

Mass Spectrometry Proteomics Seminar

Wednesday 8th May at Western Sydney University

Join us to hear about latest innovations and best practices in proteomics

Location

Lecture Theatre 213
Blg 30, Campbelltown Campus

Agenda

Time	Talk Title	Presenter
10:30am - 11:00am	What's new: the latest innovations across Thermo Fisher Scientific mass spectrometry	Frank Rooney National Sales Manager, Mass Spectrometry
11:00am - 11:40am	Protein sample preparation for mass spectrometry	Bhavin Patel Snr R&D Manager, Mass Spec Reagents, USA
<i>Lunch</i>		
12:30pm - 1:00pm	Optimising the western blotting workflow and protein analysis	Srinidhi Srikanth Protein Analysis Specialist
1:00pm - 1:30pm	Moving beyond the "norm" with new opportunities in versatility and robustness for quantitative mass spectrometry: Thermo Scientific™ Orbitrap Exploris™ Series MS	Farid Kakall Business Development Manager Rama Nimmagadda Technical Director, Analytical RnD
1:30pm - 2:15pm	Exploring proteomics and lipidomics with the power of orbitrap tribrid mass spectrometry	Frank Rooney National Sales Manager, Mass Spectrometry
<i>Afternoon Tea</i>		
2:30pm - 3:15pm	Decipher complexity with clarity: Thermo Scientific™ Q Exactive™ UHMR Hybrid Quadrupole-Orbitrap™ MS System	Jose Barreto Product Specialist LCMS
