Students who are identified as being at risk of failing to meet course progress requirements are required to attend an interview with The English Program Coordinators a view to implementing an intervention strategy and to provide suggestions as to how the student may improve their achievement of course progress requirements.

(6) By the end of week three (3) of each study period, teachers and relevant Coordinators will complete student reports in which they are asked to comment on students’ academic progress, in an effort to identify students at risk of not meeting course progress requirements. The reports also suggest strategies to address perceived student difficulties.
Students who are identified as being at risk of failing to meet course progress requirements are required to attend an interview with a view to implementing an intervention strategy and to provide suggestions as to how the student may improve their achievement of course progress requirements. The student report activates the first formal stage of the intervention strategy.

At the end of the mid-term tests in week five (5), the English Department Management team identify any students at risk from the assessment tasks to date. Identified students will meet the English Program Coordinators to discuss their performance to date and be given strategies for improving their English outside the classroom. These may include but are not limited to:

At the end of every teaching period, after that teaching session’s results are finalised, students who are failing to meet, or are in danger of failing to meet, course progress requirements will be requested to attend an interview with the relevant Coordinator. This interview will determine further steps to be taken by the student and by The College.

Where a student fails a level for the third time, the Academic Progress Policy English Programs will take effect. Furthermore, where it is obvious that intervention strategies are not succeeding or have not succeeded, the Academic Progress Policy English Programs will also be activated.
