

## RESEARCH, ENGAGEMENT, DEVELOPMENT AND INNOVATION (REDI)

To assist with Academic Promotions, REDI can provide an overview of the information held in relation to each persons research activity, in a concise report called a Research Activity Statement.

This report draws on information from the online REDI Researcher Portal, but presents it in a more detailed, 'at-a-glance' format.

Prior to requesting a Researcher Activity Statement, please review the information held by REDI and displayed on the researcher portal

<https://research-report.uws.edu.au/wpubs/Portal.asp>

Please request your Summary of Research Activity Statement via email:

[REDIdata@westernsydney.edu.au](mailto:REDIdata@westernsydney.edu.au)

REDI may request additional information to assist with compiling an accurate report, e.g. Field of Research (FoR) codes for publications if the information held is incomplete.

Please allow up to a week for the report to be produced.
