

Soil Biology Masterclass 2019

WESTERN SYDNEY
UNIVERSITY

Global Centre for Land-
Based Innovation

The 2-day Soil Biology Masterclass will provide you with the core knowledge and principles to assist in incorporating soil biology and health in management practices to sustainably increase productivity and profitability.

30-31st July 2019
Hawkesbury Campus,
Western Sydney University
Richmond NSW 2753

The Masterclass is targeted towards growers and consultants / agronomists. By attending, you will:

- Gain an in-depth understanding of the latest research in soil biology and health; the role of microbes in nutrient cycling and plant interactions; roles of soil fauna and practical methods for improving soil health.
- Learn about the future directions for research, technologies and practices.
- Have opportunities to network with our guest presenter and expert researchers, undertake a facilities tour and enjoy a networking dinner (included in your registration costs).

**Limited positions available,
registration is \$295**
