What is this study about? The University of Western Sydney is researching your views on the care you received after being discharged from hospital.

Who are we looking for? Patients aged over 18 years who speak English, Vietnamese or Spanish and have undergone bowel cancer surgery in Western Sydney in the past 5 years.

What is required? Participants will take part in a focus group discussion or in a short individual interview in English, Vietnamese or Spanish.

All information you give us will be confidential. Participants will be offered a small token of appreciation for their time.

Interested?

If you would like to take part or if you have any questions then please contact Dr. Lawrence Tan at GPdept@uws.edu.au or (02) 4620 3933

This study has been approved by the University of Western Sydney Human Research Ethics Committee (Study ref: H9067)
