

Professional Experience 2 (Master of Teaching Primary - TEAC7155)

30-Day Placement Teaching Schedule

When not teaching, Pre-service Teachers must observe or assist their Supervising Teacher within the classroom and during other school activities/duties. In conjunction with the Supervising Teacher, three focus students will be identified, and information on the students' individual strengths, needs, interests, and learning styles will be collected. This information will be used when planning for differentiated lessons as part of the TPA.

Week One – Select focus students and start observations and data collection. Pre-service Teachers plan and implement a minimum of co-teaching/small group teaching from the Supervising Teacher's planned program (planning lessons based on the Supervising Teacher's program).

Week Two – Pre-service Teachers plan and implement teaching from the Supervising Teacher's planned program (planning lessons based on the Supervising Teacher's program).

Week Three – Pre-service Teachers should complete teaching involving planning, preparation of resources, and class organisation.

Weeks Four to Six – Pre-service Teachers will work with the Supervising Teacher to develop a 3-week teaching program using lesson plans/units of work and a daybook. It is expected that Pre-service Teachers will be responsible for most of the classroom teaching and learning. This includes preparing and organising equipment and resources for each lesson taught, transitions between lessons, assessment activities, and the provision of student feedback.
