

WESTERN SYDNEY
UNIVERSITY

TRANSFORMATION PROGRAM

What is the Transformation Program?

The Transformation Program will create a more digitally enabled University, capable of providing students with a richly interactive and personalised learning experience, wherever they are and wherever they are located.

Building on Western's history and continued commitment to connecting with our communities, the Transformation Program will also respond to changes in the industries and businesses of Western Sydney to deliver impact for them through research commercialisation, support for new ventures and industry-led educational programs.

We will deliver...

The enterprise wide Transformation Program commenced in December 2021 and has been funded for three years. It is underpinned by five key strategic initiatives:

- Postgraduate Transformation (PGx).
- Transnational Education (TNE)
- Innovation Futures (IF)
- Destination College (DC)
- Digital Acceleration (DX)

Through the rollout of the Transformation Program, Western is moving forward, breaking down barriers, and enabling a bolder future for our community.

Our transformation endeavours will inspire our students, staff and communities to transform themselves.

- Western's Sustaining Success 2021-2026 Strategic Plan
