

Pick and Match Teaching Development

With the forthcoming extension to blended learning to include fully online, the Central Blended Learning Team have a range of workshops and activities which can be run in conjunction with School-based professional development activities. School BLADEs can be heavily or lightly involved in these sessions at the School's request, and each item below can be tailored to suit a time, location and duration.

The outcomes of each session can also be tailored to suit and include a raised awareness of the features and opportunities afforded by the specific technologies used in the session; a local set of resources providing links to further information such as tip sheets, co-created hint sheets or checklists, and an instant community of practice.

Online Learning and Teaching	
<input type="checkbox"/>	Planning to teach online
<input type="checkbox"/>	Increasing online collaboration with e-Moderating
<input type="checkbox"/>	Using Collaborate to teach online
<input type="checkbox"/>	Design Collaborate sessions and increase student engagement
<input type="checkbox"/>	Presenting engaging content
<input type="checkbox"/>	Discovering and using Open Education Resources (OERs)
<input type="checkbox"/>	Learning design using LAMS
<input type="checkbox"/>	Planning to assess online
<input type="checkbox"/>	Strategies for utilising video content effectively in fully online units
<input type="checkbox"/>	Applying the Basic Standards to your vUWS site

Creating Content and Learning Resources	
<input type="checkbox"/>	Creating iBooks (for use on iOS devices)
<input type="checkbox"/>	Creating eBooks (for use on any mobile device)
<input type="checkbox"/>	ePortfolio options and approaches
<input type="checkbox"/>	Creating learning objects in Captivate
<input type="checkbox"/>	Video shooting techniques
<input type="checkbox"/>	Video production techniques
<input type="checkbox"/>	Video editing techniques
<input type="checkbox"/>	Creating web accessible content in vUWS
<input type="checkbox"/>	Creating content for iTunes U
<input type="checkbox"/>	Digital curation strategies and technologies
