

## Research Services

To assist with Academic Promotions, Research Services provide an overview of the information held in relation to each persons research activity, in a concise report called a Researcher Activity Statement.

This report draws on information from the online Research Services Research Portal, but presents it in a more detailed, 'at-a-glance' format.

Prior to requesting a Researcher Activity Statement, please review the information held by Research Services and displayed on the research portal <https://research-report.uws.edu.au/wpubs/Portal.asp>
