Mural co-created by the School of Business staff members, with guidance from Dalmarri, an indigenous owned company facilitating engagement with Australian Aboriginal and Torres Strait Islander culture. Created in celebration of NAIDOC Week 2019, the artwork represents the story of the place where our Parramatta City Campus is located, the lands of the Buramatta people of the Darug Nation. The mural has the Buramatta River (now known as the Parramatta River) running through it, plentiful with eels, and shows the many clans that lived along the river.
With respect for Aboriginal cultural protocol and out of recognition that its campuses occupy their traditional lands, Western Sydney University acknowledges the Darug, Eora, Dharawal (also referred to as Tharawal) and Wiradjuri peoples and thanks them for their support of its work in their lands (Greater Western Sydney and beyond).
INTRODUCTION

The School of Business is committed to developing a deeper engagement with the First Nation communities in Greater Western Sydney to improve educational, employment and entrepreneurial outcomes.

The School of Business · Indigenous Strategy for 2020-2025 reflects its commitment to developing a deeper engagement with the First Nation communities in Greater Western Sydney to improve educational, employment and entrepreneurial outcomes.

This Strategy engages with and supports the University’s Indigenous Strategy 2020-2025.

The indigenous business sector is among the fastest growing in Australia, with the largest share of all Indigenous owned or operated business in the Sydney region. The School of Business is equipped to play a significant role in supporting the development of Indigenous enterprise in our region. With this in mind, much of the School’s strategic focus lies with Community Engagement. Such a focus does not diminish the School’s commitment to the pursuit of other strategic objectives. Rather, the School recognises its capacity to realise most impact on the professional and economic development of our Indigenous communities through Community Engagement.

Accordingly, the School’s Indigenous Strategy follows the University’s plan in focusing on strategic objectives in the following areas of Indigenous engagement: students; employment; research; learning and teaching; community engagement; leadership; and cultural viability and knowledge.
