

Waste Types - General

What can go in your General Waste Bin

"Soft", scrunchable plastics

Coffee cups & lids

Stickers and sticker backing

Stationery

Paper towels & tissues

Receipts

Polystyrene (#6)

Fast food packaging

Everything that goes into the General Waste bin goes to landfill. You can reduce your general waste by following the waste hierarchy and preferencing the avoidance, reduction reuse and recycling of waste prior to disposal.

Waste Types - General

What cannot go in your General Waste Bin

Recyclables

Paper & cardboard

E-waste

Batteries

Fluorescent Lights

Printer cartridges & toners

Any liquid waste

**Hazardous/
flammable waste**
(banned from landfill)

Paints
(banned from landfill)

Rule of thumb: The contents of the general waste bin goes to landfill, so it is imperative that nothing hazardous or recyclable is placed into the general waste. Contact Veolia to arrange a specialist collection for any of these items that are not general waste.
