

Bin Types

Skip (marrell) & Bulk bins (hook)

- Stationary bin made out of heavy duty steel
- Suitable for sites with large volumes of waste or recyclables, large storage areas and no access limitations.
- Standard sizes of **marrell** bins range from 6 to 10 cubic metres and are suited for smaller volumes of dry bulk waste and are better suited for sites with limited access
- Standard sizes of hook bins range from 10 to 35 cubic metres.
- Waste streams:
 - ✓ Dry General Waste
 - ✓ Cardboard
 - ✓ Metal
 - ✓ Timber
