workers for at least eight weeks (minimum requirement for the citation) will mean the prerequisite for employers to pay parental leave for primary carers will be met.

Employers will be expected to meet any prerequisites not included in a government funded scheme. For example, if a cap on payments under a government funded scheme is introduced, Employers of Choice for Gender Equality will need to pay the eight weeks of parental leave to those primary carers excluded from the government funded scheme.

WGEA will advise employers what is expected if and when changes to the current government funded scheme comes into effect.

---

<sup>1</sup> Definition of flexible working arrangements is "the ability of workers to make choices influencing when, where and for how long they engage in work-related roles" (Hill, Grzymacz, Allen, Blanchard, Matz-Coast, Shulkin and Pitt-Catsouphes, 2008).

**29.** This prerequisite relates to question 10 in your compliance report which you have already answered so no additional response is required.

In June 2016 the Vice-Chancellor led a flexible work for staff promotion. This consisted of an email to all staff, accompanied by a flyer detailing flexible work options available.

The Vice - Chancellor also issued an email to all managers promoting flexible work with the following text:

"Whether it be technological changes, reductions in public funding or prolonged reform uncertainty, the higher education landscape is shifting. It is within that context that Western Sydney University, like many other tertiary education institutions, must rethink its operating and service delivery models. To successfully operate within these circumstances a workforce and culture that is agile, flexible and diverse is required.

Flexible work arrangements are a powerful lever in achieving this, as they enable a more diverse and inclusive workplace for both women and men. However, this requires a cultural shift towards promoting, implementing and supporting staff who undertake flexible work arrangements. As such, your role as a manager is crucial.

Aside from the above benefits of embedding a culture that proactively encourages new ways of thinking, staff have a right to request flexible work and as managers I ask you to be open to all options and to consider all requests carefully on their merits."

Attached to this email is a flyer on flexible work arrangements. If you require assistance on implementing flexible work this can be found through the Office of People and Culture or more information can be found at: [westernsydney.edu.au/equity\\_diversity/equity\\_and\\_diversity/gender\\_equality/flexible\\_working\\_arrangements](http://westernsydney.edu.au/equity_diversity/equity_and_diversity/gender_equality/flexible_working_arrangements)

A specific flyer with the Vice-Chancellors endorsement of flexible working arrangement was circulated to all supervisors and managers.

In addition, a range of policies and educational materials include information on flexible workplace and how to manage it. For example the Parenting Support Information Kit contains a section on Flexible Work Options.

47.1(b). Please provide details of the training that is in place for managers on how to manage flexible working arrangements:

# Criterion 5

## Employee consultation

### Overview

This criterion gives an indication of an organisation's culture in relation to gender equality using feedback from workers via anonymous survey questions.

Organisations must undertake consultation with their workers, verifying that the experience of workers points to a workplace culture that actively supports and promotes gender equality. WGEA will be looking for evidence that the employee experience reflects the content of the organisation's WGEA Employer of Choice for Gender Equality application.

**This criterion recognises that effective consultation with workers has been associated with:**

improved team effectiveness

increased employee satisfaction and motivation and decreased employee stress by enhancing workers' feelings of control

improved employee psychological and physical well-being by being able to speak up when mistreatment has occurred

**49.** Your organisation must consult with workers on issues concerning gender equality in the workplace by means of an employee survey and this must have been undertaken in the past two years. Please confirm this has occurred:

Yes, this organisation's survey was conducted on (provide details of the date):

May 2015

49.1. Please confirm that the survey you used to consult with all workers facilitated anonymous participation:

Yes

49.2. Please confirm that the survey your organisation conducted used a five point scale and the questions were either the three below or alternatives that were comparable to, and aligned with, the intent of these questions. (If you have used alternatives, approval must have been sought from WGEA to ensure they are aligned.)

Survey questions:

Question 1: "My immediate supervisor/manager genuinely supports equality between women and men."

Question 2: "I have the flexibility I need to manage my work and caring responsibilities."

Question 3: "In my organisation sex-based harassment is not tolerated."

Yes, the above three questions were included in this organisation's employee survey

Yes, alternative questions to the three above were used in this organisation's employee survey and approval was given by WGEA for their use.

49.3. SURVEY METHOD: What survey method did your organisation use?

A pulse survey

The questions were incorporated into an existing survey (eg a biennial employee engagement survey)

The survey questions were asked as part of an existing process for example via other confidential feedback mechanisms (provide details):

Other (provide details):

49.4. SAMPLE SIZE: please confirm either of the following:

All workers were given an opportunity to complete the survey, or;

The survey was administered to a statistically significant and representative sample of workers.

49.5. RESPONSE RATES: your organisation's survey sample is considered representative if you have either:

i) obtained 400 or more responses, OR

ii) where samples of less than 400 are collected, you have achieved a response rate of 60% of your workforce, and the sample is comparable to your employee profile for age and gender distributions.

Please indicate below which response rate option applies to your organisation:

- 400 or more survey responses were received
- Less than 400 survey responses were received, but a response rate of at least 60% of our workforce was obtained, and the sample is comparable (within 2.5 percentage points above and below) to the employee profile by gender and age of our organisation
- This organisation, despite following the required methodology as stated above, was unable to achieve the desired response rate

49.6. ANALYSIS: Please confirm that your organisation has analysed its survey responses by gender:

- Yes

49.7. RESULTS: Your organisation needs to have analysed ALL responses received to its employee survey (including 'not sure') and achieved an agreement threshold of at least 65% 'agree' or 'strongly agree' on the above three questions asked, OR achieved an agreement threshold above the industry norm for the survey tool used. (Refer to page 24 of the Criteria and guide to citation document for instructions on calculating the level of agreement to the survey questions.)

Indicate below what agreement threshold was achieved:

- Analysing all responses received, an agreement threshold of at least 65% agree or strongly agree was reached on the three questions above
- Analysing all responses received, an agreement threshold above the industry norm for the survey tool used was achieved
- Neither of these thresholds was reached. We have contacted WGEA to discuss why these thresholds were not achieved and have been advised that we remain eligible to apply for the EOCGE citation.

49.8. RESULTS: In the text box below, please provide the results of your survey, including the gender breakdown of responses for each of the three questions asked. If an agreement threshold above the industry norm for the survey tool used was achieved, please also include what the industry norm is and the survey tool used. Examples have been provided below so it is clear what information is required to be provided:

Example 1: Number of survey responses is 400 or more:

- 500 survey responses received: 200 female; 300 male
- The level of agreement reached is 74% ('agree': 160 + 'strongly agree': 210 = 370 / 500 (total number of employees) = 74%.

Example 2: Number of survey responses is less than 400:

- 140 survey responses received: 40 female; 100 male.
- Number of employees in workplace is 230; therefore a response rate of 60% of our workforce has been achieved.

Question 1. 2070 responses received, 1266 female; 804 male

The level of agreement reached is 89% (88% for female, 91% for male) No industry comparison recorded.

Question 2. 2070 responses received, 1266 female; 804 male

The level of agreement reached is 69% (69% for female and 68% for male)

-1% below 37 Australian universities and -8% below all industries (Voice PROJECT Staff Engagement Survey

tool)

Question 3. 2070 responses received, 1266 female; 804 male

Level of agreement reached is 92%( 91% for female and 93% for male)

+3% above 37 Australian universities and 6% above all industries (Voice Project Staff Engagement Survey tool)

- 50.** Where gender equality issues have been identified through the employee consultation process, your organisation must take action/s to address these issues. Please confirm this has occurred:

Yes

50.1. Please provide details of the actions that have been taken to address gender equality issues identified through your consultation process below:

Question 2 received the lowest level agreement of the three questions with 69%.In response the University focused on actions to improve support for and promote parenting and workplace flexibility. As a result the Online Supporting Parents Toolkit for Staff was developed and launched and the VC led a Workplace Flexibility Promotion.

- 51.** Has your organisation made the EOCGE citation application (minus confidential remuneration data) available to all your workers?

Yes

No

## Criterion 6

# Preventing sex-based harassment and discrimination

### Overview

This criterion assesses the way an organisation educates all workers (including casual and contract staff) on their rights and obligations regarding sex-based harassment and discrimination, with the aim of eliminating sex-based harassment and discrimination in the workplace and promoting an inclusive culture through education and skills-based training.

It recognises that sex-based harassment and discrimination in the workplace has significant impacts on an organisation. Notable are the reduced personal well-being and depression of those experiencing the harassment; increased absenteeism; reduced job satisfaction, organisational commitment and productivity; and increased employee turnover.

Not only do these factors lead to increased costs for individuals and organisations, they also have a significant impact on the engagement of women in work, the types of industries that are perceived to be appealing and the promotional opportunities for women.

**52.** This prerequisite relates to question 16 in your compliance report which you have already answered so no additional response is required.

**53.** For employers that indicated in question 16 of the compliance questionnaire that sex-based harassment and discrimination (SBH) prevention is covered in a workplace agreement, you must confirm that a SBH grievance process is in place in your organisation:

Yes, a SBH grievance process is in place

Not applicable because our organisation's grievance process is contained in a SBH policy and/or strategy

**54.** This prerequisite relates to question 17 in your compliance report which you have already answered so no additional response is required.

54.1. Please indicate the way/s in which this sex-based harassment prevention training for managers is conducted in your organisation:

Online	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Face to face	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Management meetings	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Video presentations	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

54.2. If you have answered 'No' to the training options in question 54.1, please provide details on the way/s in which sex-based harassment prevention training for all managers is conducted in your organisation (NB: an email with an attached policy and/or advising rights and responsibilities relating to sex-based harassment and discrimination, is NOT considered to be training):

Managers and supervisors are required to undertake EO Online Training for Managers as a mandatory requirement at the time of induction and then to repeat the training every two years.

**55.** Your organisation must provide workplace training for all workers on sex-based harassment and discrimination prevention, including contract and casual staff, at induction and at least every two years. (NB: an email with an attached policy and/or advising rights and responsibilities relating to sex-based harassment and discrimination is NOT considered to be training.) Please confirm this occurs:

Yes

55.1. Please indicate the way/s in which this sex-based harassment prevention training is conducted for all workers in your organisation:

Online	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Face to face	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Video presentations	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

55.2. If you have answered 'No' to the training options in question 55.1, please provide details on the ways in which sex-based harassment prevention training for all workers is conducted in your organisation (NB: an email with an attached policy and/or advising rights and responsibilities relating to sex-based harassment and discrimination, is NOT considered to be training) :

EO Online training is accessed via MyCareer Online and is listed as mandatory at Induction and advertised by way of website and program guide. Currently the modules are 'hosted' by UOW.

In addition, tailored training is provided to organisational units as required when a need has been identified.

**56.** Your organisation must not have had a judgment or adverse final order made against it by a court or other tribunal relating to sex-based harassment or discrimination in the last three years. Please confirm this is the case:

Yes

## Criterion 7

# Targets for improving gender equality outcomes

### Overview

This criterion assesses whether an organisation has set specific, measurable, achievable and time-framed numerical targets where the representation of women in management and on its governing body/board is less than forty percent. This applies where a governing body/board exists, and where the organisation has control over its appointments.

WGEA's position on targets for women in leadership positions is based on the social context within which it operates, recognising the historically disadvantaged position of women in relation to employment and the ongoing impacts of this disadvantage. In the future, after consultation with the relevant sectors, the Agency may consider introducing targets for men in female dominated organisations.

In the meantime, employers may wish to consider implementing a target to increase the representation of men where their representation is less than 40% in leadership positions.

### This criterion recognises that:

- Gender targets, like financial and operational targets, are an essential part of managing and improving business performance.
- The process of setting voluntary targets for gender composition throughout an organisation, then tracking, measuring and transparently reporting progress against those targets, promotes cultural and structural change, focuses efforts, embeds accountability and sends a strong message that gender representation is a central business issue.
- For employers who have already achieved 40% representation of women across all levels of management and on their governing body/board (where it exists and where the organisation has control over governing body/board appointments) they should track their numbers with a minimum goal being to ensure the representation of women does not drop below 40%.

**57.** This prerequisite relates to questions 2 through to 2.2 in your compliance report which you have already answered so no additional responses are required.

57.1. Where your organisation has control over other governing bodies/boards and has control over appointments to those governing bodies/boards, do you set numerical targets to improve the representation of women?

- Yes
- This is not required as the representation of women in these governing bodies/boards is at least 40%
- Not applicable because this organisation does not have control over other governing bodies/boards
- Not applicable because this organisation does not have control over appointments to the other governing body/board appointments over which it has control

**58.** Your organisation must have set numerical targets that include timeframes to improve the representation of women in management. Please confirm this has occurred:

- Yes, targets have been set
- Targets are not required as the representation of women across all levels of management is at least 40%, as detailed below:

58.1. In the table below, please indicate the targets and timeframes that have been set:

	Management level where target is set, eg KMP?	% Target?	Year target to be reached?
1	Key Management Personnel	40	2020
2	Other Executives/General Managers	40	2020
3	Senior Managers	40	2020
4	Other Managers	40	2016

**59.** Your organisation must track and communicate its progress towards achieving targets to improve the representation of women in management in the following ways. Please tick the boxes to confirm this occurs:

Tracking progress internally

Reporting to the governing body/board and key management personnel.

This is not required as the representation of women across all levels of management is at least 40% as outlined in question 58

59.1. Does your organisation evaluate and/or report/communicate its progress towards achieving targets to improve the representation of women in management in either of the following ways (select one option):

Tracking progress and reporting internally to the governing body/board and key management personnel?

Tracking progress and reporting internally to the governing body/board and key management personnel and workforce, and reporting externally?

This is not required as the representation of women across all levels of management is at least 40% as outlined in question 58.

**60.** Where there is an under-representation of women in non-manager areas (less than 40%), has your organisation set numerical targets (that include timeframes) to improve the representation of women?

If a target has not been set because you have gender balance in all non-manager areas (40% or greater), no response is required, please proceed to question 61.

Yes

No

**61.** Your organisation must set gender representation targets for internal recruitment and external recruitment shortlists (for managers and/or non-managers). Please confirm this has occurred:

Yes, targets have been set

No, targets are not required as the representation of women across all levels of management and non-management roles is at least 40%

61(a). In the table below please provide details of what the target is and what year it is to be reached (please note the '% target' field is mandatory. If you do not have a target please enter the number zero [0]).

	Managers		Non-managers

# Outstanding initiatives and/or innovation

WGEA invites you to voluntarily provide information on any outstanding and innovative initiatives in advancing gender equality that have been implemented in your workplace in the past two years. The type of information provided could include a description of: the workplace gender equality issue/s; the strategy/ies or plans to address the issue/s; the actions or activities that were implemented; the time-frame/s for achieving change, and the outcomes.

Important Gender equity initiatives underway in 2015/16 are:

## The SAGE Pilot Program

The University signed on as a participant in the Australian pilot of Science in Australia Gender Equity (SAGE) program to promote gender equity and gender diversity in science, technology, engineering, mathematics and medicine (STEMM).

The program is based on the Athena Swan Charter, a UK-based evaluation and accreditation framework, which uses a bronze, silver or gold award rating system to assess the gender equity policies and practises of participating institutions. The awards are extremely rigorous and are cumulative, with each award only current for four years.

The pilot program requires a thorough self-assessment of University gender equity policy and practices, and the development of a plan to address any future opportunities for promoting and retaining women in STEMM.

The University will use the SAGE program to go beyond gathering data and statistics, and paint an in-depth, qualitative picture on how the University is identifying and developing an

inclusive culture. These insights and initiatives will flow beyond gender equity in science and into non-STEMM disciplines and across professional staff fields.

## Promotions Review

The University continues to review its promotions procedures to ensure the policy and processes are fair and equitable. An external consultant was engaged for the review and the Terms of Reference included recognition that there are a breadth of academic roles along with a range of (non-traditional) career trajectories and the recognition of performance as being relative to opportunity. A review paper has been produced and university wide consultation held to discuss the review paper and recommendations.

## 2016 Women Who Inspire Calendar

The 2016 Women Who Inspire Calendar was produced to highlight and promote successful women at Western Sydney University. The Calendar provides role models of successful

women staff members in leadership and non-traditional occupations to encourage and inspire the equal participation of women in every area of University activity.

This should include appointments from both external and internal sources such that if an existing employee is appointed to another role within the organisation (promotion or not), they would need to be included.

All appointments need to be included regardless of how they were made, for example through recruitment exercises, cold canvassing, previously-submitted resumes.

1.13 In the table below, please provide the NUMBER of employees who were awarded promotions during the reporting period (by gender, employment status and manager/non-manager categories).

(‘Promotion’ means where a person has advanced or been raised to a higher office or rank on an ongoing basis. Temporary higher duties are not considered a promotion. This does not typically include movement within a salary band unless it involves a move to higher office or rank.)

No cell should be left blank, please enter ‘0’ (zero) where there is no data.

#### Gender equality indicator 2: Gender composition of governing bodies

2 Your organisation, or organisations you are reporting on, will have a governing body/board as defined in the Workplace Gender Equality Act 2012 (Act). (In the Act, a governing body is defined as “the board of directors, trustees, committee of management, council or other governing authority of the employer”.) For the purposes of reporting under the Act, this question relates to the ultimate or ‘highest’ governing body for your organisation. NB: if your governing body/board is located overseas, it still needs to be included.

- o For private or publicly listed companies, you will have one or more directors or a board of directors.
- o For trusts, the trustee is the governing body/board.
- o For partnerships, the governing body/board is likely to comprise all or some (if elected) partners.
- o For organisations whose governing body/board is the same as their parent entity’s governing body/board, it is still deemed to have a governing body/board.
- o For religious structures, you may have a canonical advisor, bishop or archbishop.
- o For other structures that do not fall into any of the above categories, your committee of management would be considered your governing body/board.

2.1 Please complete the table below, ensuring data entered is based on the instructions in each column header. For each organisation, enter the number of women and men on that governing body/board (not percentage). If a target has been set to increase the representation of women on any of the governing bodies listed, please indicate the % target and the year it is to be reached.

If your organisation’s governing body/board is the same as your parent entity’s governing body/board, you will need to enter your organisation’s name but the details of your parent entity’s governing body/board in the table below.

Important Gender equity initiatives at the University in 2015/16 are:

#### SAGE Pilot Program

The University signed on as a participant in the Australian pilot of the project Science in Australia Gender Equity (SAGE) program to promote gender equity and gender diversity in science, technology, engineering, mathematics and medicine (STEMM).

The program is based on the Athena Swan Charter, a UK-based evaluation and accreditation framework, which uses a bronze, silver or gold award rating system to assess the gender equity policies and practises of participating institutions. The awards are extremely rigorous and are cumulative, with each award only current for four years.

The pilot program requires a thorough self-assessment of University gender equity policy and practices, and the development of a plan to address any future opportunities for promoting and retaining women in STEMM.

The University will use the SAGE program to go beyond gathering data and statistics, and paint an in-depth, qualitative picture on how the University is identifying and developing an inclusive culture. It is envisaged that the insights and initiatives will flow beyond gender equity in science and into non-STEMM disciplines and across professional staff fields.

#### Promotions Review

The University continues to review its promotions procedures to ensure the policy and processes are fair and equitable. An external consultant has been engaged for the review and Terms of Reference include recognition that there are a breadth of academic roles along with a range of (non-traditional) career trajectories and the recognition of performance as being relative to opportunity.

#### 2016 Women Who Inspire Calendar

The 2016 Women Who Inspire Calendar was produced to highlight and promote successful women at Western Sydney University. The Calendar provides role models of successful women staff members in leadership and non-traditional occupations to encourage the equal participation of women in every area of University activity.
