When GRA meets KPMG

Earlier this month, Western Sydney University students were welcomed into KPMG Australia's Parramatta office as part of our Graduate Recruitment Accelerator program (GRA).

44 students took part in a mock assessment centre, this experience is one of the many activities that make up the Graduate Recruitment Accelerator program. The GRA program

focuses on engaging penultimate and final-year students to understand and develop their employability skills.

We are incredibly thankful to KPMG Australia for opening their offices and giving their time so that our students can gain valuable industry-driven knowledge. We would also like to congratulate our dedicated GRA participants for their excellent professional performance representing our Western community on the day.

KPMG's 2024 Graduate and Vacation Program

KPMG are seeking final-year students and recent graduates for their highly sought-after Graduate Program. You'll join a permanent program with a structured learning pathway. Successful applicants are supported to build their business acumen and do work that holds value.

The Vacation Program is designed for students in the second-last year of their degree. In this program, students will gain real work experience and learn key business skills while still studying. This is a great opportunity to build your network, connect with subject matter leaders and explore the countless opportunities available while working alongside our people over your summer break.

Exciting opportunity for STEM PhD students and scientists

Are you a scientist looking for new challenges? Have you ever wondered what it would be like to work in the Australian Public Service? The Australian Science Policy Fellowship program gives Australian EMCR scientists an opportunity to work in an Australian Government department.

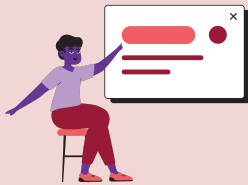

The Fellowship program grows the diversity of expertise in the APS by providing a pathway for scientists to work across various government departments.

Applications for the 2023-24 Australian Science Policy Fellowship Program will open on 8 February 2023 and close on 7 March 2023.

To find out more about the program, including the application process, click the link below.
