SUITABLE FOR MASTER OF RESEARCH / PHD

Early Interventions for Smoking Cessation in Hospitalised Adults

Professor Sheree Smith: sheree.smith@westernsydney.edu.au

Research area: Smoking cessation

This study will utilise early interventions for smoking cessation in hospitalised respiratory and cardiac adults.

Defining and Determining High Value COPD Interventions

Professor Sheree Smith: sheree.smith@westernsydney.edu.au

Research area: Respiratory care, COPD and Service provision

This study will define and determine high value COPD interventions and the pre-requisites for optimal delivery by health professionals within hospital based respiratory service using multiple methods.

Educationally Driven Respiratory Self-management

Professor Sheree Smith: sheree.smith@westernsydney.edu.au

Research area: Self-management, Respiratory care, Decision making

This study will investigate using two different theory driven delivery methods of respiratory self-management to adult patients in an acute hospital setting using RCT. It will also focus on self-management education in respiratory care using different theory driven delivery approaches.
