

REFLECTING ON FEEDBACK & PROGRESS

Feedback

You have likely received feedback from your tutors on your first assessment or completed a first quiz.

If not, ask your tutors for feedback on your performance in each unit.

Strengths & areas for improvement

Feedback enables you to track your progress in your units.

Use feedback to find your best study skills, strength and units you're doing well in.

Find areas, skills and units needing improvement.

Learning Success

Check if your unit has a [Peer Assisted Study Session \(PASS\)](#) with senior students who have done well in the unit.

Connect with a [Study Smart Officer](#) or access [Study Smart Online](#) in vUWS.

Check [Mathematics Education Support Hub \(MESH\)](#) for help with maths & stats.
