Culture and Society is an interdisciplinary major developing knowledge, research skills and analytic capacities relevant to understanding and interpreting landscapes of cultural diversity and social difference in our contemporary world, both in terms of the broad contours, as well as specific micro-social environments. This major provides grounding in contemporary debates and methodologies in cultural studies and social theory, and draws on various disciplines including history, sociology, communications, and linguistics. Topics include popular culture, everyday urban life, cultural and social impacts of scientific theories and new technologies, multiculturalism, and contemporary spirituality. Study in this area is relevant for work involving commentary and analysis of contemporary social issues and cultural practices (e.g. journalism, teaching, activism) and fields concerned with designing, delivering and evaluating cultural and artistic productions, and education, communication, welfare or health services, in culturally diverse communities.

Major Structure

Students must successfully complete 80 credit points as follows.

Please note all Bachelor of Arts students including Pathways to Teaching, Dean's Scholars and double degrees must complete the structure under the heading Bachelor of Arts.

Please note all Bachelor of Creative Industries students including double degrees must complete the structure under the heading Bachelor of Creative Industries.

Note: Not all subjects will be offered each year. Subjects will be offered on a rotational basis.

Bachelor of Arts Students

Arts students must complete the four compulsory subjects below and must complete four subjects from the Level 2/Level 3 subject pool with a minimum of two subjects at Level 3. See below.

| Subject | Title | Credit Points |
|-----------|-------------------------------------|---------------|
| HUMN 3033 | Digital Cultures | 10 |
| HUMN 1066 | Introduction to Culture and Society | 10 |
| HUMN 2046 | Researching Culture | 10 |
| HUMN 1049 | Understanding Visual Culture | 10 |

Bachelor of Creative Industries Students

Creative Industries students must complete their Introduction to Major subject as part of the core requirements of the program, prior to enrolling in this major.

| Subject | Title | Credit Points |
|-----------|-------------------------------------|---------------|
| HUMN 1066 | Introduction to Culture and Society | 10 |

Creative Industry students must complete the three compulsory subjects below and must complete five subjects from the Level 2/Level 3 subject pool with a minimum of two subjects at Level 3. See below.

| Subject | Title | Credit Points |
|-----------|------------------------------|---------------|
| HUMN 3033 | Digital Cultures | 10 |
| HUMN 2046 | Researching Culture | 10 |
| HUMN 1049 | Understanding Visual Culture | 10 |

Pool Subjects

Bachelor of Arts students must complete four subjects from the list below, with a minimum of two subjects at Level 3.

Bachelor of Creative Industries students must complete five subjects from the list below, with a minimum of two subjects at Level 3.

Note: Not all subjects will be offered each year. Subjects will be offered on a rotational basis.

| Subject | Title | Credit Points |
|-----------------------------|--|---------------|
| Level 2 Subject Pool | | |
| COMM 2009 | Cinema and Censorship | 10 |
| LANG 2015 | Cultural History of Books and Reading | 10 |
| HUMN 2020 | Digital Humanities and Research Methods (UG) | 10 |
| COMM 2020 | Introduction to Film Studies | 10 |
| HUMN 2040 | Politics of Sex and Gender | 10 |
| HUMN 2044 | Representing Everyday Life in Literary and Visual Cultures | 10 |
| HUMN 2056 | The Racial State | 10 |
| PHIL 2015 | Thinking Cinema | 10 |
| HUMN 2058 | Urban Life/Urban Culture | 10 |
| HUMN 2062 | Youth Cultures and Moral Panics | 10 |

Level 3 Subject Pool

Select at least two subjects from the following:

| | | |
|-----------|--|----|
| POLI 3001 | Activism, Engagement and Social Change | 10 |
| CULT 3002 | Children's Culture | 10 |
| LANG 3018 | Children's Literature: Image and Text | 10 |
| COMM 3006 | Cinema and Experience | 10 |
| HUMN 3023 | Climate Change and Culture | 10 |
| CULT 3004 | Consumer Culture | 10 |
| LANG 3029 | Culture, Discourse and Meaning | 10 |
| HUMN 3029 | Cultures of Crime and Punishment | 10 |
| HUMN 3030 | Cyber Justice (UG) | 10 |
| HUMN 3031 | Death and Culture | 10 |
| HUMN 3034 | Emotions, Culture and Community | 10 |
| LANG 3033 | Film and Drama | 10 |
| HUMN 3039 | Food: A Cultural History | 10 |
| HUMN 3044 | Healing and Culture | 10 |
| HUMN 3048 | History of Sexuality | 10 |
| HUMN 3051 | Human Rights and Culture | 10 |

| | | |
|-----------|--------------------------------|----|
| HUMN 3057 | Islam, Media and Conflict | 10 |
| HUMN 3107 | Labour and Culture | 10 |
| HUMN 3113 | Migration and Social Change | 10 |
| PHIL 3018 | Philosophy of Race and Racism | 10 |
| HUMN 3064 | Politics, Power and Resistance | 10 |
| HUMN 3065 | Postcolonial Australian Cinema | 10 |
| HUMN 3069 | Queer Culture | 10 |
| CULT 3020 | Representing Crime | 10 |
| PHIL 3017 | The Body in Culture | 10 |
| HUMN 3090 | Understanding Power | 10 |
| HUMN 3091 | Violence in Everyday Life | 10 |
| HUMN 3096 | What is the Human? | 10 |

Equivalent Subjects

The subject listed below count towards completion of this Major for students who passed this subject in 2021 or earlier.

Minor Structure

Students must successfully complete 40 credit points as follows.

Please note all Bachelor of Arts students including Pathways to Teaching, Dean's Scholars and double degrees must complete the structure under the heading Bachelor of Arts.

Please note all Bachelor of Creative Industries students including double degrees must complete the structure under the heading Bachelor of Creative Industries.

This minor is available to students in other Western Sydney University Programs. If the minor is available on your campus, the program structure allows space for enrolment in the minor and pre-requisite requirements can be met, please follow the structure under the heading Bachelor of Arts. Consult your Program Advisor for further advice.

Note: Not all subjects will be offered each year. subjects will be offered on a rotational basis.

Bachelor of Arts Students

Arts students must choose at least two of the following subjects

| Subject | Title | Credit Points |
|-----------|-------------------------------------|---------------|
| HUMN 3033 | Digital Cultures | 10 |
| HUMN 1066 | Introduction to Culture and Society | 10 |
| HUMN 2046 | Researching Culture | 10 |
| HUMN 1049 | Understanding Visual Culture | 10 |

Bachelor of Creative Industries Students

Creative Industries students will have already completed HUMN 1017 Everyday Life (2021 or prior) or HUMN 1066 Introduction to Culture and Society (from 2022) as their Introduction to Major subject as part of the core requirements of the program and must choose at least two from the following three subjects:

| Subject | Title | Credit Points |
|-----------|------------------------------|---------------|
| HUMN 3033 | Digital Cultures | 10 |
| HUMN 2046 | Researching Culture | 10 |
| HUMN 1049 | Understanding Visual Culture | 10 |

Pool Subjects

Additional subjects to complete the minor can be chosen from the following pool subjects.

Note: Not all subjects will be offered each year. Units will be offered on a rotational basis.

| Subject | Title | Credit Points |
|--------------------------------------|--|---------------|
| Level 2 Subject Pool | | |
| COMM 2009 | Cinema and Censorship | 10 |
| LANG 2015 | Cultural History of Books and Reading | 10 |
| HUMN 2020 | Digital Humanities and Research Methods (UG) | 10 |

Cyber Security, Major (0066)

Western Sydney University Major Code: 0066

Previous Code: M3116.1

Available to students in other Western Sydney University programs?
 No

The Cyber Security major aims to develop graduates with sound skills in the discipline of information systems security. Today, the widespread use of networked systems means protecting these systems from various attacks is more important than ever. Cyber Security is an essential aspect of today's information systems. This major covers fundamental information security knowledge and security protocols from basic cryptography algorithms to their applications in computer systems and networked systems. Students will learn fundamental security concepts, practical implementation of the security application programs as well as ethical hacking techniques to protect cyber security.

Cybersecurity is a fundamental aspect of information and communication systems and protecting these systems from various attacks and threats is becoming one of the major technology challenges for public and private sectors. The Cybersecurity field of study aims to develop graduates with advanced knowledge and skills in the discipline of information and communication security. This field of study covers fundamental knowledge in system and network security, security protocols and their applications in computer systems and networked systems such as cloud computing. Students will also learn other related topics such as artificial intelligence and visualisation and their application in cybersecurity development.

Extracting information from data has become a science in itself, blending skill sets from mathematics, statistics and computing. With a strong applications focus, this major covers the nature of data, how to embark on data driven investigations and visual and computational analytics. Graduates will have the knowledge and skills required to operate effectively in a data driven world.

Data is ubiquitous, and analysing data plays an increasingly important role in many careers. Data Science is based on mathematics and statistics, but there is more to it: a Data Scientist has the required expertise to convert all forms of data into valuable information. Building on the Bachelor of Mathematics, this major equips graduates with additional skills and knowledge for designing experimental studies, building and fitting of models, visualisation, estimation and prediction, storage and retrieval of big data. Such skills are essential for tasks such as the analysis of customer transactions and behaviour, scientific investigations, financial trends, and online behaviour.

Digital Cultures, Major (0070)

Western Sydney University Major Code: 0070

Previous Code: M1109.1

Available to students in other Western Sydney University Programs: Yes, however the following restrictions apply.

The Digital Cultures Major offers students the opportunity to learn about how cutting edge technology and digital practices are changing society. By analysing new media, visual arts, and digital design and the effects that the use of these new technologies have on culture and society, students will gain the necessary skills to position themselves for careers in a wide variety of contexts that require understanding of technology or digital media and its impact. Complementing these analytical skills, students will also gain practical skills in the creation of digital media and design.

Major Structure

Students must successfully complete 80 credit point as follows.

Note: Students in the Bachelor of Creative Industries (p. 122) complete the structure under the heading Bachelor of Creative Industries below.

Students must complete the following compulsory subjects:

| Subject | Title | Credit Points |
|-----------|--|---------------|
| HUMN 3033 | Digital Cultures | 10 |
| HUMN 2020 | Digital Humanities and Research Methods (UG) | 10 |

Students must also complete six subjects from the following pools, with a minimum of two subjects at Level 3 and no more than three subjects at Level 1.

Level 1

| Subject | Title | Credit Points |
|-----------|-------------------------------|---------------|
| COMM 1012 | Data, Mediation, Power | 10 |
| DESN 1011 | Image Design | 10 |
| COMM 1020 | Media Cultures and Industries | 10 |
| DESN 1018 | Visual Storytelling | 10 |
| DESN 1021 | Web and Time-based Design | 10 |
| COMM 1032 | Writing Ecologies | 10 |

Level 2

| Subject | Title | Credit Points |
|-----------|------------------------|---------------|
| COMM 2024 | Media Law and Ethics | 10 |
| DESN 2014 | Researching the Visual | 10 |

Level 3

| Subject | Title | Credit Points |
|-----------|--------------------------|---------------|
| DESN 3002 | Data Visualisation | 10 |
| DESN 3008 | Interactive Design: Apps | 10 |
| COMM 3022 | Media Memory | 10 |
| HUMN 3096 | What is the Human? | 10 |

Bachelor of Creative Industries Students

| Subject | Title | Credit Points |
|---------|-------|---------------|
|---------|-------|---------------|

Creative Industries students must first complete one of the following two subjects as their Introduction to Major subject prior to enrolling in this major.

| | | |
|-----------|---------------------------|----|
| DESN 1011 | Image Design | 10 |
| DESN 1021 | Web and Time-based Design | 10 |

Students must complete 80 credit points from the following level 2/3 subjects

| | | |
|-----------|--|----|
| DESN 3002 | Data Visualisation | 10 |
| HUMN 3033 | Digital Cultures | 10 |
| HUMN 2020 | Digital Humanities and Research Methods (UG) | 10 |
| DESN 3008 | Interactive Design: Apps | 10 |
| COMM 3022 | Media Memory | 10 |
| DESN 2014 | Researching the Visual | 10 |
| HUMN 3096 | What is the Human? | 10 |

Select one of the following (whichever was not completed as the Introduction to Major subject):

| | | |
|-----------|---------------------------|--|
| DESN 1011 | Image Design | |
| DESN 1021 | Web and Time-based Design | |

Digital Futures, Testamur Major (T005)

Western Sydney University Major Code: T005

Previous code: ST3052.1

Available to students in other Western Sydney University programs?
No

Digital technology is influencing practically every aspect of today's knowledge economy and is driving advances in all sectors of society. Many jobs require broad competencies and understandings of the powerful role of technology in society. There is also an increasing demand for practical computing and software skills including for research and analysis of data. This major will allow students to develop practical as well as theoretical skills in this field.

Disability specialist expertise has become a growing area of demand in accordance with changing global policy and social service frameworks. Australia has followed these global trends, with the National Disability Insurance Scheme (NDIS) as the largest area of social policy reform since Medicare. This major develops students' professional expertise, knowledge and skills to effectively adapt and apply international disability rights-based standards to their professional practice and respond to the competing demands of complex funding and service environments.

Economics for Secondary Teaching, Minor (0141)

Western Sydney University Minor Code: 0141

Previous Code: SM2053.1

Available to students in other Western Sydney University programs?
No

The Economics for Secondary Teaching minor provides a broad pluralist perspective on fundamental aspects of relationships between individuals, firms, institutions and countries. Students in the minor learn how economies function and how public policy and the way organisations behave affect diverse social, economic and environmental problems. Students are introduced to a wide array of competing economic theories, so that they are critically informed about the ways in which they can transform the world. Students who study economics can expect to develop their analytical and problem solving skills and to be intellectually challenged. The specialisation is designed to meet BOSTES content requirements for teaching Economics in NSW High Schools.

Economics, Testamur Major (T039)

Western Sydney University Major Code: T039

Previous Code: MT2022.1

Available to students in other Western Sydney University programs?
No

The Economics major provides a broad pluralist perspective on fundamental aspects of relationships between individuals, firms, institutions and countries. Students will learn how economies function and how public policy and the way organisations behave affect diverse social, economic and environmental problems. Students are introduced to a wide array of competing economic theories, so that they are critically informed about the ways in which they can transform the world. A major in Economics prepares students to be active participants in addressing the wide range of problems faced by governments, social organisations and the business community in the domestic and international economies. Students who study economics can expect to develop their analytical and problem solving skills and to be intellectually challenged, whether they view the discipline

as providing specific vocational skills or as an area of academic and intellectual interest to them. An Economics major is very highly regarded in the business world and opens up a very large range of career prospects in general business, finance and the public sector.

Economy and Markets, Major (0008)

Western Sydney University Major Code: 0008

Previous Code: M2510.1

Available to students in other Western Sydney University programs?

No

The Economy and Markets major provides a broad pluralist perspective on fundamental aspects of relationships between individuals, firms, institutions and countries. Students will learn how economies function and how public policy and the way organisations behave affect diverse social, economic and environmental problems. Students are introduced to a wide array of competing economic theories, so that they are critically informed about the ways in which they can transform the world. A major in this area prepares students to be active participants in addressing the wide range of problems faced by governments, social organisations and the business community in the domestic and international economies. Students who study economics can expect to develop their analytical and problem solving skills and to be intellectually challenged, whether they view the discipline as providing specific vocational skills or as an area of academic and intellectual interest to them. A major in this area is very highly regarded in the business world and opens up a very large range of career prospects in general business, finance and the public sector.

Location

| Campus | Mode | Advice |
|-----------------------------------|----------|--|
| Parramatta Campus - Victoria Road | Internal | Program Advice (https://directory.westernsydney.edu.au/search/email/business.courses@westernsydney.edu.au) |

Major Structure

Students must complete 80 credit points including all of the core subjects as follows.

The subjects in this major are offered at the Parramatta City campus and the core subjects in the Bachelor of Arts are offered at the Parramatta South, Bankstown and Penrith campuses. Students will be required to travel between campuses in order to complete this major.

| Subject | Title | Credit Points |
|-----------|---|---------------|
| ECON 1014 | Consumers, Firms and Markets | 10 |
| ECON 3002 | Corporations, Economic Power and Policy | 10 |
| BUSM 2005 | Cost Benefit Analysis | 10 |
| ECON 1003 | Financial Institutions and Markets | 10 |
| HUMN 3043 | Globalisation and Sustainability | 10 |
| ECON 3012 | Growth, Cycles and Crises | 10 |
| ECON 3017 | Macroeconomic Measures and Models | 10 |

| | | |
|----------------------------|-----------------------------|-----------|
| ECON 1013 | The Australian Macroeconomy | 10 |
| Total Credit Points | | 80 |

Equivalent Subjects

The subjects listed below count towards completion of this program for students who passed these subjects in 2021 or earlier.

MKTG 1005 Consumers, Firms and Markets, replaced by ECON 1014 Consumers, Firms and Markets

Education Studies - Primary English Teaching Specialisation, Major (0187)

Western Sydney University Major Code: 0187

Previous Code: M1126.1

Available to students in other Western Sydney University programs?
No

Students enrolled in the Bachelor of Arts (Pathway to Teaching Primary) must complete one of the following Education Studies Majors:

- the Primary Science Teaching Specialisation
- the Primary Mathematics Teaching Specialisation
- the Primary English Teaching Specialisation.

The Education Studies Major – Primary English Teaching Specialisation will provide students with 40 credit points of expert content knowledge which, together with completion of subjects in the Master of Teaching

(Primary) will enable students to graduate from the Master of Teaching (Primary) with a Primary English Teaching Specialisation. Students must take 20 credit points from the English or Creative Writing or Linguistics or International English Major subjects, in addition to completing the core subjects LANG 1029 Foundations of Academic English and LANG 1030 Thinking Critically About Texts and Society which provides the 40 credit points of English content knowledge. Students must take 20 credit points from the Mathematics Pool subjects, and 40 credit points of Primary pool subjects.

Education Studies - Secondary Teaching, Minor (0267)

Western Sydney University Minor Code: 0267

Previous Code: SM1142.1

Available to students in other Western Sydney University programs?

No

The Education Studies – Secondary Teaching minor is comprised of the four initial subjects from the Master of Teaching (Secondary) or three subjects towards the Master of Teaching (Secondary) STEM. These subjects are broadly structured for students to investigate the underlying principles and concepts in adolescent development, diversity and social justice, skills in the design of learning experiences along these principles, and putting their application into practice. Available to all students in a Pathway to Teaching (Secondary) degree, enrolment is dependent on the successful completion of 160 credit points in the undergraduate program.

The Electrical Engineering major includes core subjects from all branches of electrical engineering. Graduates will work in the fields of electronic components, computers, electro-magnetics, power generation and distribution systems, power and control in public utilities, telecommunications, manufacturing, and electrical systems. This major includes a mandatory 12-week industrial placement as a completion requirement.

Recommended Sequence

This major is included in Bachelor of Engineering Science, Bachelor of Engineering (Honours), Bachelor of Engineering Advanced (Honours) and Bachelor of Engineering (Honours)/Bachelor of Business.

Please follow the recommended sequence for your program as noted below.

3691 Bachelor of Engineering Science

This major will be offered at Parramatta South, Penrith and Sydney City campuses

Qualification for this award requires the successful completion of 240 credit points, which include the subjects listed in the recommended sequence below.

* All students undertaking the Bachelor of Engineering Science are required to enrol in MATH 1021 Mathematics for Engineers Preliminary and undertake a readiness test at the beginning of their study.

The readiness test will be conducted at the beginning of the first semester of enrolment and the result will be used to determine whether a student will remain in MATH 1021 Mathematics for Engineers Preliminary or be transferred by the School to MATH 1016 Mathematics for Engineers 1.

Students remaining in MATH 1021 Mathematics for Engineers Preliminary will be required to complete MATH 1016 Mathematics for Engineers 1 during second semester and will be encouraged to complete MATH 1019 Mathematics for Engineers 2 during the Summer session.

Students who finish MATH 1021 Mathematics for Engineers Preliminary will then use this subject as an elective.

3771 Bachelor of Engineering Advanced (Honours)

This major will be offered at Engineering Innovation Hub which is part of Parramatta City campus.

Qualification for this award requires the successful completion of 320 credit points, which include the subjects listed in the recommended sequence below.

Start-year intake

| Course | Title | Credit Points |
|--|--|---------------|
| Year 1 | | |
| Autumn session | | |
| MATH 1034 | Mathematics for Engineers 1 (Advanced) | 10 |
| ENGR 1024 | Introduction to Engineering Practice | 10 |
| ENGR 1047 | Advanced Engineering Physics 1 | 10 |
| ENGR 1045 | Engineering Programming Fundamentals | 10 |
| Credit Points | | 40 |
| Spring session | | |
| ELEC 1009 | Electrical Circuit Fundamentals | 10 |
| MATH 1035 | Mathematics for Engineers 2 (Advanced) | 10 |
| ENGR 2023 | Advanced Engineering Physics 2 | 10 |
| COMP 2008 | Computer Organisation | 10 |
| Credit Points | | 40 |
| Year 2 | | |
| Autumn session | | |
| ELEC 2013 | Circuits and Signals | 10 |
| ELEC 1001 | Digital Systems 1 | 10 |
| ELEC 2004 | Electronics | 10 |
| ELEC 2014 | Mathematics for Electrical Engineers 1 | 10 |
| Credit Points | | 40 |
| Spring session | | |
| ELEC 2009 | Microprocessor Systems | 10 |
| ELEC 2015 | Mathematics for Electrical Engineers 2 | 10 |
| ELEC 2010 | Power and Machines | 10 |
| Select one elective | | 10 |
| Students who fail to maintain a minimum GPA of 5.0 at the end of completion of 160 Credit Points, and again at the completion of 200 Credit points will be automatically transferred to the B. Engineering (Honours) (3740) program. | | |
| Credit Points | | 40 |
| Year 3 | | |
| Autumn session | | |
| ELEC 3001 | Communication Systems | 10 |
| ELEC 3006 | Electrical Machines 1 | 10 |
| Select one alternate subject | | 10 |
| Select one elective | | 10 |
| Credit Points | | 40 |

| | | |
|------------------------------|-------------------------------------|-----------|
| Spring session | | |
| ELEC 3009 | Power Systems | 10 |
| ELEC 3003 | Digital Signal Processing | 10 |
| ELEC 3005 | Electrical Drives | 10 |
| Select one elective | | 10 |
| Industrial Experience | | |
| ENGR 3017 | Industrial Experience (Engineering) | 0 |
| Credit Points | | 40 |

Year 4

| | | |
|-------------------------------|---|------------|
| Autumn session | | |
| ELEC 4002 | Power Electronics | 10 |
| ENGR 4037 | Advanced Engineering Thesis 1: Preliminary Investigations | 10 |
| Select one alternate subject | | 10 |
| Select one elective | | 10 |
| Credit Points | | 40 |
| Spring session | | |
| ELEC 3008 | Instrumentation and Measurement | 10 |
| ENGR 4036 | Advanced Engineering Thesis 2: Detailed Investigations | 10 |
| Select two alternate subjects | | 20 |
| Credit Points | | 40 |
| Total Credit Points | | 320 |

Mid-year intake

| Course | Title | Credit Points |
|--|--|---------------|
| Year 1 | | |
| Spring session | | |
| MATH 1034 | Mathematics for Engineers 1 (Advanced) | 10 |
| ELEC 1009 | Electrical Circuit Fundamentals | 10 |
| ENGR 2023 | Advanced Engineering Physics 2 | 10 |
| ENGR 1024 | Introduction to Engineering Practice | 10 |
| Credit Points | | 40 |
| Autumn session | | |
| MATH 1035 | Mathematics for Engineers 2 (Advanced) | 10 |
| ELEC 1001 | Digital Systems 1 | 10 |
| ENGR 1047 | Advanced Engineering Physics 1 | 10 |
| ENGR 1045 | Engineering Programming Fundamentals | 10 |
| Credit Points | | 40 |
| Year 2 | | |
| Spring session | | |
| ELEC 2014 | Mathematics for Electrical Engineers 1 | 10 |
| ELEC 2009 | Microprocessor Systems | 10 |
| COMP 2008 | Computer Organisation | 10 |
| Select one elective | | 10 |
| Credit Points | | 40 |
| Autumn session | | |
| ELEC 2015 | Mathematics for Electrical Engineers 2 | 10 |

Year 4**Spring session**

| | | |
|------------------------------|---|----|
| ENGR 4037 | Advanced Engineering Thesis 1: Preliminary Investigations | 10 |
| ELEC 3008 | Instrumentation and Measurement | 10 |
| ELEC 3005 | Electrical Drives | 10 |
| Select one alternate subject | | 10 |

Credit Points **40**

Autumn session

| | | |
|------------------------------|--|----|
| ENGR 4036 | Advanced Engineering Thesis 2: Detailed Investigations | 10 |
| ELEC 4002 | Power Electronics | 10 |
| Select one elective | | 10 |
| Select one alternate subject | | 10 |

Credit Points **40**

Total Credit Points **310**

3740 Bachelor of Engineering (Honours)

Qualification for this award requires the successful completion of 320 credit points which include the subjects listed in the recommended sequences below.

*** All students undertaking the Bachelor of Engineering (Honours) are required to enrol in MATH 1021 Mathematics for Engineers Preliminary and undertake a readiness test at the beginning of their study.**

The readiness test will be conducted at the beginning of the first semester of enrolment and the result will be used to determine whether a student will remain in MATH 1021 Mathematics for Engineers Preliminary or be transferred by the School to MATH 1016 Mathematics for Engineers 1.

Students remaining in MATH 1021 Mathematics for Engineers Preliminary will be required to complete MATH 1016 Mathematics for Engineers 1 during second semester and will be encouraged to complete MATH 1019 Mathematics for Engineers 2 during the Summer session.

Start-year intake

| Course | Title | Credit Points |
|------------------------------|-------|---------------|
| Year 1 | | |
| Autumn session | | |
| Select one of the following: | | 10 |

| | | |
|----------------------|---------------------------------------|-----------|
| MATH 1021 | Mathematics for Engineers Preliminary | |
| MATH 1016 | Mathematics for Engineers 1 | |
| ENGR 1011 | Engineering Physics | 10 |
| ENGR 1024 | Introduction to Engineering Practice | 10 |
| ELEC 1006 | Engineering Computing | 10 |
| Credit Points | | 40 |

Spring session

Select one of the following: 10

| | | |
|---|-----------------------------|----|
| MATH 1019 | Mathematics for Engineers 2 | |
| MATH 1016 | Mathematics for Engineers 1 | |
| ENGR 1018 | Fundamentals of Mechanics | 10 |
| ELEC 1003 | Electrical Fundamentals | 10 |
| Select one elective (Level 1 or higher) | | 10 |

Credit Points **40**

Year 2**Autumn session**

| | | |
|-----------|---------------------|----|
| ELEC 2001 | Circuit Theory | 10 |
| ELEC 2004 | Electronics | 10 |
| ELEC 2011 | Signals and Systems | 10 |
| ELEC 1001 | Digital Systems 1 | 10 |

Credit Points **40**

Spring session

| | | |
|-----------|------------------------------|----|
| ELEC 2009 | Microprocessor Systems | 10 |
| ELEC 2006 | Engineering Electromagnetics | 10 |
| ELEC 2010 | Power and Machines | 10 |
| ENGR 3006 | Control Systems | 10 |

Credit Points **40**

Year 3**Autumn session**

| | | |
|------------------------------|-----------------------|----|
| ELEC 3001 | Communication Systems | 10 |
| ELEC 3006 | Electrical Machines 1 | 10 |
| Select one alternate subject | | 10 |
| Select one elective | | 10 |

Credit Points **40**

Spring session

| | | |
|------------------------------|---------------------------|----|
| ELEC 3009 | Power Systems | 10 |
| ELEC 3003 | Digital Signal Processing | 10 |
| ELEC 3005 | Electrical Drives | 10 |
| Select one alternate subject | | 10 |

Minors

Power Engineering, Minor (p. 959)
Telecommunications, Minor (p. 1014)
Biomedical Engineering, Minor (p. 764)

Optional Elective

The following subject is an optional elective unit offered to students who are engaged in a School approved project. This subject can be taken during the third year of this program, however, permission is required to enrol in the subject.

ENGR 3022 Special Technical Project

Equivalent Subjects

The subjects listed below count towards completion of this program for students who passed these subjects in 2021 or earlier.

MECH 4005 Advanced Engineering Thesis 1: Preliminary Investigations, replaced by ENGR 4037 Advanced Engineering Thesis 1: Preliminary Investigations

MECH 4006 Advanced Engineering Thesis 2: Detailed Investigations, replaced by ENGR 4036 Advanced Engineering Thesis 2: Detailed Investigations

The subjects listed below count towards completion of this program for students who passed these subjects in Autumn 2022 or earlier.

ENGR 1008 - Engineering Materials, replaced by PROC 1008 - Introduction to Materials Engineering

Related Programs

Bachelor of Engineering Advanced (Honours) (3771) (p. 161)
Bachelor of Engineering Science (3691) (p. 162)

Electrical, Testamur Major (T035)

Western Sydney University Major Code: T035

Previous Codes: KT3125.1, KT3156.1, KT3161.1, KT7001.1, ST3093.1

Available to students in other Western Sydney University programs?
No

This major includes core subjects from all branches of electrical engineering. Graduates will work in the fields of electronic components, computers, electro-magnetics, power generation and distribution systems, power and control in public utilities, telecommunications, manufacturing, and electrical systems.

Recommended Sequence

Select the link for your program below to see details of the major

Associate Degree in Engineering

Major Structure

| Subject | Title | Credit Points |
|--|---|---------------|
| Select three of the following: | | 30 |
| ELEC 2002 | Circuit Theory (WSTC AssocD) | |
| ELEC 1002 | Digital Systems 1 (WSTC AssocD) | |
| ELEC 2005 | Electronics (WSTC AssocD) | |
| MATH 1020 | Mathematics for Engineers 2 (WSTC AssocD) | |
| ELEC 2012 | Signals and Systems (WSTC AssocD) | |
| Please note: Offerings of alternate units are dependent on there being sufficient student enrolment numbers. If enrolments are low, the College may cancel delivery of the alternate unit. | | |
| Total Credit Points | | 30 |

Bachelor of Engineering (Honours)

Major Structure

Qualification for this award requires the successful completion of 320 credit points, which include the subjects listed in the recommended sequence below.

Full-time start-year intake

* All students undertaking the Bachelor of Engineering (Honours) are required to enrol in MATH 1021 Mathematics for Engineers Preliminary and undertake a readiness test at the beginning of their study.

Students remaining in MATH 1021 Mathematics for Engineers Preliminary will be required to complete MATH 1016 Mathematics for Engineers 1 during second semester and will be encouraged to complete MATH 1019 Mathematics for Engineers 2 during the Summer session.

| Course | Title | Credit Points |
|------------------------------|---------------------------------------|---------------|
| Year 1 | | |
| Autumn session | | |
| ELEC 1006 | Engineering Computing | 10 |
| ENGR 1011 | Engineering Physics | 10 |
| ENGR 1024 | Introduction to Engineering Practice | 10 |
| Select one of the following: | | 10 |
| MATH 1021 | Mathematics for Engineers Preliminary | |
| MATH 1016 | Mathematics for Engineers 1 | |
| Credit Points | | 40 |
| Spring session | | |
| MATH 1019 | Mathematics for Engineers 2 | 10 |
| ENGR 1018 | Fundamentals of Mechanics | 10 |
| PROC 1008 | Introduction to Materials Engineering | 10 |
| Select one elective | | 10 |
| Credit Points | | 40 |
| Year 2 | | |
| Autumn session | | |
| ELEC 2001 | Circuit Theory | 10 |
| ELEC 2004 | Electronics | 10 |
| ELEC 2011 | Signals and Systems | 10 |
| ELEC 1001 | Digital Systems 1 | 10 |
| Credit Points | | 40 |

Spring session

| | | |
|--|------------------------------|-----------|
| ELEC 2009 | Microprocessor Systems | 10 |
| ELEC 2006 | Engineering Electromagnetics | 10 |
| ELEC 2010 | Power and Machines | 10 |
| ENGR 3006 | Control Systems | 10 |
| Students may transfer to 3691 Bachelor of Engineering Science at the end of Year 2 of study. | | |
| Credit Points | | 40 |

Year 3

Autumn session

| | | |
|---|-----------------------|-----------|
| ELEC 3001 | Communication Systems | 10 |
| ELEC 3006 | Electrical Machines 1 | 10 |
| Major Alternate subject | | 10 |
| Select one elective | | 10 |
| *Elective subjects must be level 2 or higher (an exception applies for students completing Mathematics for Engineers Preliminary subject) | | |
| Credit Points | | 40 |

Spring session

| | | |
|------------------------------|-------------------------------------|-----------|
| ELEC 3009 | Power Systems | 10 |
| ELEC 3003 | Digital Signal Processing | 10 |
| ELEC 3005 | Electrical Drives | 10 |
| Major Alternate Subject | | 10 |
| Industrial Experience | | |
| ENGR 3017 | Industrial Experience (Engineering) | 0 |
| Credit Points | | 40 |

Year 4

Autumn session

| | | |
|---|---------------------------------------|-----------|
| ELEC 4002 | Power Electronics | 10 |
| ENGR 4025 | Final Year Project 1 (UG Engineering) | 10 |
| Major Alternate Subject | | 10 |
| Select one elective | | 10 |
| *Elective subjects must be level 2 or higher (an exception applies for students completing Mathematics for Engineers Preliminary subject) | | |
| Credit Points | | 40 |

Spring session

| | | |
|---|---------------------------------------|------------|
| ELEC 3008 | Instrumentation and Measurement | 10 |
| ENGR 4026 | Final Year Project 2 (UG Engineering) | 10 |
| Major Alternate Subject | | 10 |
| Select one elective | | 10 |
| *Elective subjects must be level 2 or higher (an exception applies for students completing Mathematics for Engineers Preliminary subject) | | |
| Credit Points | | 40 |
| Total Credit Points | | 320 |

Alternate Subjects

Alternate subjects may be used to complete one of the minors listed below.

| Subject | Title | Credit Points |
|-----------|--------------------------------------|---------------|
| HLTH 2003 | Biomechanics | 10 |
| ENGR 4038 | Biomedical Electronics | 10 |
| ENGR 3004 | Biomedical Signals and Data Analysis | 10 |
| ELEC 3002 | Data Communications | 10 |
| ELEC 3004 | Digital Systems 2 | 10 |

| | | |
|-----------|--|----|
| ELEC 2007 | Engineering Visualization | 10 |
| BIOS 1022 | Introduction to Human Biology | 10 |
| ELEC 4003 | Power Quality | 10 |
| ELEC 4004 | Radio and Satellite Communication | 10 |
| ELEC 4005 | Smart Grids and Distributed Generation | 10 |
| ELEC 4006 | Sustainable Energy Systems | 10 |
| ELEC 4007 | Wireless Communications | 10 |

Minors

Telecommunications, Minor (p. 1014)

Power Engineering, Minor (p. 959)

Biomedical Engineering, Minor (p. 764)

Equivalent Subjects

The subjects listed below count towards completion of this program for students who passed these subjects in Autumn 2022 or earlier.

ENGR 1008 - Engineering Materials, replaced by PROC 1008 - Introduction to Materials Engineering

Bachelor of Engineering Science

Full-time start-year intake

| Course | Title | Credit Points |

| MATH 1019 | Mathematics for Engineers 2 | 10 |
| Credit Points | | 40 |
| Spring session | | |
| ELEC 3009 | Power Systems | 10 |
| ELEC 3003 | Digital Signal Processing | 10 |
| ENGR 3014 | Engineering Science Project 2 | 10 |
| Select one elective | | 10 |
| *Elective subjects must be level 2 or higher | | |
| Credit Points | | 40 |
| Total Credit Points | | 160 |

Optional Elective

The following subject is an optional elective subject offered to students who are engaged in a School approved project. This subject can be taken during the third year of this major, however, permission is required to enrol in the subject.

ENGR 3022 Special Technical Project

- Graduate Certificate in Engineering
- Graduate Diploma in Engineering (exit only)
- Master of Engineering

Postgraduate Major Structure

To complete some of the components within the subjects in this major, students may be required to travel to other Western Sydney University campuses.

Electrical Major Alternate Subjects

Specialist alternate subject offerings are subject to sufficient student demand and may not be offered annually.

Students enrolled in 3693 Master of Engineering choose seven major subjects from the list below

Students exiting with 3694 Graduate Diploma in Engineering (exit only) choose six major alternate subjects

Students enrolled in 3695 Graduate Certificate in Engineering choose four major alternate subjects

| Subject | Title | Credit Points |
|-----------|---|---------------|
| ELEC 7001 | Advanced Control Systems | 10 |
| ELEC 7003 | Advanced Electrical Machines and Drives | 10 |
| ELEC 7004 | Advanced Power Quality | 10 |
| ELEC 7005 | Advanced Signal Processing | 10 |
| ELEC 7006 | Advanced Smart Grids and Distributed Generation | 10 |
| ELEC 7008 | Instrumentation and Measurement (PG) | 10 |
| ELEC 7009 | Personal Communication Systems | 10 |
| ELEC 7010 | Power System Planning and Economics | 10 |

English Teaching Specialisation (Birth - 5/Birth -12), Minor (0158)

Western Sydney University Minor Code: 0158

Previous Code: SM1129.1

Available to students in other Western Sydney University programs?

No

Students enrolled in the 1708 Bachelor of Arts (Pathway to Teaching Birth-5/Birth-12) or 6017 Diploma in Arts/Bachelor of Arts (Pathway to Teaching Birth-5/Birth-12) will study two subjects in Year 3 from either the Mathematics or English Specialisation teaching minor in order to complete four specialisation units and meet the BA component of the NESAs teaching specialisation. Together with completion of subjects in the Master of Teaching (Birth-5/Birth-12) students can achieve the qualification required to teach in Early Childhood settings and Primary schools.

Minor Structure

Students will be eligible for this minor after successful completion of 40 credit points from the subjects listed below.

| Subject | Title | Credit Points |
|--|---|---------------|
| Students must complete the following subjects: | | |
| LANG 1029 | Foundations of Academic English | 10 |
| LANG 1030 | Thinking Critically About Texts and Society | 10 |

And 20 credit points from the subjects contained in one of the following English majors:

English (p. 837)

Creative Writing

Linguistics

International English

Equivalent Subjects

The subjects listed below count towards completion of this minor for students who passed these subjects in 2019 or earlier.

HUMN 1002 - Analytical Reading and Writing, replaced by LANG 1029 Foundations of Academic English
LANG 1026 - Texts and Traditions, replaced by LANG 1030 Thinking Critically About Texts and Society

The subject listed below counts towards completion of this minor for students who passed this subject in 2021 or earlier.

COMM 2050 - Multiliteracies, no longer available to this minor

Related Programs

Bachelor of Arts (Pathway to Teaching Birth - 5/Birth - 12) (1708) (p. 47)

Diploma in Arts/Bachelor of Arts (Pathway to Teaching Birth-5/Birth-12) (6017) (p. 373)

English, Major (0009)

Western Sydney University Major Code: 0009

Previous Code: M1053.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

The English major invites students to explore contemporary approaches to language, literary study and writing, including literary criticism and theory, linguistic analysis, genre and textual study, and creative writing. The English major focuses on the imaginative workings of language, and students can study a wide selection of modern and classic literature, as well as the relationships between written texts and other media such as film and information technology. Students also have the opportunity to produce their own creative writing and to edit and publish their work. Career prospects include publishing, editing, teaching, writing and advertising.

Location

| Campus | Mode | Advice |
|-----------------------------------|----------|--|
| Bankstown Campus | Internal | enquiriesHCA@uws.edu.au |
| Parramatta Campus - Victoria Road | Internal | enquiriesHCA@uws.edu.au |

Major Structure

Students must successfully complete 80 credit points as follows.

Please note all Bachelor of Arts students including Pathways to Teaching, Dean's Scholars and double degrees must complete the structure under the heading Bachelor of Arts.

Please note all Bachelor of Creative Industries students including double degrees must complete the structure under the heading Bachelor of Creative Industries.

This specialisation is available to students in other Western Sydney University programs. If the specialisation is available on your campus, the program structure allows space for enrolment in the specialisation and pre-requisite requirements can be met, please follow the structure under the heading Bachelor of Arts. Consult your Program Advisor for further advice.

Note: Not all subjects will be offered each year. Subjects will be offered on a rotational basis.

Bachelor of Arts Students

Arts students must complete the four compulsory subjects below and must complete four subjects from the Level 2 / Level 3 subject pool with a minimum of two subjects at Level 3. See below.

| Subject | Title | Credit Points |
|--|----------------------------------|---------------|
| Compulsory Subjects | | |
| COMM 1004 | Approaches to Text | 10 |
| LANG 1015 | Introduction to Literary Studies | 10 |
| LANG 2035 | Methods of Reading | 10 |
| LANG 3094 | The Value of Literature | 10 |
| Pool Subjects | | |
| Select four subjects at Level 2 / Level 3, with a minimum of two subjects at Level 3 | | 40 |
| Total Credit Points | | 80 |

Bachelor of Creative Industries Students

Creative Industries students must complete their Introduction to Major subject as part of the core requirements of the program, prior to enrolling in this major.

| Subject | Title | Credit Points |
|-----------|----------------------------------|---------------|
| LANG 1015 | Introduction to Literary Studies | 10 |

Creative Industry students must complete the three compulsory subjects below and must complete five subjects from the Level 2 / Level 3 subject pool with a minimum of two subjects at Level 3. See below.

| Subject | Title | Credit Points |
|--|-------------------------|---------------|
| Compulsory Subjects | | |
| COMM 1004 | Approaches to Text | 10 |
| LANG 2035 | Methods of Reading | 10 |
| LANG 3094 | The Value of Literature | 10 |
| Pool Subjects | | |
| Select five subjects from the Level 2 / Level 3 subject pool with a minimum of two subjects at Level 3 | | 50 |
| Total Credit Points | | 80 |

Pool Subjects

Bachelor of Arts students must complete four subjects from the list below, with a minimum of 2 subjects at Level 3.

Bachelor of Creative Industries students must complete five subjects from the list below, with a minimum of 2 subjects at Level 3.

Note: Not all subjects will be offered each year. Subjects will be offered on a rotational basis.

| Subject | Title | Credit Points |
|-----------------------------|--|---------------|
| Level 2 Subject Pool | | |
| LANG 2015 | Cultural History of Books and Reading | 10 |
| COMM 2016 | Experimental Writing and Electronic Publication | 10 |

Equivalent Subjects

The subjects listed below count towards completion of this Major for students who passed these subjects in 2019 or earlier.

- LANG 3008 - Applied Critical Methods, no longer offered
- LANG 3017 - Children's Literature, replaced by LANG 3019 Children's and Young Adult Fiction
- COMM 2045 - Critical Discourse Analysis, replaced by LANG 3029 Culture, Discourse and Meaning
- LANG 3032 - English Literature After 1830, replaced by LANG 3094 The Value of Literature
- LANG 2018 - History of the English Language, replaced by LANG 3034 Historical Linguistics
- BEHV 3013 - Humanities Internship, no longer offered as part of this major.
- LANG 3063 - Literature, History and Culture, no longer offered
- LANG 3064 - Literatures of Decolonisation, no longer offered
- CULT 3022 - Queering Text, no longer offered
- COMM 3032 - Social Semiotics, no longer offered

LANG 2042 - Studies in Postcolonial Literature, replaced by LANG 3066 Postcolonial Literatures: Partition, Dependence and Exile
 COMM 2038 - Special Topics in English, Text and Writing, no longer offered
 LANG 3085 - Text and Discourse in English, replaced by LANG 3030 Discourse Analysis
 LANG 1028 The Sound of Language
 LANG 3092 - The Space of Literature, no longer offered
 LANG 2046 - The Structure of English, replaced by LANG 2041 Structure of Language
 LANG 3088 - Women, Travel and Empire, no longer offered
 COMM 3043 Writing Portfolio

Note: The Level 3 subject BEHV 3013 Humanities Internship cannot count towards completion of the English Teaching Specialisation (Birth-5/Birth-12) or the Education Studies Major - Primary English Teaching Specialisation for students enrolled in programs 1708 Bachelor of Arts (Pathway to Teaching Birth - 5/Birth - 12), 1651 Bachelor of Arts (Pathway to Teaching Primary), 1822 Bachelor of Arts (Pathway to Teaching Primary) Dean's Scholars, 6017 Diploma in Arts/ Bachelor of Arts (Pathway to Teaching Birth-5/Birth-12), 6019 Diploma in Arts/Bachelor of Arts (Pathway to Teaching Primary) as this would not satisfy the professional accreditation requirements for NESAs.

English, Minor (0009)

Western Sydney University Minor Code: 0009

Previous Code: SM1071.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

The English minor invites students to explore contemporary approaches to language, literary study and writing, including literary criticism and theory, linguistic analysis, genre and textual study, and creative writing. The English minor focuses on the imaginative workings of language, and students can study a wide selection of modern and classic literature, as well as the relationships between written texts and other media such as film and information technology. Students also have the opportunity to produce their own creative writing and to edit and publish their work. Career prospects include publishing, editing, teaching, writing and advertising.

Location

| Campus | Mode | Advice |

| Parramatta Campus - Victoria Road | Internal | enquiriesHCA@uws.edu.au |
| Penrith Campus | Internal | enquiriesHCA@uws.edu.au |

Minor Structure

Students must successfully complete 40 credit points as follows.

Please note all Bachelor of Arts students including Pathways to Teaching, Dean's Scholars and double degrees must complete the structure under the heading Bachelor of Arts.

Please note all Bachelor of Creative Industries students including double degrees must complete the structure under the heading Bachelor of Creative Industries.

This minor is available to students in other Western Sydney University programs. If the minor is available on your campus, the program structure allows space for enrolment in the minor and pre-requisite requirements can be met, please follow the structure under the heading Bachelor of Arts. Consult your Program Advisor for further advice.

Note: Not all subjects will be offered each year. Subjects will be offered on a rotational basis.

Bachelor of Arts Students

| Subject | Title | Credit Points |
|---------------------------------------|----------------------------------|---------------|
| Select at least two of the following: | | 20 |
| COMM 1004 | Approaches to Text | |
| LANG 1015 | Introduction to Literary Studies | |
| LANG 2035 | Methods of Reading | |
| LANG 3094 | The Value of Literature | |

Total Credit Points 20

Additional subjects to complete the minor can be chosen from the above four subjects or from the pool subjects listed below.

Bachelor of Creative Industries Students

Creative Industries students will have already completed LANG 1015 Introduction to Literary Studies as their Introduction to Major subject as part of the core requirements of the program and must choose at least two from the following three subjects:

| Subject | Title | Credit Points |
|---------------------------------------|-------------------------|---------------|
| Select at least two of the following: | | 20 |
| COMM 1004 | Approaches to Text | |
| LANG 2035 | Methods of Reading | |
| LANG 3094 | The Value of Literature | |
| Total Credit Points | | 20 |

Additional subjects to complete the minor can be chosen from the above three subjects or from the pool subjects listed below.

Pool Subjects

Note: Not all subjects will be offered each year. Subjects will be offered on a rotational basis.

Level 2 Subject Pool

| Subject | Title | Credit Points |
|-----------|--|---------------|
| LANG 2015 | Cultural History of Books and Reading | 10 |
| COMM 2016 | Experimental Writing and Electronic Publication | 10 |
| COMM 2020 | Introduction to Film Studies | 10 |
| LANG 2033 | Literature and Decolonisation | 10 |
| LANG 2050 | Medieval and Early Modern Literature | 10 |
| LANG 2036 | Modern Australian Poetry and Poetics | 10 |
| HUMN 2044 | Representing Everyday Life in Literary and Visual Cultures | 10 |
| LANG 2039 | Sexual/Textual Politics in Victorian Women's Writing | 10 |
| LANG 2044 | The Gothic | 10 |
| PERF 2024 | The Musical | 10 |
| LANG 2048 | Working Grammar | 10 |
| LANG 2051 | Writing and Reading Sci-Fi and Fantasy | 10 |
| COMM 2043 | Writing Fiction | 10 |

Level 3 Subject Pool

| Subject | Title | Credit Points |
|-----------|---|---------------|
| LANG 3001 | 19th Century American Literature | 10 |
| LANG 3002 | 20th Century American Literature | 10 |
| COMM 3005 | Australian Textual Studies | 10 |
| LANG 3019 | Children's and Young Adult Fiction | 10 |
| LANG 3018 | Children's Literature: Image and Text | 10 |
| COMM 3006 | Cinema and Experience | 10 |
| LANG 3100 | Comedy and Tragedy: Dramas of Death and Rebirth | 10 |
| LANG 3069 | Contemporary Irish Writing | 10 |
| LANG 3027 | Creative Non-Fiction | 10 |
| COMM 3013 | Creative Writing Project | 10 |
| LANG 3028 | Crime Fiction | 10 |
| LANG 3029 | Culture, Discourse and Meaning | 10 |
| LANG 3033 | Film and Drama | 10 |
| LANG 3050 | Introduction to Stylistics | 10 |
| LANG 3059 | Law, Literature and Culture | 10 |
| LANG 3061 | Literary Animals | 10 |
| LANG 3062 | Literature and Philosophy | 10 |
| CART 3001 | Modernism | 10 |
| COMM 3024 | Modernity and Cinema | 10 |
| LANG 3066 | Postcolonial Literatures: Partition, Dependence and Exile | 10 |

| | | |
|-----------|---------------------------------|----|
| LANG 3068 | Race in Literature | 10 |
| CULT 3020 | Representing Crime | 10 |
| LANG 3072 | Short Fiction in the Americas | 10 |
| LANG 3086 | The Novel | 10 |
| LANG 3087 | Women's Writing | 10 |
| LANG 3089 | World Literature in Translation | 10 |
| LANG 3091 | Writing and Society | 10 |
| COMM 3041 | Writing For Performance | 10 |
| COMM 3042 | Writing Poetry | 10 |

Equivalent minor subjects

The subjects listed below count towards completion of this minor for students who passed these subjects in 2019 or earlier.

LANG 3008 - Applied Critical Methods, no longer offered
 LANG 3032 - English Literature After 1830, replaced by LANG 3094 The Value of Literature
 LANG 3064 - Literatures of Decolonisation, no longer offered
 LANG 2042 - Studies in Postcolonial Literature, no longer offered
 CULT 3022 - Queering Text, no longer offered
 LANG 3085 - Text and Discourse in English, replaced by LANG 3030 Discourse Analysis
 LANG 3092 - The Space of Literature, no longer offered
 LANG 3088 - Women, Travel and Empire, no longer offered
 COMM 3043 - Writing Portfolio, no longer offered
 BEHV 3013 - Humanities Internship, no longer offered as part of this major.

Note: The Level 3 subject BEHV 3013 Humanities Internship cannot count towards completion of SM1129 English Teaching Specialisation (Birth-5/Birth-12) or M1126 Education Studies Major - Primary English Teaching Specialisation for students enrolled in programs 1708 Bachelor of Arts (Pathway to Teaching Birth - 5/Birth - 12), 1651 Bachelor of Arts (Pathway to Teaching Primary), 1822 Bachelor of Arts (Pathway to Teaching Primary) Dean's Scholars, 6017 Diploma in Arts/Bachelor of Arts (Pathway to Teaching Birth-5/Birth-12), 6019 Diploma in Arts/Bachelor of Arts (Pathway to Teaching Primary) as this would not satisfy the professional accreditation requirements for NESAs.

Enterprise Innovation, Major (0078)

Western Sydney University Major Code: 0078

Previous Code:M2511.1

Available to students in other Western Sydney University programs?

No

The Enterprise Innovation major equips you with the expert skills to create a career as a management specialist. You will be prepared to succeed in a range of roles in contemporary private, public, and not-for-profit organisations in Australia and abroad. In this major you will develop strategic management knowledge to enable effective organisational decision making. The subjects in this major focus on organisational learning and development and behaviour, operations management, leadership and entrepreneurship, change and innovation, and policy. You can look forward to a range of careers in the broad and complex field of management.

| Penrith Campus | Internal | CDMS@westernsydney.edu.au |

Major Structure

Students must successfully complete 80 credit points including all of the core subjects listed below.

The subjects in this major are offered at the Parramatta City campus and the core subjects in the Bachelor of Creative Industries programs are offered at the Parramatta South, and Penrith campuses. Students will be required to travel between campuses in order to complete this major.

Note: Creative Industries students undertaking this major must complete core subject BUSM 1008 Enterprise Leadership, followed by Introductory major pool subject BUSM 1026 Organisational Behaviour, prior to commencing the below subject set.

| Subject | Title | Credit Points |
|----------------------------|--------------------------------------|---------------|
| BUSM 2004 | Business, Society and Policy | 10 |
| BUSM 3005 | Creating Change and Innovation | 10 |
| BUSM 3006 | Design Thinking for Creativity | 10 |
| BUSM 3027 | Innovation and Professional Practice | 10 |
| BUSM 3028 | Innovation, Enterprise and Society | 10 |
| BUSM 3036 | Leadership and Entrepreneurship | 10 |
| BUSM 2030 | Managing and Developing Careers | 10 |
| BUSM 2031 | Managing in the Global Environment | 10 |
| Total Credit Points | | 80 |

Environment and Sustainability, Major (0169)

Western Sydney University Major Code: 0169

Previous Code: M4009.1

Available to students in other Western Sydney University programs?
No

The need to achieve sustainability for human societies is a goal recognised globally. Getting this to happen in practice is the challenge facing all sectors of our society; business, government, academia, and private citizens. This major covers the essentials of sustainability as an academic discipline, giving students knowledge and skills in the scientific, social, legislative and planning frameworks so that evidence-based sustainability can be implemented across our society.

Environmental Health, Minor (0208)

Western Sydney University Minor Code: 0208

Previous Code: SM3113.1

Available to students in other Western Sydney University Programs: Yes, however the following restrictions apply.

The Environmental Health minor offers focused knowledge and skills associated with understanding environmental factors that influence and contribute to health. Students will focus on and further develop in areas associated with food safety, toxicology, water and air quality, disease prevention and disaster and emergency management. The minor is suitable as a complementary area of study for students in a broad range of courses across the university, and is recommended for health science students in public health, health promotion and health services management. Students should note that travel to other campuses may be required.

Environmental Health, Testamur Major (T076)

Western Sydney University Major Code: T076

Previous Code: MT3031.1

Available to students in other Western Sydney University programs?

No

The air we breathe, the water we drink, the food we eat, and the places we live, work and play all have major impacts on our health and well-being. The testamur major Environmental Health in a Bachelor of Science, will equip you to explore the diverse range of natural and built-environment challenges that confront us, from the mitigation of human health impacts of global climate change through to the more localised issues of air and water quality, waste management, food security, environmental noise and healthy communities. The major areas of study addressed within the major include air pollution; community studies; emergency management; environmental regulation and policy; environmental monitoring; environmental planning; environmental protection; epidemiology; food safety; noise, occupational environment; risk assessment; sustainable environmental management; toxicology; urban development and water pollution.

Environmental, Testamur Major (T058)

Western Sydney University Major Code: T058

Previous Code: ST3094.1

Available to students in other Western Sydney University programs?

No

Location

| Campus | Mode | Advice |
|---|----------|--------------------------------|
| Parramatta Campus - Victoria Road | Internal | Engineering@westernsydney.edu. |
| Parramatta City Campus-Macquarie Street | Internal | Engineering@westernsydney.edu. |

Major Structure

To complete some of the components within the subjects in this program, students may be required to travel to other Western Sydney University campuses.

Environmental Specialised Alternate subjects

Specialist alternate subject offerings are subject to sufficient student demand and may not be offered annually.

Students enrolled in 3693 Master of Engineering choose seven specialist subjects from the list below

Students exiting with 3694 Graduate Diploma in Engineering (exit only) choose six specialised alternate subjects

Students enrolled in 3695 Graduate Certificate in Engineering choose four specialised alternate subjects

| Subject | Title | Credit Points |
|-----------|--|---------------|
| CIVL 7008 | Advanced Waste Management | 10 |
| BLDG 7004 | Building in Bushfire Prone Areas | 10 |
| ENVL 7002 | Planning and Environmental Regulation | 10 |
| ENGR 7020 | Sustainability and Risk Engineering (PG) | 10 |
| ENGR 7027 | Spatial Tools and Mapping | 10 |
| CIVL 7017 | Wastewater Treatment and Recycling | 10 |
| CIVL 7018 | Water Treatment and Distribution | 10 |
| PUBH 7034 | Workplace Safety and Risk Management | 10 |

Exercise Science, Minor (0279)

Western Sydney University Minor Code: 0279

Previous Code: SM4008.1

Available to students in other Western Sydney University programs?

No

This minor offers study in the physiology, analysis, and measurement of exercise and movement. The minor is relevant to students studying health science, physical education and data science. The minor is highly recommended for Bachelor of Health Science (Clinical Sciences) students who are interested in graduate entry programs in physiotherapy or exercise physiology. There are 7 subjects in this minor of which student choose only 4. Minor subject recommendations are based on the student's program.

Finance and Investment, Major (0228)

Western Sydney University Major Code: 0228

Previous Code: SP2016.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

This major introduces students to the fundamental concepts of finance theory – the time value of money, risk and return, capital budgeting and capital structure – and to the tools of financial decision-making in the context of the Australian institutional environment. Students examine the investment, financing and dividend decisions of corporations and develop an understanding of the basic practices of financial management from the perspective of both large and small firms. It also introduces the concept of investment analysis in the context of property. It explores the unique features of income-producing property and examines the performance of these properties, their loans and their taxation through the application of a variety of investment techniques. Also covered are risk analysis techniques for income-producing properties and portfolios.

Contemporary managers benefit from having a grasp of the fundamental concepts of finance theory. This major introduces students to these concepts, including the time value of money, risk and return, capital budgeting and capital structure – and to the tools of financial decision-making in the context of the Australian institutional environment. Students examine the investment, financing and dividend decisions of corporations and develop an understanding of the basic practices of financial management from the perspective of both large and small firms. Students will develop a strong financial compass and be enabled to make financial decisions with greater confidence.

Financial Mathematics, Testamur Major (T096)

Western Sydney University Major Code: T096

Previous Code: MT3039

Available to students in other Western Sydney University programs?

No

Sophisticated mathematical techniques, such as stochastic calculus, are critical tools in modern finance. Building on the content taught in the Bachelor of Mathematics, this major equips graduates with the required knowledge, as well as with the background that is required to apply this knowledge successfully. In this major, you will learn not only the essential mathematical skills, but you will also take subjects from the School of Business as well as data science subjects that put these skills in context. The combination of theoretical skills and practical applications will give you the extra edge over competitors in the job market.

Financial Planning and Taxation, Testamur Major (T024)

Western Sydney University Major Code: T024

Previous Code: MT2039.1

The Financial Planning and Taxation major is available to participants enrolled in the Bachelor of Accounting (p. 17). The specialised subjects in this major analyse contemporary issues relevant to financial planning and taxation using case studies and discussion. This major satisfies the accreditation requirements of the Financial Planning Association (FPA) of Australia to become a Financial Planner AFP® and prepares students for entry into the CFP® Certification. It is also accredited by, and meets the education requirements of the Financial Planning Education Council (FPEC) which satisfies the new federal government education requirements as mandated by the Financial Adviser Standards and Ethics Authority (FASEA). Completion of this major also meets the financial advising industry's RG146 generic knowledge requirements, specialist knowledge requirements and skills requirements as they currently stand. Details regarding these requirements can be found on the Bachelor of Accounting page. In addition, completion of this major satisfies the tertiary education requirements to register as a Tax (Financial) Adviser and a Tax Agent with the Tax Practitioners Board (TPB) (pending completion of all subjects specified in the sequence of study for the major), subject to relevant work experience.

Financial Planning, Testamur Major (T022)

Western Sydney University Major Code: T022

Previous Code: MT2037.1

Available to students in other Western Sydney University programs?
No

The Financial Planning major is available in the Bachelor of Accounting. The specialised units in this major analyse contemporary issues relevant to financial planning using case studies and discussion. Completion of this major meets the profession's RG146 generic knowledge requirements, specialist knowledge requirements and skills requirements as they currently stand. Whilst it is not compulsory to complete the Taxation major, students are encouraged to complete the Taxation major which qualifies them to provide tax advice and to meet the accreditation requirements of the Financial Planning Association in Australia (FPA). Details regarding these requirements can be found on the program 2783 Bachelor of Accounting page.

Food Science, Testamur Major (T059)

Western Sydney University Major Code: T059

Previous Code: ST3077.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

This postgraduate major is designed for science graduates interested in furthering a career in food science and technology, working in a variety of settings such as food manufacturing, research and development, regulatory affairs, technical and senior management. Graduates will develop knowledge and skills to meet future challenges to the food supply including sustainability, food safety, and health and nutrition, applicable to both Australian and global contexts. Students will be prepared to become professional food scientists with the

cognitive, technical and critical thinking skills to analyse issues and articulate appropriate solutions. A capstone subject involving either a research or professional industry project allows students to integrate their knowledge and skills developed from the whole program.

Major Structure

Qualification for the award of Master of Science (Food Science) requires the successful completion of 160 credit points comprising:

- 20 credit points of core subjects,
- 20 credit points of research capstone subjects,
- 40 credit points of major subjects as follows

| Subject | Title | Credit Points |
|-----------|--|---------------|
| NATS 7015 | Food Evaluation | 10 |
| NATS 7016 | Food Preservation and Packaging Technologies | 10 |
| NATS 7017 | Food Product Design | 10 |
| NATS 7018 | Food Quality Management | 10 |

- and at least 40 credit points from Alternate Pool 1 and up to 40 credit points from Alternate Pool 2.

Students should note that the subjects available in Alternate Pool 1 and Alternate Pool 2 are listed under the Structure tab of the Master of Science (p. 693) page.

Forensic Science, Testamur Major (T049)

Western Sydney University Major Code: T049

Previous Code: MT3022

Available to students in other Western Sydney University programs?
No

The Forensic Science Major provides students with specialised expertise in forensic science including methods of forensic analysis, crime scene investigation, forensic photography, forensic investigation, and complex case studies. Career opportunities include forensic scientists, crime scene investigators, private investigators and consultants, police officers, drug analysts, researchers and academics, and specialised forensic science practitioners. The main employers of forensic scientists are State and Federal police services, State

and Commonwealth Government Health Departments and analytical chemistry laboratories. Graduates will be versatile with a wide skills base with (depending on their choice of electives) potential for employment in analytical chemistry and microbiology, quality control and assurance, biochemistry and molecular biology, scientific research, education and the chemical industry. All students must complete 60 credit points of study at Level 3 to meet course requirements.

Bachelor of Science (Pathway to Teaching Primary/Secondary)

Qualification for the Bachelor of Science (Pathway to Teaching Primary/Secondary) with a major in Forensic Science requires the successful completion of 240 credit points as per the recommended sequence below.

| Course | Title | Credit Points |
|----------------------------|---------------------------------------|---------------|
| Year 1 | | |
| Autumn session | | |
| NATS 1019 | Scientific Literacy | 10 |
| MATH 1003 | Biometry | 10 |
| CHEM 1008 | Introductory Chemistry | 10 |
| NATS 1008 | Forensic Science | 10 |
| Credit Points | | 40 |
| Spring session | | |
| BIOS 1012 | Cell Biology | 10 |
| NATS 1003 | Digital Forensic Photography | 10 |
| CHEM 1012 | Essential Chemistry | 10 |
| Select one elective | | 10 |
| Credit Points | | 40 |
| Year 2 | | |
| Autumn session | | |
| NATS 2019 | Forensic and Environmental Analysis | 10 |
| BIOS 2018 | Genetics | 10 |
| NATS 2021 | Imaging Science | 10 |
| Select one elective | | 10 |
| Credit Points | | 40 |
| Spring session | | |
| NATS 2010 | Crime Scene Investigation | 10 |
| CHEM 3010 | Forensic Chemistry | 10 |
| Select two electives | | 20 |
| Credit Points | | 40 |
| Year 3 | | |
| Autumn session | | |
| NATS 3012 | Environmental Forensic Investigations | 10 |
| NATS 3026 | Forensic Biology | 10 |
| Select two electives | | 20 |
| Credit Points | | 40 |
| Spring session | | |
| NATS 3027 | Laboratory Quality Management | 10 |
| NATS 3008 | Complex Forensic Studies | 10 |
| Select two electives | | 20 |
| Credit Points | | 40 |
| Total Credit Points | | 240 |

In addition, all students must complete the mandatory 40 credit point minor in Education Studies.

Education Studies, Minor (p. 826)

Students must meet this requirement by choosing the subjects from the minor in Education Studies as electives within their Bachelor of Science program.

Bachelor of Advanced Science

Qualification for the award of Bachelor of Advanced Science with a major in Forensic Science requires the successful completion of 240 credit points as per the recommended sequence below.

| Course | Title | Credit Points |
|----------------------------|---------------------------------------|---------------|
| Year 1 | | |
| Autumn session | | |
| NATS 1019 | Scientific Literacy | 10 |
| MATH 1003 | Biometry | 10 |

Geography and Urban Studies, Major (0010)

Western Sydney University Major Code: 0010

Previous Code: M1071.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

Students in this major examine the geography of contemporary Australian cities and regions. Geography is the integrated study of people, places and environments. The cutting-edge interests of today's Geographers include post-colonialism, the emergence of global information economies, indigenous issues, class and cultural disparities, population movement, sexuality and space, and the global diffusion of popular culture. Urban Studies is a newer discipline focused on social justice within the city, through its critical assessments of peoples' access to scarce urban resources, such as housing, transport, education and employment. The political, economic, and cultural forces that shape cities and urban policy are the key concerns of the Urban Studies curriculum. These applied interests in urban well-being and city structure are the intellectual basis for the Urban Planning profession. A major in Geography and Urban Studies will prepare students for both employment and a research higher degree.

Global Business, Major (0011)

Western Sydney University Major Code: 0011

Previous Code: M2513.1

Available to students in other Western Sydney University programs?

No

The global economy is becoming increasingly important for organisations seeking out new opportunities to expand their customer base and develop partnerships. Managers who are well versed in the needs of doing business internationally and who can exploit these opportunities will therefore play an integral role in any such corporation. Building on a solid foundation in domestic business education, including global sustainability, international business strategy, managing in a global environment, and international marketing, this major equips graduates with the detailed knowledge of the international dimension of business and the necessary understanding of the workings of that market system.

Global Climate Change, Major (0168)

Western Sydney University Major Code: 0168

Previous Code: M4008.1

Available to students in other Western Sydney University programs?
 No

Climate change impacts across all sections of our society, from scientists who study the mechanisms underlying it, to businesses and policy makers who must deal with its effects and take remedial action. A factual understanding of climate, the components that go to make it up, and how climate has varied in the past, is essential for any person working in the climate change area. This specialisation will introduce students to the concept of climate, our understanding of how it works, and how it has changed through time. It will give students a critical understanding of current environmental concerns and debates about the greenhouse effect and climate change, and the science behind greenhouse gas accounting and potential effects on biota. Students completing the specialisation will be well positioned to make informed business decisions about greenhouse gas emissions and abatement.

Global Sustainability, Minor (0196)

Western Sydney University Minor Code: 0196

Western Sydney University Minor Code: SM2054.1

Available to students in other Western Sydney University Programs: Yes.

Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

The Global Sustainability minor provides a unique, signature learning experience for students involving local and global partners committed to sustainable development. The minor explores the interrelationship between humans and the natural and built environment from multiple paradigms. Students will investigate the grand challenge of achieving a sustainable society and in the process become future thinkers and innovators. Global Sustainability involves the choice of three sustainability subjects from five different schools and a social action internship which can be based regionally or internationally. The minor is recognised by and cobranded with the United Nations University's Regional Centres of Expertise on Education for Sustainable Development.

Graphic Design, Major (0073)

Western Sydney University Major Code: 0073

Previous Code: M1116.1

Available to students in other Western Sydney University programs?

No

The Graphic Design major provides students from outside the Design program with a comprehensive introduction to fundamental skills and knowledge in graphic design. The major is delivered through a series of practice-based and theoretical subjects and you will study areas such as image design, contextual design studies, web design and branding. In addition, you will have the opportunity to choose a practice-based specialisation from the areas of interactive design; digital design; illustration and photomedia.

Location

| Parramatta Campus - Victoria Road | Internal | enquiriesHCA@uws.edu.au |

Major Structure

Students must successfully complete 80 credit points as follows

Creative Industries Students

Creative Industries students must complete one of the following two subjects as their Introduction to Major subject as part of the core requirements for their program.

| Subject | Title | Credit Points |
|-----------|---------------------------|---------------|
| DESN 1011 | Image Design | 10 |
| DESN 1021 | Web and Time-based Design | 10 |

To complete this major, Creative Industries students must enrol into whichever level 1 subject they did not complete as their Introduction to major subject.

Design Pairings

| Subject | Title | Credit Points |
|-----------------------|-----------------------------------|---------------|
| Illustration | | |
| DESN 2007 | Illustrating Narrative | 10 |
| DESN 3007 | Illustrating Popular Culture | 10 |
| Interactive | | |
| DESN 3008 | Interactive Design: Apps | 10 |
| COMM 2019 | Interactive Design: Games | 10 |
| Photomedia | | |
| VISU 3002 | Photomedia: Fashion and Identity | 10 |
| DESN 2013 | Photomedia: Photographic Practice | 10 |
| Digital Design | | |

| | | |
|-----------|--------------------|----|
| DESN 3002 | Data Visualisation | 10 |
| DESN 2011 | Motion Design | 10 |

Recommended Sequence

Qualification for this major requires the successful completion of 80 credit points as per the recommended sequence below

Full-time start-year intake

| Course | Title | Credit Points |
|---|--|---------------|
| Year 1 | | |
| Autumn session | | |
| Select one of the following: | | 10 |
| DESN 1011 | Image Design | |
| DESN 1021 | Web and Time-based Design (Also available in Spring) | |
| Credit Points | | 10 |
| Year 2 | | |
| Autumn session | | |
| DESN 2014 | Researching the Visual | 10 |
| Select one subject from the selected Design Pairing | | 10 |

Greenhouse Horticulture, Testamur Major (T107)

Western Sydney University Major Code: T107

Previous Code: ST3078.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

This postgraduate major is designed for science graduates interested in a career in horticulture, protected cropping, greenhouse technology, postharvest technology, and agricultural biotechnology, working in a variety of settings such as food production, research and development, technical and senior management. This unique opportunity in greenhouse horticulture offers students exciting learning opportunities to develop expertise to meet future challenges to food supply, crop management, greenhouse control systems, and integrated pest management in a world-class greenhouse facility. Students will meet with industry experts and growers in becoming professional horticultural researchers with the technical and critical thinking skills to solve complex real-world problems and articulate appropriate solutions. A capstone subject involving either a research or professional industry

project allows students to integrate their knowledge and skills developed from the whole program.

Increasingly, healthcare information is being captured electronically and newer technology modes are being applied in many innovative ways to support efficient and effective clinical care. This major aims to promote understanding of Information and Communications Technology (ICT) concepts in healthcare including electronic healthcare records; healthcare data analysis; fundamentals of medicine concepts and disease classification; healthcare system interoperability and design. This specialisation will prepare students for the ICT challenges ahead in the healthcare domain, and equip students with the knowledge and skills for taking up employment opportunities with major public and private healthcare providers and technology suppliers.

No

The widespread adoption of ICT solutions within the health sector and related developments such as electronic health records and health systems interoperability have created a need for ICT professionals who understand their context and are well equipped to operate within it. This major is aimed at developing knowledge and skills in theoretical concepts and practical technologies needed to design and develop complex software applications across a range of eHealth settings. Students with these knowledge and skills will have greater prospects of finding employment with major healthcare providers or building their career as self-employed developers.

Major Structure

Students in Master of Information and Communications Technology and Master of Information and Communications Technology (Advanced) complete the following

| Subject | Title | Credit Points |
|------------------------------|--|---------------|
| PUBH 7001 | Advanced Health Classifications and Coding | 10 |

The Health Management major offers a broad understanding of the complex social, economic and cultural determinants of health and well-being. The current health care context and service systems are examined and students are encouraged to consider new directions for innovative service design and delivery. Graduates will be skilled in understanding, managing and responding to rapid changes within the health care system, the broader political sphere and in areas that deal with policy and service assessment, development and evaluation.

Health Promotion Studies, Major (0298)

Western Sydney University Minor Code: 0298**Previous Code:** M4023.1

Available to students in other Western Sydney University Programs: Yes, however the following restrictions apply.

For any student at Western who meets the subjects' pre-requisite rules, has sufficient elective space to complete the subject set and is not enrolled in the Bachelor of Health Science or Diploma in Health Science/ Bachelor of Health Science.

Health Promotion extends beyond raising awareness of healthcare issues to developing and implementing strategies for communities, individuals and policy makers to support good health and wellbeing. Graduates may help address health inequities in communities, link individuals and communities with healthcare, and assist individuals and communities to follow healthy behaviours, working across sectors and engaging collaboratively with communities to do so. Health promotion projects are as diverse as injury prevention, skin cancer prevention, HIV/AIDS awareness and community development. Graduates with studies in health promotion develop understandings of health that may be applied in health work settings. The program combines studies of health politics and planning, health promotion practice and public health with a comprehensive foundation in the health sciences

Health Promotion, Major (0052)

Western Sydney University Major Code: 0052**Previous code:** M4019.1**Only available to 4656 Bachelor of Health Science students**

Health Promotion extends beyond raising awareness of healthcare issues. It also involves developing and implementing strategies for communities, individuals and policy makers to support good health and wellbeing. Health Promotion graduates help address health inequities in communities, link individuals and communities with healthcare, and assist individuals and communities to follow healthy behaviours, working across sectors and engaging collaboratively with communities to do so. Health promotion projects are as diverse as injury prevention, skin cancer prevention, HIV/AIDS awareness and community development. Health promotion professionals work in diverse settings including healthcare, workplace and educational facilities, community, local, state and federal government, private industry and not-for profit organisations. The major combines studies of health politics and planning, health promotion practice and public health with a comprehensive foundation in the health sciences to develop the professional competencies important for ethical and safe practice. Students will develop the skills required to work in multidisciplinary teams. Evidence-based practice is one of the most important trends in healthcare today and a strong feature of the program. Students in T109 Clinical Science, who would not otherwise have the opportunity to take the 140-hour unit MEDI 3007 Professional Health Placement may choose to do so. This Major will be identified on the Student's Academic Transcript following completion of the course.

Health Services Management, Major (0053)

Western Sydney University Major Code: 0053

Previous Code: M4020.1

Only available to 4656 Bachelor of Health Science students

Health Services Management plays a vital role in ensuring that investment in health is well spent and that businesses are efficient and sustainable. Graduates will be skilled in managing and responding to change within the health system and in roles that deal with policy initiative, development and evaluation. The major complements the comprehensive foundation in the health sciences, of the Bachelor of Health Science, and will develop the competencies important for ethical practice, quality care and the skills to work in multidisciplinary teams. The Health Services Management major includes 140 hours of professional placement experience in unit BUSM 2044 Health Service Management. Students in T109 Clinical Science, who would not otherwise have the opportunity to take the 140-hour unit MEDI 3007

Professional Health Placement may choose to do so. The Major is identified on a graduate's academic transcript as a completed unit set.

- Bachelor of Health Science
- Diploma in Health Science/Bachelor of Health Science

Health Services Management plays a vital role in society in ensuring that investment in health is well spent, and that health services are

effective, efficient and sustainable. It puts management studies in the distinctive context of the health sector to integrate clinical understanding, business management skills and knowledge of the health care system and policy development. Our Health Services Management graduates worked in quality improvement, project and resource management, and digital health. Our program offers 280 hours of Work Integrated Learning and is accredited by the Australasian College of Health Service Management. There is room for specialisations in particular areas of interest in health, informatics, human resource and occupational safety which aim to extend students interdisciplinary knowledge and skills and ensure a readiness for the health management workforce. The Health Services Management testamur major includes 280 hours of professional placement experience. - The Testamur Major is identified on a graduate's testamur as Bachelor of Health Science (Health Services Management),

Master of Health Science

This major is designed for health practitioners who require skills in contemporary management and their application in the health care setting. Particular emphasis is placed on critical and analytic skills in health service governance, financing, quality and safety, and planning and evaluation, thus providing graduates with the ability to respond effectively to changes as they arise. Students in this major can further focus their studies in areas relevant to health service managers, such as project management, aged care management, human resource management and research and development.

Total Credit Points 120

Replaced Subjects

The units listed below count towards completion of this major for students who passed these subjects in 2019 or earlier.

HUMN 4009 - Research Design 1: Theories of Enquiry, replaced by HUMN 4001 Researcher Development 1: Reading ,Writing, and the Business of Research

HUMN 4012 - Research Literacies, replaced by HUMN 4003 Writing Beyond the Academy: Knowledge Translation and Public Audience Communication

BLDG 7009 - Project Procurement Systems, replaced by BLDG 7013 - Project Procurement Systems

Further information on recommended progression is available on the Postgraduate Health Science progression page.

Postgraduate Health Science Progression (https://www.westernsydney.edu.au/__data/assets/pdf_file/0011/1628291/Proposed_Progression_Postgraduate_Health_Science.pdf)

Master of Health Science (Health Service Management) 2 year pathway

Students must complete 160 credit points, including all the Domain and Specialisation Core Subjects.

| Subject | Title | Credit Points |
|--|--|---------------|
| Domain Subjects | | |
| PUBH 7016 | Introduction to Epidemiology | 10 |
| PUBH 7033 | The Social Determinants of Health | 10 |
| PUBH 7031 | Health Systems and Policy | 10 |
| HLTH 7025 | Healthcare Data for Decision-Making | 10 |
| Specialisation Core | | |
| HLTH 7022 | Advanced Health Service Management | 10 |
| HLTH 7024 | Health Services Financing | 10 |
| HLTH 7029 | Quality and Safety | 10 |
| PUBH 7030 | Health Systems Planning and Evaluation | 10 |
| Special Focus Group and alternate subjects | | |
| Students can choose four subjects from a Special Focus Group, or 40 any combination of four subjects from the Special Focus Groups, or complete four alternate subjects. | | |
| Special Focus Group: Human Resources | | |
| BUSM 7024 | Developing Human Capital and Organisational Capability | |
| BUSM 7025 | Diversity, Labour Markets and Workforce Planning | |
| BUSM 7027 | Employment Relations Professional Practice | |
| BUSM 7043 | Industrial Relations and Workplace Change | |

Electives

Students must take at least two level 3 subjects as electives.

Most electives are 10 credit points. Students may wish to consider using elective choices to complete another health sciences field of study, such as:

Minors:

Health Informatics, Minor (p. 867)

Public Health, Minor (p. 969)

Related Programs

Bachelor of Health Science (4656) (p. 169)

Diploma in Health Science/Bachelor of Health Science (6000) (p. 430)

Master of Health Science (4698) (p. 635)

Heritage and Tourism, Major (0012)

Western Sydney University Major Code: 0012

Previous Code: M1077.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

In a highly mobile world (migration, tourism, media and communications, travel and transport) and in contemporary life where the preservation of historical and natural environments present as one of the major challenges facing all societies, heritage has become a touchstone for social and cultural identity, our understanding of modernity, peace and development, our senses of citizenship, custodianship and community. At the same time heritage places have become significant tourist destinations and so in a world of flows and networks, the heritage-tourism relationship is a critical one. In the 21st century it is impossible to disentangle the two. This major introduces contemporary heritage issues and provides an in-depth understanding of tourism as a social phenomenon. It enables a critical examination of the relationship between heritage and tourism in number of settings within Australia (including Indigenous Australia) and internationally. Graduates with a heritage and tourism major can contemplate careers within a diverse range of government, non-government organization and businesses that require understanding, insight and skills related to heritage and tourism.

History and Political Thought, Major (0013)

Western Sydney University Major Code: 0013

Previous Code: M1137.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

Since the revival of humanist thought in the Renaissance, universities have placed studies in history and political thought at the centre of exploring what it is to be human. At the heart of the History and Political Thought major are four compulsory subjects which introduce the student to the modern (since 1500) history of humanity. Although Europe is very prominent in the Major, the student will be invited to compare its history to the histories of Asia, Africa and the Americas. The Major culminates in a capstone subject in students' final semester discussing historical theories and methods. A wide range of elective subjects covers European, American, Australian and Asian history and political thought and includes thematic subjects which range widely over time and place.

History and Political Thought, Minor (0013)

Western Sydney University Minor Code: 0013

Previous Code: SM1145.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

Since the revival of humanist thought in the Renaissance, universities have placed studies in history and political thought at the centre of intellectual inquiry. History and politics have always examined contentious issues. Students learn to deal with conflicting information, appreciate the different ways societies have resolved issues in the past and develop skills that enable them to become responsible and active citizens. The History and Political Thought minor requires students to select two of four compulsory subjects which introduce the student to historical periods from the Ancient World to the 20th century, culminating in a capstone subject that discusses the development of historical methodology from ancient times to the present. The remaining two subjects can be selected from a pool that encompasses political thought and historical developments across time and space, enabling students to select fields of particular interest.

Location

Human Nutrition, Testamur Major (T125)

Western Sydney University Major Code: T125

Previous code: MT3044.1

Available to students in other Western Sydney University Programs: Yes, however the following restrictions apply.

This testamur major is available as an elective major for Bachelor of Science students only.

A Human Nutrition Major in Medical Science uses biology, chemistry and physiology to develop concepts in food and nutrient form and function in relation to human metabolism and physiology. This major takes students through the ingestion, digestion, absorption, storage and utilization of proteins, fats, vitamins, minerals and trace element. Students learn how these nutrients can be managed with respect to appetite, exercise, health and disease as well as develop a wide range of laboratory and research skills. Students will also develop critical analytical skills to assess and implement recommendations for testing,

monitoring and community education. All students must complete 60 credit points of study at Level 3 to meet program requirements. Students will need to select at least 10 credit points of elective study at Level 3 to meet this requirement.

Human Resource Management, Major (0134)

Western Sydney University Major Code: 0134

Previous Code: SP2025.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

Graduates of the Master of Business Administration with the Human Resource Management major are eligible for professional accreditation with the Australian Human Resources Institute (AHRI). This major equips graduates to work in the field of human resource management. Key functional areas are considered within a strategic and contextualised framework, with an underlying objective of searching for ways to strengthen organisations for all stakeholders. This education builds the necessary knowledge base for working in employment relations.

Human Resource Management, Testamur Major (T041)

Western Sydney University Major Code: T041

Previous Code: MT2024.1

Available to students in other Western Sydney University programs?
No

This major (including online) is accredited with the Australian Human Resources Institute (AHRI). The Human Resource Management Major is designed for people who seek careers in human resource management and industrial relations. Graduates' careers focus on enhancing the value of human and social capital through supporting employee engagement for many different kinds of organisations, market-oriented and community-oriented organisations and many kinds of people. The teaching philosophy is based on knowledge in action, a fusion of the Australia Human Resource Institute's capabilities for HR professionals and the Western Sydney University Graduate Attributes designed to secure success. An aim of the program is to instil those values and attitudes that can support leaders in judgements about balancing the pursuit of organisational objectives with creating opportunities for developing people's capacities and careers. The perspectives are local and international, with an emphasis on the value of cultural and demographic diversity. Graduates have knowledge of how leadership and management of people can support organisational objectives and create organisational opportunities. This capacity comes from grounding in human resource management and industrial relations practice using contemporary law and research in applied projects. Students combine this with an education in the pressures organisations experience in inter-disciplinary subjects focused on money, markets and management. That is, graduates develop commercial acumen and appreciate the competing interests around work, aware of trends locally and internationally. Throughout the program, students are challenged to develop and demonstrate communication, cultural, and analytic skills required to be innovative and responsible team-members and leaders.

Human Rights, Protection and Development, Major (0095)

Western Sydney University Major Code: 0095

Previous Code: M1096.1

Available to students in other Western Sydney University programs?
 No

This major is restricted to students enrolled in programs Bachelor of Humanitarian and Development Studies, Bachelor of Tourism

Management and Diploma in Social Science/Bachelor of Humanitarian and Development Studies. This is an alternate Major program that prepares students with knowledge and skills to critically evaluate and assess social processes, policies, and practices, and articulate the place of humanitarian relief and development assistance. This is achieved through a set of subjects specifically tailored towards Human Rights, Protection and Development, providing students with the opportunity to apply skills and knowledge acquired during the first two years of their degree in a 'real world' setting through the Social Sciences International Placement suite of subjects. The international placement opportunity requires students to obtain a medical clearance, and a Working with Children check for certain organisations.

Immersion Language, Minor (0014)

Western Sydney University Minor Code: 0014

Previous Code: SM1128.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

This minor is designed for students wanting to learn a language through an in-country experience. Living in a foreign country, learning the formalities of the language, studying its society and culture, and interacting with the local people on a daily basis enables a student to develop confidence in the use of the language. Students will develop an appropriate level of proficiency in a second language that may be used for professional purposes such as teaching, business or international relations. Students undertaking this language specialisation will be able to use the language in question according to basic grammatical and pragmatic principles, communicate with native speakers appropriately in the spoken as well as the written mode, and demonstrate an understanding of the cultures and societies associated with the language. This minor covers languages that are not taught at Western Sydney University and must be studied as part of an approved study abroad programme in the country where the language studied is one of the nominated national spoken and written languages.

A minor in Indigenous Studies is a cross-disciplinary program that provides students with rigorous knowledge of the diversity and complexity of Indigenous Australian peoples. Students will develop skills in Indigenous methodologies, research and ethical praxis. In addition, the program offers students an opportunity to develop detailed critical understandings and perspectives of how representations and discourses of Indigenous peoples operate in contemporary society, including social, political, cultural, and historical contexts that produce them

Infectious diseases are a major threat to health across the globe, including increasing threats from new pathogens and the emergence of antibiotic resistance in established pathogens. This minor will examine organisms that typically cause infectious disease and will deliver skills and knowledge on how these interact with the immune system, cause disease, and are diagnosed and treated. This will be allied to learning and developing skills in epidemiology, how epidemics can be controlled and prevented, and the principle of risk management. This minor will be useful for future population health professionals, medical scientists, researchers, or those involved in biological risk management.

Innovative Foods, Testamur Major

Western Sydney University Major Code: T124

Previous code: MT3046.1

Available to students in other Western Sydney University

Programs: Yes, however the following restrictions apply.

This testamur major is available as an elective major for Bachelor of Medical Science students only.

There is more to innovative foods, food marketing and healthy eating than you realise. This major will help you understand nutrition, and the science behind food in the largest business sector in the world. A major in Innovative Foods will prepare you to be a leader in developing innovative, safe, healthy and sustainable foods. A solid foundation in the biological and chemical sciences, needed to underpin food science, will enable graduates from this program to be confident in the rapidly evolving food technology sector. Graduates can pursue opportunities in food formulation, food research and development, quality assurance, food plant management, food molecular biology, flavour chemistry, consumer relations, food quality assurance and teaching. This flexible program has links with industry and community and enables you to make use of modern sensory and food processing facilities while undertaking units in human nutrition and health, food production, biotechnology, integrated management.

International Business, Testamur Major

Western Sydney University Major Code: T042

Previous Code: MT2025.1

Available to students in other Western Sydney University programs?

No

The global economy is becoming increasingly important for organisations seeking out new opportunities to expand their customer base and develop partnerships. Managers who are well versed in the needs of doing business internationally and who can exploit these opportunities will therefore play an integral role in any such corporation. Building on a solid foundation in domestic business education, including global sustainability, international business strategy, managing in a global environment, and international marketing, this major equips graduates with the detailed knowledge of the international dimension of business and the necessary understanding of the workings of that market system.

International English, Major

Western Sydney University Major Code: 0018

Previous Code: M1132.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

International English engages students in a systematic and structured study of the English language and its variations across time and contexts. Students learn to recognise and work with the uses and features of the language that are essential to a wide range of social, academic and professional contexts. The major provides a solid and comprehensive foundation for students who aim to work professionally with English in different contexts and countries, especially those intending to pursue post-graduate qualifications in education. The major focuses on varieties and structures of English, informed by studies of English in specific discourse settings, and specifically aims to ensure that students understand the language and its use very well

and that they possess a highly developed capacity to use English well across a range of contexts.

International Governance, Testamur Major

Western Sydney University Major Code: T127

Previous code: ST2007.1

Available to students in other Western Sydney University programs?

No

Governance is a key area for those working in law related areas in small and large firms, as well as in many public companies, government departments, large charities and non-government organisations. Internationally, there is a strong need for technical knowledge and understanding of legal governance for those not used to working in a common law legal system versus their own civil code or mixed system. This major provides a strong grounding in key theories, practices and issues in international governance.

International Relations and Asian Studies, Major

Western Sydney University Major Code: 0019

Previous Code: M1055.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

This major has been designed to meet the needs of Australian government, business and society to engage the states and peoples of Asia at all levels in pursuit of national interests and as part of the globalisation process. It provides students with the opportunity to study contemporary Asia, as well as the rich and diverse histories, politics, cultures and languages of Asian countries and the international issues affecting Australia's interests and role in the region and in the world at large. The major area also includes a range of subjects concerned with the United States and Europe as well as with Asia itself, and subjects in international relations covering other parts of the world. It seeks to produce graduates with a broad,

liberal education with the skills to mediate between Australia and the world in general and Asia in particular through political, economic, commercial, cultural, diplomatic and strategic links. Students are encouraged to undertake a minor in an Asian language in conjunction with the major. Employment opportunities may be found in the State and Commonwealth public service, overseas organisations, the media, business and industry, education and research.

Islamic Studies, Major

Western Sydney University Major Code: 0020

Previous Code: M1056.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

Students engage in interdisciplinary study essential to an understanding of Islam, past and present. The area of study balances historical and modern Islamic studies and research methods. One of the keys to Islamic Studies is 'relevance' to contemporary Australian society but relevance can only come from a sound comprehension of past traditions in Islamic scholarship and their socio-historical contexts. Preparation for graduate study is also a key objective of this program, with its focus on developing critical and interdisciplinary research skills through a combination of approaches. Students are encouraged to undertake a minor in Arabic to complement the Islamic Studies major.

Location

| Campus | Mode | Advice |
|------------------|----------|-------------------------|

Islamic Studies, Minor

Western Sydney University Minor Code: 0020

Previous Code: SM1074.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

Students engage in interdisciplinary study essential to an understanding of Islam, past and present. The area of study balances historical and modern Islamic studies and research methods. One of the keys to Islamic Studies is 'relevance' to contemporary Australian society but relevance can only come from a sound comprehension of past traditions in Islamic scholarship and their socio-historical contexts. Preparation for graduate study is also a key objective of this program, with its focus on developing critical and interdisciplinary research skills through a combination of approaches.

IT Support, Minor (0205)

Western Sydney University Minor Code: 0205

Previous Code: SM3054.1

Available to students in other Western Sydney University programs?

No

The minor prepares students to work with, train and support other people in their use of technology. With its practical orientation, it provides a sound foundation in information technology and computing particularly through learning by direct hands-on experience in class, laboratories and in real-world work experience sites. It is for people who want to work with computers within the IT (Information Technology) industry. This minor is only available to students enrolled in the Bachelor of Information and Communications Technology (p. 189) or Bachelor of Information and Communications Technology (Advanced) (p. 193).

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

Language majors aim to enable students to develop an appropriate level of proficiency in a second language which may be used for professional purposes such as teaching, interpreting and translation, business or international relations. Students undertaking a language major will be able to use the language in question according to its grammatical and pragmatic principles, communicate with native speakers appropriately in the spoken as well as the written mode, and demonstrate an understanding of the cultures and societies associated with the language.

Inherent Requirements

There are inherent requirements for this major that you must meet in order to complete the major and graduate. Make sure you read and understand the requirements for this major online.

Inherent Requirements (http://www.uws.edu.au/ir/inherent_requirements/inherent_requirements_for_languages_courses/)

Major Structure

There are three entry levels into language majors. Beginner's level is for those with no previous study or minimal study of the language. Intermediate level is typically for students who: are non-native speakers with study of the language to HSC 2 Unit level or have a home background in the language but no comprehensive formal study. Post-Intermediate level is typically for students who are non-native speakers with substantial formal study and near-native competence; or are literate native speakers of the language. Students should consult with the Languages staff regarding the progression sequence that best fits their level of skill. During the first two weeks of class, the lecturer will monitor the performance of students and advise students who need to transfer to a higher or lower class. Students may consult with the Languages Course Advisor, if they are unsure of their entry level. Students should avoid enrolling in subjects at different levels at the one time (e.g. you should not enrol in LANG 2024 Japanese 201 and LANG 3051 Japanese 301 at the same time). Please check the current

timetable as some subjects may not be offered every year. Advanced (Level 3) subjects may be offered on a rotational basis.

A major in Japanese comprises a sequence of 80 credit points with 60 credit points at Levels 2 and 3 (with no less than 30 credit points of these at Level 3), however students commencing at beginners level, that is subjects LANG 1020 Japanese 101 and LANG 1021 Japanese 102, and who follow the recommended program structure, are only required to complete 20 credit points at Level 3.

Students should take subjects that reflect their level of competence in the language and they should not backtrack, i.e. they must not:

- take a Level 1 subject after passing a Level 2 subject in the same language; or
- take a Level 2 subject after passing a Level 3 subject in the same language.

Level 1 Subjects

| Subject | Title | Credit Points |
|-----------|--------------|---------------|
| LANG 1020 | Japanese 101 | 10 |
| LANG 1021 | Japanese 102 | 10 |

Level 2 Subjects

| Subject | Title | Credit Points |
|-----------|--------------------------------------|---------------|
| LANG 2024 | Japanese 201 | 10 |
| LANG 2025 | Japanese 202 Speaking and Listening | 10 |
| LANG 2026 | Japanese 203 | 10 |
| LANG 2054 | Japanese 204: Speaking and Listening | 10 |

Level 3 Subjects

| Subject | Title | Credit Points |
|-----------|--|---------------|
| LANG 3051 | Japanese 301 | 10 |
| LANG 3052 | Japanese 302 | 10 |
| LANG 3053 | Japanese 303: Contemporary Culture and Society | 10 |
| LANG 3054 | Japanese 304: Discourse in Japanese | 10 |
| LANG 3055 | Japanese 305: Advanced Reading and Writing | 10 |
| LANG 3056 | Japanese 306: Japanese Popular Culture | 10 |
| LANG 3045 | Intercultural Communication | 10 |
| LANG 3082 | Special Study in Languages and Linguistics | 10 |

Advanced entry level Japanese students may complete the following Level 1 pool subjects. The subjects will be recognised as Level 3 pool subjects for the purpose of specialisation completion.

| Subject | Title | Credit Points |
|-----------|------------------------------|---------------|
| LANG 1013 | Introduction to Interpreting | 10 |
| LANG 1017 | Introduction to Translation | 10 |

Equivalent Subjects

The subjects listed below count towards completion of the major for students who passed subjects in the list below in 2020 or earlier.

LANG 3008 - Applied Critical Methods, no longer offered
 LANG 3046 - Intercultural Pragmatics, replaced by LANG 3045 Intercultural Communication
 LANG 2027 - Japanese 204, replaced by LANG 2054 Japanese 204: Speaking and Listening
 LANG 3089 World Literature in Translation

Law and the Creative Industries, Major

Western Sydney University Major Code: 0072

Previous Code: M2515.1

Available to students in other Western Sydney University programs?
 No

The Law and the Creative Industries major equips you with specialised legal skills and knowledge to support your career in the creative industries in Australia. In this major you will develop tailored, strategic knowledge to enable you to effectively contribute to business decision making and to appreciate the legal and regulatory challenges within the context of creative and innovative enterprises. The subjects in

this major focus on the fundamentals of Australian law, critique and analysis of law, contracts, torts, alternative dispute resolution and media law, with the option to also incorporate studies in competition and consumer law, intellectual property and law within the employment context. The legal and regulatory focus of this major will provide you with specialised knowledge and skills designed to enhance your access to a range of careers within the creative industries sector. Students are advised that this field of study does not qualify students for admission to legal practice in NSW. Students wishing to pursue a career in legal practice should apply for one of the relevant Bachelor of Laws programs. For further information, please contact the Academic Program Advisor for the Bachelor of Laws as noted below.

Legal Studies, Minor

Western Sydney University Minor Code: 0266

Previous Code: SM1140.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

Students in this minor examine the nature and functions of law and law-making and the development of Australian and international legal systems. Students have the opportunity to investigate the key areas of law and justice, including family law, youth justice, and first peoples and the criminal justice system. This minor meets NSW Education Standards (NESA) content requirements for students who wish to teach Legal Studies in NSW Secondary Schools

Leisure for Diverse Groups, Minor

Western Sydney University Minor Code: 0253

Previous Code: SM4005.1

Available to students in other Western Sydney University programs?

No

The Leisure for Diverse Groups Minor is recommended as complementary study for, and is only available to, those completing the Recreational Therapy Testamur major of the Bachelor of Health Science. This minor facilitates understanding of different modalities that can be used in recreational therapy practice. This is an interdisciplinary minor with subjects taken from the Schools of Health Science, Education, and Humanities and Communication Arts and will therefore require students to travel to other campuses

Linguistics, Major

Western Sydney University Major Code: 0022

Previous Code: M1119.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

Language is fundamental to the human experience. Through study of how language works, students make contact with fundamental philosophical, socio-cultural, and psychological questions about what it means to be human. Linguistics prepares students with a foundation for many careers including primary and secondary teaching, policy analysis, communication, and social services in culturally diverse communities. Linguistics students also gain the analytical tools of empirical science including the ability to break complex problems into components with tractable solutions and to evaluate theories on the basis of empirical facts. These skills prepare students for success in post-graduate studies and careers in research, analytics, business and law.

Location

This major critically examines strategic management processes in various business, industry and economic contexts. It also explores the processes and challenges encountered by leaders in contemporary organisations, taking into account rapidly changing environments with a focus on quality management, risk management, and performance measurement and benchmarking. Students actively participate in experiential learning focussing on strategic leadership, visioning, situation analysis, objective setting and evaluation. Students apply current models and theories to solving industry-specific problems and scenarios.

Marketing, Major

Western Sydney University Major Code: 0137

Previous Code: SP2024.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

This major is designed for an age of expanding communication networks, where marketing is increasingly seen as a highly skilled and complex profession. Whether designing or selling a product, communicating a government service, or raising awareness in the non-profit sector, marketing requires a broad understanding of its methodology, its tools, and broad communications and analysis skills.

Location

| Campus | Mode | Advice |

Marketing, Testamur Major

Western Sydney University Major Code: T044

Previous Code: MT2040.1

Available to students in other Western Sydney University programs?

No

This Marketing testamur major applies to students who commenced in 2022 or later. If you commenced prior to 2022 please refer to the MT2027 Marketing major in the legacy handbook for details.

MT2027 Marketing (<https://handbook.westernsydney.edu.au/hbook/specialisation.aspx?unitset=MT2040.1>)

Contemporary marketing uses strategies and technologies to create significant customer relationships and brand experiences. Through an in-depth understanding of the marketing field including the challenges of global forces, new technologies and changing customer demographics, students develop practical skills that contribute to improving organisational performance. The major is based on industry expectations and students work on industry-based projects and case studies equipping them to take on roles across numerous organisations including in digital marketing, campaign strategies, business and data analytics. This major satisfies the educational

requirements for recognition as a Certified Practising Marketer and eligibility for student membership of the Australian Marketing Institute and The Research Society.

Major Structure

Qualification for this major requires the successful completion of 80 credit points including all of the core subjects listed below.

Core Subjects for this Major

| Subject | Title | Credit Points |
|----------------------------|--------------------------------------|---------------|
| MKTG 1006 | Marketing Principles | 10 |
| MKTG 2010 | Customer Experience Fundamentals | 10 |
| MKTG 3019 | Marketing and Digital Communications | 10 |
| MKTG 3021 | Strategic Brand Management | 10 |
| MKTG 2011 | Customer Insights | 10 |
| MKTG 3016 | Strategic Marketing Management | 10 |
| MKTG 1011 | Fundamentals of Marketing Analytics | 10 |
| MKTG 3020 | Omnichannel Marketing | 10 |
| Total Credit Points | | 80 |

Professional Subjects for Careers in Markets

Students undertaking the Marketing major are advised to take the following four subjects to satisfy the requirements for their professional core:

| Subject | Title | Credit Points |
|----------------------------|--------------------------------|---------------|
| BUSM 3006 | Design Thinking for Creativity | 10 |
| MKTG 3009 | Marketing Planning Project | 10 |
| MATH 1030 | Statistics for Business | 10 |
| BUSM 2040 | The Service Enterprise | 10 |
| Total Credit Points | | 40 |

Recommended Sequence

Qualification for the award of Bachelor of Business with a major in Marketing requires the successful completion of 240 credit points as per the recommended sequence below.

Full-time start-year intake

| Course | Title | Credit Points |
|----------------------------|---|---------------|
| Year 1 | | |
| Autumn session | | |
| BUSM 1006 | Enterprise Innovation and Markets | 10 |
| BUSM 1008 | Enterprise Leadership | 10 |

Materials Engineering, Testamur Major

Western Sydney University Major Code: T128

Previous Code: MT3049.1

Available to students in other Western Sydney University programs?
 No

Since the dawning of mankind an understanding of how materials can be obtained and used has been critical to successful human endeavour. Materials engineers are concerned with the highly technological and dynamic process of understanding, developing, and applying materials (metals, polymers, ceramics, composites) to a range of engineering problems. Students will develop skills necessary to synthesise relevant information so that they can be effective decision makers in a materials context. These skills will serve them well in varied career opportunities associated with biomedical devices, nanotechnology, advanced manufacturing, opto-electronics, energy, aerospace, and sustainable construction. This major includes a mandatory 300 to 450 hour industrial placement as a completion requirement.

Recommended Sequence

This major is included in Bachelor of Engineering Science, Bachelor of Engineering (Honours), Bachelor of Engineering Advanced (Honours) and Bachelor of Engineering (Honours)/Bachelor of Business.

Please follow the recommended sequence for your course as noted below.

Select the link for your program below to see details of the major

Bachelor of Engineering (Honours)

Qualification for this award requires the successful completion of 320 credit points, which include the subjects listed in the recommended sequence below.

*** All students undertaking the Bachelor of Engineering (Honours) are required to enrol in MATH 1021 Mathematics for Engineers Preliminary and undertake a readiness test at the beginning of their study.**

The readiness test will be conducted at the beginning of the first semester of enrolment and the result will be used to determine whether a student will remain in MATH 1021 Mathematics for Engineers Preliminary or be transferred by the School to MATH 1016 Mathematics for Engineers 1.

Students remaining in MATH 1021 Mathematics for Engineers Preliminary will be required to complete MATH 1016 Mathematics for Engineers 1 during second semester and will be encouraged to complete MATH 1019 Mathematics for Engineers 2 during the Summer session.

Start-year intake

| Course | Title | Credit Points |

Equivalent Subjects

The subjects listed below count towards completion of this program for students who passed these subjects in Autumn 2022 or earlier.

ENGR 1008 - Engineering Materials, replaced by PROC 1008 - Introduction to Materials Engineering

Bachelor of Engineering Science

Qualification for this award requires the successful completion of 240 credit points, which include the subjects listed in the recommended sequence below.

*** All students undertaking the Bachelor of Engineering Science are required to enrol in MATH 1021 Mathematics for Engineers Preliminary and undertake a readiness test at the beginning of their study.**

The readiness test will be conducted at the beginning of the first semester of enrolment and the result will be used to determine whether a student will remain in MATH 1021 Mathematics for Engineers Preliminary or be transferred by the School to MATH 1016 Mathematics for Engineers 1.

Students remaining in MATH 1021 Mathematics for Engineers Preliminary will be required to complete MATH 1016 Mathematics for Engineers 1 during second semester and will be encouraged to complete MATH 1019 Mathematics for Engineers 2 during the Summer session.

Students who finish MATH 1021 Mathematics for Engineers Preliminary will then use this subject as an elective.

Start-year intake

| Course | Title | Credit Points |
|--------------------------------------|--|---------------|

Mathematics Teaching Specialisation (Birth - 5/Birth - 12), Minor

Western Sydney University Minor Code: 0157

Previous Code: SM1149.1

Available to students in other Western Sydney University programs?
No

Students enrolled in the 1708 Bachelor of Arts (Pathway to Teaching Birth-5/Birth-12) will complete two subjects in Year 3 from either the Mathematics or English Specialisation teaching subject sets in order to complete four minor subjects and meet the BA component of the NESA teaching minor. Together with completion of subjects in the Master of Teaching (Birth-5 Years/Birth-12 Years) students are enabled to graduate from the Master of Teaching (Birth-5 Years/Birth-12 Years) with a Primary Teaching Specialisation.

Mathematics, Major

Western Sydney University Major Code: 0059

Previous Code: M3054.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

Mathematics is essential for modelling phenomena in various fields, so many employers these days set a lot of store by mathematical skills. This major covers some basics, but it also allows you to choose topics on which you want to focus. No matter what your area of study is, if you have an interest in mathematics, this major gives you the opportunity to use the elective space in your program to pick up additional skills that will be useful throughout your career. Prospective teachers can tailor this major to meet the NESA requirements for "Mathematics" as first teaching area.

| Parramatta Campus - Victoria Road | Internal | bict@westernsydney.edu.au |

Major Structure

Students must complete a total of eight subjects at Levels 1, 2, and 3, including no more than three subjects at Level 1 and at least three subjects at Level 3, taking into account any prerequisite requirements of individual subjects.

| Subject | Title | Credit Points |
|---|-----------------------------|---------------|
| Level 1 | | |
| No more than three subjects at Level 1 may be included. | | |
| MATH 1006 | Discrete Mathematics | |
| MATH 1014 | Mathematics 1A | 10 |
| MATH 1015 | Mathematics 1B | 10 |
| MATH 1028 | Statistical Decision Making | 10 |
| Level 2 | | |

| | | |
|--|--------------------------|-----------|
| MATH 2001 | Advanced Calculus | |
| MATH 2003 | Differential Equations | |
| MATH 2010 | Linear Algebra | 10 |
| COMP 2023 | Mathematical Programming | 10 |
| Level 3 | | |
| At least three subjects at Level 3 must be included. | | |
| MATH 3003 | Analysis | |
| MATH 3006 | Mathematical Modelling | |
| MATH 3015 | Groups and Symmetry | 10 |
| MATH 3013 | Fields and Equations | 10 |
| MATH 3012 | Combinatorics | 10 |
| Total Credit Points | | 80 |

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

Employers these days set a lot of store by mathematical skills, even for jobs that may not sound at all like "maths", such as certain marketing jobs. Having some background in mathematical thinking can make the difference between being stumped by a problem and seeing a solution. No matter what your area of study is, this minor gives you the opportunity to use some of the elective space in your program to pick up additional skills that will be useful throughout your career. Prospective teachers can tailor this minor to meet the NESA requirements for "Mathematics" as additional teaching area.

Major Structure

Students must complete 100 credit points as follows.

| Subject | Title | Credit Points | |
|---|---|---------------|------------|
| Complete the following core double major subjects: | | | |
| MECH 7007 | Mechanical System Design | 10 | |
| MECH 7008 | Mechatronic System Design | 10 | |
| MECH 7003 | Advanced Dynamic Systems | 10 | |
| MECH 7005 | Advanced Robotics | 10 | |
| Select three of the following Mechanical alternate major subjects: 30 | | | |
| MECH 7002 | Advanced Computer Aided Engineering | 30 | |
| MECH 7001 | Advanced Computational Fluid Dynamics | | |
| MECH 7006 | Advanced Thermal and Fluid Engineering | | |
| CIVL 7005 | Advanced Numerical Methods in Engineering | 30 | |
| Select three of the following Mechatronic alternate major subjects: 30 | | | |
| ELEC 7001 | Advanced Control Systems | | 30 |
| ELEC 7003 | Advanced Electrical Machines and Drives | | |
| MECH 7004 | Advanced Mobile Robotics | 30 | |
| ELEC 7008 | Instrumentation and Measurement (PG) | | |
| ENGR 7024 | Advanced Biomedical Electronics | 30 | |
| Total Credit Points | | | 100 |

Mechanical Engineering, Testamur Major

Western Sydney University Major Code: T103

Previous Code: KT3173.1, MT3054

Available to students in other Western Sydney University programs?

No

Mechanical engineering is a dynamic area involving the design and build of moving machines including engines that power transportation, industrial machinery, and a range of tools. Students put the core concepts of mechanical engineering, energy, thermodynamics, mechanics, kinematics, and fluid mechanics, into practical application in workshops, industry projects, and work integrated learning. Students design and construct machines and tools, monitor and evaluate their performance. Employment opportunities include automotive or mechanical engineer, control and instrumentation engineer. This major includes a mandatory 12 weeks of industrial placement as a completion requirement.

Recommended Sequence

This major is included in Bachelor of Engineering Science, Bachelor of Engineering (Honours), Bachelor of Engineering Advanced (Honours) and Bachelor of Engineering (Honours)/Bachelor of Business.

Please follow the recommended sequence for your course as noted below.

Bachelor of Engineering Advanced (Honours)

This Major will be offered at Engineering Innovation Hub which is part of Parramatta City campus.

Qualification for this award requires the successful completion of 320 credit points which include the subjects listed below.

Start-year intake

| Course | Title | Credit Points |
|--|--|---------------|
| Year 1 | | |
| Autumn session | | |
| MATH 1034 | Mathematics for Engineers 1 (Advanced) | 10 |
| ENGR 1024 | Introduction to Engineering Practice | 10 |
| ENGR 1047 | Advanced Engineering Physics 1 | 10 |
| ENGR 1045 | Engineering Programming Fundamentals | 10 |
| Credit Points | | 40 |
| Spring session | | |
| ELEC 1009 | Electrical Circuit Fundamentals | 10 |
| MATH 1035 | Mathematics for Engineers 2 (Advanced) | 10 |
| ENGR 1018 | Fundamentals of Mechanics | 10 |
| MANU 2001 | Design and Manufacturing | 10 |
| Credit Points | | 40 |
| Year 2 | | |
| Autumn session | | |
| ENGR 2027 | Engineering Design | 10 |
| MECH 2003 | Mechanics of Materials | 10 |
| MECH 2001 | Kinematics and Kinetics of Machines | 10 |
| CIVL 2003 | Fluid Mechanics | 10 |
| Credit Points | | 40 |
| Spring session | | |
| MECH 2005 | Mathematics for Mechanical and Mechatronic Engineers | 10 |
| MECH 3008 | Thermodynamics and Heat Transfer | 10 |
| ENGR 2025 | Design Graphics: Engineering Documentation | 10 |
| Select one elective | | 10 |
| Students who fail to maintain a minimum GPA of 5.0 at the end of completion of 160 Credit Points, and again at the completion of 200 Credit points will be automatically transferred to the B. Engineering (Honours) (3740) program. | | |
| Credit Points | | 40 |
| Year 3 | | |
| Autumn session | | |
| MECH 3002 | Advanced Mechanics of Materials | 10 |
| MECH 3005 | Mechanical Design | 10 |
| Select one Alternate Subject | | 10 |
| Select one elective | | 10 |
| Credit Points | | 40 |

| | | |
|------------------------------|-------------------------------------|-----------|
| Spring session | | |
| MECH 3007 | Thermal and Fluid Engineering | 10 |
| MECH 3006 | Mechatronic Design | 10 |
| ENGR 3020 | Numerical Methods in Engineering | 10 |
| Select one Alternate Subject | | 10 |
| Industrial Experience | | |
| ENGR 3017 | Industrial Experience (Engineering) | 0 |
| Credit Points | | 40 |

| | | |
|------------------------------|---|-----------|
| Year 4 | | |
| Autumn session | | |
| MECH 4004 | Robotics | 10 |
| ENGR 4037 | Advanced Engineering Thesis 1: Preliminary Investigations | 10 |
| Select one Alternate Subject | | 20 |
| Select one elective | | |
| Credit Points | | 40 |

| | | |
|------------------------------|--|------------|
| Spring session | | |
| MECH 4002 | Computer Aided Engineering | 10 |
| ENGR 4036 | Advanced Engineering Thesis 2: Detailed Investigations | 10 |
| Select one Alternate Subject | | 20 |
| Select one elective | | |
| Credit Points | | 40 |
| Total Credit Points | | 320 |

Alternate Subjects

| Subject | Title | Credit Points |
|-----------|--|---------------|
| ENGR 3025 | Designing for Circular Economy (Advanced) | 10 |
| ENGR 2024 | Design Graphics: Communication for Manufacture | 10 |
| ENGR 2022 | Design Practice: Sustainable Manufacturing | 10 |

| Subject | Title | Credit Points |
|-----------|---------------------------|---------------|
| ENGR 3022 | Special Technical Project | 10 |

Equivalent Subjects

The subjects listed below count towards completion of this program for students who passed these subjects in 2021 or earlier.

MECH 4005 Advanced Engineering Thesis 1: Preliminary Investigations, replaced by ENGR 4037 Advanced Engineering Thesis 1: Preliminary Investigations

MECH 4006 Advanced Engineering Thesis 2: Detailed Investigations, replaced by ENGR 4036 Advanced Engineering Thesis 2: Detailed Investigations

Bachelor of Engineering Science

This Major will be offered at Parramatta City, Penrith and Sydney City campuses.

Qualification for this award requires the successful completion of 240 credit points which include the subjects listed in the recommended sequences below.

Start-year intake

| Course | Title | Credit Points |
|------------------------------|---------------------------------------|---------------|
| Year 1 | | |
| Autumn session | | |
| ELEC 1006 | Engineering Computing | 10 |
| ENGR 1011 | Engineering Physics | 10 |
| ENGR 1024 | Introduction to Engineering Practice | 10 |
| Select one of the following: | | 10 |
| MATH 1021 | Mathematics for Engineers Preliminary | |
| MATH 1016 | Mathematics for Engineers 1 | |

Note: All students are required to enrol in MATH 1021 Mathematics for Engineers Preliminary first and undertake a readiness test at the beginning of their study.

This test will be conducted at the beginning of the first semester of enrolment and the result will determine whether a student will remain in MATH 1021 Mathematics for Engineers Preliminary or be transferred by the School to MATH 1016 Mathematics for Engineers 1.

The students who finish MATH 1021 Mathematics for Engineers Preliminary will then use this unit as an elective.

Credit Points 40

Spring session

| | | |
|------------------------------|---------------------------------------|----|
| ENGR 1018 | Fundamentals of Mechanics | 10 |
| PROC 1008 | Introduction to Materials Engineering | 10 |
| Select one of the following: | | 10 |
| MATH 1016 | Mathematics for Engineers 1 | |
| MATH 1019 | Mathematics for Engineers 2 | |
| Select one elective | | 10 |

Note: Students who remained in MATH 1021 Mathematics for Engineers Preliminary during the first semester will be required to complete MATH 1016 Mathematics for Engineers 1 during second semester.

These students must then complete MATH 1019 Mathematics for Engineers 2 during the Summer session.

Credit Points 40

Year 2

Autumn session

| | | |
|-----------|-------------------------------------|----|
| MECH 2001 | Kinematics and Kinetics of Machines | 10 |

Total Credit Points **400**

Equivalent Subjects

The subjects listed below count towards completion of this program for students who passed these subjects in Autumn 2022 or earlier.

ENGR 1008 - Engineering Materials, replaced by PROC 1008 - Introduction to Materials Engineering

Bachelor of Engineering (Honours)

Qualification for this award requires the successful completion of 320 credit points, which include the subjects listed in the recommended sequence below.

Start-year intake

| Course | Title | Credit Points |
|------------------------------|---------------------------------------|---------------|
| Year 1 | | |
| Autumn session | | |
| Select one of the following: | | 10 |
| MATH 1021 | Mathematics for Engineers Preliminary | |
| MATH 1016 | Mathematics for Engineers 1 | |
| ELEC 1006 | Engineering Computing | 10 |
| ENGR 1011 | Engineering Physics | 10 |
| ENGR 1024 | Introduction to Engineering Practice | 10 |
| Credit Points | | 40 |
| Spring session | | |
| Select one of the following: | | 10 |
| MATH 1016 | Mathematics for Engineers 1 | |
| MATH 1019 | Mathematics for Engineers 2 | |
| ENGR 1018 | Fundamentals of Mechanics | 10 |
| PROC 1008 | Introduction to Materials Engineering | 10 |
| Select one elective | | 10 |

| | | |
|--------------------------------------|--|------------|
| • Elective must be Level 1 or higher | | |
| | Credit Points | 40 |
| Year 2 | | |
| Autumn session | | |
| MECH 2001 | Kinematics and Kinetics of Machines | 10 |
| MECH 2003 | Mechanics of Materials | 10 |
| CIVL 2003 | Fluid Mechanics | 10 |
| ENGR 2025 | Design Graphics: Engineering Documentation | 10 |
| | Credit Points | 40 |
| Spring session | | |
| MECH 3004 | Dynamics of Mechanical Systems | 10 |
| ENGR 2001 | Automated Manufacturing | 10 |
| MECH 3008 | Thermodynamics and Heat Transfer | 10 |
| MECH 2003 | Mechanics of Materials | 10 |
| | Credit Points | 40 |
| Year 3 | | |
| Autumn session | | |
| MECH 3005 | Mechanical Design | 10 |
| MECH 3001 | Advanced Dynamics | 10 |
| One alternate subject | | 10 |
| Select one elective | | 10 |
| • Elective must be Level 2 or higher | | |
| | Credit Points | 40 |
| Spring session | | |
| MECH 3007 | Thermal and Fluid Engineering | 10 |
| ENGR 3020 | Numerical Methods in Engineering | 10 |

Associate Degree in Engineering

The Associate Degree in Engineering is a two-year program (full-time) in Engineering designed for people who have workplace experience and wish to upgrade their qualifications in Engineering and possibly continue to the full Bachelor degree program. The Associate Degree in Engineering has a common first year program for all engineering disciplines, exposing students to a wide range of experiences in the first year. In the second year students may choose from the majors in Civil, Electrical, Mechanical or Robotics & Mechatronics. If students choose to apply to study in the the Bachelor of Engineering (Honours) after graduating from the Associate Degree in Engineering they may be given advanced standing in up to 12 subjects.

- Diploma in Aerotropolis Industry 4.0 (Mechatronics Skills)/Bachelor of Engineering Science

- Diploma in Engineering/Bachelor of Engineering Studies

In addition to providing training in conventional mechanical engineering subjects, the major introduces students to subjects of study that address sustainability including sustainable design and sustainable energy engineering. Graduates will be well equipped with broad-based skills that meet the demand of Australian industries and are conscious of the need to promote sustainable design and practices. Examples include mechanical and machinery design; manufacturing; energy production; and marketing and management activities. Skills gained are required in industries such as manufacturing, materials handling, automobile, aerospace, mining, building services and infrastructure development.

Associate Degree in Engineering

Major Structure

| Subject | Title | Credit Points |
|--|---|---------------|
| Students must complete three subjects as follows | | |
| MECH 3009 | Thermodynamics and Heat Transfer (WSTC AssocD) | 10 |
| AND select two subjects from the following: | | 20 |
| MECH 2004 | Mechanics of Materials (WSTC AssocD) | |
| CIVL 2004 | Fluid Mechanics (WSTC AssocD) | |
| MECH 2002 | Kinematics and Kinetics of Machines (WSTC AssocD) | |
| MATH 1020 | Mathematics for Engineers 2 (WSTC AssocD) | |
| Please note: Offerings of alternate units are dependent on there being sufficient student enrolment numbers. If enrolments are low, the College may cancel delivery of the alternate unit. | | |
| Total Credit Points | | 30 |

Bachelor of Engineering (Honours)

Major Structure

Qualification for this award requires the successful completion of 320 credit points, which include the subjects listed in the recommended sequence below.

Full-time start-year intake

* All students undertaking the Bachelor of Engineering (Honours) are required to enrol in MATH 1021 Mathematics for Engineers Preliminary and undertake a readiness test at the beginning of their study.

The readiness test will be conducted at the beginning of the first semester of enrolment and the result will be used to determine whether a student will remain in MATH 1021 Mathematics for Engineers Preliminary or be transferred by the School to MATH 1016 Mathematics for Engineers 1.

Students remaining in MATH 1021 Mathematics for Engineers Preliminary will be required to complete MATH 1016 Mathematics for Engineers 1 during second semester and will be encouraged to complete MATH 1019 Mathematics for Engineers 2 during the Summer session.

| Course | Title | Credit Points |
|-----------------------|-----------------------|---------------|
| Year 1 | | |
| Autumn session | | |
| ELEC 1006 | Engineering Computing | 10 |

| | | |
|------------------------------|---------------------------------------|-----------|
| ENGR 1011 | Engineering Physics | 10 |
| ENGR 1024 | Introduction to Engineering Practice | 10 |
| Select one of the following: | | 10 |
| MATH 1021 | Mathematics for Engineers Preliminary | |
| MATH 1016 | Mathematics for Engineers 1 | |
| Credit Points | | 40 |

Spring session

| | | |
|----------------------|---------------------------------------|-----------|

| Credit Points | | 40 |

Spring session

| | | |
|--|----------------------------------|-----------|
| MECH 3004 | Dynamics of Mechanical Systems | 10 |
| ENGR 2001 | Automated Manufacturing | 10 |
| MECH 3008 | Thermodynamics and Heat Transfer | 10 |
| MECH 3002 | Advanced Mechanics of Materials | 10 |
| Students may transfer to 3691 Bachelor of Engineering Science at the end of Year 2 of study. | | |
| Credit Points | | 40 |

Year 3

Autumn session

| | | |
|---|-------------------|-----------|
| MECH 3005 | Mechanical Design | 10 |
| MECH 3001 | Advanced Dynamics | 10 |
| Major Alternate Subject | | 10 |
| Select one elective | | 10 |
| *Elective subjects must be level 2 or higher (an exception applies for students completing Mathematics for Engineers Preliminary subject) | | |
| Credit Points | | 40 |

Spring session

| | | |
|------------------------------|-------------------------------------|-----------|
| MECH 3007 | Thermal and Fluid Engineering | 10 |
| ENGR 3020 | Numerical Methods in Engineering | 10 |
| MECH 3006 | Mechatronic Design | 10 |
| Major Alternate Subject | | 10 |
| Industrial Experience | | |
| ENGR 3017 | Industrial Experience (Engineering) | 0 |
| Credit Points | | 40 |

Year 4

Autumn session

| | | |
|---|---------------------------------------|-----------|
| MECH 4004 | Robotics | 10 |
| ENGR 4025 | Final Year Project 1 (UG Engineering) | 10 |
| Major Alternate Subject | | 10 |
| Select one elective | | 10 |
| *Elective subjects must be level 2 or higher (an exception applies for students completing Mathematics for Engineers Preliminary subject) | | |
| Credit Points | | 40 |

| | | |
|---|---------------------------------------|------------|
| Spring session | | |
| MECH 4002 | Computer Aided Engineering | 10 |
| ENGR 4026 | Final Year Project 2 (UG Engineering) | 10 |
| Major Alternate Subject | | 10 |
| Select one elective | | 10 |
| *Elective subjects must be level 2 or higher (an exception applies for students completing Mathematics for Engineers Preliminary subject) | | |
| Credit Points | | 40 |
| Total Credit Points | | 320 |

Alternate Subjects

Alternate subjects may be used to complete one of the minors listed below.

| Subject | Title | Credit Points |
|-----------|--|---------------|
| HLTH 2003 | Biomechanics | 10 |
| ENGR 4038 | Biomedical Electronics | 10 |
| ENGR 3004 | Biomedical Signals and Data Analysis | 10 |
| MECH 4001 | Computational Fluid Dynamics | 10 |
| ENGR 2024 | Design Graphics: Communication for Manufacture | 10 |
| ENGR 2013 | Graphics 4: Kinetic Narratives | 10 |
| INFO 3003 | Human-Computer Interaction | 10 |
| BIOS 1022 | Introduction to Human Biology | 10 |
| ELEC 2008 | Microcontrollers and PLCs | 10 |
| MECH 4003 | Mobile Robotics | 10 |
| ENGR 3025 | Designing for Circular Economy (Advanced) | 10 |

Equivalent Subjects

The subjects listed below count towards completion of this major for students who passed these subjects in 2019 or earlier

- ENGR 2011 - Graphics 2: Visual Simulation
- ENGR 2012 - Graphics 3: 3D Engineering Specifications and Visualisation

The subjects listed below count towards completion of this program for students who passed these subjects in Autumn 2022 or earlier.

- ENGR 1008 - Engineering Materials, replaced by PROC 1008 - Introduction to Materials Engineering

Minors

- Automation, Minor (p. 762)
- Biomedical Engineering, Minor (p. 764)
- Computer Aided Design (Mechanical), Minor (p. 795)

Bachelor of Engineering Science

Major Structure

Students choose their key program at the end of first year. Mechanical engineering students will then undertake the following subjects.

Full-time start-year intake

| Course | Title | Credit Points |
|-----------------------|-------------------------------------|---------------|
| Year 2 | | |
| Autumn session | | |
| MECH 2001 | Kinematics and Kinetics of Machines | 10 |

| CIVL 2003 | Fluid Mechanics | 10 |

| | | |
|---|--|----|
| ENGR 2024 | Design Graphics: Communication for Manufacture | 10 |
| From 2020 ENGR 2012 Graphics 3: 3D Engineering Specifications and Visualisation was replaced by ENGR 2024 Design Graphics: Communication for Manufacture. | | |

| Credit Points | | 40 |
|------------------------------|-------------------------------------|-----------|
| Spring session | | |
| MECH 3004 | Dynamics of Mechanical Systems | 10 |
| ENGR 2001 | Automated Manufacturing | 10 |
| MECH 3008 | Thermodynamics and Heat Transfer | 10 |
| MECH 3002 | Advanced Mechanics of Materials | 10 |
| Industrial Experience | | |
| ENGR 3017 | Industrial Experience (Engineering) | 0 |
| Credit Points | | 40 |

| | | |
|--|-------------------------------|-----------|
| Year 3 | | |
| Autumn session | | |
| MECH 3005 | Mechanical Design | 10 |
| MECH 3001 | Advanced Dynamics | 10 |
| ENGR 3013 | Engineering Science Project 1 | 10 |
| Select one elective | | 10 |
| *Elective subjects must be level 2 or higher | | |
| Credit Points | | 40 |

| | | |
|--|----------------------------------|------------|
| Spring session | | |
| MECH 3007 | Thermal and Fluid Engineering | 10 |
| ENGR 3020 | Numerical Methods in Engineering | 10 |
| ENGR 3014 | Engineering Science Project 2 | 10 |
| Select one elective | | 10 |
| *Elective subjects must be level 2 or higher | | |
| Credit Points | | 40 |
| Total Credit Points | | 160 |

Optional Elective

The following subject is an optional elective subject offered to students who are engaged in a School approved project. This subject can be taken during the third year of this course, however, permission is required to enrol in the subject.

ENGR 3022 Special Technical Project

- Diploma in Aerotropolis Industry 4.0 (Mechatronics Skills)/Bachelor of Engineering Science - Diploma in Engineering/Bachelor of Engineering Studies

Full-time start-year intake

| Course | Title | Credit Points |
|-----------------------|-------------------------------------|---------------|
| Year 2 | | |
| Autumn session | | |
| MECH 2001 | Kinematics and Kinetics of Machines | 10 |

| ENGR 3014 | Engineering Science Project 2 | 10 |
| ENGR 2024 | Design Graphics: Communication for Manufacture | 10 |
| Credit Points | | 40 |
| Total Credit Points | | 160 |

Equivalent Subjects

The subjects listed below count towards completion of this major for students who passed these subjects in 2019 or earlier.

ENGR 2012 - Graphics 3: 3D Engineering Specifications and Visualisation

Optional Elective

The following subject is an optional elective subject offered to students who are engaged in a School approved project. This subject can be taken during the third year of this course, however, permission is required to enrol in the subject.

ENGR 3022 Special Technical Project

- Graduate Certificate in Engineering
- Graduate Diploma in Engineering (exit only)
- Master of Engineering

Postgraduate Major Structure

To complete some of the components within the subjects in this major, students may be required to travel to other Western Sydney University campuses.

Mechanical Major Alternate Subjects

Specialist alternate subject offerings are subject to sufficient student demand and may not be offered annually.

Students enrolled in 3693 Master of Engineering choose seven major subjects from the list below

Students exiting with 3694 Graduate Diploma in Engineering (exit only) choose six major alternate subjects

Students enrolled in 3695 Graduate Certificate in Engineering choose four major alternate subject

| Subject | Title | Credit Points |
|-----------|---|---------------|
| MECH 7002 | Advanced Computer Aided Engineering | 10 |
| MECH 7001 | Advanced Computational Fluid Dynamics | 10 |
| MECH 7003 | Advanced Dynamic Systems | 10 |
| CIVL 7005 | Advanced Numerical Methods in Engineering | 10 |
| MECH 7005 | Advanced Robotics | 10 |

| | | |
|-----------|--|----|
| MECH 7006 | Advanced Thermal and Fluid Engineering | 10 |
| MECH 7007 | Mechanical System Design | 10 |
| MECH 7008 | Mechatronic System Design | 10 |

Microbiology, Minor

Western Sydney University Minor Code: 0105

Previous Code: SM3044.1

Available to students in other Western Sydney University

Programs: Yes, however the following restrictions apply.

The Microbiology minor is available to all undergraduate students except those enrolled in the Microbiology major.

Microorganisms impact on all aspects of our lives. A microbiology sub-major will equip students with the skills and knowledge of microbiology and molecular microbiology relevant to employment in research

laboratories and industries including biotechnology companies, medical and environmental laboratories, food, wine and pharmaceutical companies, quality assurance and scientific sales.

Location

| Campus | Mode | Advice |
|------------|----------|---|
| Hawkesbury | Internal | Dr Ryan McQuinn (R.Mcquinn@westernsydney.edu.au) |

Minor Structure

Students must complete four subjects as follows.

| Subject | Title | Credit Points |
|----------------------------|-------------------------|---------------|
| Level 2 | | |
| BIOS 2022 | Microbiology 1 | 10 |
| BIOS 2024 | Microbiology 2 | 10 |
| Level 3 | | |
| BIOS 3004 | Analytical Microbiology | 10 |
| NATS 3030 | Medical Microbiology | 10 |
| Total Credit Points | | 40 |

Mobile Application Development (for Non-Computing Students only), Minor

Western Sydney University Minor Code: 0207

Previous Code: SM3058.1

Available to students in other Western Sydney University

Programs: Yes, however the following restrictions apply.

This minor covers theories and technologies used for the development of distributed applications for hand-held mobile devices. Students completing this minor will understand and apply the advanced principles related to mobile: hardware devices, user interface design, data storage and transmission, and communication networks. This minor is only available for non-computing students. Students enrolled in Bachelor of Information and Communications Technology (p. 189), Bachelor of Information and Communications Technology (Advanced) (p. 193), Bachelor of Computer Science (p. 109), Bachelor of Computer Science (Advanced) (p. 112), Bachelor of Information Systems (p. 207) or Bachelor of Information Systems Advanced (p. 210) are not permitted to take this minor.

Mobile Computing, Major

Western Sydney University Major Code: 0146

Previous Code: M3074.1

Available to students in other Western Sydney University programs?
No

This major is only available to students enrolled in the Bachelor of Information and Communications Technology (p. 189), Bachelor of Information and Communications Technology (Advanced) (p. 193), Bachelor of Computer Science (p. 109), Bachelor of Computer Science (Advanced) (p. 112), Bachelor of Information Systems (p. 207) or Bachelor of Information Systems (Advanced) (p. 210).

This major covers theories and technologies used for the development of distributed applications for hand-held mobile devices. Students completing this major will understand the advanced principles related to mobile hardware devices, data storage and transmission, and communication networks. In addition they will identify, analyse, and formulate solutions to real-world problems in the mobile domain. In devising these solutions students will also consider principles associated with user interface design, professional and ethical issues, in particular those relating to security and privacy of user data and user behaviour related to mobile devices and its applications.

Modern History, Major

Western Sydney University Major Code: 0130

Previous Code: M1136.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

Modern History includes the studies of societies, states and cultures since the Middle Ages and equivalent periods elsewhere. It provides important insights into the nature of the modern world, and into the origins of the features of modern life we now think of as 'global'. Modern History is an important teaching area for students heading into for Secondary Teaching: the purpose of this major is to group together all of the subjects which count as Modern History for the purposes of the Master of Teaching program and the Institute of Teaching. Successful completion of the Modern History major will count as a first teaching area for Secondary Teaching. Note that there is a wider list of history subjects available in the History and Political Thought major.

Major Structure

Students must complete 80 credit points as follows.

Students must complete the following compulsory subjects.

| Subject | Title | Credit Points |
|-----------|--|---------------|
| HUMN 3104 | Historical Methodologies | 10 |
| HUMN 2067 | History of the Ancient World | 10 |
| HUMN 1039 | Modern European History and Politics | 10 |
| HUMN 1054 | When Worlds Collide: European Empires and the World, c.1600-1950 | 10 |

Students must also complete four subjects from the following Modern History pools, with a minimum of two subjects at Level 3. It is also strongly recommended that students select at least one Australian history subject.

Note: Not all subjects will be offered each year. Subjects will be offered on a rotational basis.

| Subject | Title | Credit Points |
|-----------------------------|--|---------------|
| Level 2 Subject Pool | | |
| HUMN 2001 | A History of Modern Global Buddhism | 10 |
| HUMN 2034 | Keeping the Past | 10 |
| Level 3 Subject Pool | | |
| POLI 3004 | American Foreign Policy Since 1945 | 10 |
| HUMN 3013 | Australian Colonial History | 10 |
| HUMN 3015 | Australian History Around Us | 10 |
| HUMN 3017 | Australian Indigenous History from Federation to Reconciliation | 10 |
| HUMN 3018 | Australian Indigenous History: From first contact to 'dying race' | 10 |
| HUMN 3019 | Britain in the Age of Botany Bay, 1760-1815 | 10 |
| HUMN 3024 | Comparative Nationalism | 10 |
| HUMN 3026 | Convicts and Settlers - Australian History 1788 - 1840 | 10 |
| HUMN 3032 | Dictators, Democrats and Dreamers: Indonesia 1942 to now | 10 |
| HUMN 3035 | Enlightenment and Revolution | 10 |
| HUMN 3039 | Food: A Cultural History | 10 |
| HUMN 3040 | From Vindication to Liberation: A Comparative History of Feminism | 10 |
| HUMN 3046 | History of Modern China to 1949 | 10 |
| HUMN 3047 | History of Muslim Civilisations and Ideas | 10 |
| HUMN 3111 | History of the People's Republic of China | 10 |
| HUMN 3115 | Medieval Europe from the Fall of the Roman Empire to the Reformation | 10 |
| HUMN 3060 | Modern Japanese History | 10 |
| HUMN 3062 | Napoleon: the Making of a Legend | 10 |
| HUMN 3076 | Sultans, Colonists and Nationalists: Indonesia C1200-1942 | 10 |
| HUMN 3080 | The History of Southeast Asia | 10 |

| | | |
|-----------|---|----|
| HUMN 3081 | The International Relations of the Middle East Since 1945 | 10 |
| HUMN 3087 | Twentieth Century Australia | 10 |
| HUMN 3093 | War | 10 |
| HUMN 3094 | War and Society in the Twentieth Century | 10 |
| HUMN 3092 | WWII in Asia and the Pacific | 10 |

Equivalent Subjects

The subjects listed below count towards completion of this Major for students who passed these subjects in 2021 or earlier.

HUMN 3010 - American History, 1898-1945, no longer offered.
HUMN 2043 - Religion and the Origins of Modern Science, no longer offered.

Music for Primary Teaching, Minor

Western Sydney University Minor Code: 0210

Previous Code: SM1082.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

The minor, Music for Primary Teaching, offers students experience in composition, sound technology, performance and either research or community engagement. This minor in music is designed to facilitate the teaching of music in the primary classroom, in particular, to enhance skills in performing (singing, playing), listening and composing (organising sound) within a wide range of repertoire and situated in a theoretical context. The music subjects are only available at the Penrith campus.

Location

| Campus | Mode | Advice |
|----------------|----------|-----------------------------------|
| Penrith Campus | Internal | EnquiriesHCA@westernsydney.edu.au |

Minor Structure

Please note: All students should seek program advice from Music staff prior to enrolling in any subjects in this minor. Subject selection is dependent on the level of knowledge of music notation theory and the outcome of a performance audition. Several subjects in this minor have pre-requisite requirements which can be waived on a case-by-case basis, once the existing levels of applicable skills and knowledge have been assessed.

Students must complete 40 credit points as follows

| Subject | Title | Credit Points |
|------------------------------|---|---------------|
| PERF 2016 | Music Group Performance | 10 |
| PERF 1014 | Music Production | 10 |
| Select one of the following: | | 10 |
| PERF 2004 | Composition and Creativity | |
| PERF 1024 | Music Theory and Songwriting | |
| PERF 1015 | Music Theory Fundamentals | |
| Select one of the following: | | 10 |
| PERF 3009 | Music Careers Research | |
| PERF 3029 | Music Project 3: Intercultural Interactions | |
| Total Credit Points | | 40 |

Equivalent Subjects

The subjects listed below count towards completion of this minor for students who passed these subjects in 2021 or earlier.

PERF 1001 Basic Composition, Craft and Theory, replaced by PERF 1015 Music Theory Fundamentals
 PERF 2003 Collaboration and Live Music Performance, replaced by PERF 2016 Music Group Performance

Music for Secondary Teaching, Major

Western Sydney University Major Code: 0140

Previous Code: M1130.1

Available to students in other Western Sydney University programs?

No

The major, Music for Secondary Teaching, fulfils the NESA requirements to teach music in secondary schools. It offers students experience in composition, musicology (Western art music history) and performance. It covers a range of musical styles, periods and genres with a strong component of contemporary music and Western art music. An audition is a pre-requisite for the first performance subject, and entry into Songwriting and Music Theory assumes a working knowledge of music notation theory, assessable through a screening test. These music subjects are only available at the Penrith campus.

Location

| Campus | Mode | Advice |
|----------------|----------|---|
| Penrith Campus | Internal | Clare Maclean (https://directory.westernsydney.edu.au/old/srchprocess_handbook.php?a_value=c.maclean@westernsydney.edu.au) |

Special Requirement

Students undertaking this major will be selected by one of three methods:

1. Attain an HSC Music result in band 4 or above. No audition is required.
2. Hold the following AMEB or equivalent (e.g. Trinity College) qualification:

- a. PASS standard (minimum) of 6th Grade Performance (instrument or voice) AND
- b. PASS standard (minimum) of 4th Grade musicianship and/or theory.

No audition is required.

3. Attend an audition in person as a performer and/or composer. Applicants applying as a composer will need to bring recordings and/or scores of original compositions to the audition. After applying to UAC or Directly to Western applicants are required to book an audition online.

Online audition booking system (<https://admissions.westernsydney.edu.au/>)

If not auditioning, applicants will need to upload their supporting documentation (e.g. AMEB certificates demonstrating level of achievement in performance and musicianship and/or music theory).

Major Structure

Note: Students must sit a screening test prior to enrolling in subject PERF 1024 Music Theory and Songwriting **or perform an audition prior to enrolling in subjects** PERF 1010 Music Performance 1 **or** PERF 1012 Music Performance 2.

Music Performance Studies, Minor

Western Sydney University Minor Code: 0024

Previous Code: SM1047.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

The Music Performance Studies minor provides students from outside the Music program with a thorough grounding in a variety of group music making practices as well as offering the framework for self-directed musical projects. A number of approaches to writing about music performance are also covered, from theoretical approaches to proposal and review writing. Studies of stagecraft and collaboration further inform students in the music performance stream, who are also encouraged to discover and develop new hybrids.

Music Performance, Major

Western Sydney University Major Code: 0023

Previous Code: M1115.1

Available to students in other Western Sydney University programs?
 No

The Music Performance major provides students with the opportunity to develop their professional and creative potential in making and appreciating a range of different kinds of music. Students will gain practical experience in performance as a soloist and in groups, and through improvising and collaborating.

Location

| Campus | Mode | Advice |
|----------------|----------|-------------------------|
| Penrith Campus | Internal | enquiriesHCA@uws.edu.au |

Special Requirement

Students undertaking this major will be selected by one of three methods:

1. Attain an HSC Music result in band 4 or above. No audition is required.
2. Hold the following AMEB or equivalent (e.g. Trinity College) qualification:
 - a. PASS standard (minimum) of 6th Grade Performance (instrument or voice) and
 - b. PASS standard (minimum) of 4th Grade musicianship and/or theory.

No audition is required.
3. Attend an audition in person as a performer and/or composer. Applicants applying as a composer will need to bring recordings and/or scores of original compositions to the audition. After applying to UAC or Directly to Western applicants are required to book an audition online.

Online audition booking system (<http://www.admissions.westernsydney.edu.au/>)

If not auditioning, applicants will need to upload their supporting documentation (e.g. AMEB certificates demonstrating level of achievement in performance and musicianship and/or music theory).

Major Sequence

Students must complete 80 credit points as follows

Please note: Students will complete one of these two subjects only - PERF 1015 Music Theory Fundamentals, offered in Autumn or PERF 1024 Music Theory and Songwriting, offered in Spring.

| Course | Title | Credit Points |
|-----------------------|---------------------|---------------|
| Year 1 | | |
| AUTUMN SESSION | | |
| PERF 1010 | Music Performance 1 | 10 |

Select one of the following, noting that Music Theory Fundamentals is offered in Autumn, and Music Theory and Songwriting is offered in Spring

| | | |
|----------------------------|---|-----------|
| PERF 1015 | Music Theory Fundamentals | 10 |
| PERF 1024 | Music Theory and Songwriting | |
| SPRING SESSION | | |
| PERF 1012 | Music Performance 2 | 10 |
| Credit Points | | 30 |
| Year 2 | | |
| Autumn session | | |
| PERF 2016 | Music Group Performance | 10 |
| Credit Points | | 10 |
| Spring session | | |
| PERF 2023 | The Composer-Performer | 10 |
| Credit Points | | 10 |
| Year 3 | | |
| Autumn session | | |
| PERF 3028 | Music Project 2: Creative Performance | 10 |
| Credit Points | | 10 |
| Spring session | | |
| PERF 3029 | Music Project 3: Intercultural Interactions | 10 |
| PERF 3030 | Performing as a Professional Musician | 10 |
| Credit Points | | 20 |
| Total Credit Points | | 80 |

Equivalent Major Subjects

The Specialisation units listed below count towards completion of this major for students who passed these units in 2019 or earlier.

PERF 3026 - Applied Professional Music Contexts
 PERF 1001 - Basic Composition, Craft and Theory
 PERF 2003 - Collaboration and Live Music Performance
 PERF 1002 - Composition, Craft and Theory
 PERF 3007 - Expanded Music Performance
 PERF 1007 - Free and Notated Music Performance
 PERF 3027 - Interactive Electronic Media and Performance
 PERF 1008 - Introduction to Music Performance
 PERF 3011 - Music Performance: Repertoire and Identity
 PERF 3019 - Professional Music Project
 PERF 3021 - Repertoire and Identity in Performance
 PERF 1017 - Songwriting and Music Theory
 PERF 3025 - Sound and Performance: Expanded Practice

Music Performance, Minor

Western Sydney University Minor Code: 0023

Previous Code: SM1017.1

Available to students in other Western Sydney University programs?
No

The four subjects in the Music Performance minor offer students opportunities to expand their practice in several ways. Through group rehearsal and performance, and engaging as composer-performer, two subjects explore musical collaboration as performer-performer, and as performer-composer. In self-devised projects in which the student is the featured performer, two subjects encourage engagement with theatrical, multimedia and/or electroacoustic elements and an investigation of one's identity as a performer. Aspects of onstage skills, performance persona and audience communication are addressed. Subjects require writing about performance through concert reviewing, project proposals, reflective and contextual essays. Students receive feedback in all subjects, during the rehearsal process.

Music Production, Minor

Western Sydney University Minor Code: 0079

Previous Code: SM1126.1

Available to students in other Western Sydney University programs?
No

The Music Production minor allows Bachelor of Music (p. 268) students to develop expertise in studio production, digital musicianship and advanced production techniques for performance and screen media composition. The minor focuses on current and future professional applications for music technology and aims to enhance students' digital and technological literacies.

Music, Major

Western Sydney University Major Code: 0209

Previous Code: M1117.1

Available to students in other Western Sydney University programs?
No

The Music major provides students from outside the Music program with a comprehensive introduction to current practice in the fields of music, performance and sound production for sound design, composition and performance. Foundation level subjects examine the fundamentals of music performance, acoustics, stereo recording and mixing, MIDI systems and sequencing, sound synthesis, and composition utilising environmental sound. Technical concepts are contextualised within a survey of electroacoustic music and sonic arts practice. Students will also examine studio techniques, new performance technologies, and composition and design for screen media.

Networked Systems, Major

Western Sydney University Major Code: 0065

Previous Code: M3115.1

Available to students in other Western Sydney University programs?
No

This major is only available to students enrolled in the Bachelor of Computer Science and Bachelor of Computer Science Advanced. This major aims to develop graduates with sound skills in the discipline of networked computer systems. Recent advances in computer and telecommunications networked systems, particularly those based on TCP/IP, have increased the importance of network technologies in the discipline of computer science. This major covers a wide range of topics including computer communication network concepts and

protocols, multimedia systems, Internet standards and technologies, network security, wireless and mobile computing, and distributed systems. The candidates are also introduced to some of the relevant current key research issues of the field.

Networking, Major

Western Sydney University Major Code: 0040

Previous Code: M3109.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

The Networking major provides students with in-depth knowledge for the analysis, design, and implementation of networked systems. It offers students the opportunity to develop the technical skills needed for management and secure operation of a broad range of systems, including LANs, WANs, wireless and mobile networks, and large heterogeneous networks.

Networking, Testamur Major

Western Sydney University Major Code: T009

Previous Code: ST3049.1

Available to students in other Western Sydney University programs?
No

The Networking major is aimed at providing students with knowledge in emerging areas of networking. It focuses on essential fundamentals as well as advanced knowledge on the principles, practices, protocols and standards in some key areas of the networking discipline. This major prepares students for careers in network security and management, multimedia and wireless communications, and other contemporary and emerging networking areas. The major is also designed to introduce students to trends and key research areas in some emerging fields in networking so as to provide students with initial skills and knowledge for future research studies or careers.

Occupational Health and Safety, Testamur Major

Western Sydney University Major Code: T032

Previous Codes: A4050.1, A4051.1, A4052.1

Available to students in other Western Sydney University programs?

No

This major focuses on the practice of workplace health within national and international frameworks. It explores issues such as the physical, social and mental impact of the occupational environment on health. Strategies for the management of workplace health are examined, together with methods of monitoring and evaluating occupational health programs. Students have the opportunity to develop a safety systems program concentrating on hazard identification, risk assessment and devising control measures incorporating safety management principles. Students in this major can further focus their studies in areas relevant workplace health and safety officers, such as project management, and research and development.

Master of Health Science (Occupational Health and Safety) 1 year pathway

Students must complete 80 credit points, as listed below.

| Subject | Title | Credit Points |
|-----------------------------------|--|---------------|
| Domain Subjects | | |
| PUBH 7016 | Introduction to Epidemiology | 10 |
| PUBH 7033 | The Social Determinants of Health | 10 |
| Specialisation Core | | |
| HLTH 7022 | Advanced Health Service Management | 10 |
| PUBH 7018 | Leadership for Quality and Safety in Health Care | 10 |
| POLI 7002 | Translation from Theory and Research to Policy | 10 |
| PUBH 7034 | Workplace Safety and Risk Management | 10 |
| Capstone /Applied Subjects | | |
| HLTH 7027 | Professional Project in Health 1 | 20 |
| Total Credit Points | | 80 |

Further information on recommended progression is available on the Postgraduate Health Science progression page.

Postgraduate Health Science Progression (https://www.westernsydney.edu.au/__data/assets/pdf_file/0011/1628291/Proposed_Progression_Postgraduate_Health_Science.pdf)

Master of Health Science (Occupational Health and Safety) 1.5 year pathway

Students must complete 120 credit points, including all the Domain and Specialisation Core Subjects.

| Subject | Title | Credit Points |
|---|--|---------------|
| Domain Subjects | | |
| PUBH 7016 | Introduction to Epidemiology | 10 |
| PUBH 7033 | The Social Determinants of Health | 10 |
| PUBH 7031 | Health Systems and Policy | 10 |
| HLTH 7025 | Healthcare Data for Decision-Making | 10 |
| Specialisation Core | | |

| HLTH 7002 | Building Organisational Capacity in Health Care |
| PUBH 7028 | Surveillance and Disaster Planning |
| HLTH 7008 | Introduction to Biostatistics |
| AGEN 7005 | Research Protocol Design and Practice |
| NURS 7019 | Cultural and Social Diversity in Health Care |
| PUBH 7015 | Introduction to Clinical Epidemiology |
| PUBH 7010 | Epidemiology of Non-Communicable Diseases |
| PUBH 7002 | Analytic Approaches in Epidemiology |
| PUBH 7025 | Statistical Methods in Epidemiology |
| PUBH 7008 | Environmental Epidemiology |
| PUBH 7005 | Controversies in Epidemiology |
| PUBH 7006 | Data Management and Programming for Epidemiology |
| HLTH 7015 | Qualitative Research Methodology in Health |
| BUSM 7078 | Project Management |
| HUMN 4001 | Researcher Development 1: Reading ,Writing, and the Business of Research |
| HUMN 4003 | Writing Beyond the Academy: Knowledge Translation and Public Audience Communication |
| PUBH 7029 | Digital Health Management |
| PUBH 7032 | Patient-centred digital healthcare |
| HLTH 7024 | Health Services Financing |
| HLTH 7029 | Quality and Safety |

| | |
|----------------------------|--|
| PUBH 7030 | Health Systems Planning and Evaluation |
| Total Credit Points | 120 |

Replaced Subjects

The units listed below count towards completion of this major for students who passed these subjects in 2019 or earlier.

HUMN 4009 - Research Design 1: Theories of Enquiry, replaced by HUMN 4001 Researcher Development 1: Reading ,Writing, and the Business of Research

HUMN 4012 - Research Literacies, replaced by HUMN 4003 Writing Beyond the Academy: Knowledge Translation and Public Audience Communication

Further information on recommended progression is available on the Postgraduate Health Science progression page.

Postgraduate Health Science Progression (https://www.westernsydney.edu.au/_data/assets/pdf_file/0011/1628291/Proposed_Progression_Postgraduate_Health_Science.pdf)

Master of Health Science (Occupational Health and Safety) 2 year pathway

Students must complete 160 credit points, including all the Domain and Specialisation Core Subjects.

| Subject | Title | Credit Points |
|---------|-------|---------------|
|---------|-------|---------------|

Domain Subjects

| | | |
|-----------|-------------------------------------|----|
| PUBH 7016 | Introduction to Epidemiology | 10 |
| PUBH 7033 | The Social Determinants of Health | 10 |
| PUBH 7031 | Health Systems and Policy | 10 |
| HLTH 7025 | Healthcare Data for Decision-Making | 10 |

Specialisation Core

| | | |
|-----------|--|----|
| HLTH 7022 | Advanced Health Service Management | 10 |
| PUBH 7018 | Leadership for Quality and Safety in Health Care | 10 |
| POLI 7002 | Translation from Theory and Research to Policy | 10 |
| PUBH 7034 | Workplace Safety and Risk Management | 10 |

Special Focus Group and alternate subjects

Students can choose four subjects from a Special Focus Group, or 40 any combination of four subjects from the Special Focus Groups, or complete four alternate subjects.

Special Focus Group: Human Resources

| | |
|-----------|--|
| BUSM 7024 | Developing Human Capital and Organisational Capability |
| BUSM 7025 | Diversity, Labour Markets and Workforce Planning |
| BUSM 7027 | Employment Relations Professional Practice |
| BUSM 7043 | Industrial Relations and Workplace Change |
| BUSM 7081 | Reward Management |
| BUSM 7087 | Strategic Employment Relations |

Special Focus Group: Project Management

| | |
|-----------|---|
| BUSM 7064 | Managing Project Teams and Stakeholders |
| MGMT 7003 | Financial Management of Projects |
| BUSM 7097 | Time and Quality Management |
| BUSM 7082 | Risk Management and Decision Making |
| BUSM 7090 | Strategic Project Management |
| BUSM 7078 | Project Management |

Special Focus Group: Aged Care Management

| | |
|-----------|--|
| NURS 7019 | Cultural and Social Diversity in Health Care |
| NURS 7028 | Leadership in Clinical Practice |

| | |
|--------------------------------------|--|
| PUBH 7014 | Health and Socio-political Issues in Aged Care |
| HLTH 7002 | Building Organisational Capacity in Health Care |

Organisations and Work, Major

Western Sydney University Major Code: 0026

Previous Code: M2512.1

Available to students in other Western Sydney University programs?
No

The Organisations and Work major is designed for people interested in careers in organisational development, where there is emphasis on human resource management. Graduates have knowledge of how leadership and management of people can support organisational objectives and create organisational opportunities. That is, graduates develop commercial acumen and appreciate the competing interests around work, aware of trends locally and internationally. Throughout the major, students are challenged to develop and demonstrate

communication, cultural and analytic skills required to be innovative and responsible team-members and leaders.

Students must be enrolled in one of the following programs: 1706 Bachelor of Arts, 1655 Bachelor of Arts (Dean's Scholars), 1651 Bachelor of Arts (Pathway to Teaching Primary), 1822 Bachelor of Arts (Pathway to Teaching Primary) Dean's Scholars, 1652 Bachelor of Arts (Pathway to Teaching Secondary), 1823 Bachelor of Arts (Pathway to Teaching Secondary) Dean's Scholars or 1708 Bachelor of Arts (Pathway to Teaching Birth - 5 / Birth - 12).

Peace and Development Studies, Major

Western Sydney University Major Code: 0027

Previous Code: M1083.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

The Peace and Development Studies major is concerned with methods for promoting peace, human rights and sustainability. It involves a critical analysis of inequalities of power and opportunity that lead to international and local conflict, social dislocation and environmental degradation. Students will examine the structural causes of racist and environmental crises, forced migration, poverty, resource conflict, and inter-generational inequity. The inter-related network of solutions includes empowerment and self-determination, sustainable living, constructive development, peacemaking and peace building. These require understanding of the theories and method for identifying, measuring and resolving conflict and environmental degradation. The assumptions and failings of traditional development practice are critically assessed. Students will engage social theory within an interdisciplinary and applied framework, at local, national and international levels. The major is comprised of three fields: 1) structural inequality, social justice and human rights; 2) development and sustainability; 3) peace and humanitarian responses/actions.

Peace and Development Studies, Minor

Western Sydney University Minor Code: 0027

Previous Code: SM1102.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

The Peace and Development Studies minor is concerned with methods for promoting peace, human rights and sustainability. It involves a critical analysis of inequalities of power and opportunity that lead to international and local conflict, social dislocation and environmental degradation. Students will examine the structural causes of racist and gendered violence, environmental crises, forced migration, poverty, resource conflict and inter-generational inequity. The inter-related network of solutions includes empowerment and self-determination, sustainable living, constructive development, peacemaking and peace

building. These require understanding of the theories and method for identifying, measuring and resolving conflict and environmental degradation. The assumptions and failings of traditional development practice are critically assessed. Students will engage social theory within an interdisciplinary and applied framework, at local, national and international levels. The major is comprised of three fields:

1. structural inequality, social justice & human rights;
2. development and sustainability;
3. peace and humanitarian responses/actions.

Philosophy, Major

Western Sydney University Major Code: 0028

Previous Code: M1058.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

Philosophy has always asked the “big questions” about our lives. These are questions, for example, about the limits of our knowledge, the best way that humans can live together, how we understand the world around us, and what is the good life. A philosophy major will enable students to develop particular skills and attributes - such as clear thinking, capacities to assess arguments and values, sound understanding of important philosophical views that have always been essential to university scholarship, and which continue to be valuable for graduates in both public and private life.

Physical Activity and Health, Minor

Western Sydney University Minor Code: 0257

Previous code: SM4007.1

Available to students in other Western Sydney University programs?
 No

The Physical Activity and Health minor offers an introduction to knowledge and skills associated with the use of physical activity as a means of promoting health. Students will further develop in areas associated with physical activity, exercise, nutrition, outdoor recreation, games for diverse groups and sport and exercise psychology. The minor is recommended as complementary study for students in the 4656 Bachelor of Health Science. Subjects are taken from the Health and Physical Education program and as such students will be expected to travel to Penrith campus for some subjects.

Policing, Public Safety and Security, Testamur Major

Western Sydney University Major Code: T066

Previous Code: ST1010.1

Available to students in other Western Sydney University programs?

No

The major in Policing, Public Safety and Security provides a pathway that will be of specific interest to professionals working within the public safety industry (incorporating police, security organisations and other agencies involved in public safety). Western Sydney University has a long history of working closely with public safety organisations and the major draws on this experience and expertise. Through specialist subjects the program provides an in depth consideration of some of the complex challenges faced by contemporary leaders in public safety and provides a forum to examine, in detail, possible approaches to these challenges. Examples of the challenges explored within the major include the contemporary role of policing; security and public safety organisations; engaging with and policing vulnerable populations; managing offender behaviour; effective leadership and governance in policing and public safety; evidence based practice and policy development. This major has been developed to serve the needs of mid-career professionals in the public safety industry who wish to develop their leadership abilities through a Master in Business Administration.

Property, Testamur Major

Western Sydney University Major Code: T047

Previous Code: MT2034.1

Available to students in other Western Sydney University programs?
No

The Property major equips you with the expert skills to create a career as a property specialist. You will be prepared to succeed in a range of roles in the property industry, including careers in valuation, property investment, property funds management, property development and commercial property management. The practical Property major subjects focus on property investment, valuation, property development and property management, with opportunities for engagement with industry, dependent on availability. If you are seeking professional accreditation, you will also undertake specialised professional subjects. The core subjects in the Bachelor of Business (p. 78) will provide you with a foundation of business knowledge and develop your skills in innovation, career planning, and numeracy. The Property major builds on this knowledge and skills in an applied discipline based context. Property specialists work for institutional investors with multi-billion dollar commercial property portfolios, major property companies, valuation firms and leading property advisory companies, both in Australia and overseas.

The Bachelor of Business (Property) is accredited by the Australian Property Institute (API) and depending on electives chosen, students may be eligible for API Certified Practising Valuer (CPV) certification. Students, depending on chosen electives, are also eligible for API certifications of Certified Property Practitioner, Certified Property Manager, Certified Funds Manager, Certified Asset Manager, Certified Development Practitioner and Residential Property Valuer. Details of which subjects must be completed to meet these requirements can be found via the link located on the Bachelor of Business (p. 78) page.

This major is available on-campus in full time and part time modes or by distance. Please contact the Property major Academic Program Advisor for information on the distance mode offering. Please note that the Parramatta External Campus offering is not available for students in program Bachelor of Business (Advanced Business Leadership).

Psychology Extension, Minor

Western Sydney University Minor Code: 0186

Previous Code: SM1124.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

The Psychology Extension minor is designed to give students enrolled in an accredited psychology sequence the opportunity to study some areas of psychology in greater depth. To complete the minor students must choose four subjects from a prescribed pool. Students enrolled in non-Psychology degrees are welcome to select the minor, but they should carefully check the prerequisites of subjects in the pool as many of them require completion of subjects from the psychology core.

Psychology, Major

Western Sydney University Major Code: 0001

Previous Code: KT1000.1

Available to students in other Western Sydney University programs?
No

Psychology is the field of inquiry that uses scientific techniques and methods to understand and explain behaviour and experience. As a profession, it involves the application of psychological knowledge to practical problems in human behaviour. Subjects in the program are drawn from the following core areas of psychology: brain and behaviour, learning, motivation and emotion, social psychology, lifespan development, perception and cognitive processes.

Public Health Nutrition, Testamur Major

Western Sydney University Major Code: T068

Previous Code: ST3079.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

This postgraduate major is designed for science graduates seeking to further their career in public health and health promotion; working in a variety of settings, such as local, state or national health organisations, non-government organisations, population health units, community health centres, and international aid agencies. Roles may include health promotion officer, research and evaluation officer, monitoring and surveillance officer, and health policy officer. This major builds an integrated understanding of relevant aspects of community and public health nutrition and its interrelation with other relevant disciplines. A capstone subject involving a public health nutrition research project allows students to integrate their knowledge and skills developed from the whole program and build on research skills that are scaffolded through the curriculum.

Public Health Studies, Major

Western Sydney University Major Code: 0297

Previous Code: M4022.1

Available to students in other Western Sydney University Programs: Yes, however the following restrictions apply.

This major is available to students from all other programs except 4656 Bachelor of Health Science or 6000 Diploma in Health Science/ Bachelor of Health Science.

Public health is the science of disease prevention, prolonging life and improving health for individuals and their communities. The Public Health Studies major covers a wide range of areas such as health promotion, disease control, population health assessment and measurement, environmental health and community engagement. Students will gain knowledge of the main factors that underpin the health of a population, public health policy, and how to promote health for all. Students will develop and use skills in epidemiology and biostatistics, surveillance and prevention and apply them to public health problems. This Major will be identified on the Student's Academic Transcript following completion of the course

Public Health, Major

Western Sydney University Major Code: 0055

Previous Code: M4021.1

Only available to 4656 Bachelor of Health Science students

Public health is the science of disease prevention, prolonging life and improving health for individuals and their communities. This work is achieved by promoting healthy lifestyles, researching disease prevention, conducting population health assessment and measurement, improving environmental health, engaging the community and detecting, preventing and responding to infectious diseases. Public health professionals are required to assess and respond to emerging public health issues and work in a variety of settings, including national and state health departments, community organisations and the global health sector. The Public Health major builds a student's knowledge of the biological, social, cultural, economic and physical factors that underpin the health of a population and how to promote health for all. Students will also develop and use skills in epidemiology and biostatistics, surveillance and prevention, and public health policy. Students in T109 Clinical Science, who would not otherwise have the opportunity to take the 140- hour subject MEDJ3007 Professional Health Placement may choose to do so. This Major will be identified on the Student's Academic Transcript following completion of the course

Electives

Students must take at least one level 3 subject as an elective

Most electives are 10 credit points.

Students may wish to consider using elective choices to complete another health sciences field of study, such as Majors: Health

Promotion, Health Services Management. Minors: Health Promotion, Public Health and Nutrition, Health Informatics, Global Sustainability

Minors

Health Promotion, Minor (p. 870)

Health Practice Management, Minor (p. 868)

Global Sustainability, Minor (p. 862)

Health Informatics, Minor (p. 867)

Majors

Health Services Management, Major (p. 873)

Master of Data Science

Students must complete 40 credit points as follows

| Subject | Title | Credit Points |
|------------------------------|---|---------------|
| PUBH 7016 | Introduction to Epidemiology | 10 |
| HLTH 7008 | Introduction to Biostatistics | 10 |
| PUBH 7010 | Epidemiology of Non-Communicable Diseases | 10 |
| Choose one of the following: | | 10 |
| PUBH 7033 | The Social Determinants of Health | |
| PUBH 7031 | Health Systems and Policy | |
| PUBH 7028 | Surveillance and Disaster Planning | |
| PUBH 7004 | Communicable Diseases | |
| Total Credit Points | | 40 |

Public Relations, Major

Western Sydney University Major Code: 0160

Previous Code: M1122.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

The Public Relations major covers the skills and knowledge required in the profession of public relations, including event management, issues and crisis management and campaign development. The major focuses on the role of the public relations practitioner or adviser and provides a theoretical framework of the industry. Students engage with both theory and practical projects and may complete an internship placement.

Major Structure

Bachelor of Business Students

Bachelor of Business students must complete the structure under the heading for Bachelor of Business below.

Creative Industries Students

Creative Industries students must complete their Introduction to major subject, as part of the core requirements of the program, prior to enrolling in this major.

| Subject | Title | Credit Points |
|-----------|--------------------------------------|---------------|
| MKTG 1009 | Public Relations Theory and Practice | 10 |

Students must complete 80 credit points as follows

| Subject | Title | Credit Points |
|------------------------------|---------------------------------------|---------------|
| Level 2 | | |
| COMM 2001 | Account and Client Management | 10 |
| COMM 2011 | Communication Strategies | 10 |
| COMM 2015 | Events Management | 10 |
| MKTG 2005 | Issues, Risk and Crisis Communication | 10 |
| Level 3 | | |
| MKTG 3018 | Public Relations: Campaigns | 10 |
| COMM 3014 | Digital Communication | 20 |
| Select one of the following: | | 10 |
| COMM 3018 | Internship | |
| COMM 3037 | Transmedia Production | |
| Total Credit Points | | 80 |

Bachelor of Business Students

Students must complete 80 credit points as follows

| Subject | Title | Credit Points |
|----------------------------|---------------------------------------|---------------|
| Level 1 | | |
| MKTG 1009 | Public Relations Theory and Practice | 10 |
| Level 2 | | |
| COMM 2001 | Account and Client Management | 10 |
| COMM 2011 | Communication Strategies | 10 |
| COMM 2015 | Events Management | 10 |
| MKTG 2005 | Issues, Risk and Crisis Communication | 10 |
| Level 3 | | |
| MKTG 3018 | Public Relations: Campaigns | 10 |
| COMM 3014 | Digital Communication | 20 |
| Total Credit Points | | 80 |

Equivalent Alternate Subjects

The alternate subject listed below counts towards completion of this program for students who passed this subject in 2019 or earlier.

COMM 3007 - Communication Campaigns, replaced by COMM 3045 Advertising: Campaigns

Public Relations, Minor

Western Sydney University Minor Code: 0160

Previous Code: SM1122.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

The Public Relations minor covers the skills and knowledge required in the profession of public relations, including event management, issues and crisis management and campaign development. The minor focuses on the role of the public relations practitioner or adviser and provides a theoretical framework of the industry. Students engage with both theory and practical projects.

Location

| Campus | Mode | Advice |
|-----------------------------------|----------|-----------------------------------|
| Parramatta Campus - Victoria Road | Internal | EnquiriesHCA@westernsydney.edu.au |
| Penrith Campus | Internal | EnquiriesHCA@westernsydney.edu.au |

Minor Structure

Creative Industries students must first complete MKTG 1009 Public Relations Theory and Practice as their Introductory Major subject in order to undertake this minor.

Students must complete 40 credit points, consisting of 20 credit points at level 2 and 20 credit points at level 3 from the following subjects.

Note: Please plan enrolment in minor subjects carefully - subjects at Level 2 and Level 3 may have pre-requisites. Students should consult their Academic Program Advisors if they require further information.

Level 2

| Subject | Title | Credit Points |
|-----------|---------------------------------------|---------------|
| COMM 2001 | Account and Client Management | 10 |
| COMM 2011 | Communication Strategies | 10 |
| COMM 2015 | Events Management | 10 |
| MKTG 2005 | Issues, Risk and Crisis Communication | 10 |

Level 3

| Subject | Title | Credit Points |
|-----------|-----------------------------|---------------|
| MKTG 3018 | Public Relations: Campaigns | 10 |
| COMM 3014 | Digital Communication | 20 |

Equivalent Subjects

The subjects listed below count towards completion of this minor for students who passed these subjects in 2019 or earlier.

COMM 3007 Communication Campaigns, replaced by COMM 3045 Advertising: Campaigns

Recreational Therapy, Testamur Major

Western Sydney University Major Code: T110

Previous Code: MT4004.1

Available to students in other Western Sydney University programs?
No

Recreational Therapy links leisure and health improvement. Recreational Therapy graduates work with patients to use leisure activities to improve health and life quality, for example in rehabilitation centres, psychiatric units, special schools, day care centres, aged care facilities, and in a range of local government or community services settings. The major combines theory and practice in learning, education programming, aged care, disability and mental health, with a comprehensive foundation of the health sciences. Students will develop the professional competencies important for ethical and safe practice and high-quality care, and the skills to work in multidisciplinary teams. Evidence-based practice is one of the most important trends in healthcare today and is a strong feature of the major. The recreational therapy program is offered on campus or fully online. Students may combine this testamur major in recreational therapy with a minor in health promotion, therapeutic modalities, psychology or exercise and physical activity, or the option to choose up to 40cp of electives based on the student's interest. This flexibility will help diversify

the knowledge-base and skillset of students. The course includes 160 hours of compulsory practical placement in second year and a third-year internship of 560 hours - meeting the practice placement requirement for eligibility as a Certified Recreation Therapist with the National Council of Therapeutic Recreation Certification (NCTRC).

Electives

Most electives are 10 credit points. Students may wish to consider using elective choices to complete another health sciences field of study, such as:

Minors

Health Promotion, Minor (p. 870)
 Health Practice Management, Minor (p. 868)
 Leisure for Diverse Groups, Minor (p. 909)
 Sport Development, Minor (p. 996)

Note

Students enrolled in this Testamur Major are encouraged to use their elective choices to complete the complementary Leisure for Diverse Groups, Minor (p. 909)

Related Programs

Bachelor of Health Science (4656) (p. 169)
 Diploma in Health Science/Bachelor of Health Science (6000) (p. 430)

Robotics and Mechatronics Engineering, Testamur Major

Western Sydney University Major Code: T104

Previous Code: KT3174.1, MT3055

Available to students in other Western Sydney University programs?
No

Robotics and Mechatronic engineering combines electrical, computing and mechanical engineering and is at the forefront in designing smart machines and systems, such as pilotless spacecraft, car cruise control, automated factories and medical telerobotics. Students explore intelligent mechanical systems and automation through an extensive and integrated hands-on laboratory program, as well as work-integrated industry projects. Students learn in-depth knowledge about the design and construction of these systems to integrate, evaluate and address their performance. The multidisciplinary skills students develop are sought after by leading edge industries, including aerospace and biomedical engineering. This major includes a mandatory 12 weeks of industrial placement as a completion requirement.

Minors

SM3093 Computer Aided Design (Mechatronics)

SM3074 Thermal and Fluid Systems

SM3091 Biomedical Engineering

Optional Electives

The following subject is an optional elective subject offered to students who are engaged in a School approved project. This subject can be taken during the third year of this program, however, permission is required to enrol in the subject.

| Subject | Title | Credit Points |
|-----------|---------------------------|---------------|
| ENGR 3022 | Special Technical Project | 10 |

Equivalent Subjects

The subjects listed below count towards completion of this program for students who passed these subjects in 2021 or earlier.

MECH 4005 Advanced Engineering Thesis 1: Preliminary Investigations, replaced by ENGR 4037 Advanced Engineering Thesis 1: Preliminary Investigations

MECH 4006 Advanced Engineering Thesis 2: Detailed Investigations, replaced by ENGR 4036 Advanced Engineering Thesis 2: Detailed Investigations

Bachelor of Engineering Science

This Major will be offered at Parramatta City and Penrith campuses.

Qualification for this award requires the successful completion of 240 credit points which include the subjects listed in the recommended sequences below.

Start-year intake

| Course | Title | Credit Points |
|--|---------------------------------------|---------------|
| Year 1 | | |
| Autumn session | | |
| ELEC 1006 | Engineering Computing | 10 |
| ENGR 1011 | Engineering Physics | 10 |
| ENGR 1024 | Introduction to Engineering Practice | 10 |
| Select one of the following: | | 10 |
| MATH 1021 | Mathematics for Engineers Preliminary | |
| MATH 1016 | Mathematics for Engineers 1 | |
| Note: All students are required to enrol in MATH 1021 Mathematics for Engineers Preliminary first and undertake a readiness test at the beginning of their study. | | |
| This test will be conducted at the beginning of the first semester of enrolment and the result will determine whether a student will remain in MATH 1021 Mathematics for Engineers Preliminary or be transferred by the School to MATH 1016 Mathematics for Engineers 1. | | |
| The students who finish MATH 1021 Mathematics for Engineers Preliminary will then use this unit as an elective. | | |
| Credit Points | | 40 |
| Spring session | | |
| ENGR 1018 | Fundamentals of Mechanics | 10 |
| PROC 1008 | Introduction to Materials Engineering | 10 |
| Select one of the following: | | 10 |
| MATH 1016 | Mathematics for Engineers 1 | |
| MATH 1019 | Mathematics for Engineers 2 | |
| Select one elective | | 10 |
| Note: Students who remained in MATH 1021 Mathematics for Engineers Preliminary during the first semester will be required to complete MATH 1016 Mathematics for Engineers 1 during second semester. | | |
| These students must then complete MATH 1019 Mathematics for Engineers 2 during the Summer session. | | |
| Credit Points | | 40 |
| Year 2 | | |
| Autumn session | | |
| MECH 2001 | Kinematics and Kinetics of Machines | 10 |
| MECH 2003 | Mechanics of Materials | 10 |
| ELEC 2001 | Circuit Theory | 10 |
| ENGR 3029 | Specialisation Workshop 1 | 10 |
| Credit Points | | 40 |
| Spring session | | |
| MECH 3004 | Dynamics of Mechanical Systems | 10 |
| ENGR 2001 | Automated Manufacturing | 10 |
| ELEC 2008 | Microcontrollers and PLCs | 10 |
| ENGR 3030 | Specialisation Workshop 2 | 10 |

Industrial Experience

| | | |
|----------------------|--|-----------|
| ENGR 2033 | Industrial Experience (Engineering Technologist) | 0 |
| Credit Points | | 40 |

Year 3

Autumn session

| | | |
|-----------|-------------------------------|----|
| MECH 3005 | Mechanical Design | 10 |
| MECH 3001 | Advanced Dynamics | 10 |
| ENGR 3013 | Engineering Science Project 1 | 10 |
| ELEC 1001 | Digital Systems 1 | 10 |

Credit Points 40

Spring session

| | | |
|---------------------|-------------------------------|----|
| MECH 4003 | Mobile Robotics | 10 |
| ENGR 3014 | Engineering Science Project 2 | 10 |
| ELEC 2010 | Power and Machines | 10 |
| Select one elective | | 10 |

Note: Elective units must be level 2 or higher

Credit Points 40

Total Credit Points 240

Equivalent Subjects

The subjects listed below count towards completion of this program for students who passed these subjects in Autumn 2022 or earlier.

ENGR 1008 - Engineering Materials, replaced by PROC 1008 - Introduction to Materials Engineering

Mid-year intake

| Course | Title | Credit Points |
|---|---------------------------------------|---------------|
| Year 1 | | |
| Spring session | | |
| Select one of the following: | | 10 |
| MATH 1021 | Mathematics for Engineers Preliminary | |
| MATH 1016 | Mathematics for Engineers 1 | |
| ENGR 1018 | Fundamentals of Mechanics | 10 |
| ELEC 1003 | Electrical Fundamentals | 10 |
| ENGR 1024 | Introduction to Engineering Practice | 10 |
| Credit Points | | 40 |
| Autumn session | | |
| Select one of the following: | | 10 |
| MATH 1016 | Mathematics for Engineers 1 | |
| MATH 1019 | Mathematics for Engineers 2 | |
| ELEC 1006 | Engineering Computing | 10 |
| ENGR 1011 | Engineering Physics | 10 |
| Select one elective | | 10 |
| • Elective unit must be Level 1 or higher | | |
| Credit Points | | 40 |
| Year 2 | | |
| Spring session | | |
| ENGR 2001 | Automated Manufacturing | 10 |
| ELEC 2008 | Microcontrollers and PLCs | 10 |

Robotics and Mechatronics, Testamur Major

Western Sydney University Major Code: T037

Previous Codes: KT3127.1, KT3158.1, KT3163.1, KT7003.1

Available to students in other Western Sydney University programs?

No

This major provides the skills necessary for the design of smart machines of all types: cruise control in automobiles, pilotless spacecraft, automated factories and medical telerobotics. The major, accompanied by an extensive and integrated hands-on laboratory program, is essentially concerned with the design of intelligent mechanical systems and automation, and includes the study of robotics, computer control, automated manufacturing, microprocessor applications and machine design. Graduates in the major acquire the combined skills of mechanical and computer/electrical engineering that are needed in leading-edge industries such as aerospace systems, the car industry, automation and robotic applications, biomedical engineering, laser systems, and building materials manufacture.

Associate Degree in Engineering

Major Structure

Students must complete three units as follows

| Subject | Title | Credit Points |
|---------|-------|---------------|
|---------|-------|---------------|

Select at least one of the following subjects:

| | | |
|-----------|---|----|
| MECH 2002 | Kinematics and Kinetics of Machines (WSTC AssocD) | 10 |
|-----------|---|----|

| | | |
|-----------|--------------------------------------|----|
| MECH 2004 | Mechanics of Materials (WSTC AssocD) | 10 |
|-----------|--------------------------------------|----|

Choose either one or two of the following subjects depending on how many subjects have been completed from the list above.

| | | |
|-----------|------------------------------|----|
| ELEC 2002 | Circuit Theory (WSTC AssocD) | 10 |
|-----------|------------------------------|----|

| | | |
|-----------|---------------------------------|----|
| ELEC 1002 | Digital Systems 1 (WSTC AssocD) | 10 |
|-----------|---------------------------------|----|

| | | |
|-----------|---------------------------|----|
| ELEC 2005 | Electronics (WSTC AssocD) | 10 |
|-----------|---------------------------|----|

| | | |
|-----------|---|----|
| MATH 1020 | Mathematics for Engineers 2 (WSTC AssocD) | 10 |
|-----------|---|----|

Please note: Offerings of alternate units are dependent on there being sufficient student enrolment numbers. If enrolments are low, the College may cancel delivery of the alternate unit.

Bachelor of Engineering (Honours)

Major Structure

Qualification for this award requires the successful completion of 320 credit points, which include the subjects listed in the recommended sequence below.

* All students undertaking the Bachelor of Engineering (Honours) are required to enrol in MATH 1021 Mathematics for Engineers Preliminary and undertake a readiness test at the beginning of their study.

The readiness test will be conducted at the beginning of the first semester of enrolment and the result will be used to determine whether a student will remain in MATH 1021 Mathematics for Engineers Preliminary or be transferred by the School to MATH 1016 Mathematics for Engineers 1

Students remaining in MATH 1021 Mathematics for Engineers Preliminary will be required to complete MATH 1016 Mathematics for Engineers 1 during second semester and will be encouraged to complete MATH 1019 Mathematics for Engineers 2 during the Summer session.

Available to students in other Western Sydney University programs?
No

This Screen Media Design minor is comprised of subjects that focus on principles of screen and sound media, video production and interactive design production as a tool for strategic communication. Students who complete this minor will satisfy the NESA requirements for teaching Graphics and Multimedia as a second teaching area within the Technological and Applied Studies discipline.

Location

Screen Media, Major

Western Sydney University Major Code: 0268

Previous Code: M1135.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

The Screen Media major provides students with fundamental skills and knowledge in screen media. Areas of study include the exploration of different screen genres and approaches, practical hands-on experience creating commercial, narrative and documentary projects, enhancing screen content using animation and visual effects, plus the application of immersive augmented/virtual reality. This major enables professional communicators to effectively create impactful content in a range of diverse industries (for example within a corporation or for their own business, or within a Public Relations/Advertising Agency).

Secondary Education, Major

Western Sydney University Major Code: 0272

Previous Code: M1133.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

Students in the Secondary Education Major will study subjects that deal with educational concepts such as sustainability, creativity, social justice and adolescent development. These subjects are broadly structured for students to investigate and critique contemporary education issues. Students will study the first four subjects of the Master of Teaching (Secondary). This major facilitates a transition into a Master of Teaching postgraduate qualification in Secondary Teaching.

| Penrith Campus | Internal | Jaydene Barnes (https://directory.westernsydney.edu.au/search/email/j.barnes@westernsydney.edu.au) |

Major Structure

Students must successfully complete 80 credit points as per the recommended sequence below.

All subjects in this major are 10 credit points and are arranged in two pools:

- the Education Studies Learning in Context Pool Subjects (Levels 1, 2 and 3), and
- the (Level 7) Master of Teaching (Secondary) Subjects.

Students must complete 10 credit points at Level 1 and at least 30 credit points at Level 3 or higher.

| Subject | Title | Credit Points |
|---|---|---------------|
| Education Studies Learning in Context Pool Subjects | | |
| Students must complete at least four subjects: one subject at Level 1 and three subjects at Level 2 or 3 or higher (a minimum of 30 credit points at level 3 is required overall for this major). | | |
| Level 1 subject | | |
| Students must complete the following Level 1 subject | | |
| HUMN 1013 | Contextualising Indigenous Australia (Day Mode) | 10 |
| Level 2 subjects | | |
| TEAC 2017 | Education and Transformation | 10 |
| TEAC 2018 | Education for Sustainability | 10 |
| TEAC 2037 | Learning and Creativity | 10 |
| TEAC 2009 | Contemporary Childhoods | 10 |
| TEAC 2065 | Digital Childhoods | 10 |
| TEAC 2062 | Teachers as Change Makers | 10 |
| Level 3 subjects | | |
| TEAC 3009 | Ethical Futures | 10 |
| TEAC 3006 | Education in a Cosmopolitan Society | 10 |
| TEAC 3031 | The Brain and Learning | 10 |
| Master of Teaching (Secondary) Subjects | | |
| Students must have completed 160 credit points before enrolling in the following subjects | | |
| Level 7 subjects | | |
| TEAC 7004 | Adolescent Development and Teaching | 10 |
| TEAC 7032 | Diversity, Social Justice and Learning | 10 |

Secondary Teaching, Major

Western Sydney University Major Code: 0164

Previous Code: M1134.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

The Secondary Teaching major is comprised of the four initial subjects from the Master of Teaching (Secondary) or three subjects from the Master of Teaching (Secondary) STEM. These subjects are broadly structured for students to investigate the underlying principles and concepts in adolescent development, diversity and social justice, skills in the design of learning experiences along these principles, and putting their application into practice. Available to all students in a Pathway to Teaching (Secondary) degree, enrolment is dependent on the successful completion of 160 credit points in the undergraduate program. Students are also offered the flexibility to study subject content subjects in either Modern History, Geography and Urban Studies, Mathematics, Studies of Religion or English to form their second teaching area. This major, together with a Business major articulates into a Master of Teaching postgraduate qualification in Secondary Teaching, and leads to opportunities for employment across Australia as well as internationally.

Location

| Campus | Mode | Advice |
|-----------------------------------|----------|--|
| Parramatta Campus - Victoria Road | Internal | Jaydene Barnes (https://directory.westernsydney.edu.au/search/email/j.barnes@westernsydney.edu.au) |
| Penrith Campus | Internal | Jaydene Barnes (https://directory.westernsydney.edu.au/search/email/j.barnes@westernsydney.edu.au) |

Major Structure

Students must successfully complete 80 credit points as per the recommended sequence below.

All subjects in this major are 10 credit points and are arranged in pools of which the Secondary Teaching Pool is mandatory.

Students have a choice of either History and Political Thought, Geography and Urban Studies, Mathematics, Studies of Religion or English, as shown below.

| Subject | Title | Credit Points |
|---|--|---------------|
| Students must complete the following four compulsory core subjects | | |
| Secondary Teaching Pool | | |
| IMPORTANT NOTE: Students must have successfully completed 160 credit points before enrolling in any of the following four post graduate subjects. | | |
| TEAC 7004 | Adolescent Development and Teaching | 10 |
| TEAC 7032 | Diversity, Social Justice and Learning | 10 |
| TEAC 7027 | Designing Teaching and Learning | 10 |
| TEAC 7108 | Professional Practice Community Engagement | 10 |
| Total Credit Points | | 40 |

Students must then choose one of the following five areas

1. History and Political Thought or
2. Geography and Urban Studies or
3. Mathematics or
4. Studies of Religion or
5. English

See the below links for structure details.

History and Political Thought

| Subject | Title | Credit Points |
|--|--|---------------|
| Important Note: To meet NESA subject area teaching requirements students who aim to qualify as modern history teachers must complete one subject of Ancient History. This may be attained by completing one of the following subjects: HUMN 2067 History of the Ancient World, HUMN 2011 Ancient Western Culture: Periclean Athens, or HUMN 3020 Catastrophe: The Environmental History of the Ancient and Modern World. It is also strongly recommended that students select at least one Australian history subject. | | |
| Not all subjects will be offered each year. Subjects will be offered on a rotational basis. | | |
| Students must complete one of the following: | | 10 |
| HUMN 1054 | When Worlds Collide: European Empires and the World, c.1600-1950 | |

| | | |
|---|---|-----------|
| HUMN 1039 | Modern European History and Politics | |
| Students must then complete three subjects from the following pool: | | 30 |
| HUMN 2067 | History of the Ancient World | |
| HUMN 2001 | A History of Modern Global Buddhism | |
| HUMN 2011 | Ancient Western Culture: Periclean Athens | |
| LANG 2015 | Cultural History of Books and Reading | |
| HUMN 2023 | Empire: European Colonial Rule and its Subjects, 1750-1920 | |
| HUMN 2034 | Keeping the Past | |
| HUMN 3093 | War | |
| HUMN 3013 | Australian Colonial History | |
| HUMN 3109 | Catastrophe: The Environmental History of the Ancient World | |
| HUMN 3026 | Convicts and Settlers - Australian History 1788 - 1840 | |
| HUMN 3087 | Twentieth Century Australia | |
| HUMN 3104 | Historical Methodologies | |
| HUMN 3092 | WWII in Asia and the Pacific | |
| HUMN 3024 | Comparative Nationalism | |
| HUMN 3036 | Ethics in Historical Perspective | |
| HUMN 3015 | Australian History Around Us | |
| Total Credit Points | | 40 |

Geography and Urban Studies

| Subject | Title | Credit Points |
|---|---------------------------------------|---------------|
| Students must complete the following subjects: | | |
| ENVL 2001 | Analysis of Spatial Data | 10 |
| ENVL 3006 | Transport, Access and Equity | 10 |
| Students must then complete two subjects from the following pool: | | 20 |
| HUMN 1008 | Cities: Introduction to Urban Studies | |
| HUMN 2018 | Cultural and Social Geographies | |
| HUMN 2053 | The Economics of Cities and Regions | |
| HUMN 3041 | Geographies of Migration | |
| Total Credit Points | | 40 |

Mathematics

| Subject | Title | Credit Points |
|--|-------------------|---------------|
| Students must complete the following for subjects: | | |
| MATH 1014 | Mathematics 1A | 10 |
| MATH 1015 | Mathematics 1B | 10 |
| MATH 2001 | Advanced Calculus | 10 |
| MATH 2010 | Linear Algebra | 10 |
| Total Credit Points | | 40 |

Studies of Religion

| Subject | Title | Credit Points |
|---|---------------------------------|---------------|
| Students must complete at least one of the following subjects: | | |
| HUMN 3075 | Sociology of Religion | 10 |
| PHIL 3016 | Philosophy of Religion | |
| HUMN 3105 | History of Religion | |
| Students must then complete three additional subjects. Additional subjects to complete the minor can be chosen from the above three subjects or from the pool subjects listed below | | 30 |
| HUMN 1061 | Islam: Past, Present and Future | |

| | | |
|----------------------------|--|-----------|
| HUMN 2031 | Islam in the Modern World | |
| HUMN 2001 | A History of Modern Global Buddhism | |
| HUMN 3047 | History of Muslim Civilisations and Ideas | |
| HUMN 3061 | Mystical Islam: The Emergence of Sufism in World History | |
| Total Credit Points | | 40 |

English

| Subject | Title | Credit Points |
|---|--|---------------|
| Students must complete the following two subjects: | | |
| COMM 1004 | Approaches to Text | 20 |
| LANG 1015 | Introduction to Literary Studies | |
| Students must then complete two subjects from the following pool: | | 20 |
| LANG 2035 | Methods of Reading | |
| LANG 3094 | The Value of Literature | |
| HUMN 2044 | Representing Everyday Life in Literary and Visual Cultures | |
| LANG 3019 | Children's and Young Adult Fiction | |
| LANG 3086 | The Novel | |
| COMM 2020 | Introduction to Film Studies | |
| Total Credit Points | | 40 |

Equivalent Subject

The subject listed below counts towards completion of this minor for students who passed this subject in 2021 or earlier.

HUMN 2043 - Religion and the Origins of Modern Science, no longer offered.

Bachelor of Business (Pathway to Teaching Secondary) (2804) (p. 82)

Secondary Teaching, Testamur Major

Western Sydney University Major Code: T119

Previous Code: MT3041.1

Available to students in other Western Sydney University programs?
No

There is a high demand for mathematics teachers throughout Australia, with Western Sydney identified as a particular high-demand location by the NSW Department of Education. Building on the Bachelor of Mathematics, this major equips graduates with additional knowledge and skills in contemporary educational concepts. After completing the Bachelor of Mathematics (Secondary Education), graduates can enrol in a postgraduate course to become accredited teachers. The core subjects of the Bachelor of Mathematics meet the NESA requirements for Mathematics as a first teaching area, and students can choose elective subjects to qualify for another teaching area to gain additional options for employment.

Major Structure

All students must complete Education Studies, Minor (p. 826) plus four subjects from one of the alternate pools.

A minimum of 30 credit points at Level 3 is required across all Secondary Teaching major subjects.

Note: The core subjects of 3778 Bachelor of Mathematics meet the NESA requirements for Mathematics as a first teaching area.

| Subject | Title | Credit Points |
|---|-------|---------------|
| Students may choose four subjects from the following alternate pools | | 40 |

Mathematics/Physics

| | |
|-----------|---|
| PHYS 1002 | Physics 1 |
| PHYS 1006 | Physics 2 |
| PHYS 2005 | Classical Physics and Advanced Technologies |
| PHYS 3007 | Quantum Physics |
| PHYS 3006 | Classical Physics |

Note: In combination with the core subjects of 3778 Bachelor of Mathematics, completing four units from this pool meets the NESA requirements for Mathematics/Physics as a first teaching area.

Equivalent Subjects:

The subjects listed below count towards completion of this major for students who passed these subjects in 2020 or earlier.

CHEM 2003 Classical Physics and Advanced Technologies replaced by PHYS 2005 Classical Physics and Advanced Technologies

CHEM 3016 Quantum Physics replaced by PHYS 3007 Quantum Physics

Information Processes and Technology

| | |
|-----------|---------------------------------|
| INFS 2001 | Database Design and Development |
| COMP 2004 | Computer Networking |
| COMP 3007 | Computer Networks and Internets |
| COMP 3023 | Systems and Network Management |
| COMP 2014 | Object Oriented Programming |
| COMP 2008 | Computer Organisation |
| COMP 3011 | Internet Programming |

Note: Completing four subjects from this pool meets the NESA requirements for Information Processes and Technologies as an additional teaching area.

Software Design and Development

| | |
|-----------|---------------------------------|
| INFS 1006 | Systems Analysis and Design |
| INFS 2006 | Object Oriented Analysis |
| COMP 2014 | Object Oriented Programming |
| COMP 2008 | Computer Organisation |
| COMP 3011 | Internet Programming |
| COMP 3015 | Operating Systems Programming |
| COMP 3013 | Mobile Applications Development |

The Social Ecology minor explores the rich diversity of relationships between the individual, society and environment. Social Ecology embraces a transdisciplinary approach to learning emphasising reflective thinking, criticality, creativity, participation and communication. Students develop skills in ecologically informed analysis, creative thinking and action, social and environmental relationships and transformative education with an emphasis on sustainability, social change and leadership. The minor in Social Ecology is available as an elective package to students across all degrees. Students may also choose any Social Ecology subject as a single elective.

Social media is the pulse of the world. Analysing the enormous amount of data generated by such sites as Facebook, Twitter and LinkedIn can be used to inform business decisions and understand how and why society reacts to certain situations. This minor will introduce the statistical methods needed to analyse the data from these sites so that businesses are able to use the customer feedback received about their products to inform their business strategy and the impact social media has on society.

A minor in Social Research provides students with training in the methods and theories of social research for their application to social issues and social policy. In addition to interviewing and observation skills, quantitative analysis, spatial analysis, and Indigenous methodologies, the minor offers students the opportunity to apply these skills across a range of themes including ethnography, ethnicity and migration, urban planning and criminology. A Bachelor of Social Science with a minor in Social Research will prepare students for both employment and/or a research higher degree.

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

The major in Sociology provides students with a thorough training in the methods, theories and select leading areas of contemporary sociology. As well as subjects in which methods and theories are taught, through the social science core, students enrolled in the Sociology major will have opportunities to study a number of particular themes from a sociological perspective, including inequalities, deviance, identities, gender, religion, medicine and health care, ethnicity and migration, and the family, among other possibilities. A Bachelor of Social Science (BSS) with a major in Sociology will prepare students for both employment and a research higher degree.

Software Engineering, Testamur Major

Western Sydney University Major Code: T105

Previous Code: KT3175.1

Available to students in other Western Sydney University programs?

No

A major in Software Engineering provides a solid foundation in theoretical knowledge on computer software systems with practical acquisition of relevant industry skills. The program examines the processes of software design, development and maintenance. It also covers software specification, analysis, design, testing, implementation and maintenance.

This major is designed in response to the growing demand for innovative, reliable and efficient software systems which are utilised in a broad field of industries. The program is offered inside an industry hub which provides students with direct access and firsthand experience with these industries.

Sound Production, Minor

Western Sydney University Minor Code: 0242

Previous Code: SM1133.1

Available to students in other Western Sydney University

Programs: Yes, however the following restrictions apply.

The Sound Production minor equips students with fundamental skills and knowledge of current practice in music production, sound design, new electronic media, interactive electronic media, and their applications to music performance and composition. Two foundation level subjects present an overview of the basic concepts and practical applications of electronic and digital music technology to music production and sound design in current music and media arts practice. The minor's final two subjects build on this foundational knowledge, offering progressively more challenging instruction in music technology and its applied contexts. In these subjects, students will undertake self-directed technology-based projects as sound designers, composers and performers.

Space Science, Testamur Major

Western Sydney University Major Code: T030

Previous Code: ST3063.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

Space Science is a fast-growing area in science with a broad range of applications. The Space Science major aims to equip graduates with advanced knowledge and skills in the disciplines of Space Science, Computing and Data Science. This major covers fundamental Space Science, statistical analysis, machine learning, deep learning, Data Science, ICT, Space Law, Astrophysics, as well as various Space Science applications. Students will also learn the basic theories and algorithms that are essential in the design and development of Space Science.

Sport Development, Minor

Western Sydney University Minor Code: 0254

Previous Code: SM4006.1

Available to students in other Western Sydney University programs? No

The Sport Development minor offers an introduction to knowledge and skills associated with the sport and recreation industry. Students will focus on and further develop in areas associated with physical activity, exercise, sport coaching, sociology, community development and sport management. Subjects are taken from the School of Health Science and School of Business and as such students will be expected to travel to alternative campus'. The minor is recommended as a complementary study for students in the 4656 Bachelor of Health Science program.

Sport Management, Testamur Major

Western Sydney University Major Code: T045

Previous Code: MT2036.1

Available to students in other Western Sydney University programs?

No

The Sport Management major is designed for people who seek careers in Australian and international Sport management. Specialist subjects provide students with a capacity to understand and function within the increasingly dedicated context in which sport is played, organised and managed. Students who complete this major will be equipped with the skills and knowledge to manage sport experiences

pertaining to globalisation and emerging contemporary issues in sport. Graduates find career employment at all levels of government as well as within the private sector for both commercial and non-commercial organisations. Positions include project management of facilities and events, management and coordination of leisure, sport and civic event departments, sport marketing, player management and sport public relations, elite sport development, sport and leisure programming.

Major Structure

Qualification for this major requires the successful completion of 80 credit points including all of the core subjects listed below.

Core Subjects for this Major

| Subject | Title | Credit Points |
|----------------------------|--------------------------------|---------------|
| BUSM 3008 | Developing Sport Professionals | 10 |
| BUSM 3053 | Our Sporting Future | 10 |
| BUSM 3064 | Service Industry Analytics | 10 |
| BUSM 3065 | Special Event Management | 10 |
| BUSM 2045 | Sport and Society | 10 |
| BUSM 2037 | Sport Entertainment | 10 |
| BUSM 3070 | Strategic Sport Leadership | 10 |
| BUSM 1031 | The World of Sport Business | 10 |
| Total Credit Points | | 80 |

Professional Subjects for Careers in Markets

Students undertaking the Sport Management major are advised to take the following four subjects to satisfy the requirements for their professional core:

| Subject | Title | Credit Points |
|----------------------------|----------------------------------|---------------|
| BUSM 3006 | Design Thinking for Creativity | 10 |
| SPRT 3014 | Sport Management Applied Project | 10 |
| MATH 1030 | Statistics for Business | 10 |
| BUSM 2040 | The Service Enterprise | 10 |
| Total Credit Points | | 40 |

Equivalent Subjects

The subject listed below counts towards completion of this major for students who passed this subject in 2020 or earlier.

BUSM 3068 Sport and Society, replaced by BUSM 2045 Sport and Society

Recommended Sequence

Qualification for the award of Bachelor of Business with a major in Sport Management requires the successful completion of 240 credit points as per the recommended sequence below.

Full-time start-year intake

| Course | Title | Credit Points |
|----------------------------|---|---------------|
| Year 1 | | |
| Autumn session | | |
| BUSM 1006 | Enterprise Innovation and Markets | 10 |

Studies of Religion, Minor

Western Sydney University Minor Code: 0200

Previous Code: SM1136.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

Studies of Religion is a multidisciplinary minor that provides a critical study of religion that is inclusive and diverse. Students will have the opportunity to develop their understanding of religion and explore the significance of religion to people and society. The minor includes subjects from history, philosophy and sociology. It examines the nature of religion and belief systems, including the influence, expression and relevance of religion and belief systems to contemporary Australia. This minor meets NSW Education Standards (NESA) content requirements for students who wish to teach Studies of Religion in NSW Secondary Schools. The skills and knowledge acquired can also be used for career pathways in the public sector, teaching, research, curating, law or politics.

| Parramatta Campus - Victoria Road | Internal | EnquiriesHCA@westernsydney.edu.au |
| Penrith Campus | Internal | EnquiriesHCA@westernsydney.edu.au |

Minor Structure

To complete a minor in Studies of Religion, students are required to successfully complete 40 credit points as follows.

Note: Not all subjects will be offered each year. Subjects will be offered on a rotational basis. Not all subjects will be available on all campuses.

Students must complete at least one of the following subjects.

| Subject | Title | Credit Points |
|-----------|------------------------|---------------|
| HUMN 3075 | Sociology of Religion | 10 |
| PHIL 3016 | Philosophy of Religion | 10 |
| HUMN 3105 | History of Religion | 10 |

Additional subjects to complete the minor can be chosen from the above three subjects or from the pool subjects listed below.

| Subject | Title | Credit Points |
|-----------------------------|-------------------------------------|---------------|
| Level 1 Subject Pool | | |
| HUMN 1061 | Islam: Past, Present and Future | 10 |
| Level 2 Subject Pool | | |
| HUMN 2001 | A History of Modern Global Buddhism | 10 |

| | | |
|-----------------------------|--|----|
| HUMN 2031 | Islam in the Modern World | 10 |
| Level 3 Subject Pool | | |
| HUMN 3047 | History of Muslim Civilisations and Ideas | 10 |
| HUMN 3115 | Medieval Europe from the Fall of the Roman Empire to the Reformation | 10 |
| HUMN 3061 | Mystical Islam: The Emergence of Sufism in World History | 10 |

Equivalent subject

The subject listed below counts towards completion of this minor for students who passed the subject in 2020 or earlier.

HUMN 1047 - Understanding Islam and Muslim Societies, no longer offered.

HUMN 2043 - Religion and the Origins of Modern Science, no longer offered.

Sustainability Engineering, Testamur Major

Western Sydney University Major Code: T129

Previous Code: MT3050.1

Available to students in other Western Sydney University programs?
 No

Engineers are leaders in developing novel approaches to solving the biggest challenges faced by environmental and interrelated systems. In this Major, students assess the impact of industrial development then propose design solutions using holistic, futuristic and sustainable technologies and strategies. Through hands-on, real-life projects, students explore solutions that integrate technical, technological (IoT), social, cultural, geographical, regulatory and ethical factors particularly in relation to water, air and land. This major will benefit students aiming for careers such as Environmental Engineer/Scientist/Consultant, Natural Resources Manager, Waste Engineer/Manger/ Consultant, and Sustainability Engineer/ Manager/ Consultant. This major includes a mandatory 300 to 450 hour industrial placement as a completion requirement.

Recommended Sequence

This major is included in Bachelor of Engineering Science, Bachelor of Engineering (Honours), Bachelor of Engineering Advanced (Honours) and Bachelor of Engineering (Honours)/Bachelor of Business.

Please follow the recommended sequence for your course as noted below.

Select the link for your program below to see details of the major

Bachelor of Engineering (Honours)

Qualification for this award requires the successful completion of 320 credit points, which include the subjects listed in the recommended sequence below.

* All students undertaking the Bachelor of Engineering (Honours) are required to enrol in MATH 1021 Mathematics for Engineers Preliminary and undertake a readiness test at the beginning of their study.

The readiness test will be conducted at the beginning of the first semester of enrolment and the result will be used to determine whether a student will remain in MATH 1021 Mathematics for Engineers Preliminary or be transferred by the School to MATH 1016 Mathematics for Engineers 1.

Students remaining in MATH 1021 Mathematics for Engineers Preliminary will be required to complete MATH 1016 Mathematics for Engineers 1 during second semester and will be encouraged to complete MATH 1019 Mathematics for Engineers 2 during the Summer session.

The subjects listed below count towards completion of this program for students who passed these subjects in Autumn 2022 or earlier.

ENGR 1008 - Engineering Materials, replaced by PROC 1008 - Introduction to Materials Engineering

Bachelor of Engineering Advanced (Honours)

Qualification for this award requires the successful completion of 320 credit points, which include the subjects listed in the recommended sequence below.

Start-year intake

| Course | Title | Credit Points |
|--|--|---------------|
| Year 1 | | |
| Autumn session | | |
| MATH 1034 | Mathematics for Engineers 1 (Advanced) | 10 |
| ENGR 1024 | Introduction to Engineering Practice | 10 |
| ENGR 1047 | Advanced Engineering Physics 1 | 10 |
| ENGR 1050 | Sustainable Engineering Fundamentals | 10 |
| Credit Points | | 40 |
| Spring session | | |
| MATH 1035 | Mathematics for Engineers 2 (Advanced) | 10 |
| ENGR 1018 | Fundamentals of Mechanics | 10 |
| ELEC 1003 | Electrical Fundamentals | 10 |
| Select one elective | | 10 |
| <ul style="list-style-type: none"> • Elective can be any Level for Year 1 | | |
| Credit Points | | 40 |

| | | |
|---|--------------------------------------|-----------|
| Year 2 | | |
| Autumn session | | |
| CIVL 1001 | Surveying for Engineers | 10 |
| CIVL 2003 | Fluid Mechanics | 10 |
| ENGR 1045 | Engineering Programming Fundamentals | 10 |
| EART 2001 | Climate Change Science | 10 |
| Credit Points | | 40 |
| Spring session | | |
| CIVL 3011 | Hydraulics | 10 |
| ENGR 2032 | Sustainability Analysis and Design | 10 |
| CIVL 2018 | Water Supply Systems Design | 10 |
| Select one elective | | 10 |
| <ul style="list-style-type: none"> • Electives must be Level 2 or higher | | |

Students who fail to maintain a minimum GPA of 5.0 at the end of completion of 160 Credit Points, and again at the completion of 200 Credit points will be automatically transferred to the B. Engineering (Honours) (3740) program.

| | | |
|-----------------------|-------------------------|-----------|

Bachelor of Engineering Science

Qualification for this award requires the successful completion of 240 credit points, which include the subjects listed in the recommended sequence below.

*** All students undertaking the Bachelor of Engineering Science are required to enrol in MATH 1021 Mathematics for Engineers Preliminary and undertake a readiness test at the beginning of their study.**

The readiness test will be conducted at the beginning of the first semester of enrolment and the result will be used to determine whether a student will remain in MATH 1021 Mathematics for Engineers Preliminary or be transferred by the School to MATH 1016 Mathematics for Engineers 1.

Students remaining in MATH 1021 Mathematics for Engineers Preliminary will be required to complete MATH 1016 Mathematics for Engineers 1 during second semester and will be encouraged to complete MATH 1019 Mathematics for Engineers 2 during the Summer session.

Students who finish MATH 1021 Mathematics for Engineers Preliminary will then use this subject as an elective.

Sustainable Business, Major

Western Sydney University Major Code: 0249

Previous Code: SP2010.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

Students undertaking this major will gain skills and knowledge to act on sustainability and social responsibility issues in business recognising the need for financial and business solutions to maintain a competitive edge. Acting on these issues, students enhance critical thinking and problem solving skills, justifying solutions and aligning with the principles of UN SDGs for complex and challenging scenarios that also address social and environmental concerns. Through

business projects and research tasks, students build ethical and responsible characteristics, create innovative strategy, and develop skills in judgement, scenario planning and creativity for business environmental management.

Sustainable Development, Major

Western Sydney University Major Code: 0163

Previous Code: M1107.1

Available to students in other Western Sydney University programs?
No

This major is available to students enrolled in the program Bachelor of Business (p. 78) from 2016. Sustainable development balances the need for development with the need to respect cultures, society, community and the environment. This major is an external major for Bachelor of Business students. Students will examine processes of development and the mechanisms to ensure that development is socially and environmentally sustainable.

Major Structure

Students must complete 80 credit points as follows

Level 1

| Subject | Title | Credit Points |
|----------------------------|-------------------------------------|---------------|
| HUMN 1041 | People, Place and Social Difference | 10 |
| HUMN 1015 | Development and Sustainability | 10 |
| HUMN 1028 | Human Rights, Peace and Development | 10 |
| Total Credit Points | | 30 |

Level 2

| Subject | Title | Credit Points |
|----------------------------|---|---------------|
| HUMN 2032 | Issues in World Development: Rich World, Poor World | 10 |
| Total Credit Points | | 10 |

Level 3

| Subject | Title | Credit Points |
|----------------------------|---|---------------|
| HUMN 3077 | Sustainable Futures | 10 |
| HUMN 3043 | Globalisation and Sustainability | 10 |
| CULT 3016 | Indigenous Cultures: A Global Perspective | 10 |
| HUMN 3041 | Geographies of Migration | 10 |
| Total Credit Points | | 40 |

Sustainable Environmental Futures, Testamur Major

Western Sydney University Major Code: T120

Previous code: MT3043.1

Available to students in other Western Sydney University programs?
No

This testamur major is available as an elective major for Bachelor of Medical Science students only.

Managing our environment sustainably requires professionals who are trained in new technologies across multiple disciplines, including biological and physical sciences, risk assessment, policy and management. Understanding how life interacts with water, soil and the atmosphere empowers us to develop sustainable management solutions for our most pressing environmental challenges. You will learn how to apply fundamental scientific knowledge to evaluate and mitigate the impacts of human activities on natural and managed ecosystems, including the built environment. You will have access to world class ecological and environmental research facilities, and will engage in hands-on, field-based learning, taught by a team at the cutting edge of research in this field. As a graduate, you are prepared for a career in environmental management, consultancy and biological conservation. All students must complete 60 credit points of study at Level 3 to meet course requirements. Students will need to select at least 10 credit points of elective study at Level 3 to meet this requirement.

Location

| Campus | Mode | Advice |

Bachelor of Science

Qualification for the award of Bachelor of Science with a major in Sustainable Environmental Futures requires the successful completion of 240 credit points as per the recommended sequence below.

| Course | Title | Credit Points |
|------------------------------|---|---------------|
| Year 1 | | |
| Autumn session | | |
| NATS 1019 | Scientific Literacy | 10 |
| BIOS 1001 | Biodiversity | 10 |
| CHEM 1008 | Introductory Chemistry | 10 |
| BIOS 1027 | Management of Aquatic Environments | 10 |
| Credit Points | | 40 |
| Spring session | | |
| BIOS 1012 | Cell Biology | 10 |
| ENVL 1004 | Introduction to Environmental Science | 10 |
| Select one of the following: | | 10 |
| MATH 1026 | Quantitative Thinking | |
| MATH 1014 | Mathematics 1A | |
| MATH 1003 | Biometry | |
| Select one elective | | 10 |
| Credit Points | | 40 |
| Year 2 | | |
| Autumn session | | |
| NATS 2025 | Natural Science Research Methods | 10 |
| ENVL 2007 | Environmental Monitoring and Assessment | 10 |
| EART 2001 | Climate Change Science | 10 |
| Select one elective | | 10 |
| Credit Points | | 40 |
| Spring session | | |
| BIOS 2008 | Ecology | 10 |
| Select one of the following: | | 10 |
| NATS 3044 | Complex Case Studies in Science | |
| NATS 3045 | Work Internship for Science Professionals | |
| Select two electives | | 20 |
| Credit Points | | 40 |
| Year 3 | | |
| Autumn session | | |
| NATS 3015 | Field Project 1 | 10 |
| AGRI 3007 | Water in the Landscape | 10 |
| Select two electives | | 20 |
| Credit Points | | 40 |
| Spring session | | |
| BIOS 3035 | Sustainable Environments | 10 |

| | | |
|----------------------------|-----------------------------|------------|
| EART 3006 | Science of the Anthropocene | 10 |
| Select two electives | | 20 |
| Credit Points | | 40 |
| Total Credit Points | | 240 |

Bachelor of Science (Pathway to Teaching Primary/Secondary)

Qualification for the Bachelor of Science (Pathway to Teaching Primary/Secondary) with a major in Sustainable Environmental Futures requires the successful completion of 240 credit points as per the recommended sequence below.

| Course | Title | Credit Points |
|------------------------------|---|---------------|
| Year 1 | | |
| Autumn session | | |
| NATS 1019 | Scientific Literacy | 10 |
| BIOS 1001 | Biodiversity | 10 |
| CHEM 1008 | Introductory Chemistry | 10 |
| BIOS 1027 | Management of Aquatic Environments | 10 |
| Credit Points | | 40 |
| Spring session | | |
| BIOS 1012 | Cell Biology | 10 |
| ENVL 1004 | Introduction to Environmental Science | 10 |
| Select one of the following: | | 10 |
| MATH 1026 | Quantitative Thinking | |
| MATH 1014 | Mathematics 1A | |
| MATH 1003 | Biometry | |
| Select one elective | | 10 |
| Credit Points | | 40 |
| Year 2 | | |
| Autumn session | | |
| NATS 2025 | Natural Science Research Methods | 10 |
| ENVL 2007 | Environmental Monitoring and Assessment | 10 |
| EART 2001 | Climate Change Science | 10 |
| Select one elective | | 10 |
| Credit Points | | 40 |
| Spring session | | |
| BIOS 2008 | Ecology | 10 |
| Select one of the following: | | 10 |
| NATS 3044 | Complex Case Studies in Science | |
| NATS 3045 | Work Internship for Science Professionals | |
| Select two electives | | 20 |
| Credit Points | | 40 |
| Year 3 | | |
| Autumn session | | |
| NATS 3015 | Field Project 1 | 10 |
| AGRI 3007 | Water in the Landscape | 10 |
| Select two electives | | 20 |
| Credit Points | | 40 |
| Spring session | | |
| BIOS 3035 | Sustainable Environments | 10 |
| EART 3006 | Science of the Anthropocene | 10 |

| | |
|----------------------------|------------|
| Select two electives | 20 |
| Credit Points | 40 |
| Total Credit Points | 240 |

In addition, all students must complete the mandatory 40 credit point minor in Education Studies.

Education Studies, Minor (p. 826)

Students must meet this requirement by choosing the subjects from the minor in Education Studies as electives within their Bachelor of Science program.

Bachelor of Advanced Science

Qualification for the award of Bachelor of Advanced Science with a major in Sustainable Environmental Futures requires the successful completion of 240 credit points as per the recommended sequence below.

| Course | Title | Credit Points |
|------------------------------|---|---------------|
| Year 1 | | |
| Autumn session | | |
| NATS 1019 | Scientific Literacy | 10 |
| BIOS 1001 | Biodiversity | 10 |
| CHEM 1008 | Introductory Chemistry | 10 |
| BIOS 1027 | Management of Aquatic Environments | 10 |
| Credit Points | | 40 |
| Spring session | | |
| BIOS 1012 | Cell Biology | 10 |
| ENVL 1004 | Introduction to Environmental Science | 10 |
| Select one of the following: | | 10 |
| MATH 1026 | Quantitative Thinking | |
| MATH 1014 | Mathematics 1A | |
| MATH 1003 | Biometry | |
| Select one elective | | 10 |
| Credit Points | | 40 |
| Year 2 | | |
| Autumn session | | |
| NATS 2025 | Natural Science Research Methods | 10 |
| ENVL 2007 | Environmental Monitoring and Assessment | 10 |
| EART 2001 | Climate Change Science | 10 |
| NATS 2001 | Advanced Science Project A | 10 |
| Credit Points | | 40 |
| Spring session | | |
| BIOS 2008 | Ecology | 10 |
| NATS 2002 | Advanced Science Project B | 10 |
| Select one of the following: | | 10 |
| NATS 3044 | Complex Case Studies in Science | |
| NATS 3045 | Work Internship for Science Professionals | |
| Select one elective | | 10 |
| Credit Points | | 40 |
| Year 3 | | |
| Autumn session | | |
| NATS 3015 | Field Project 1 | 10 |
| AGRI 3007 | Water in the Landscape | 10 |
| NATS 3043 | Advanced Science Research Project C | 10 |

| | | |
|----------------------------|-------------------------------------|------------|
| Select one elective | 10 | |
| Credit Points | 40 | |
| Spring session | | |
| BIOS 3035 | Sustainable Environments | 10 |
| EART 3006 | Science of the Anthropocene | 10 |
| NATS 3043 | Advanced Science Research Project C | 10 |
| Select one elective | | 10 |
| Credit Points | | 40 |
| Total Credit Points | | 240 |

Diploma in Science/Bachelor of Science

Qualification for this award requires the successful completion of 250 credit points which include the units listed in the recommended sequence below.

| Course | Title | Credit Points |
|---|--|---------------|
| Year 1 | | |
| Year 1: College Subjects | | |
| Standard 3-term year | | |
| Preparatory subject | | |
| CHEM 0001 | Chemistry (WSTC Prep) | 10 |
| Eight university-level subjects as follows: | | |
| BIOS 1014 | Cell Biology (WSTC) | 10 |
| CHEM 1006 | Essential Chemistry 2 (WSTC) | 10 |
| NATS 1020 | Scientific Literacy (WSTC) | 10 |
| CHEM 1009 | Introductory Chemistry (WSTC) | 10 |
| BIOS 1003 | Biodiversity (WSTC) | 10 |
| MATH 1027 | Quantitative Thinking (WSTC) | 10 |
| BIOS 1034 | Management of Aquatic Environments (WSTC) | 10 |
| One unit from the following (depending on the testamur major chosen) | | |
| PROC 1003 | Food Science 1 (WSTC) | 10 |
| BIOS 1023 | Introduction to Human Biology (WSTC) | 10 |
| NATS 1021 | Concepts in Human Physiology (WSTC) | 10 |
| ENVL 1003 | Environmental Issues and Solutions (WSTC) | 10 |
| AGEN 1002 | Water Quality Assessment and Management (WSTC) | 10 |
| NATS 1002 | Concepts in Human Anatomy (WSTC) | 10 |
| Credit Points | | 140 |
| Year 2 | | |
| Autumn session | | |
| NATS 2025 | Natural Science Research Methods | 10 |
| ENVL 2007 | Environmental Monitoring and Assessment | 10 |
| EART 2001 | Climate Change Science | 10 |
| Select one elective | | 10 |
| Credit Points | | 40 |
| Spring session | | |
| BIOS 2008 | Ecology | 10 |
| ENVL 1004 | Introduction to Environmental Science | 10 |
| Select one of the following: | | 10 |
| NATS 3044 | Complex Case Studies in Science | |
| NATS 3045 | Work Internship for Science Professionals | |
| Select one elective | | 10 |
| Credit Points | | 40 |

Year 3**Autumn session**

| | | |
|----------------------|------------------------|-----------|
| NATS 3015 | Field Project 1 | 10 |
| AGRI 3007 | Water in the Landscape | 10 |
| Select two electives | | 20 |
| Credit Points | | 40 |

Spring session

| | | |
|----------------------------|-----------------------------|------------|
| BIOS 3035 | Sustainable Environments | 10 |
| EART 3006 | Science of the Anthropocene | 10 |

Systems Programming, Major

Western Sydney University Major Code: 0064

Previous Code: M3114.1

Available to students in other Western Sydney University programs?

No

This major aims to develop graduates with sound skills in the discipline of programming. The focus is on programming at the level of system calls to the underlying operating system and many of the subjects use the industry standard language for systems programming, namely C/C++, as the vehicle of instruction. There is a strong emphasis on the development of highly efficient and reliable code that can provide

support services for higher level application oriented programs, as well as the development of programs suitable for systems administration and management. Practical work utilises the Unix environment. This major is appropriate where a career in systems programming or systems administration is planned, or where the student wishes to develop advanced systems programming skills.

Taxation, Testamur Major

Western Sydney University Major Code: T023

Previous Code: MT2038.1

Available to students in other Western Sydney University programs? No

The Taxation major is available in the Bachelor of Accounting. The specialised subjects in this major analyse core and contemporary issues in taxation using case studies and discussion. The major is designed to meet the additional educational requirements for graduates to apply for registration as tax agents and tax (financial) advisers (subject to relevant work experience). Details regarding these professional requirements can be found on the program 2783 Bachelor of Accounting (p. 17) page.

Location

| Campus | Mode | Advice |
|---|----------|--|
| Parramatta City Campus-Macquarie Street | Internal | Program Advice (https://directory.westernsydney.edu.au/search/email/business.courses@westernsydney.edu.au) |

Major Structure

Qualification for the major requires the successful completion of the eight subjects (80 credit points) below. The first four subjects listed are core subjects in 2783 Bachelor of Accounting. Students who select this major will have three electives remaining in their program.

| Subject | Title | Credit Points |
|----------------------------|--|---------------|
| LAWS 4003 | Advanced Taxation Law | 10 |
| LAWS 1001 | Enterprise Law | 10 |
| LAWS 2005 | Financial Services Law | 10 |
| LAWS 2010 | Law of Business Organisations | 10 |
| JUST 2011 | Law of Commercial Obligations | 10 |
| FINC 3014 | Retirement and Succession Planning | 10 |
| LAWS 3067 | Self-Managed Superannuation and Trusts | 10 |
| LAWS 3070 | Taxation Law | 10 |
| Total Credit Points | | 80 |

Elective subjects can be chosen from among those subjects available within the University.

Technology Entrepreneurship, Major

Western Sydney University Major Code: 0261

Previous Code: M3126.1

Available to students in other Western Sydney University programs?
No

The Technology Entrepreneurship major is focused on guiding students through all stages of turning their innovative idea into a start-up company. In an entrepreneurial ecosystem, you will learn the knowledge and techniques for opportunity discovery, impact analysis, customer analysis, strategic team-building and leadership, the psychology and ethics of the start-up, funding modelling and financial analysis, growth and exit strategies. We will be helping you with defining your idea, forming a team around it, building a prototype, developing a pitch for investors and running a start-up company.

Tourism, Major

Western Sydney University Major Code: 0161

Previous Code: M1105.1

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

The Tourism major introduces contemporary tourism issues and provides an in-depth understanding of tourism as a social phenomenon in a highly mobile world. Successful tourism planning and management relies on a full appreciation of the context in which it is operating. This suite of subjects enables a critical examination of the relationship between tourism and the assets which underpin it - the heritage of places - natural, social and cultural. It is these attributes which provide much of the incentive and attractions for travel, and which provide the business of tourism. Graduates with a tourism major can contemplate careers within a diverse range of government, non-government organization and businesses that require understanding, insight and skills related to tourism policy, planning and management.

The aim of the Tuberculosis Management major is to provide Registered Nurses with the specialist theoretical knowledge and critical thinking skills to prepare them for advanced practice in the clinical management of Tuberculosis among individuals and communities. Students will be able to align their career goals with their professional knowledge and skills in the major. Opportunities will be provided for students completing the Masters level major to synthesise and apply advanced nursing concepts through a capstone project relevant to their professional specialty area.

Urban Studies, Major

Western Sydney University Major Code: 0162

Previous Codee: M1106.1

Available to students in other Western Sydney University programs?
No

This major is available to students enrolled in the program Bachelor of Business (p. 78) from 2016. In the Urban Studies major you will examine the geography of contemporary Australian cities and regions. Urban Studies is focused on social justice within the city, through its critical assessments of peoples' access to scarce urban resources, such as housing, transport, education and employment. The political, economic, and cultural forces that shape cities and urban policy are the key concerns of the Urban Studies curriculum. These applied interests in urban wellbeing and city structure are basis for informed urban management.

Web and Mobile Computing, Testamur Major

Western Sydney University Major Code: T010

Previous Code: ST3082

Available to students in other Western Sydney University programs?
No

The widespread deployment of web and mobile devices has made them a target of choice for companies to carry out their everyday

business. The contemporary developers are expected to understand the strengths and limitations of web and mobile technologies and fit these to create successful user-friendly web and/or mobile applications. This specialisation is aimed at developing knowledge and skills in theoretical concepts and practical technologies needed to design and develop complex software applications across a range of web and mobile platforms. Students with these knowledge and skills will have greater prospects of finding employment with reputable companies or building their career as self-employed developers.

Zoology, Testamur Major

Western Sydney University Major Code: T029

Previous code: MT3014.1

Available to students in other Western Sydney University programs?
No

A Zoology major provides you with the opportunity to study Australia's unique animals and their habitats. Zoologists have a detailed understanding of the diversity of the animal kingdom and are equipped with scientific understanding of how animals function and interact with their environment: ranging from their ecology, behaviour and evolution, to the physiology and biochemistry of cells, tissues and major organ systems. Zoology underpins conservation and sustainability, including major contributions to current research in climate change and ecosystem management. On-campus animal facilities include those for reptiles, small marsupials and rodents, sheep and cattle, as well as over 1000ha of native, rural and aquatic habitats with an abundance of native wildlife. Zoologists graduate with practical laboratory and fieldwork skills that prepare them for a wide variety of vocations in this field. All students must complete 60 credit points of study at Level 3 to meet program requirements. Students will need to select at least 10 credit points of elective study at Level 3 to meet this requirement.

NOTE: Students in the Bachelor of Medical Science can choose this major as an elective major in their program.

| Total Credit Points | | 240 |

In addition, all students must complete the mandatory 40 credit point minor in Education Studies.

Education Studies, Minor (p. 826)

Students must meet this requirement by choosing the subjects from the minor in Education Studies as electives within their Bachelor of Science program.

Bachelor of Advanced Science

Qualification for the award of Bachelor of Advanced Science with a major in Zoology requires the successful completion of 240 credit points as per the recommended sequence below.

| Course | Title | Credit Points |
|------------------------------|---|---------------|
| Year 1 | | |
| Autumn session | | |
| NATS 1019 | Scientific Literacy | 10 |
| BIOS 1001 | Biodiversity | 10 |

Diploma in Science/Bachelor of Science

Qualification for this award requires the successful completion of 250 credit points which include the units listed in the recommended sequence below.

| Course | Title | Credit Points |
|---|--|---------------|
| Year 1 | | |
| Year 1: College Subjects | | |
| Standard 3-term year | | |
| Preparatory subject | | |
| CHEM 0001 | Chemistry (WSTC Prep) | 10 |
| Eight university-level subjects comprising the following six subjects | | |
| BIOS 1003 | Biodiversity (WSTC) | 10 |
| BIOS 1014 | Cell Biology (WSTC) | 10 |
| CHEM 1006 | Essential Chemistry 2 (WSTC) | 10 |
| CHEM 1009 | Introductory Chemistry (WSTC) | 10 |
| MATH 1027 | Quantitative Thinking (WSTC) | 10 |
| NATS 1020 | Scientific Literacy (WSTC) | 10 |
| And two subjects from the following (depending on the testamur major chosen) | | 20 |
| NATS 1002 | Concepts in Human Anatomy (WSTC) | |
| NATS 1021 | Concepts in Human Physiology (WSTC) | |
| ENVL 1003 | Environmental Issues and Solutions (WSTC) | |
| PROC 1003 | Food Science 1 (WSTC) | |
| BIOS 1023 | Introduction to Human Biology (WSTC) | |
| BIOS 1034 | Management of Aquatic Environments (WSTC) | |
| AGEN 1002 | Water Quality Assessment and Management (WSTC) | |
| Credit Points | | 90 |
| Year 2 | | |
| Autumn session | | |
| BIOS 3026 | Evolution and Genetics | 10 |
| NATS 2025 | Natural Science Research Methods | 10 |
| BIOS 2041 | Vertebrate Zoology | 10 |
| AGRI 1009 | Wildlife Studies | 10 |
| Credit Points | | 40 |
| Spring session | | |
| BIOS 2008 | Ecology | 10 |
| BIOS 2006 | Comparative Physiology | 10 |
| Select one of the following: | | 10 |

Accounting (ACCT)

ACCT 0002 Accounting Fundamentals (WSTC) (5 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct0002/>) **Legacy Code:** 900010

Accounting is the practice of recording, classifying, summarising, analysing and interpreting information, of a commercial nature for the purpose of helping people make decisions. In the world of business, the role of accounting is to support management in providing timely and accurate financial information about the business so that informed decisions can be made. This unit examines the basic principles underpinning accounting and connects the accounting process to financial decision making for a business.

Level: Undergraduate Level 0 Preparatory subject

Equivalent Subjects: ACCT 0001 - Accounting Fundamentals (WSTC Prep)

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 0003 Fundamentals of Finance and Accounting (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct0003/>) **Legacy Code:** 201034

In this unit, students will be introduced to the fundamentals of finance and accounting for business. Students will learn to apply numerical skills within the areas of finance and accounting in preparation for post-graduate study. Financial information will be analysed and interpreted for the purpose of decision-making in a range of corporate contexts. Students will be required to demonstrate an understanding of ethical conduct and best practice reporting in undertaking financial and accounting processes.

Level: Undergraduate Level 0 Preparatory subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 1001 Accounting Information for Managers (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct1001/>) **Legacy Code:** 200101

This subject provides exposure to financial and management accounting information from the viewpoint of a non-accounting specialist. The subject aims to provide breadth of awareness and knowledge in relevant fields of accounting essential to decision making for managers.

Level: Undergraduate Level 1 subject

Equivalent Subjects: ACCT 1003 - Accounting Information for Managers (WSTC) ACCT 1002 - Accounting Information for Managers (Creative Industries)

Incompatible Subjects: ACCT 1005 - Accounting in Context ACCT 1006 Accounting in Context (WSTC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 1003 Accounting Information for Managers (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct1003/>) **Legacy Code:** 700005

This unit provides exposure to financial and management accounting information from the viewpoint of a non-accounting specialist. The unit aims to provide breadth of awareness and knowledge in relevant fields of accounting essential to decision making for managers.

Level: Undergraduate Level 1 subject

Equivalent Subjects: ACCT 1001 - Accounting Information for Managers

Incompatible Subjects: ACCT 1005 Accounting in Context ACCT 1006 Accounting in Context (WSTC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 1005 Accounting in Context (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct1005/>) **Legacy Code:** 200972

Accounting in Context is the first core subject required in the accredited accounting program, but can be included as an elective in other programs. It is designed to provide an overarching context about the purpose and usefulness of accounting information and explain a range of definitions and terms used in accounting and business. Accounting in Context will introduce accounting reports and their interpretation, and explore the impact of policy and measurement methods on accounting information and business decisions. Successful completion of the subject will equip participants with an understanding of the importance of accounting to society and allow them to engage with the next core accounting subject; Financial Accounting Applications.

Level: Undergraduate Level 1 subject

Equivalent Subjects: ACCT 1006 - Accounting in Context (WSTC) ACCT 1004 - Accounting Reports and Decisions

Incompatible Subjects: ACCT 1001 - Accounting Information for Managers ACCT 1003 - Accounting Information for Managers (WSTC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 1006 Accounting in Context (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct1006/>) **Legacy Code:** 700274

Accounting in Context is the first core unit required in the accredited accounting program, but can be included as an elective in other courses. It is designed to provide an overarching context about the purpose and usefulness of accounting information and explain a range of definitions and terms used in accounting and business. Accounting in Context will introduce accounting reports and their interpretation, and explore the impact of policy and measurement methods on accounting information and business decisions. Successful completion of the unit will equip participants with an understanding of the importance of accounting to society and allow them to engage with the next core accounting unit; Financial Accounting Applications.

Level: Undergraduate Level 1 subject

Pre-requisite(s): Students in programs 7102 or 7177 must have successfully completed BUSM 0029 Decision Making for Business (WSTC Prep) before enrolling in this subject

Equivalent Subjects: ACCT 1005 - Accounting in Context ACCT 1002 - Accounting Information for Managers (Creative Industries)

Incompatible Subjects: ACCT 1001 - Accounting Information for Managers ACCT 1003 - Accounting Information for Managers (WSTC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 1007 Financial Accounting Applications (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct1007/>) **Legacy Code:** 200111

This unit gives students the practical skills necessary to analyse the accounting transactions of an entity, and then be able to measure and record these transactions in a systematic manner for the preparation of simple financial statements.

Level: Undergraduate Level 1 subject

Pre-requisite(s): ACCT 1001 OR ACCT 1005

Equivalent Subjects: LGYB 3521 - Introductory Financial Accounting ACCT 1008 - Financial Accounting Applications (UWSC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 1008 Financial Accounting Applications (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct1008/>) **Legacy Code:** 700029

This unit gives students the practical skills necessary to analyse the accounting transactions of an entity, and then be able to measure and record these transactions in a systematic manner for the preparation of simple financial statements.

Level: Undergraduate Level 1 subject

Pre-requisite(s): ACCT 1006

Equivalent Subjects: ACCT 1007 - Financial Accounting Applications

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 1010 Management Accounting Fundamentals (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct1010/>)

This subject provides an introduction to management accounting in an e-commerce environment. The interrelations of management accounting to other functional areas, to suppliers, to customers, and to other sources of external information relevant to planning and control are examined. Topics include the development and logic of routine and non-routine analysis performed to support management decision making.

Level: Undergraduate Level 1 subject

Pre-requisite(s): ACCT 1007

Equivalent Subjects: FINC 1001

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 2001 Contemporary Management Accounting (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct2001/>) **Legacy Code:** 200108

This unit critically examines the limitations of traditional management accounting techniques and consider the factors that influence the design of management accounting systems (MAS) and choice of management accounting technique in the contemporary business environment.

Level: Undergraduate Level 2 subject

Pre-requisite(s): FINC 1001

Equivalent Subjects: LGYA 9774 - Advanced Management Accounting LGYB 3530 - Advanced Management Accounting (V1) LGYB 8951 - Management Accounting

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 2003 Financial Statement Analysis (UG) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct2003/>) **Legacy Code:** 200582

This unit provides a substantial grounding in the theories and practices of financial statement analysis so as to enable the student to make knowledgeable decisions relating to the financial analysis of firms. Topics covered include an overview of financial reporting, income vs cash flows, overview of financial statement analysis, data issues in analysing financial statements, GAAP and income recognition and asset valuation, GAAP and liability recognition and related expenses, GAAP inter-corporate entities, profitability analysis, risk analysis, pro forma financial statements, valuation using cash flows and valuation using earnings.

Level: Undergraduate Level 2 subject

Equivalent Subjects: ACCT 2002 - Financial Statement Analysis

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 2004 Intermediate Financial Accounting (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct2004/>) **Legacy Code:** 200536

This unit extends the knowledge and understanding of financial accounting through the application of problem solving to selected entities drawing upon accounting theory and critical analysis.

Level: Undergraduate Level 2 subject

Pre-requisite(s): ACCT 1007

Equivalent Subjects: ACCT 3008 - Financial Accounting Issues LGYA 9763 - The Anatomy of Financial Accounting

Incompatible Subjects: LGYB 3531 - Advanced Financial Accounting LGYB 8985 - Financial Accounting 3

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 2005 Techniques in Financial Accounting (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct2005/>) **Legacy Code:** 200973

Techniques in Financial Accounting is the third unit in the financial accounting stream and builds upon Financial Accounting Applications as part of the accredited accounting program. It introduces a company as a business structure and the accounting requirements for their formation and operations. The unit advances tools required for accurate record keeping leading to compilation of financial statements. The unit teaches participants how to account for receivables and payables, the disposal of non-current assets, and preparation of cash flow statements. Successful completion of the unit will equip participants with a practical and theoretical understanding of usefulness of general purpose financial reports.

Level: Undergraduate Level 2 subject

Pre-requisite(s): ACCT 1007

Incompatible Subjects: ACCT 2004 Intermediate Financial Accounting

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 3001 Accounting Information Systems (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct3001/>) **Legacy Code:** 200534

This unit considers the design and implementation of accounting information systems as a data model for resource allocation and management of an organisation. It includes consideration of current trends in information management and the changing regulatory requirements.

Level: Undergraduate Level 3 subject

Pre-requisite(s): FINC 1001

Equivalent Subjects: LGYB 3524 - Accounting Information Systems LGYA 9783 - Accounting Information Systems ACCT 3010 - Issues in Accounting Information Systems

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 3003 Accounting Standards and Governance (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct3003/>) **Legacy Code:** 200974

This unit builds on the first and second year accounting units, exploring financial reporting issues in greater depth and challenging students to question the foundations of financial reporting. Based on International Financial Reporting Standards (IFRS) and the Australian Accounting Standards Board equivalents (AASB), topics include the regulatory, theoretical and conceptual foundations of financial reporting; corporate social responsibility; accounting for revenue, expenses, liabilities, equity and intangibles; recognition, measurement, revaluation and impairment of different types of assets; accounting for leases; Accounting for financial instruments: accounting for employee benefits; revenue recognition and other comprehensive income; and financial statement analysis. The unit develops graduate capabilities centred upon critical thinking skills, technical skills and professional judgement and their application for solving practical financial reporting and environmental social governance issues.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ACCT 2005

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 3004 Advanced Accounting (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct3004/>) **Legacy Code:** 200267

This unit addresses the advanced aspects of accounting. Accounting theories are discussed in terms of how they assist us in understanding current accounting practice and accounting standards. In addition, theoretical concepts are applied to current news and real world events.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ACCT 3007

Equivalent Subjects: ACCT 3002 - Accounting Philosophies and Theories LGYB 3531 - Advanced Financial Accounting (V1)

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 3006 Auditing and Assurance Services (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct3006/>) **Legacy Code:** 200535

This unit studies the roles and responsibilities of the auditor, auditing principles and standards and the application of those standards, particularly in an electronic environment.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ACCT 3007

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 3007 Corporate Accounting Systems (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct3007/>) **Legacy Code:** 200109

This unit builds on the fundamental knowledge of accounting procedures gained in prerequisite units. It involves the comprehensive study of aspects of corporate accounting and reporting which are regulated by legislation, accounting standards, Australian Securities and Investment Commission and Stock Exchange requirements. This unit is designed to provide students with grounding in the regulation and practice of corporate reporting in Australia. The major orientation is towards the theoretical and practical aspects of corporate reporting, whilst at the same time exploring the reasons for regulatory disclosures.

Level: Undergraduate Level 3 subject

Co-requisite(s): ACCT 2004 OR ACCT 3003

Equivalent Subjects: LGYB 3525 Corporate Accounting LGYB 8944 Corporate Accounting LGYA 9764 Corporate Accounting

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 3009 Incubator 4: Commercial and Financial Setting of Entrepreneurship (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct3009/>) **Legacy Code:** 301169

Operating a start-up is not just about being creative and innovative; it is also about having the necessary management and operational skills, understanding the commercial and financial setting within which the organisation needs to operate it. This unit aims to provide vital details that set the background to run your organisation whether your customer base is local, national or even international. This objective is driven through a number of topics such as: setting up a business entity, accounting fundamentals, taxation fundamentals. The unit will be delivered through a number of modules. As a vital part of the unit, students are expected to engage and work in "start-up co-working space" on a regular basis. At the successful completion of this unit, students would set up as a business entity for their start-up organisation.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 3011 The Accountant as a Consultant (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct3011/>) **Legacy Code:** 200118

This unit aims to provide students with a 'hands on' flexible and practical work integrated learning (WIL) experience in the Accounting degree. This is mainly done through working in groups on projects as accountants would do when they engage with clients and entrepreneurs as professional consultants. Students come to understand the role of an accountant in the effective management of the business to sustain, grow and expand the business to higher levels consulting problems involving a wide range of business related issues. This unit is designed to give students an opportunity to apply the theoretical knowledge gained in other units in their degree program thus enabling them to bring knowledge to life. On successful completion of this unit students will be able to appreciate the relevance of their business subjects/units in real business situations and to become business consultants.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ACCT 2001

Equivalent Subjects: LGYB 8986 - The Accountant as a Management Consultant

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 7002 Accounting Professional Engagement (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct7002/>) **Legacy Code:** 200693

This unit aims to provide students with a 'hands on' flexible and practical work integrated learning experience in the Accounting degree. This unit focuses on the role that accountants play in the effective management of businesses. Appropriate accounting research methods are used to investigate and report on problems and "real" case studies involving a wide range of business related issues. This is mainly done through working as groups on projects as accountants do when they engage with clients and entrepreneurs as professional consultants.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): ACCT 7005

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 7005 Accounting Theory and Applications (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct7005/>) **Legacy Code:** 200401

Basic questions of the role accounting performs in society are considered from economic, social and environmental perspectives. The nature of the statements advanced to give accounting legitimacy, together with their philosophical underpinnings, are examined. Selected accounting theories and philosophies will be examined and advanced applications in alternative accounting models considered. Accounting research and appropriate methodologies are introduced.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): ACCT 7010

Equivalent Subjects: LGYA 8980 - Financial Accounting D (PG)

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 7007 Accounting: A Business Perspective (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct7007/>) **Legacy Code:** 200495

Accounting: A Business Perspective focuses on the analytical uses of accounting information by managers. It emphasizes the role of both financial and management accounting in measuring, processing and communicating information that is useful in making economic decisions

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: ACCT 7001 - Accounting Perspectives for Management

Incompatible Subjects: ACCT 7018 - Introductory Accounting

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 7009 Auditing (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct7009/>) **Legacy Code:** 200398

The aim of this unit is to introduce students to the practice of auditing and the underlying concepts, auditor's responsibilities and the audit environment. The focus of attention is on audits carried out under the provisions of corporations legislation and reference is also made to other forms of audit. The unit uses blended learning and case study approaches and students will learn to apply professional, ethical and legal requirements and responsibilities in completing and reporting on auditing and assurance tasks.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): ACCT 7010

Equivalent Subjects: LGYA 8983 - Auditing (PG)

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 7010 Company Accounting (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct7010/>) **Legacy Code:** 200400

The aim of this unit is to extend the fundamental accounting skills gained in Introductory Accounting to application of the more advanced accounting and reporting issues created by corporate structures. Students will learn how to prepare consolidated financial statements, with associated disclosures, to ensure compliance with accounting standards, corporations legislation and Australian Stock Exchange (ASX) requirements. Through a range of practical individual and collaborative means students will explore corporate accountability and the reasons for regulatory disclosure.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): ACCT 7018

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 7012 Corporate Finance (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct7012/>) **Legacy Code:** 200426

As an introductory finance unit, Corporate Finance introduces students to the fundamental concepts of finance theory - the time value of money, risk and return, capital budgeting and capital structure - and to the tools of financial decision-making in the context of the Australian institutional environment. Students examine the investment, financing and dividend decisions of corporations and develop an understanding of the basic practices of financial management from the perspective of both large and small firms.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 8876 - Finance LGYA 8986 - Corporate Finance (PG)

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 7013 Financial Decision Making (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct7013/>) **Legacy Code:** 200784

Students will gain financial literacy through practical understanding of the information contained in financial reports. Appreciating the variety of uses of accounting information for planning and controlling enhances the ability to extract relevant data. This unit emphasises the function of both financial and management accounting in measuring, processing and communicating information useful for decision making.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: ACCT 7001 - Accounting Perspectives for Managers

Incompatible Subjects: ACCT 7018 -Introductory Accounting

ACCT 7007 - Accounting A Business Perspective

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 7015 Financial Reports for Decision Making (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct7015/>) **Legacy Code:** 200821

This unit focuses on developing the ability to use accounting information, as extracted from financial reports, to assist with managerial decision making. Students will gain financial literacy through developing an understanding of the information contained in financial reports and applying this information to practical decisions. This unit emphasises the function of both financial and management accounting in measuring, processing and communicating information useful for decision making.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 7016 Information Systems for Accountants (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct7016/>) **Legacy Code:** 200399

The aim of this unit is to examine the theory and application of information technology on the accounting discipline. This unit covers principles of systems analysis, design and database management relating to accounting information systems. The functions, control, data and processes of accounting information systems are discussed in the context of businesses. Students learn about the communication of accounting information through the internet and explore further the development of integrated systems using a blended learning design approach.

Level: Postgraduate Coursework Level 7 subject

Co-requisite(s): ACCT 7018

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 7018 Introductory Accounting (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct7018/>) **Legacy Code:** 200396

The aim of this unit is to provide a comprehensive introduction to contemporary financial accounting. This is an essential component in the understanding of the production and use of accounting information in business. This unit applies accounting concepts, standards and principles enabling students to be competent in the technical skills in accounting which is a fundamental tool for making economic decisions and for analysing and solving business problems. Students will learn to apply such concepts, standards and principles through a range of individual and collaborative means using a blended learning design that draws on current and future trends in the broad international context.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 8941 - Financial Accounting A LGYA 8966 - Financial Accounting B

Incompatible Subjects: ACCT 7007 - Accounting A Business Perspective (PG) ACCT 7015 - Financial Reports for Decision Making

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 7019 Management Accounting (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct7019/>) **Legacy Code:** 200494

The fundamental purpose of any management accounting system in an organisation is to provide appropriate information for (i) costing of products and services; (ii) support functions such as planning, controlling, evaluation, continuous improvement and decision making; and (iii) competitive support. This provides financial and non-financial services to the management team to enhance the firm's competitiveness. The unit is designed to provide an understanding of these areas of information through applying concepts, theories and models in a range of individual and collaborative activities.

Level: Postgraduate Coursework Level 7 subject

Co-requisite(s): ACCT 7018

Equivalent Subjects: LGYA 89821 - Management Accounting (PG)

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 7026 Behavioural Finance (PG) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct7026/>) **Legacy Code:** 201038

Cognitive biases and emotional influences have the potential to influence the decision-making of advisors, managers and investors. This unit provides students with the skills to advise clients such that their investment decisions are soundly based. Various biases and influences are introduced to students to demonstrate how they undermine rational investment decision-making. Students are then taught how to apply methods that advisors can use to overcome and correct these biases. Ensuring clients are fully educated about investment decisions is integral to the investment process, and necessary to ensure advisors meet the best interest duty of their profession. This unit is available as a stand-alone bridging unit which is accredited by the Financial Adviser Standards and Ethics Authority (FASEA) having met the FASEA curriculum and standards requirements.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ACCT 9001 Higher Degree Research Thesis - Accounting (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/acct9001/>) **Legacy Code:** 800031

Level: PhD and Research Masters Level 9 subject

Agriculture (AGRI)

AGRI 1003 Animal Science (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri1003/>) **Legacy Code:** 300801

This unit will provide students with an understanding of comparative physiological and anatomical concepts of a range of mammalian and avian species. Students will develop the skills to apply these concepts in practical situations through the use of field observations and the relationship of these to functional anatomy and physiology of production animals. In addition students will develop many of the principles and concepts employed in animal production. Concepts discussed in lectures are reinforced by practical classes held in the laboratory and in the outdoor laboratories.

Level: Undergraduate Level 1 subject

Equivalent Subjects: AGRI 1002 - Animal Science

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 1004 Feeding the Planet (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri1004/>) **Legacy Code:** 300804

This unit will explore the concepts driving current food production science (population growth, urbanization, emerging affluence, resource constraints, and underlying biological limits) in terms of their universal life cycles, constraints to production and societal issues. Throughout the unit, key questions will be addressed: What are the major health benefits and potential concerns regarding the intensification of production and consumption of food? How does agricultural production affect the efficient use of resources and impact our environment? Can costs of production be reduced to meet the growing demand for food products around the globe while maintaining health and safety for consumers? What are the different types of food production systems? Myths and misconceptions surrounding the food systems will be discussed and analysed. The unit is geared towards learners who seek a greater understanding of food systems and have a desire to learn more about issues surrounding sustainability.

Level: Undergraduate Level 1 subject

Equivalent Subjects: LGYA 6095 - Primary Production

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 1005 Human Animal Interactions (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri1005/>) **Legacy Code:** 300807

This unit introduces students to the varying relationships between humans and animals including domestication, the role of animals for companionship, as workers, the traditional role of animals in agriculture, wildlife and zoo animals and their increasingly recognised aesthetic and therapeutic roles. Students will work with a variety of domesticated animals, captive native mammals, and reptiles on-campus, and in a variety of animal industries off campus, including wildlife parks and zoos. The unit includes a balance of theoretical and practical work in the areas of behaviour and handling, basic husbandry, health care, and ethical management.

Level: Undergraduate Level 1 subject

Incompatible Subjects: AGRI 1006 - Introduction to Animal Science AGRI 1007 - Human Animal Interactions

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 1009 Wildlife Studies (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri1009/>) **Legacy Code:** 300813

This unit involves the study of basic biology, ecology, conservation and management of selected wildlife. Students will learn different management systems and research methods used in the conservation and management of wildlife. The use of wildlife as a sustainable resource will also be analysed within the context of ecological sustainable development and animal ethics.

Level: Undergraduate Level 1 subject

Equivalent Subjects: AGRI 1008 - Introduction to Wildlife Studies

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 1010 Protected Cropping Climate Control and Technology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri1010/>) **Legacy Code:** 301263

This unit will teach students the intricacies of crop management in a highly controlled growing environment and the interplay between environmental response and plant behavior. In doing so, it will incorporate one nationally recognized unit of competency, "AHCPT503 - Manage a controlled growing environment". Students will also identify controlled environment technologies including those available, under-development and being researched, such as robotics, sensors and gene technologies. Students will gain an appreciation for the science and technology that drives high-tech greenhouse production and apply their skills in Western Sydney University's state of the art National Vegetable and Protected Cropping Centre (NVPC) and its PRIVA operating system at the Hawkesbury campus.

Level: Undergraduate Level 1 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 1011 Introduction to Agrifood (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri1011/>)

This Subject introduces the concepts driving current food production science in terms of universal life cycles, constraints to production and societal issues. Throughout the unit, key questions will be addressed: What are the major health benefits and potential concerns regarding the intensification of production and consumption of food? How does agricultural production affect the efficient use of resources and impact our environment? Can costs of production be reduced to meet the growing demand for food products around the globe while maintaining health and safety for consumers? What are the different types of food production systems? The unit is geared towards learners who seek a greater understanding of food systems and have a desire to learn more about issues surrounding sustainability.

Level: Undergraduate Level 1 subject

Equivalent Subjects: AGRI 1004

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 2001 Agronomy (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri2001/>) **Legacy Code:** 300863

This unit enables students to develop understanding of basic crop and pasture agronomy including plant identification, crop/pasture establishment, growth, development, adaptation, plant protection, and grazing management. Students manage a crop in the field and a pot trial in the glasshouse and interact with researchers and industry professionals in understanding broad principles involved in the production and management of crops, pasture and animal production issues. The practical sessions enable students to apply the management principles and become familiar with various measuring techniques.

Level: Undergraduate Level 2 subject

Equivalent Subjects: LGYA 6118 - Agronomy

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 2003 Animal Health and Welfare (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri2003/>) **Legacy Code:** 300834

This unit will introduce students to the major issues related to animal health and welfare that form essential knowledge for those working with animals. In particular, students will gain an understanding of disease and methods for disease control as well as an introduction to disease diagnosis. In addition, students will gain knowledge about the relationships between animal management and the health and welfare expectations for domesticated and wild animals. The causes of common animal diseases will be introduced as well as the legal obligations of those owning, working or observing animals with respect to maintaining and monitoring their health and welfare.

Level: Undergraduate Level 2 subject

Pre-requisite(s): BIOS 1001

Equivalent Subjects: AGRI 2002 - Animal Health and Welfare

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 2004 Animal Reproduction (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri2004/>) **Legacy Code:** 300835

Reproduction is the origin of life. The aim of this unit is to provide students with a sound understanding of reproduction of both domestic and non domestic animals so that they can design and manage a breeding program for a species of choice. Topics will include anatomy and physiology of male and female reproductive tracts; hormonal control of reproduction; fertilisation, pregnancy, parturition and lactation and advanced reproductive technologies. These topics will be explored in a range of species across different taxonomic groups.

Level: Undergraduate Level 2 subject

Equivalent Subjects: LGYB 3711 - Equine Reproduction and Stud Management AGRI 3006 - Animal Reproduction

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 2005 Sustainable Food Production (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri2005/>) **Legacy Code:** 300791

Sustainable Food Production provides students with the knowledge and skills required to analyse current and future food production systems with an emphasis on water and energy efficiency. The subject material integrates agronomic principles with food supply chain analysis. This approach facilitates an analytical framework that goes beyond farm-gate productivity by including aspects of the food supply chain. Key concepts include water use efficiency, nitrogen balance, energy balance, life cycle assessment, and greenhouse gas emissions. Case studies will be drawn from a range of food production systems, emphasising productivity per unit of input.

Level: Undergraduate Level 2 subject

Incompatible Subjects: LGYA 6125 - Advances in Agonomy

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 2006 Agriculture, Food and Health (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri2006/>) **Legacy Code:** 301389

This unit is designed to strengthen student understanding of the important interactions between food, agriculture, environment and health. Traditionally the topics of food, agriculture, environment and health have been taught mainly in isolation from each other. It is becoming increasingly apparent that this traditional approach bears little relevance to real world issues and in some cases acts as an impediment to progress. Alternatives to the current 'western industrialised' food production system will be explored. These include organic agriculture, local farmer markets, and consumer driven changes to food production systems.

Level: Undergraduate Level 2 subject

Incompatible Subjects: LGYA 6185 - Ecology of Production

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 2007 Introduction to Agrifood (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri2007/>) **Legacy Code:** 301443

This unit introduces the concepts driving current food production science in terms of universal life cycles, constraints to production and societal issues. Throughout the unit, key questions will be addressed: What are the major health benefits and potential concerns regarding the intensification of production and consumption of food? How does agricultural production affect the efficient use of resources and impact our environment? Can costs of production be reduced to meet the growing demand for food products around the globe while maintaining health and safety for consumers? What are the different types of food production systems? The unit is geared towards learners who seek a greater understanding of food systems and have a desire to learn more about issues surrounding sustainability.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 3001 Analysis of Agricultural Supply and Demand (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri3001/>) **Legacy Code:** 301098

Students will develop understanding of the integrated nature of the agri-food value chain (supply and demand) from economic, environmental and social perspectives. Integrative processes and tools from established value chains will be evaluated in the context of changing consumer sentiment. Through analysis of economic and environmental gains (e.g. water and energy savings), students will identify emerging opportunities and challenges for improved and/or alternative food distribution systems. Analytical and reporting tools will be used to develop competence in data management, with emphasis on increasing communication from consumer to producer.

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYA 6131 - Analysis of Agricultural Supply Chains

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 3002 Animal Nutrition and Feeding (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri3002/>) **Legacy Code:** 300853

Animal nutrition and feeding is fundamental to many aspects of animal production and wildlife systems. This unit aims to provide students with knowledge of nutrient requirements for different types of animals and the nutrient composition of common feeds. Students will evaluate and formulate rations to meet a range of animal requirements at different stages of growth, reproduction, lactation and production.

Level: Undergraduate Level 3 subject

Equivalent Subjects: AGRI 3003 - Animal Nutrition and Feeding

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 3005 Animal Production (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri3005/>) **Legacy Code:** 300854

Animal production is about producing animals for food, companionship and conservation. This unit aims to develop an understanding of the major animal production systems used for food and fibre and other resources in Australia (intensive and wildlife), and to apply this knowledge to improving problematic issues and understanding topical issues. Topics will focus on the application of animal production principles to these production systems.

Level: Undergraduate Level 3 subject

Equivalent Subjects: AGRI 3004 - Animal Production

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 3007 Water in the Landscape (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri3007/>) **Legacy Code:** 300870

Many land and water use activities in both urban and rural landscape result in hydrologic changes that have environmental, economic and social consequences. These activities require appropriate management strategies for sustainable water use in catchment. In this unit, the hydrologic cycle will be explored at varying spatial scales in urban and rural contexts. Hydrologic, environmental, economic and social perspectives will be used in the examination of the demand and the use of water.

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYA 6246 - Water in the Landscape

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 3008 Animal Health, Ethics and Welfare (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri3008/>) **Legacy Code:** 301255

This unit will ensure students will be able to evaluate the major issues related to animal health, welfare and ethical frameworks that govern working with animals. In particular, students will gain knowledge of the diseases impacting animals and methods for disease diagnosis and control. In addition, students will apply this knowledge to the relationships between animal management and the health and welfare expectations for domesticated and wild animals. The legal obligations of the impact of legislative regulation for those owning, working or observing animals with respect to approval processes, maintaining and monitoring animal health and welfare is also addressed. Students may need to travel to another campus to complete this unit.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BIOS 1001 AND AGRI 1003

Incompatible Subjects: AGRI 2002 Animal Health and Welfare AGRI 2003 Animal Health and Welfare

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 3009 Agricultural Technology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri3009/>) **Legacy Code:** 301449

Agricultural Biotechnology is rapidly developing and this unit will assure you the knowledge and skills that contribute to the future of sustainable food production. The subject material integrates agronomic principles with current and emerging biotechnology, highlighting issues and solutions based around case studies. This approach facilitates an analytical framework that goes beyond traditional production systems including eco-farming, life-cycle and regenerative agriculture, along with development of innovative and integrated production and waste systems. Key concepts include sustainable resource use, nitrogen balance, energy efficiency, and greenhouse gas emissions and market analysis.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 3010 Animal Health and Welfare (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri3010/>) **Legacy Code:** 301456

Level: Undergraduate Level 3 subject

Equivalent Subjects: AGRI 3008 Animal Health Ethics and Welfare

Incompatible Subjects: AGRI 2002 Animal Health and Welfare AGRI 2003 Animal Health and Welfare

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 7001 Agricultural Biosecurity (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri7001/>) **Legacy Code:** 301368

Biosecurity is a set of measures to prevent, respond to and recover crops and livestock from pests and diseases that threaten the economy and environment. Comprehensive biosecurity systems help ensure food security and food safety, which is crucial for community health, competitiveness for agricultural export and conservation of natural environments. This unit studies the epidemiologic triangle consisting of the host, disease and the environment in which the disease develops, and the series of measures and practices to detect and prevent entry and spread of pests, diseases and weeds. The potential for future biosecurity mega shocks to the agricultural industry, preparedness for rapid emergency responses to an exotic incursion, and management of invasion of pests and diseases will be discussed.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 7002 Agricultural Biotechnology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri7002/>) **Legacy Code:** 301369

Biotechnology is a powerful enabling technology that is revolutionising agriculture by delivering improved productivity and nutrition, better management of pests and diseases, improved ability to cope with environmental challenges, and development and production of medicines and functional products. The discovery and applications of gene editing by CRISPR-Cas technology as well as modification of organisms using recombinant DNA, RNAi and other molecular technologies are seen as key to providing solutions to global food crisis, climate change associated disasters and health and disease-related issues. This unit focuses on modern and cutting-edge techniques used in cell culture and tissue engineering, genome editing, transformation and transgenesis, rapid breeding and selection and synthetic biology to address contemporary issues in sustainable agriculture.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 7003 Agricultural Technologies (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri7003/>) **Legacy Code:** 301370

This unit will provide students with knowledge and practical experience of new technologies associated with broad-acre and intensive cropping and pastures, and their role in mixed farming systems. A major focus of this unit is how new technologies such as drones, machine learning, remote sensing and imaging science technologies are contributing to more productive and sustainable land management systems.

The advanced agronomy component of the unit will explore keys to successful crop and pasture management - recognising variability in performance within the paddock and farm, diagnosing the underlying causes of spatial and temporal variability, and using precision agriculture tools to produce better informed enterprise management decisions, plant yield, sustainability and quality for end-users.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

AGRI 7004 Livestock Production Systems (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/agri7004/>) **Legacy Code:** 301373

This unit covers the principles of animal production required to develop sustainable and efficient production systems to meet the challenges of domestic and global needs. It will cover the scientific principles (biochemical, anatomical and physiological) that underpin intensive and extensive animal production. These principles will be related to key production parameters and indicators including growth, reproduction, lactation and milk production, fibre production and breeding. Students will apply scientific principles to the planning of production in farming simulation models. Through these simulation programs students will explore production case studies and develop advisory plans. Focus areas include animal health and management, whole farm production systems and the challenges to animal production from changing climate, food safety and quality, consumer requirements and animal welfare.

Level: Postgraduate Coursework Level 7 subject

Architecture and Urban Envir. (ARCH)

ARCH 1004 Drawing and CAD (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch1004/>) **Legacy Code:** 301228

This unit is designed to provide students with the knowledge and skills necessary to develop elementary design skills and basic CAD (Computer Aided Design) proficiency suitable for application within the building industry. Students will learn to describe building designs in plan, section, elevation, isometric and perspective views. Basic drafting concepts and skills will be acquired in the context of individual detached housing designs. Students will also be required to develop appropriate analytical and problem solving skills in dealing with a realistic house building project.

Level: Undergraduate Level 1 subject

Equivalent Subjects: ARCH 1003 Graphic Communication and Design (WSTC)

ARCH 1001 Graphic Communication and Design

ARCH 1005 Drawing and CAD (WSTC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

ARCH 1005 Drawing and CAD (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch1005/>) **Legacy Code:** 700306

This unit is designed to provide students with the knowledge and skills necessary to develop elementary design skills and basic CAD (Computer Aided Design) proficiency suitable for application within the building industry. Students will learn to describe building designs in plan, section, elevation, isometric and perspective views. Basic drafting concepts and skills will be acquired in the context of individual detached housing designs. ARCH 2001 Architecture Studio - Fundamentals of Analogue Design (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch2001/>) **Legacy Code:** 301197

This unit will introduce students to fundamentals of spatial composition as it relates to visual and temporal experience in architectural contexts. Project-based assessments will involve the creation of 2D and 3D compositions that explore traditional organisational strategies, classical principles of geometry, materiality, experiential phenomena, and representation. Students will work with analogue and traditional tools including freehand drawing and conventional shop equipment. The unit will also provide an introduction to the history, theory, and discourse of architecture from 4000BC to the Enlightenment.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ARCH 2002 Architecture Studio - Fundamentals of Digital Design (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch2002/>) **Legacy Code:** 301198

This unit introduces students to fundamentals of spatial organisation and human experience in the built environment. Principles of making will be practiced and analysed for their relationship to architectural outcomes, the study of Modern organisational strategies, materiality, experiential phenomena, and abstraction. Students work on project-based assessments that involve an iterative process of reflection and refinement, the use of digital techniques of 3D design including NURBS modelling and rapid prototyping to explore architectural concepts. This work is contextualised as students learn about the history, theory, and discourse of architecture from the Industrial Revolution to the Present.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ARCH 2003 Development Control (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch2003/>) **Legacy Code:** 300723

This unit provides an overview of development control and associated legislation. These include: interpretation of planning law as it relates to the development application process; the assessment of applications for approval for development as an integrated process; the evaluation of the impact assessment process; appropriate consideration of urban design, streetscape, heritage and conservation issues; and the evaluation of the impact of parking, traffic, landscape and services in development proposals.

Level: Undergraduate Level 2 subject

Equivalent Subjects: ARCH 2004 - Development Control

Incompatible Subjects: BLDG 1012 - Property Development Controls

Restrictions: Please see the Subject Details page for any restrictions for this subject

ARCH 3002 Architecture Studio - Global Cities (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch3002/>) **Legacy Code:** 301201

This unit will situate learning in the context of the Global City. Projects will be used to investigate scenarios that are common to the contemporary condition of the developing world and the expanding metropolis in various international contexts. Students will either travel to international sites, work with international partners, or work remotely on problems beyond the Australian context. Work integrated learning will be a key feature of the Global Cities studio and will involve relevant members of the professional community to help lead studio investigations. Assessments will include complex urban projects at a large scale, developed using the design, communications, technical, and theoretical studies that have underpinned their education. Assessments will be project-based in real world scenarios and will incorporate sustainable strategies of design. Studies will be supplemented by tuition in structural design and will also be informed by concurrent studies in building science.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ARCH 3004 AND

ARCH 3003

Restrictions: Please see the Subject Details page for any restrictions for this subject

ARCH 3003 Architecture Studio - Rethinking Urbanism (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch3003/>) **Legacy Code:** 301200

This unit will extend the concept of Urban Transformation, where the architect is an agent of progress and change in the built environment. Students will refine their use of architectural design as a medium for speculation and advocacy in the public realm and in daily life of the city. Rethinking Urbanism will investigate architecture and civic space at the scale of public projects. Students will use various models of three-dimensional representation for communication and experimentation with new ways of building the urban fabric. Assessments will be project-based in real world scenarios and will incorporate sustainable strategies of design.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ARCH 2001 AND ARCH 2002

Restrictions: Please see the Subject Details page for any restrictions for this subject

ARCH 3004 Architecture Studio - Rethinking the Sub-urban (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch3004/>) **Legacy Code:** 301199

This unit will introduce the concept of Sub-urban Transformation, where the architect is an agent of progress and change in the built environment. Students will learn to use architectural design techniques as a medium for speculation and advocacy in the public realm and in daily life of the city. Rethinking the Sub-urban will investigate domesticity at the scale of residential projects and communities. Students will be concurrently trained in the use of Building Information Modelling (BIM) as a means to develop project work and collaborate as they explore new ways of building the suburban fabric. Assessments will be project-based in real world scenarios and will incorporate sustainable strategies of design.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ARCH 2001 AND ARCH 2002

Restrictions: Please see the Subject Details page for any restrictions for this subject

ARCH 3005 Architecture Studio - The Infrastructural (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch3005/>) **Legacy Code:** 301202

This unit situates learning in the context of the major urban public projects that sit at the intersection of architecture, infrastructure, and urban design and which highlight the pressure of population growth, climate change, or other significant demographic, economic, political, or ecological transformations. Work integrated learning is a key feature of the Rethinking Infrastructure studio which involve relevant members of the professional community to help lead studio investigations and/or embed students in professional practices. Projects include architectural responses to complex urban and infrastructural projects at a large scale such as transit oriented development, high density housing, landscape urbanism. Students develop professional practice skills on these real world projects and incorporate sustainable strategies of design as well as learning skills in advocacy, entrepreneurship, and professional readiness.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ARCH 3004 OR ARCH 3003

Restrictions: Please see the Subject Details page for any restrictions for this subject

ARCH 3006 Urban Design (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch3006/>) **Legacy Code:** 102070

The unit aims to provide students with an understanding of the nature, role and relevance of urban design. It will examine the issue of urban design at both the micro and macro scale. It also aims to promote awareness of, and sensitivity to, design considerations, and to enable students to critically evaluate urban spaces and places. A key feature of the course will be the development of the graphical communication skills of students.

Level: Undergraduate Level 3 subject

Equivalent Subjects: ARCH 3001 - An Introduction to Urban Design LGYA 1333 - Local Planning

Restrictions: Please see the Subject Details page for any restrictions for this subject

ARCH 4001 Architecture Studio: Urban Architecture (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch4001/>) **Legacy Code:** 301316

This unit will introduce students to urban architecture with complex brief requirements, site conditions and technological considerations. Emphasis is on design resolution considering historical, geographical and social aspects. Experimentation at various theoretical levels is expected and students are encouraged to deliver ambitious and imaginative architectural responses.

Level: Undergraduate Level 4 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ARCH 7001 Developing Sustainable Places (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch7001/>) **Legacy Code:** 101636

This unit provides an understanding of environmental, economic and social issues arising from the effects of urban development within city regions and examines the relationship between sustainable development and metropolitan planning in the Australian and global context. It focuses on the concepts related to sustainability, sustainable development and sustainable cities. It also looks into recent initiatives towards the realisation of sustainable cities.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 1340 - Land Use Strategy Design LGYA 1294 - Urban Challenges Developing Sustainable Places

Restrictions: Please see the Subject Details page for any restrictions for this subject

ARCH 7002 Heritage and Planning (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch7002/>) **Legacy Code:** 102069

This unit explores the values behind, and practicalities regarding, heritage and planning, from federal and state perspectives in Australia. With a specific focus on Sydney, the unit explores how planning applications, within the urban development sphere, impact upon heritage assets, and how these impacts are mitigated through heritage planning legislation. The unit asks students to step into the shoes of heritage planning professionals and to identify and research a heritage asset that is to be impacted by a potential planning proposal and then to design an appropriate mitigation response within the bounds of relevant heritage legislation.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: ARCH 3001 - Introduction to Urban Design

Restrictions: Please see the Subject Details page for any restrictions for this subject

ARCH 7003 Managing Cities: History and Theory (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch7003/>) **Legacy Code:** 101633

This unit concerns philosophical thought and critical thinking in public planning. It develops an understanding of planning theories and examines past and present trends in this area. It reviews the theoretical frameworks for an insight into planning processes and analyses the economic, spatial and socio-political dimensions of activities involved.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 1293 - Metropolitan Structures Cities in Transformation

Restrictions: Please see the Subject Details page for any restrictions for this subject

ARCH 7004 Planning and Development Control (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch7004/>) **Legacy Code:** 300708

This unit describes the general planning issues relevant to developments in rural and urban areas. The content covers the factors important in determining the allocation and use of land and resources together with the contributions of development to the built and natural environment. Topics include: urban and rural design issues; the impact of the 3 tiers of Government process on development control, and the legal, political and technical issues relevant to impact assessments. Particular attention will be paid to the role of the private sector in developing controls, self-regulation and appeal processes. Planning in both the micro and macro environments is examined in the context of sustainability, indigenous culture and heritage, private land conservation, community resources and its strategic effects on the recycling of existing land and non-renewable natural resources.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ARCH 7005 Urban Management Practice: Governance and Power in the City (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch7005/>) **Legacy Code:** 101314

Governance is a central but often overlooked issue in Urban Management. What is governance? What are the principles of good governance? What are some of the governance challenges in major metropolitan cities that cover multiple jurisdictions? How do statutory local governments engage with specialist state agencies in fields such as economic development, environmental planning, and infrastructure planning? This unit answers these questions, reviews governance practices in major cities across the world and provides students with knowledge of key governance tools. Students will prepare a research report dealing with a significant urban governance challenge, and provide recommendations about how to implement solutions to that challenge. The central objective of the course is to provide students with a sound framework and set of tools with which to address governance issues.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ARCH 7006 Urban Planning Placement Project (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch7006/>) **Legacy Code:** 102604

This Urban Planning Placement Project unit provides Master of Urban Management and Planning and Master of Planning students with an understanding of the planning/urban management workplace. Students are placed with local planning or urban management employers to work on a variety of planning tasks. Placements are structured for student engagement in professional work in planning. Placement agencies ensure that students are supervised by experienced planners, are mentored through site visits and work on planning projects in a professional capacity. Agreements with supervisors and clear communication lines are set to clarify student engagement and their involvement in meaningful professional tasks that contribute to an authentic learning experience, rather than simply unpaid or irrelevant labour.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 1297 - Urban Management Placement Project LGYC 4646 - Urban Management Placement Project

Restrictions: Please see the Subject Details page for any restrictions for this subject

ARCH 7007 Advanced Design Communication (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch7007/>) **Legacy Code:** 301239

Advanced Design Communication is a core architecture seminar in the Master of Architecture (Urban Transformation) course that will explore contemporary methods of design generation and visualisation, representation techniques, and collaboration tools, including but not limited to digital fabrication, computational and algorithmic design, simulation, virtual and augmented reality, building information modelling, parametric design, and scripting. Students will undertake case studies from the community of practice and precedents in this disciplinary domain, including an investigation of how emerging technologies are used in existing professional settings locally and internationally. Students will develop their own design-based enquiry to apply knowledge and skills acquired in the seminar that result in a project and report of their work.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ARCH 7008 Integrated Building Technology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch7008/>) **Legacy Code:** 301240

Integrated Building Technology is a core unit in the Master of Architecture (Urban Transformation) course that will introduce students to the range of specialist consultants in structural and civil engineering, mechanical, electrical, communications, and transport systems, fire safety and egress, and environmental systems (acoustics, lighting, thermal) that are required to complete real projects in practice. Students gain an insight into the principles and concepts of each discipline which provides sufficient depth of knowledge and understanding of the role of the architect to meaningfully engage and collaborate with the allied specialists. Understanding how to communicate and document the integration and coordination of systems in a building is developed through exposure to case studies, specialist presentations, and field trips. Students apply concepts introduced in the unit to the design studio project they are concurrently developing in unit Practice Research Studio Housing and demonstrate their understanding of system integration through graphic representation techniques and a design report.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ARCH 7014 Health, Wellbeing and Place (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch7014/>) **Legacy Code:** 102769

Planning for health and wellbeing is essential for ensuring human flourishing in our cities and regions. This unit investigates geographies of health, wellbeing and place through analysis of physical, mental and environmental health and spaces of wellbeing. Drawing on insights from geography, planning and related disciplines it asks how built environment professionals can create healthy futures through place making. Through local, national and international case studies the unit will explore how cities can be better designed to counter growing lifestyle epidemics, motivate active living and respond to the opportunities of population ageing and challenges of environmental change.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ARCH 7015 Practice Research Studio Civic (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch7015/>) **Legacy Code:** 301382

Practice Research Studio Civic shall focus upon the research and design of a single, comprehensive architectural project over the duration of the semester through either a civic, residential, or hybrid project type. Students will explore topics related to the broad umbrella of urban transformation and to contemporary architectural practices through the studio work, and will engage with a broad community of professionals, stakeholders, and programmatic conditions. Projects shall be representative of the often-contested intersection of competing interests of the urban environment, where the designer must conduct rigorous analysis and research to inform high-quality design outcomes that are attendant to social, ethical, regulatory, technical, procurement, and environmental issues. Students are expected to develop projects to a high degree of resolution in terms of spatial and experiential quality, technical proficiency, and conceptual rigour, underpinned by theoretical and historical knowledge, and communicated clearly. Projects in the studio will vary in scale, setting, building type, and complexity from year to year, with a thematic emphasis that contributes to the overall research direction of the architecture program at WSU. Students will be expected to engage in the studio with a high degree of individual motivation, resourcefulness, and inquisitiveness as would be expected of professional level studies.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ARCH 7016 Practice Research Studio Housing (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch7016/>) **Legacy Code:** 301383

Practice Research Studio Housing shall focus upon the research and design of a comprehensive architectural project over the duration of the semester through either a civic, residential, or hybrid project type (as distinct from Practice Research Studio Civic in the preceding semester). Students will explore topics related to the umbrella of urban transformation and to contemporary architectural practices through the studio work, and will engage with a broad community of professionals, stakeholders, and programmatic situations. Projects shall be representative of the often-contested intersection of competing interests of the urban environment, where the designer must conduct rigorous analysis and research to inform high-quality design outcomes that are attendant to social, ethical, regulatory, technical, procurement, and environmental issues. Students will undertake projects that involve international sites, project contexts, programs, or collaborations. Students are expected to develop project work to a high degree of resolution in terms of spatial and experiential quality, demonstrating through clear communication and representation techniques the technical proficiency, conceptual rigour, and theoretical and historical knowledge that support the project outcomes. Projects in the studio will vary in scale, setting, building type, and complexity from year to year, with a thematic emphasis that contributes to the overall research direction of the architecture program at WSU. Students will be expected to engage in the studio with a high degree of individual motivation, resourcefulness, and inquisitiveness as would be expected of professional level studies.

Level: Postgraduate Coursework Level 7 subject

ARCH 7017 Urban Transformation Studio Local (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch7017/>) **Legacy Code:** 301398

Urban Transformation Studio Local incorporates work integrated learning with a real world design project and expert mentoring giving students' opportunities to implement aspects of professional architectural practice. Students extend their skills in creating a project that includes conducting site analyses, defining the program and designing conceptual models. This requires critical reasoning as well as ethical and aesthetic judgement for designing projects for presentations in concise written, oral and visual professional formats. Through the design process, students combine contemporary urban and architectural theory with architectural practice to create exciting visions of urban environments while integrating technical and legal regulations, and realising ethical obligations.

ARCH 7018 Architectural Professional Practice (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch7018/>) **Legacy Code:** 301404

This unit introduces students to the expectations and the requirements that are needed for a professional practice in Architecture. As such students will require to critically examine a broad range of real life professional, legal, business and ethical challenges that are likely to face in practice and apply critical thinking in order to resolve these problems. The intention here is to assist students in navigating through complex real life challenges and to bring a common sense and real world approach to solving a problem. Transitioning from university to the workplace can be quite daunting thus, the aim here is to allow students to gain the knowledge and skills to make informed decisions but most importantly to build confidence in themselves as they move forward with their career.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ARCH 7019 Urban Transformation Studio Global (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch7019/>) **Legacy Code:** 301400

In this high-level, project unit, students apply theory and practice to their urban transformation project relating to Greater Western Sydney region while being mentored in developing ethical and aesthetic judgement, creative imagination, independent and critical reasoning skills. Students learn to present a project design that is well resolved integrating spatial and experiential quality, contextual, cultural, social and environmental considerations, technical proficiency, and conceptual rigour. The design contributes to the students' portfolio of work demonstrating concept, resolution and presentation design skills leading towards ethical architectural practice as well as showcasing a civic project for Australia's greatest megatropolis.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): ARCH 7015 Practice Research Studio Civic and ARCH 7016 Practice Research Studio Housing and (HUMN 4001 Research Design 1 or HUMN 4009 Researcher Development 1 Reading Writing and the Business of Research) and (HUMN 4002 Research Design 2 or HUMN 4010 Researcher Development 2 Proposing and Justifying Research)

ARCH 7020 Cool Green Cities (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/arch7020/>) **Legacy Code:** 102853

Climate change, urban expansion and densification result in hotter microclimates and loss of green infrastructure. The increasing frequency and severity of heatwaves, floods and droughts require changes to how we design and retrofit existing neighbourhoods and build new suburbs. Contemporary urban planning and design principles recognise blue and green infrastructure as a 'must have'. Blue and green infrastructure is key to building cool and resilient cities capable of functioning well within the social, environmental and economic challenges of the 21st century. This unit provides knowledge about what it takes to deliver cool green cities. Focusing on practical applications at precinct or suburb scale, it enables students to implement learned principles in their professional practice.

Banking, Finance and Related (FINC)

FINC 1001 Management Accounting Fundamentals (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc1001/>) **Legacy Code:** 200116

This subject replaced by ACCT 1010 Management Accounting Fundamentals from Trimester 2, 2022. This subject provides an introduction to management accounting in an e-commerce environment. The interrelations of management accounting to other functional areas, to suppliers, to customers, and to other sources of external information relevant to planning and control are examined. Topics include the development and logic of routine and non-routine analysis performed to support management decision making.

Level: Undergraduate Level 1 subject

Pre-requisite(s): ACCT 1007

Restrictions: Please see the Subject Details page for any restrictions for this subject

FINC 1003 Professional Relationships and Communication in Business (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc1003/>) **Legacy Code:** 200747

This unit will introduce students to and assist them in the development of a broad range of necessary skills required by today's professional advisers. Such skills are highly valued, transferable and universally recognised in the world of work and will assist students in managing their day to day relationships with clients and colleagues. Skills include: * Creation and on going maintenance of the client adviser relationship and a recognition of the importance of trust as the foundation of that relationship; * Identification of the broad needs of clients and an appreciation of differing levels of client financial literacy; * Communication and interpersonal skills which contribute to productive relationships with clients and colleagues; * Professional/Academic research and writing skills; * Enhanced team based skills that contribute to productive working relationships and outcomes.

Level: Undergraduate Level 1 subject

FINC 2002 Personal Asset Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc2002/>) **Legacy Code:** 200265

This subject provides students with necessary knowledge and skills to construct and manage a portfolio of personal assets. Emphasis is placed on how the individual, rather than the firm, approaches financing and investing decisions. The subject will consider the theories of portfolio construction, concepts of investment risk, return and diversification, matching asset allocation based on client's individual risk profile, design and management of a personal investment portfolio and the law as it relates to investments. This subject meets accreditation requirements of the Financial Adviser Standards and Ethics Authority (FASEA).

Level: Undergraduate Level 2 subject

Pre-requisite(s): FINC 3006

Incompatible Subjects: -

Restrictions: Please see the Subject Details page for any restrictions for this subject

FINC 3001 Bank Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc3001/>) **Legacy Code:** 200818

Bank Management provides students with an understanding of modern banking by identifying the main types of risk confronted by banks and applying relevant techniques to measure and manage those risks. Students will recognise that the risks faced, and the methods and markets through which these risks are managed, are similar for the managers of other types of financial institutions such as building societies, investment banks and insurance companies as well as, to some extent, non-financial corporates. Consequently, the unit will prepare students for careers throughout the financial services sector and will also be beneficial for other business professionals.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

FINC 3002 Behavioural Finance (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc3002/>) **Legacy Code:** 200518

Traditional theories of finance are based the assumption that investors are both rational and utility maximizing. The Efficient Markets Hypothesis in particular has assumptions about investor behaviour which underpin its key predictions. The tenants of behavioural finance disputes the validity of these assumptions. This unit challenges traditional theory by examining how decision making and investor behaviour may be driven by personal and market psychology.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

FINC 3004 Financial Planning (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc3004/>) **Legacy Code:** 200627

Financial planning is the culmination of study into the complex processes involved in providing financial advice following the requirements of the Financial Adviser Standards and Ethics Authority (FASEA). Students are challenged to apply their knowledge of the principles of personal financial planning to provide personal financial advice through the Statement of Advice. Through weekly activities including case studies and role plays, students develop their understanding of the current Australian regulatory environment, strategies for the accumulation of wealth and risk protection, planning and managing finances.

Level: Undergraduate Level 3 subject

Pre-requisite(s): FINC 3014

Equivalent Subjects: -

Restrictions: Please see the Subject Details page for any restrictions for this subject

FINC 3006 Insurance Advising - Theory and Practice (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc3006/>) **Legacy Code:** 200272

This unit provides a substantial grounding in the theories and practices of insurance and risk management so as to enable students to make knowledgeable and sound risk management decisions, to understand advisory functions and the role and legal obligations of the adviser in the insurance process. The course is useful to students who wish to increase their knowledge generally of personal risk management but also for students specifically interested in the insurance aspects of the financial planning process. The unit is designed to include an understanding and exploration of managing personal risk, the operation of insurance markets, regulation, insurance products including life, general, health and mandated policies and recommendations for using insurance products for individuals, their families and small business.

Level: Undergraduate Level 3 subject

FINC 3007 International Property (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc3007/>) **Legacy Code:** 200545

This unit examines international property, with particular attention given to international property investment and the factors influencing international property markets. The development of international property markets is assessed, including the structure of mature, developing and emerging property markets. The performance analysis of both direct and indirect international property is also examined to assess the strategic contribution of international property in an investment portfolio.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

FINC 3008 Investment Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc3008/>) **Legacy Code:** 200819

Investment Management describes the theory and practice of investment decision-making. The general objective of the unit is to introduce students to the tools of financial investment by providing a conceptual framework within which the key financial decision of investment can be analysed. This unit provides an overview of the theory of investing by describing investor indifference curves and optimal portfolios. The unit will include evaluating asset allocation, security selection and security analysis within an active portfolio management framework, measuring portfolio performance and security selection decisions.

Level: Undergraduate Level 3 subject

FINC 3009 Property Finance (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc3009/>) **Legacy Code:** 200875

The aim of this unit is to provide insight into property finance in Australia and overseas. Students critically review equity and debt financing and examine the financing alternatives available, as well as methods for evaluating these alternatives. Students also examine the impact of debt financing on a property and evaluate the taxation aspects of property transactions. In addition, students gain both a theoretical and an applied understanding of an after-tax cash flow projection in this unit. International property finance is also addressed.

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc3014/>) **Legacy Code:** 200899

Retirement and Succession Planning aims to provide a study of the legislative framework and financial planning issues that impact on advice and decisions relating to retirement planning and estate and succession planning. The unit focuses on identifying practical and strategic planning opportunities and outcomes. The unit will be run with students discussing case studies and preparing critical analysis reports on contemporary issues. Successful completion of the unit will introduce students to retirement planning and superannuation concepts which could lead to careers in these fields.

Level: Undergraduate Level 3 subject

FINC 3015 Security Analysis and Business Valuation (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc3015/>) **Legacy Code:** 200921

This unit analyses companies from a fundamental perspective in order to derive an intrinsic value for securities. The focus is on the attempt by active investors to identify mispriced securities using publicly available information, company reports and financial market information. The analytical techniques of financial statement analysis (e.g. fundamental analysis, free cash flow analysis and pro-forma analysis) and the issue of the "reliability" and "quality" of publicly available information are discussed and explored. Those contemplating careers in investment banking, financial consulting, trust funds, superannuation funds, hedge funds, and brokerage firms will find this applied unit both useful and interesting.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ECON 2002

FINC 7001 Communication and Ethics for Financial Planners (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc7001/>) **Legacy Code:** 201008

Students are immersed in an ethical framework in which to practice an array of essential skills required, by financial advisers, to create and maintain professional client adviser relationships. The unit investigates the importance of interpersonal skills and various approaches to dealing with the broad needs of clients - communication, psychological aspects of client decision making, culture and the creation of trust in the adviser-client relationship. This unit also includes professional writing skills, team work, time management, financial literacy and the promotion of professional services.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: FINC 7002 - Communication and Ethics for Financial Planner

Incompatible Subjects: FINC 7004 - Financial Adviser Skills

Restrictions: Please see the Subject Details page for any restrictions for this subject

FINC 7002 Communication and Ethics for Financial Planners (EO) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc7002/>) **Legacy Code:** 900660

Level: Postgraduate Coursework Level 7 subject

FINC 7006 Financial Modelling (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc7006/>) **Legacy Code:** 51054

This unit is essential in preparing students for applied financial analysis and modelling applications used extensively in a number of postgraduate finance units. It familiarises students with the strengths and limitations of contemporary quantitative modelling techniques using multivariate statistical procedures and optimisation approaches. Students are also familiarised with relevant software.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

FINC 7007 Financial Planning Research Project (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc7007/>) **Legacy Code:** 200959

Financial Planning Research Project encompasses a major research project and presentation. This equips students with skills to address challenges through research and the ability to apply knowledge developed in earlier units of study. This student-centered unit provides supervision of research and analytical practices to enhance skill development and capacity to engage with the problems confronting the financial planning industry. Students will have scope to focus on issues that are of particular concern to the financial planning industry. As an integrating unit, it demands participants bringing their knowledge together and with curiosity to develop recommendations in a format that can showcase their achievements.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

FINC 7008 Financial Products and Markets (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc7008/>) **Legacy Code:** 200986

This unit introduces students to the wide range of investment products and financial securities. Importantly, it develops students' ability to analyse investment opportunities and understand their respective risk and reward profiles. Students will also develop the computational skills necessary for transactions in financial markets, which enable an informed comparison of securities for the purposes of investment decisions.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

FINC 7009 Financial Products and Markets (EO) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc7009/>) **Legacy Code:** 900653

Level: Postgraduate Coursework Level 7 subject

FINC 7010 Insurance and Risk Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc7010/>) **Legacy Code:** 200870

This unit introduces students to the use of a range of insurance types and products to manage risk for individuals and small business. It aims to identify, evaluate and manage risk as part of the financial planning process to produce a compliant statement of advice. A number of risk management strategies are identified and the importance of life insurance, total and permanent disablement, trauma policies, property insurance, health cover, income protection and business insurance in managing risk is addressed. The unit provides an understanding of the various issues that can arise with respect to insurance policies and premiums and uses both the multiple and needs analysis approaches to calculate the level of cover required. A holistic approach to the risk management process is provided where a variety of insurance covers are considered in the context of a full financial plan that is adequate and affordable to the client and their specific needs as identified in the data collection process.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): FINC 7020 AND

FINC 7011 OR

FINC 7008

Equivalent Subjects: LGYB 6488 Insurance and Risk Management (PG)

Restrictions: Please see the Subject Details page for any restrictions for this subject

FINC 7011 Investment Planning (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc7011/>) **Legacy Code:** 200868

Investment Planning is one of the core units in the Master of Commerce (Financial Planning). The course is designed to provide the educational basis to enable students to increase competence as professional financial advisers and enable them to gain an advanced knowledge and understanding of the financial planning industry. The unit introduces basic concepts of risk and return in relation to investment planning. Various investment vehicles are covered including shares and fixed interest investments.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYB 6482 Principles of Investment Planning (PG)

Restrictions: Please see the Subject Details page for any restrictions for this subject

FINC 7012 Investment Planning (EO) (10 Credit Points)

FINC 7015 Principles of Financial Planning (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc7015/>) **Legacy Code:** 200866

This introductory unit describes the nature and process of financial planning and financial planning participants within the Australian economic, legal, social, cultural and ethical environment. The key influences affecting the client relationship are identified along with a focus on the use of verbal and non-verbal communication skills to develop client rapport. The unit also involves evaluating data collection and risk tolerance tools and identifying the impact of the regulatory and economic environment on stakeholders. Other topics involve budgetary analysis, term structure, investment decisions, ethics, client goal-setting and statement of advice compliance. The unit provides the foundational knowledge essential to develop and apply comprehensive knowledge across all financial planning areas.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYB 6479 Principles of Financial Planning (PG)

Restrictions: Please see the Subject Details page for any restrictions for this subject

FINC 7016 Principles of Financial Planning (EO) (10 Credit Points)

FINC 7017 Property Investment Analysis (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc7017/>) **Legacy Code:** 200696

This unit introduces the concept of investment analysis in the context of property. It explores the unique features of income-producing property and examines the performance of these properties, their loans and their taxation through the application of a variety of investment techniques. Also covered are risk analysis techniques for income-producing properties and portfolios.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYB 6499 - Property Investment Analysis (V2)

Restrictions: Please see the Subject Details page for any restrictions for this subject

FINC 7019 Statement of Advice Research Project (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc7019/>) **Legacy Code:** 200960

Statement of Advice Research Project encompasses a major research project, a Statement of Advice (SOA). This SOA equips students with knowledge and skills to address challenges through research and the ability to apply knowledge developed in earlier units of study. This student-centered unit provides skill development and capacity to engage with the requirements of the profession. Students will have scope to focus on issues relevant to a case study as a means of developing a comprehensive SOA for a client (in the case study). As an integrating unit, it demands participants bringing together their knowledge to develop recommendations based on learning from earlier units. This unit also ensures students meet the regulatory and accreditation education requirements to be a registered financial adviser.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): Students enrolled in 2793 Masters of Financial Planning or 2807 Master of Stockbroking and Financial Advising must have successfully completed 60 credit points

Equivalent Subjects: LGYB 6493 - Current Issues in Financial Planning

Restrictions: Please see the Subject Details page for any restrictions for this subject

FINC 7020 Superannuation (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc7020/>) **Legacy Code:** 200867

This unit provides an understanding of the key issues, decisions and frameworks that affect financial planning for retirement. The unit focuses on superannuation and effective financing of retirement.

It includes key concepts in prudential supervision of Australian superannuation, exploration of types of funds relevant to retirement, appreciating trends in retirement financing policies and their effects on providing advice, understanding the social security and age care systems' effect on retirement planning strategies; and correctly computing tax liabilities on superannuation, pensions, and estate management. This unit is the principal one for learning about self-managed superannuation funds, for whom they are suitable and for whom they are not.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

FINC 7021 Superannuation (EO) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc7021/>) **Legacy Code:** 900659

Level: Postgraduate Coursework Level 7 subject

FINC 7022 Applied Project (Finance and Property) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/finc7022/>) **Legacy Code:** 201100

Applied Project (Finance and Property) is the integrating capstone unit, which brings together the skills that property students have developed during the course in preparing a high quality professional report in the finance or property industry. The unit encourages property students to demonstrate their ability to solve multi-disciplinary problems in relation to current and future issues that affect the finance or property sectors. The unit will also allow students to critically evaluate issues in their industry to determine and assess potential industry implications. The topics are determined from year to year by discussions between the individual student, the unit coordinator and the student's chosen supervisor.

Level: Postgraduate Coursework Level 7 subject

BEHV 0008 Psychological Foundations of Health (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv0008/>) **Legacy Code:** 900123

This unit provides an introduction to the psychology of health and behaviour relevant to understanding patient health decisions and outcomes. Students will be introduced to psychology and health to understand the tradition and relevance of psychology to nursing. This unit also includes foundation topics such as models of health and illness, health-behaviour change models, risk-taking behaviour, stress and health, learning and conditioning, personality and health, human development over the lifespan, death and dying, as well as group dynamics in health. These topics are offered as basic principles, theories, and models of psychology related to health behaviours, future learning, and professional practice in nursing.

Level: Undergraduate Level 0 Preparatory subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 1001 Behaviour and Environment (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv1001/>) **Legacy Code:** 101182

This is a fully online unit. Everything we do depends on our environment, but rarely do we ask the question "what is the environment?" In this unit, we examine our various environments, the natural world, our built physical spaces and things, and the social, biological, and psychological domains. We then examine questions of: How do we interact with these environments, and how do they shape and influence our behaviour? How does understanding this interaction help us improve the human condition, while also maintaining the integrity of the environment? Drawing from psychology to understand human behaviour, the unit has application to as many discipline areas as there are spheres of human activity.

Level: Undergraduate Level 1 subject

Equivalent Subjects: LGYB 4217 - Computer Models in Psychology

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 1003 Introduction to Research Methods (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv1003/>) **Legacy Code:** 101190

This subject covers the conceptual underpinnings of research in psychology, including methodologies such as experimental, quasi-experimental, non-experimental and qualitative research. Conducting ethical research will be covered, including consideration of how research participants are positioned, issues related to research with diverse populations, as well research validity. Skills for writing research proposals and reports according to the conventions of the Publication Manual of the American Psychological Association (APA) are developed.

Level: Undergraduate Level 1 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 1009 Living, Learning and Working on the Web (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv1009/>) **Legacy Code:** 102502

This unit prepares students for living, learning and working in a digital society. We examine how the web mediates behaviour, communication and culture in contemporary times. Students learn by participating and enterprising in online spaces as part of a supportive learning community. This unit also provides an important opportunity for students to develop a professional online web presence and identity that is relevant for their university studies, employability and the future of work.

Level: Undergraduate Level 1 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 1010 Positive Psychology: The Science of Happiness, Resilience, and Wellbeing (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv1010/>) **Legacy Code:** 102606

We live in an increasingly volatile, uncertain, complex, and ambiguous (VUCA) world which places greater emotional demands on people and organisations. This unit introduces the Positive Psychology theory, research and the practical evidence-based techniques to enhance wellbeing and resilience in an increasingly VUCA world. Positive psychology is an emerging field of academic study and practical application in personal and work settings which focuses on the creation of individual resilience, strengths and virtues, creativity and other indicators of human flourishing. Throughout this unit, students will be encouraged to actively engage and apply the positive psychology concepts taught within the course and to critically reflect on these experiences to bring about personal change.

Level: Undergraduate Level 1 subject

BEHV 1014 Psychology and Health (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv1014/>) **Legacy Code:** 101614

This unit provides an introduction to the psychology of health, mental health, and health-related behaviour, as relevant to health science professions. Students will be introduced to the principles and applications of psychology and health behaviour, using a biopsychosocial framework. This will be followed by an examination of the psychological aspects of injury and illness and an introduction to psychological interventions related to health concerns. Emphasis is upon understanding health status and mental illness in light of relevant theory and research.

Level: Undergraduate Level 1 subject

Equivalent Subjects: BEHV 1006 - Introduction to the Psychology of Health BEHV 1015 - Psychology and Health (WSTC)

BEHV 1018 Psychology: Human Behaviour (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv1018/>) **Legacy Code:** 101184

Psychology is a field of scientific inquiry that uses a set of scientific techniques and methods to explain and understand the causes of behaviour. As a profession, psychology applies its knowledge to practical problems in human behaviour. This unit covers a range of topics in psychology at an introductory level including: the history of psychology, intelligence, social psychology, developmental psychology, Australian Indigenous and cross-cultural psychology, personality, and abnormal psychology.

Level: Undergraduate Level 1 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 1021 The Individual in Society (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv1021/>) **Legacy Code:** 101557

This unit introduces the main theoretical perspectives for understanding the 'individual in society', including: humanistic, biological, cognitive, behavioural and socio-cultural explanations of individual behaviour. These perspectives are further understood through application of the 'levels of analysis' framework. The content then moves on to social psychology and covers topics such as: self and identity, attitudes and attitude change, conformity and obedience, prejudice and discrimination, aggression, pro-social behaviour and attraction and close relationships. Students explore the relevance of these topics to everyday life and contemporary issues.

Level: Undergraduate Level 1 subject

Equivalent Subjects: BEHV 1002 - Interpersonal Interaction BEHV 1006 - Introduction to the Psychology of Health BEHV 1023 - The Individual in Society

BEHV 1022 The Individual in Society (Block Mode) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv1022/>) **Legacy Code:** 101764

In this unit students focus on understanding individuals within their social and physical context. They are introduced to psychology as the scientific study of behaviour and mental experience. Students examine how individual psychology interacts with society, culture, and the physical environments. Featured topics include self and identity, close relationships, social relations and groups, empathy and pro-social behaviour, prejudice, conflict and aggression. Students are guided to explore Aboriginal and Torres Strait Islander perspectives, and the emerging field of indigenous psychology, and to consider what implications these have for a better understanding of psychology and the individual in context.

Level: Undergraduate Level 1 subject

Equivalent Subjects: BEHV 1021 - The Individual in Society

BEHV 1024 Applied Psychology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv1024/>) **Legacy Code:** 102706

Psychology is defined as the science of human behaviour and mental processes. Psychological theories aim to explain diverse aspects of everyday human experience and behaviour and are applied in diverse social, organisational and professional settings. In this subject, students explore key domains of psychological inquiry and practice, how psychological research and theory influences and impacts individuals, groups and communities, and how psychology theory can be used to analyse contemporary issues. Students are encouraged to evaluate the different ways psychological research is communicated.

BEHV 1025 Usable Design (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv1025/>) **Legacy Code:** 102716

This unit examines the psychological principles underlying users' experience of design. After introducing fundamental principles of human perception and cognition, we will explore the way these principles shape the experience of users when interacting with a designed product. The unit will also introduce the experimental approaches used to study perceptual and cognitive processes, focussing on critical evaluation of design principles and highlighting techniques relevant to user experience evaluation.

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 1026 Cyber Behaviour (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv1026/>)

Cyber behaviour is an introductory unit addressing the intersection between humans and today's technologically driven world. This unit will introduce psychological theories about human behaviour, and how those theories predict our behaviours with and perceptions of technology. Topics will include basic understanding of the principles behind human behaviour such as classical conditioning and human cognition, and bridge the technological divide with topics such as cyberpsychology and human computer interaction. In cyber behaviour we will approach these topics with a focus on how they apply within industry and applications to cyber security.

BEHV 2002 Brain and Behaviour (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv2002/>) **Legacy Code:** 101684

This unit provides an introduction to the biological and neuroscientific bases of human behaviour. Topics covered include the chemistry of life, the molecular basis of life, the cell and some of the major organ systems of the human body with particular reference to the nervous, endocrine and sensory systems. The unit has a significant laboratory component which reinforces lecture and text material. Students will be introduced to the biological and neuroscientific concepts necessary for a thorough understanding of areas of psychology such as abnormal psychology, cognitive processes, developmental psychology, human learning, and physiological psychology.

Level: Undergraduate Level 2 subject

Equivalent Subjects: LGYA 0972 - Neuroscience

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 2005 Human Learning (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv2005/>) **Legacy Code:** 101676

Human Learning is concerned with the experimental analysis of human and animal behaviour and focuses upon associative learning, including classical conditioning, operant conditioning, and social learning approaches. Definitions, assumptions, and basic phenomena associated with the study of learning are described and evaluated in terms of their ability to account for various aspects of human behaviour and experience. The practical work highlights important concepts introduced in the lecture program and focuses upon practical techniques of use in everyday situations.

Level: Undergraduate Level 2 subject

BEHV 2008 Mental Health in the Community (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv2008/>) **Legacy Code:** 101594

Mental health service delivery in the community is now the main form of care for people across the lifespan living with mental and emotional disorders. The development of a wider range of pharmacological, psychological and psychosocial treatments has enabled many people to live productively in the community. This unit explores the changes in policy and practice in the development of integrated mental health care and the impact of these changes on the lives of people living with mental illness and their communities. Early intervention, resilience and recovery are concepts explored in this unit in terms of mental health and wellbeing.

Level: Undergraduate Level 2 subject

BEHV 2010 Perception (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv2010/>) **Legacy Code:** 101680

This unit examines the fundamental principles underlying human perception and expands upon the sensation and perception content introduced in the foundational psychology units. After reviewing the biological basis of sensing and perceiving, we will explore the way this relatively raw information is processed and organised into the complex perceptions of the visual, auditory, olfactory, gustatory and somatosensory systems, which constitute the fundamental basis of our experience of the world. The unit will also examine the history of perceptual theories and the use of psychophysical methods and experimental approaches to the study of perceptual processes

Level: Undergraduate Level 2 subject

Pre-requisite(s): BEHV 1016

Equivalent Subjects: BEHV 2001 - Biological Psychology and Perceptual Processes

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 2015 Mental Health in the Community (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv2015/>) **Legacy Code:** 700301

Mental health service delivery in the community is now the main form of care for people across the lifespan living with mental and emotional disorders. The development of a wider range of pharmacological, psychological and psychosocial treatments has enabled many people to live productively in the community. This unit explores the changes in policy and practice in the development of integrated mental health care and the impact of these changes on the lives of people living with mental illness and their communities. Early intervention, resilience and recovery are concepts explored in this unit in terms of mental health and wellbeing.

Level: Undergraduate Level 2 subject

Equivalent Subjects: BEHV 2008 - Mental Health in the Community

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 2017 Mental Health in the Community (UG Cert) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv2017/>) **Legacy Code:** 500044

Mental health service delivery in the community is now the main form of care for people across the lifespan living with mental and emotional disorders. The development of a wider range of pharmacological, psychological and psychosocial treatments has enabled many people to live productively in the community. This unit explores the changes in policy and practice in the development of integrated mental health care and the impact of these changes on the lives of people living with mental illness and their communities. Early intervention, resilience and recovery are concepts explored in this unit in terms of mental health and wellbeing.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 2018 Personality (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv2018/>) **Legacy Code:** 102906

Most of us probably use the term 'personality' almost every day. Yet the conceptualisation and definition of personality is far from settled. This unit introduces the controversies and debates in the psychology of personality, as well as the major theoretical and applied approaches to its measurement. Emphasis is placed on an understanding of personality research and its implications for the practice of psychology.

Level: Undergraduate Level 2 subject

Equivalent Subjects: BEHV 2011 - Personality Motivation and Emotion
BEHV 3017 - Personality

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 2019 Citizenship and Community Engagement (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv2019/>) **Legacy Code:** 800238

The subject provides second and third year students enrolled in Advanced degrees or the Bachelor of Creative Leadership with opportunities to develop professional identity through exposure to workplaces, community settings and research processes related to their chosen field of study. Students will gain work experience while being encouraged to identify, examine, and discuss notions of citizenship and identity encountered in intercultural and diverse environments. This cross-disciplinary subject employs experiential learning in a 60-hour volunteering internship to achieve the learning outcomes. Individual or team internships are chosen in consultation with Academy staff to ensure their relevance to the learning outcomes.

Level: Undergraduate Level 2 subject

Equivalent Subjects: BEHV 2007 - Internship and Community Engagement

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 2020 Introduction to Digital Mental Health (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv2020/>)

This subject introduces students to the emerging field of digital mental health. Digital mental health services, including telehealth, web-based counselling services and mobile phone apps, are increasingly being adopted in the practice of psychology and other health disciplines. This subject describes the uses of digital mental health for health promotion, prevention and treatment of mental illnesses. Benefits and limitations of digital delivery of mental health services are described in the context of the broader public mental health system, with a focus on young people and smartphone apps. An assessment framework for mental health smartphone apps will be introduced to support students' critical evaluation of the quality and integrity of smartphone apps. Students will also apply their understanding of digital mental health to a real-world project.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 3002 Abnormal Psychology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv3002/>) **Legacy Code:** 101681

Abnormal Psychology is the study of behaviours that cause distress or dysfunction or are judged as deviant within the individual's culture. This subject examines definitions of abnormality, ways of assessing and diagnosing abnormality, theories of the causation of psychological abnormality and treatments for recognized psychological disorders.

Diagnostic criteria from the latest edition of the Diagnostic and Statistical Manual of Mental Disorders are applied to illustrative cases with emphasis on contemporary Australian research and theory. The development of integrated models of abnormality, including biological, psychological and social factors, is a significant theme of the subject.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BEHV 1016 AND
BEHV 1018

Equivalent Subjects: BEHV 3001 - Abnormal Behaviour and Psychological Testing

Incompatible Subjects: BEHV 3003 - Abnormal Psychology (online)

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 3004 Advanced Research Methods (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv3004/>) **Legacy Code:** 101689

This unit advances the research methods and statistics in the prerequisite unit, Experimental Design and Analysis. It introduces students to non-experimental, correlational research design, and survey research, including questionnaire design, sampling and administration, with reference to ethics particularly related to cultural contexts and specific groups. Knowledge and skills in the construction and evaluation of psychological tests are also taught. Related correlational statistical techniques are taught, together with advanced analysis of variance, and instruction in the use of SPSS. The unit also develops skills in conducting and reporting psychological research and provides an introduction to qualitative research.

Level: Undergraduate Level 3 subject

Pre-requisite(s): MATH 2006

Equivalent Subjects: MATH 3002 - Advanced Survey Design and Analysis

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 3007 Cognitive Processes (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv3007/>) **Legacy Code:** 101677

Cognitive Processes is the study of the mental processes that underpin attention, perception, decision-making, language, and memory.

Conceptual and research questions include: What are the structures and mechanisms of human memory? What processes underpin acquisition of language, and are the processes similar when we learn a second language? What factors affect attention? How do some people become expert problem solvers? Why do humans make irrational decisions? Contemporary theories will be discussed and evaluated.

Investigative research methods including experiments, computer modelling, clinical case studies, and brain imaging are evaluated.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BEHV 1016

Equivalent Subjects: BEHV 3012 - Human Learning and Cognition

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 3009 Developmental Psychology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv3009/>) **Legacy Code:** 101682

Structured around an overview of lifespan development including diversity, this unit explores the holistic nature of growth and development through developmental theory and research. This unit highlights the interactive nature of three main areas of development: biological, cognitive, and psychosocial changes that affect the individual from conception to end of life. The unit encourages observation as a means for understanding development and promoting individual wellbeing. Indigenous Australian knowledges and perspectives are integrated into the unit alongside an appreciation of the richness of diverse cultural contexts.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BEHV 1018

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 3010 Health Psychology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv3010/>) **Legacy Code:** 101193

Health Psychology is a branch of psychology concerned with the inter-relationship between psychological factors and physical health. It addresses such issues as the possible role of psychological characteristics in health maintenance and promotion, and in the development of illness. Other aspects include reactions to illness, the contribution of psychology to treatment, and explicit means by which health-relevant behaviours might be modified. This unit provides an introduction to Health Psychology and covers theoretical and research issues, the nature and management of stress and pain, issues concerning the receipt of health care and a selection of specific health problems.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BEHV 1016 AND BEHV 1018

Equivalent Subjects: LGYB 5004 - Health Psychology

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 3011 History and Philosophy of Psychology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv3011/>) **Legacy Code:** 100015

This unit provides an overview of the origins and historical development of psychology. It examines the major landmarks in the history of psychology, focusing on important individuals, schools of thought, and recurrent ideas and themes. Historical conceptual problems are related to areas of controversy within contemporary psychology, and an insight is provided into the philosophical underpinnings of the various new movements and major theoretical conflicts within psychology today. The unit also provides a critical appraisal of psychology's status as a science, and explores the limits of psychological inquiry.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BEHV 1016 AND BEHV 1018

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 3013 Humanities Internship (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv3013/>) **Legacy Code:** 100961

This unit aims to provide humanities students with first-hand knowledge of workplaces or research processes related to their chosen field of study (specialisation). Internships may be undertaken in organisations including Western Sydney University, historical societies, museums, libraries, local and state government, non-government organisations, tourism and administration. Internships may also take the form of an individual research project under the supervision of one or more academics. The internship can be in Australia or - through one of Western's partners such as CISAustralia - overseas. The unit will introduce students to various fields in which the skills and knowledge developed in their study of the humanities can be applied. It will augment their study and provide much needed work or research experience.

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYA 1894 - Art History Internship LGYB 0114 - History Internship LGYA 0506 - Asian and International Studies Internship LGYA 0906 - Cultural and Social Analysis Practicum

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 3014 Motivation and Emotion (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv3014/>) **Legacy Code:** 101678

The study of motivation and emotion explores the reasons behind people's behaviours, thoughts, and feelings. This unit examines core research and theory on motivational and emotional systems, exploring how these systems function in general and how that functioning varies due to gender, culture, and other sources of difference. Concepts of motivation and emotion are central to understanding human psychology. The unit positions the topic in relation to other areas of psychological theory (such as learning theory, social psychology, personality, and cognition), investigates its role in psychological practice, and addresses its impact upon practical and philosophical debates within the discipline. Students are encouraged to explore and reflect upon the role of motivational systems in their own lives.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BEHV 1016 AND BEHV 1018

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 3015 Motor Control and Skill Acquisition (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv3015/>) **Legacy Code:** 400886

Motor Control and Skill Acquisition is an investigation of the physiological and psychological processes involved in both the control and the learning of movement. As such, it considers the control mechanisms which are innate to the learner, how these mechanisms change by virtue of both maturation and experience, and how the latter type of changes may be facilitated by manipulation of the learning environment.

Level: Undergraduate Level 3 subject

Equivalent Subjects: BEHV 2009 - Motor Control and Learning SPRT 3002 - Aquatic Sports

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 3017 Personality (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv3017/>) **Legacy Code:** 101679

In 2022 this unit replaced by BEHV 2018 - Personality. Personality is the study of the mental and behavioural factors on which individual human beings vary. In other words, the study of personality is the attempt to understand why a given individual is the way he/she is. This unit involves an examination of the major personality theories, applications to individual differences, and contemporary research. Emphasis is placed on a critical understanding of personality research and its implications for the practice of psychology.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BEHV 1018

Equivalent Subjects: BEHV 2011 - Personality Motivation and Emotion

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 3018 Psychology and the Online World (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv3018/>) **Legacy Code:** 102350

The world has seen an enormous explosion of activity that takes place in online environments that include the Internet, intranets, gaming platforms and peer to peer phone communication (e.g. SMS). There are wide ranging debates about the use and effects of online communication with concerns about hacking, trolling, bullying, scamming, online addiction appearing on a daily basis. Others celebrate the potential of the Internet to produce profound social change. Is the online world quite as bad or as good as it is made out to be? What are the psychological processes behind these and other online behaviours? Why not find out?

Level: Undergraduate Level 3 subject

Pre-requisite(s): BEHV 1018 AND

BEHV 1016

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 3019 Psychology of Language (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv3019/>) **Legacy Code:** 100023

This unit acquaints students with major issues in the psychology of language. Through a series of online modules, it examines different approaches to research and theory on questions such as: the acquisition and development of language; the relationship between language and thought; bilingualism and multilingualism; speech perception and production; sign language; reading and writing; the neurophysiological underpinnings of language; patterns of language breakdown and communication disorders; social aspects of language; language in non-human animals. The tutorials take a hands-on approach, where students learn new skills, such as reading and producing phonetic symbols, creating stimuli for use in psycholinguistic research, and analysing children's speech.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 3021 Psychology, Crime and Law (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv3021/>) **Legacy Code:** 102399

This unit covers a broad spectrum of issues relevant to legal and forensic psychology. How accurate is a witness's memory? How good are we at identifying a suspect in a line-up? Why do people confess to crimes they never committed? What are good interviewing and interrogation techniques for understanding the truth? How accurate are repressed memories, and how are false memories implanted?

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 3023 Social Psychology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv3023/>) **Legacy Code:** 101683

Social psychology is the study of human behaviour and mental processes in their social context. Social psychology examines social behaviour and social thinking using scientific psychological research methods. This unit considers both classic and recent theories, research and applications in core areas of social psychology such as: attitudes, stereotyping and prejudice, social cognition, group processes, cross-cultural and Indigenous Australian psychology, and social influence. Emphasis is placed upon the role of contemporary research and theory in increasing our understanding of social phenomena and the relevance of this to everyday life.

Level: Undergraduate Level 3 subject

Pre-requisite(s): MATH 2006

Equivalent Subjects: BEHV 2013 - Social and Developmental Psychology

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 3025 Sport and Exercise Psychology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv3025/>) **Legacy Code:** 401055

This unit explores psychological factors that affect sport performance (e.g., self-efficacy and concentration), psychological factors that predict and increase participation in physical activity (e.g., motivation), and psychological outcomes of physical activity (e.g., mental health, resilience, and cognitive development). Students will examine theory and research and draw upon their own experiences, to apply sport and exercise psychology principles to a variety of real-world scenarios, and design strategies relevant to different contexts such as physical education, personal training, exercise physiology, coaching, and health promotion.

Level: Undergraduate Level 3 subject

Co-requisite(s): BEHV 1014 - Psychology and Health For Students enrolled in 4658 Bachelor of Health Science (Sport and Exercise Science)

4742 Bachelor of Health Science (Health and Physical Education)- Pathway to Teaching (Secondary)

4747 Bachelor of Health Science (Health and Physical Education) and 6001 Diploma in Health Science Bachelor of Health Science (Health and Physical Education)

Equivalent Subjects: LGYA 1536 - Sport and Exercise Psychology BEHV 2014 - Sport and Exercise Psychology

Incompatible Subjects: BEHV 1005 - Introduction to Sport Psychology BEHV 2004 - Exercise Psychology LGYA 7219 - Sociological Aspects

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 3026 Service Learning (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv3026/>) **Legacy Code:** 102740

In this unit, the learning experience combines civic engagement with training, and personal and scholarly reflection. Service learning focuses on the application and development of a broad range of knowledges, capacities and skills in the context of voluntary effort to benefit the community. For example, depending on the site selected, students may: extend their capacity to communicate and work effectively in culturally diverse contexts; gain a better understanding of social inclusion and exclusion in Australia or overseas, or; become more confident about their personal and professional capacity to contribute to the well-being of others or protection of the natural environment. The unit may be taken in Australia or overseas - through one of Western's Partners such as CISAustralia - completed individually or as part of a group and in any session of study. For further information please contact the unit coordinator.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 4001 Advanced Topics in Psychology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv4001/>) **Legacy Code:** 101541

In 2022 this unit replaced by 102907 - Advanced Topics in Contemporary Psychology. In this unit students develop an advanced level of theoretical and empirical knowledge in selected core topics of psychology, an awareness of how this knowledge underpins evidence-based approaches to psychological intervention, and an enhanced capacity for conducting research in selected topic areas. The unit fosters an appreciation of psychology as a scientific discipline, and of how sound research provides the foundation for solving problems of human mental processes and behaviour. Skills in the critical evaluation of knowledge and research are developed.

Level: Undergraduate Level 4 subject

Equivalent Subjects: BEHV 4009 - Advanced Topics in Contemporary Psychology

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 4004 Psychology Research Thesis (15 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv4004/>) **Legacy Code:** 102528

In this subject students investigate a substantive individual research question relevant to the discipline of psychology. Under guidance from supervisors, students engage with all components of psychological research, including conducting a comprehensive literature review, forming an individual research question, developing research methodology to test the question, obtaining ethics approval, and collecting and analysing data. Students produce a written literature review and substantive thesis in the form of a submission-ready journal article. Note that this is a 30 credit point year-long subject taken over two terms (15 credit points in each term).

Level: Undergraduate Level 4 subject

Co-requisite(s): BEHV 4006

Equivalent Subjects: LGYB 5257 - Psychology (Honours) FT YL LGYB 5258 - Psychology (Honours) PT YL BEHV 4003 - Empirical Research Project

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 4005 Theory and Practice of Psychological Assessment and Intervention (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv4005/>) **Legacy Code:** 101420

This unit has been designed to introduce students to psychological assessment by providing practical and theoretical input regarding the administration, scoring, and interpretation of frequently used standardised measures. The scientific and ethical underpinnings of psychological testing and assessment are introduced providing a general context for the employment of standardised psychological tests. Emphasis will then be placed on familiarisation with i) the processes that practitioners go through during a testing session and ii) current research on employing the standardised tests presented in this unit. Students will practise with testing data, reporting results in compliance with American Psychological Association (APA) conventions.

Level: Undergraduate Level 4 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 4006 Research Methods Seminar (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv4006/>) **Legacy Code:** 100983

This is a 20 credit point year-long subject taken over two terms (10 credit points in each term). The aim of this subject is to advance students' awareness, and critical appreciation of interrelated research processes: epistemological frameworks of research; the appropriate interpretation of research data; ethical issues in the conduct of research; the cultural, social, economic, and political contexts of research; and Indigenous Australian knowledges and research practices. Skills will be consolidated in the use of quantitative and qualitative research designs, methods, and analysis techniques to address research questions in psychology and the behavioural sciences.

Level: Undergraduate Level 4 subject

Equivalent Subjects: BEHV 4002 - Empirical Research Methods Seminar

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 4009 Advanced Topics in Contemporary Psychology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv4009/>) **Legacy Code:** 102907

Psychological research and practice exist in a cultural, historical and social context. This unit provides students with knowledge and skills for working in Psychology in the complex, unpredictable and diverse contemporary Australian society. In this unit students develop an advanced level of theoretical and empirical knowledge in selected topics of psychology, an awareness of how this knowledge underpins evidence-based approaches to psychological intervention, and an enhanced capacity for conducting research in selected topic areas. The unit fosters an appreciation of psychology as a scientific discipline and the interplay between psychological research and real-world psychology practice.

Level: Undergraduate Level 4 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 7001 Advanced Therapeutic Modalities (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7001/>) **Legacy Code:** 102361

This unit follows from 102360 Core Therapeutic Modalities. Students in this unit will develop foundational skills in assessment, case formulation and treatment planning through understanding and developing skills in further evidence-based psychological therapies that may be modified based on an evolving case formulation and evaluation and tailored to the client as appropriate to their wider social and cultural context. Further, students will be guided in critical examination of similarities and differences across those therapeutic approaches and their application across conditions, populations, settings and cultural contexts. Please note: some of the activities in this unit may include experiential learning, for example where students may be asked to take on the client role using their own lived experience, to provide opportunity for training in therapeutic modalities that are more "real life". Students may opt-out of these activities without consequence through speaking to the unit coordinator and alternative arrangements for student learning opportunities will be organised.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): BEHV 7015 AND BEHV 7029

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 7003 Assessment: Cognitive Functions (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7003/>) **Legacy Code:** 102400

This unit provides a comprehensive introduction to the cognitive psychological assessment of children, adolescents and adults. It is designed to assist students in the professional psychology programs to develop theoretical knowledge and practical skills in the cognitive assessment of clients. Students will become familiar with the current theoretical and empirical foundations of psychological assessment, and the application of these theories and research findings to assessment practice in empirically valid and culturally responsive ways. Students will be introduced to contemporary practice in the assessment of cognition, personality and behaviour. Training in the administration of key instruments will be provided. Students will be instructed in the integration of assessment data into clinically-useful reports, including inter-disciplinary communication. Different approaches to psychological assessment will be compared and evaluated. Ethical and professional issues in psychological assessment will be discussed.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: BEHV 7026 - Psychological Assessment LGYA 1196 - Psychological Assessment 1

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 7004 Assessment: Psychological Practice (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7004/>) **Legacy Code:** 102359

This unit will provide students with the skills to psychologically assess and diagnose a range of psychological disorders in adults and in children that are presented in psychological practice. This unit will be complemented by 102400 Assessment: Cognitive Functions in the second semester which will focus more on cognitive assessments. Upon completion of this unit, students will have an understanding of a range of assessment tools, their psychometric qualities, application and utility in a psychological practice. They will also develop skills in applying and interpreting assessment tools and how those tools may aid diagnostic and therapeutic processes.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 7005 Child Clinical Psychology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7005/>) **Legacy Code:** 101210

This unit introduces the nature, assessment and treatment of psychological disorders in children and adolescents. Students will examine the diagnostic classification, epidemiology and aetiology of a range of psychological problems in childhood and adolescence, including anxiety disorders, mood disorders, behavioural disorders, trauma and stressor-related disorders, eating disorders, learning disabilities, and attention-deficit disorder. The theoretical and empirical foundations of a range of cognitive and behavioural techniques will be discussed along with a number of major conceptual and practical issues in the treatment of psychological disorders in childhood and adolescence, including cultural and inter-professional contexts.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 0486 - Clinical Problems in Children and Adolescents BEHV 7004 - Assessment Psychological Practice

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 7006 Clinic Placement A (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7006/>) **Legacy Code:** 101815

This introductory placement unit comprises 180 hours of placement activity accrued one-day a week over 24 weeks and is designed to allow students to apply the theoretical knowledge they have gained in the following coursework units, Core Skills & Ethical Practice; Psychological Assessment; Psychopathology: Theory and Practice and Psychological Interventions 1. The aim of the unit is to establish and enhance, under close supervision, a range of clinical psychology assessment and intervention skills applied to real clients. Regular and systematic video-recording of trainee-client sessions and supervisor feedback guided by competency-based principles provide trainees with an excellent opportunity to acquire, consolidate and generalise a wide range of competencies important for clinical psychology practice.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): BEHV 7014 AND

BEHV 7003 AND

BEHV 7029 AND

BEHV 7027

BEHV 7008 Clinical Health Psychology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7008/>) **Legacy Code:** 101220

In this unit students acquire an understanding of how biological, psychological, social factors interact in health and illness, and how the principles of biopsychosocial models of health inform clinical psychology intervention strategies that can be applied to the management of physical disorders. This unit will cover psychological assessment, formulation that integrates medicine and psychology, clinical health psychology treatments and assessment of their outcomes. Given that comorbidity has an impact on health outcomes, psychological practice when working with co-morbid substance use disorders will also be addressed. Practice within this branch of clinical psychology requires working within inter-disciplinary treatment contexts that include medical interventions and the tailoring of psychological interventions to help manage a medical condition and enhance quality of life. The unit includes culturally responsive attitudes and skills in clinical health psychology practice, including when working with Aboriginal and Torres Strait Islander Australians.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): BEHV 7027 AND
BEHV 7029

Equivalent Subjects: LGYB 5193 - Clinical Health Psychology
BEHV 7011 - Clinical Psychopathology 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 7009 Clinical Neuropsychology and Psychopharmacology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7009/>) **Legacy Code:** 101817

This unit provides a comprehensive grounding in contemporary neuropsychological theories, methods and measures, including understanding of neurocognitive disorders. The nature of the cognitive systems involved in attention, memory, language, spatial processing, and executive functions will be reviewed, with discussion of the neuropsychological assessment of each of these systems. The unit also includes coverage of the classification, use and efficacy of common psychopharmacological agents. The unit will stress the importance of neural abnormalities in patients, and how these are related to symptoms and behavioural dysfunction. Working within inter-disciplinary contexts that include psychological, pharmacological and surgical treatments for neuropsychological disorders will also be discussed.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): BEHV 7003

Equivalent Subjects: LGYA 1205 - Clinical and Forensic
Neuropsychology

BEHV 7010 Clinical Psychopathology 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7010/>) **Legacy Code:** 101812

This unit provides a comprehensive examination of the nature, context and assessment of adult psychopathology. Students will review and critically evaluate the origins and structure of current diagnostic systems, and examine the diagnostic criteria for a range of major psychopathological syndromes and the range of contexts within which they may arise. Skills in balancing the assessment of adult disorders with counselling and engagement through a clinical diagnostic interview will be acquired. Beginning level skills in the formation of adult disorders will also be acquired.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 1201 - Clinical Psychopathology LGYA 0485 - Advanced Psychopathology

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 7011 Clinical Psychopathology 2 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7011/>) **Legacy Code:** 101813

This unit continues the study of clinical psychopathology. Students will examine the nature and assessment of a range of complex psychopathological syndromes, including schizophrenia and other psychotic disorders; eating disorders; personality disorders; substance-related disorders; dissociative disorders; and sexual and gender identity disorders and psychopathology presentations in diverse contexts (such as forensic settings and working with families).

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): BEHV 7010

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 7012 Clinical Research Methods (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7012/>) **Legacy Code:** 101814

The ability to understand and critique empirical research findings, and to evaluate the efficacy of therapeutic interventions, is essential to the professional psychologist as a scientist-practitioner. This unit equips students with advanced skills in utilising the research literature to guide and enhance their professional practice, design interventions to test clinically relevant hypotheses, and critically evaluate the effectiveness of existing research based on empirical evidence. It includes instruction in both quantitative and qualitative research design, program evaluation, single case designs and pilot studies.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 0492 - Advanced Research Design

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 7013 Cognitive Science: Research and Application (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7013/>) **Legacy Code:** 800173

Cognitive science is the interdisciplinary scientific investigation of the mind. Contemporary research in cognitive science conducted by members of the MARCS Institute forms the core of the unit. Research areas to be addressed: plasticity and learning; action and coordination; nonverbal communication; and ageing and cognition. Examples of research questions: Can learning be unconscious? What mechanisms enable interpersonal coordination as seen in music and dance ensembles? Why is it that music elicits strong emotions? How does attention influence perception? How does conditioning explain human preferences? Does social facilitation apply to humans interacting with robots? In what way does ageing impact upon decision making? Applications to the arts, education, health, aging, design, human-machine interaction and artificial intelligence will be discussed.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 7014 Core Skills and Ethical Practice (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7014/>) **Legacy Code:** 101810

In this unit students apply core evidence-based counselling and intervention skills that are responsive to working within culturally and linguistically diverse communities, including and Aboriginal and Torres Strait Islander Australians. This unit addresses key cultural ethical, legal, and professional aspects of psychological practice; including working within one's competency and within inter-disciplinary contexts and the management of risk across the lifespan, including child protection. The theoretical underpinnings of evidence-based intervention strategies and ethical practice across the lifespan are critically examined, including from Aboriginal and Torres Strait Islander perspectives. Students develop their professional understanding of the codes and guidelines of the Australian Psychological Society and Psychology Board of Australia, and the relevant State and Commonwealth Acts and Regulations of Parliament. Major practice problems faced by psychologists and modes of resolution acceptable within the profession are considered. Students reflect on professionalism in psychology practice and how their own perspectives, world views, values and competencies may inform their processes ethical decision-making. Students will also identify areas for ongoing professional development.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 0477 - Core Skills and Ethical Practice LGYA 1198 - Core Skills Counselling and Ethical Practice

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 7015 Core Therapeutic Modalities (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7015/>) **Legacy Code:** 102360

This unit provides an introduction to the theory and practice of Cognitive Behaviour Therapy (CBT), an evidence-based form of therapy and an important therapeutic tool for psychologists working in diverse settings. Students in this unit will develop foundational skills in CBT assessment, formulation and treatment and a critical understanding of CBT application across conditions, populations and social settings. In addition, students will be introduced to family therapy (FT), including different models of FT, assessment, case formulation and FT application across different family situations. CBT and FT will be contrasted and examined for their application to a range of common psychological presentations, including ways to tailor responsive interventions in Aboriginal and Torres Strait Islander and multicultural contexts.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 7016 Digital Social Research in Action (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7016/>) **Legacy Code:** 102253

This unit engages students in the practices of digital social research through a simulation of a professional research consultancy. Students will construct and apply a digital social science approach for an internal or external client brief. Students will engage with client and stakeholder needs through their role as a consultant as they carry out the digital social research project for their client. In doing so, students engage with the ethical and moral implications of using digital social data and discover the opportunities to apply and communicate digital social research methods in real world settings.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 7018 Integrated Practices 3: Emotions, Embodiment and Connection (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7018/>) **Legacy Code:** 102372

This unit presents and explores ways of working therapeutically with trauma. The interpersonal neurobiologists' focus of Mind/Body connection features in detail in this unit. Work with emotions, embodiment and the counsellor/client relationship as instruments of therapeutic change will be considered. Students will learn what it means to be a trauma-sensitive therapist and develop techniques and methods for working across the spectrum of trauma responses including dissociation. A range of psychotherapeutic models will feature such as somatic therapies, sensorimotor psychotherapy, emotionally focused therapy, and notions of 'felt sense'. Complementary modes of healing, such as mindfulness, breathwork and the practices of yoga and meditation will be considered for what they can offer to a trauma-informed approach to therapy. Students will develop skills in working with emotions and nonverbal communication, as well as recognizing how the 'spoken' incorporates the physical.

BEHV 7020 Learning and Processing Human Language (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7020/>) **Legacy Code:** 800171

How do humans learn and process language, in its spoken, gestural, and written forms? This unit will equip students with theoretical foundations and practical understandings of how to read and conduct research in this area. Topics may include research areas such as language acquisition, language use and communication, word recognition, reading development and disorders, speech perception and production. In addition, a review of data collection and analysis techniques will be provided. The unit will include lecture and laboratory experimental work. The unit will be focused on research currently conducted by members of the MARCS Institute.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 7021 Neuroscience Methods (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7021/>) **Legacy Code:** 800192

A multidisciplinary team will provide an introduction to several aspects of neuroscience including cellular, computational, behavioural and biomedical neuroscience. The program will provide a strong foundation in modern neuroscience for those wishing to pursue further independent research in the field. With a focus on real-world neuroscience research, topics include introductory biology, computational modelling, biosignal acquisition, signal processing and data mining. The unit will include lecture and laboratory work.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: BEHV 7030 - Quantitative Methods in Neuroscience

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 7025 Professional Psychology Placement (0 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7025/>) **Legacy Code:** 102539

This placement unit provides students with an opportunity to apply knowledge gained in coursework units to professional practice and to practice, under clinical supervision, basic assessment and intervention skills with real clients. Each student must undertake a minimum of 300 hours of supervised placements, participate in the mandatory workshops and present at a case presentation to complete the course. This requirement is consistent with standards prescribed by APAC, the course accrediting body.

Level: Postgraduate Coursework Level 7 subject

BEHV 7027 Psychological Interventions 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7027/>) **Legacy Code:** 101213

This unit covers the theory and practice of Cognitive Behaviour (CBT) from a competency-based perspective. The competency paradigm is introduced first before key competencies including CB-Assessment, formulation, psychoeducation, behavioural (behavioural activation, exposure therapy and behavioural experiments) and cognitive intervention techniques are discussed. For each competency domain, knowledge (theory, models and principles), knowledge-application (procedural knowledge), technical skills (e.g., Socratic dialogue) and relationship skills (engagement, collaboration, and collaborative empiricism) are addressed. Higher-order integrative competencies including the use of CBT in multicultural contexts, and meta-competencies such as scientist-practitioner and reflective-practitioner competencies are discussed towards the end of the unit. In alignment with competency-based pedagogies, learning activities include didactic presentations, knowledge-application tasks and skills training within small groups, and assessments include a demonstration of competence appropriate for a developing CB practitioner.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYB 5195 - Psychological Interventions 1 LGYA 1202 - Cognitive Behaviour Therapy Theory and Practice

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 7029 Psychopathology: Theory and Practice (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7029/>) **Legacy Code:** 102362

This unit provides an examination of a range of major categories of psychopathology, including more typical presentations for psychological treatment and inter-professional indications and communication. Students will critically evaluate the common diagnostic systems of adult psychopathology, and examine the diagnostic criteria for a range of major psychopathology presentations. The unit will equip students with skills in the application of diagnostic and psychometric assessment of these psychological disorders and the ability to construct a case formulation with systemic and cultural considerations, including for Aboriginal and Torres Strait Islander people to inform psychological treatment interventions. Students will also develop skills in discerning when, why and how to collaborate and communicate with multidisciplinary teams in inter-professional context.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: BEHV 7010 - Clinical Psychopathology 1

BEHV 7031 Applied Research Project (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7031/>) **Legacy Code:** 102696

This is a 20 credit point year-long subject taken over two terms (10 credit points in each term). The research project provides an opportunity to construct an informed research question or hypothesis. This justified research proposal is completed and investigated independently by students under supervision, over a one-year period. It is conducted in an area of relevance to professional practice, with a central focus on the scientific analysis of a problem or hypotheses. Students can choose from a range of approved research designs, but must undertake and write an analytic review of the relevant literature, formulate a research question, design of an appropriate method, collect and analyse data, interpret findings, and effectively communicate their research in the form of an empirical research report.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): BEHV 7012

Equivalent Subjects: LGYA 0494 Applied Research Project and Thesis

BEHV 7032 Clinic Placement B (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7032/>) **Legacy Code:** 102693

This placement unit comprises 180 hours of placement activity accrued one-day a week over 24 weeks, builds on knowledge and skills acquired in coursework units and extends and consolidates competencies acquired in Clinic Placement A. The aim of the unit is to establish and enhance, under close supervision, a range of clinical psychology assessment and intervention skills applied to real clients. Regular and systematic video-recording of trainee-client sessions and supervisor feedback guided by competency-based principles provide trainees with an excellent opportunity to acquire, consolidate and generalise a wide range of competencies important for clinical psychology practice.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): BEHV 7006 AND

BEHV 7005

BEHV 7033 Professional Placement 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7033/>) **Legacy Code:** 102694

This placement unit is an external placement that provides students the opportunity to practise, under clinical supervision, clinical psychological assessment and intervention to a range of clients across age ranges, severity levels and psychological disorders. The aim is to build upon and extend knowledge, skills, relationship and professional attitude competencies acquired during a supervised University Clinic placement while working with real clients seeking clinical psychological services within an external agency. Each external placement must comprise a minimum of 200 hours of clinical psychology practicum work of which at least 80 hours must be in face-to-face client work, and all internal and external placements together must comprise a minimum of 1000 practicum hours of which 400 hours must be in face-to-face client work as defined by APAC. Placements are arranged by the Placement Coordinator who is responsible for ensuring that the placement and supervision meet APAC requirements. Students must participate in the mandatory workshops and present a case at the relevant Case Presentation Day (or equivalent by permission in special circumstances).

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): BEHV 7006

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 7034 Professional Placement 2 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7034/>) **Legacy Code:** 102695

This placement unit is an external placement that provides students the opportunity to practise, under clinical supervision, clinical psychological assessment and intervention to a range of clients across age ranges, severity levels and psychological disorders. The aim is to build upon and extend knowledge, skills, relationship and professional attitude competencies acquired during a supervised University Clinic placement while working with real clients seeking clinical psychological services within an external agency. Each external placement must comprise a minimum of 200 hours of clinical psychology practicum work of which at least 80 hours must be in face-to-face client work, and all internal and external placements together must comprise a minimum of 1000 practicum hours of which 400 hours must be in face-to-face client work as defined by APAC. Placement are arranged by the Placement Coordinator who is responsible for ensuring that the placement and supervision meet APAC requirements. BEHV 7035 Psychological Approaches to Disability: Theory and Practice (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7035/>) **Legacy Code:** 102692

This unit offers students a contemporary understanding of the psychological assessment, intervention and evaluation techniques relevant to the support of people with disability. Biological, psychological social and community factors contributing to support will be presented. Ecological, functional and clinical approaches to planning across the life span will be taken, addressing early intervention, childhood, adolescence, adulthood and ageing. A key focus of the unit will be advancing inclusion and quality of life outcomes to enable people with disability to fully participate in society. Current legal, policy and ethical issues will also be discussed, including professional standards for working effectively across multicultural and multidisciplinary contexts.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BEHV 7036 Research Internship and Engagement (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7036/>) **Legacy Code:** 800228

The aim of this unit is to provide MRes candidates with a research development and training opportunity through a cross disciplinary, supportive, experiential learning environment. Through exposure to workplaces, research institutes, community settings, and research processes, students will have the opportunity to apply their research and technical skills and develop their professional identity in their chosen field of research. The placement will be chosen by the student in consultation with the unit coordinator and will be undertaken either as an individual or part of a project team. If students enrolled in B Research Studies/M Research wish to take this unit before having completed the prerequisite unit 800218 Researcher Development 1: Reading, Writing, and the Business of Research, contact the unit coordinator to obtain permission to complete a rule waiver (this will be on a case by case basis only).

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): HUMN 4001

Equivalent Subjects: BEHV 7019 - Internship and Community Engagement (PG)

BEHV 7037 Psychological Practice in Contemporary Contexts (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7037/>) **Legacy Code:** 102808

The ability to work with mental health issues and psychological distress that arises within a range of contexts is an essential skill for Clinical Psychologists. This unit equips students with skills in assessment, formulation and tailored psychological interventions for those who experience psychological distress within family systems and broader socio-cultural contexts; including abuse and violence; working within medico-legal systems, and broader socio-cultural contexts.

The unit will explore theories, psychological techniques and prepare students to working within these settings that include inter-disciplinary collaboration and communication with multidisciplinary health services and legal practitioners. Please note: some of the activities in this unit may include experiential learning, for example where students may be asked to take on the client role using their own lived experience, to provide opportunity for training in therapeutic modalities that are more "real life". Students may opt-out of these activities without consequence through speaking to the unit coordinator and alternative arrangements for student learning opportunities will be organised.

Level: Postgraduate Coursework Level 7 subject

BEHV 7038 Assessment and Treatment of Complex Psychological Disorders (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/behv7038/>) **Legacy Code:** 102809

clinical psychology is a fast-evolving discipline, and practitioners need to be able to respond to changing psychological health needs of a diverse population. This unit will prepare students to expand their skills in clinical assessment of psychopathology, diagnosis and psychological interventions to respond to the needs and preferences and cultural values of clients who experience complex and/or chronic psychological disorders. Responsive practice within the context of the changing demands for clinical psychology services is foregrounded, as is the unique context of Aboriginal and Torres Strait Islander people. This unit will explore the theories, techniques and effectiveness of new and emerging psychological therapies; prepare students for working in multidisciplinary teams; and introduce students to the practice of clinical psychology with more complex client groups. The unit will also examine the professional and organisational roles of clinical psychologists within these settings. Please note: some of the activities in this unit may include experiential learning, for example where students may be asked to take on the client role using their own lived experience, to provide opportunity for training in therapeutic modalities that are more "real life". Students may opt-out of these activities without consequence through speaking to the unit coordinator and alternative arrangements for student learning opportunities will be organised.

Biological Sciences (BIOS)

BIOS 0001 Biology (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios0001/>) **Legacy Code:** 900022

Biology is the study of the cellular processes that occur within organisms and the interactions that occur between organisms within the biosphere. The unit is therefore seen to have relevance to the lives of students. It is important for students to develop an understanding of the biological principles that will enable them to make informed decisions about the advances that are occurring in biotechnology and biomedical science. Undergraduate study in the life sciences requires the student to have acquired a basic body of knowledge that focuses on the diversity and the unity of living things as well as skills in collecting and analysing information and writing concise and coherent explanations.

Level: Undergraduate Level 0 Preparatory subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 0002 Focus on Biology (WSTC Prep) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios0002/>) **Legacy Code:** 700232

Biology is the study of integrated living systems, from the level of molecular systems that constitute cells to the interactions that occur within and between organisms that together make up the biosphere. This unit will equip students to undertake tertiary level biological units that emphasise both the unity (cell biology) and diversity (evolution) of living organisms. Students will learn about the basic molecular biological underpinnings of cellular structure and function within an integrated framework that proceeds through major themes of bioenergetics, gas exchange and transport systems within multicellular organisms, inheritance and evolution. Students will develop a fundamental body of essential biological concepts, as well as build skills in collecting and analysing information, and writing coherent explanations.

Level: Undergraduate Level 0 Preparatory subject

BIOS 1001 Biodiversity (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios1001/>) **Legacy Code:** 300802

How many species walk, fly, swim or slither, crawl, hop, wriggle or just float, hitchhike or move so slowly that they appear not to move at all? No one knows and new species appear almost every day. This unit focuses on this spectacular diversity of living things and the process of evolution. Students explore and classify biodiversity and how organisms function, acquire and assimilate resources and co-ordinate growth and reproduction. Organisms interact with one another and their environment forming a complex set of interactions in ecosystems. It is these interactions that have driven evolution. Ultimately human survival depends on the sustainable use of this biodiversity and ecosystems.

BIOS 1011 Bioscience 2 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios1011/>) **Legacy Code:** 401006

This unit will be replaced from Autumn 2022 by 401470 Bioscience 2. This unit extends knowledge gained in Bioscience 1 and introduces nursing students to concepts associated with alterations in health and wellness as a consequence of life transition. It includes an introduction to pathophysiology, pharmacology, immunology and microbiology. The unit also focuses on the impact of microorganisms on the health of people and the body's natural defences, as well as pharmacological interventions, in dealing with infections and injuries and its significance for nursing.

BIOS 1012 Cell Biology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios1012/>) **Legacy Code:** 300816

Cells are the most basic form of all life, and underlying normal cell function are the molecules used to build complex cellular structures, generate energy, and propagate dynamic life. The unit will study the fundamental processes through which key biomolecules, including lipids, carbohydrates, amino acids and nucleic acids are manipulated to generate and store energy, and build a broad array of important biological macromolecules including DNA, membranes and proteins. To sustain life, cells respire for energy and replicate for growth and sexual reproduction. Accordingly the unit will examine cellular respiration, transcription, translation, mitosis, meiosis, transmission and how genes are inherited and modified providing insight into the phenomena of life. The role of DNA technologies in the fields of medicine, biotechnology and environmental science will provide students with real world applications.

The unit will study the fundamental processes through which key biomolecules, including lipids, carbohydrates, amino acids and nucleic acids, are manipulated to generate and store energy, and build a broad array of important biological macromolecules including DNA, membranes and proteins. To sustain life, cells respire for energy and replicate for growth and sexual reproduction. Accordingly the unit will examine cellular respiration, transcription, translation, mitosis, meiosis, transmission and how the genetic code is inherited and modified providing students insights into the phenomena of life. The role of DNA technology in the fields of medicine, biomolecular plant and animal science, food, forensic and environmental science will provide students with real world applications.

Level: Undergraduate Level 1 subject

Equivalent Subjects: BIOS 1013 - Cell Biology BIOS 1007 - Biology B - Cellular Processes LGYB 0459 - Cell Biology (UWSC) BIOS 1012 - Cell Biology

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 1022 Introduction to Human Biology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios1022/>) **Legacy Code:** 300361

This unit gives a basic understanding of the human body and introduces the scientific and medical terminology used for anatomy, physiology and biochemistry. It deals with gross structure and microscopic structure of the human body. It also examines microbial organisms, their classification, how they differ from eukaryotic cells and how our body defends against them. Where appropriate, examples of functional diseases will be discussed.

Level: Undergraduate Level 1 subject

Equivalent Subjects: LGYA 7033 - Human Medical Sciences 1 LGYA 5170 - Physical and Biological Sciences 1 LGYB 7586 - Human Biology 1 BIOS 1023 - Introduction to Human Biology (WSTC)

Incompatible Subjects: NATS 1013 - Introduction to Anatomy BIOS 1025 - Introduction to Physiology

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 1023 Introduction to Human Biology (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios1023/>) **Legacy Code:** 700061

This unit gives a basic understanding of the human body and introduces the scientific and medical terminology used for anatomy, physiology and biochemistry. It deals with gross structure and microscopic structure of the human body. It also examines microbial organisms, their classification, how they differ from eukaryotic cells and how our body defends against them. Where appropriate, examples of functional diseases will be discussed.

Level: Undergraduate Level 1 subject

Pre-requisite(s): Students must pass NATS 0006 - Fundamentals of Health Science (WSTC Prep) prior to enrolling in this unit (except for those enrolled in 7019 - Diploma in Health Science Fast Track as NATS 0006 is not in the Fast Track course structure)

Equivalent Subjects: BIOS 1022 - Introduction to Human Biology

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 1027 Management of Aquatic Environments (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios1027/>) **Legacy Code:** 300824

This unit introduces students to the physical, chemical and biological nature of water systems and the linkages to human activity. These linkages include a development of an appreciation of the essential services and broad uses and values of water in modern human society, and the natural environment. Students are challenged to examine the causes and effects of water pollution and environmental degradation. Students are introduced to scientific water sampling, analysis and reporting of water quality and pollution.

Level: Undergraduate Level 1 subject

Equivalent Subjects: BIOS 1028 - Management of Aquatic Environments

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 1030 Resource Sustainability (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios1030/>) **Legacy Code:** 300810

Resource sustainability deals with the local, national, and global sustainability issues concerning human interactions with the environment. The unit uses current resource issues and scientific concepts to provide the practical and theoretical information needed for students to think critically about environmental issues and to contribute to the sustainable management of natural and built environments. Students will also learn how science and society interact in the management of resources. Using the concept of ecologically sustainable development as a foundation, students will use critical thinking skills to research a resource issue of their choice at the local, national and/or international level. Students will communicate their research using new media exploring the issue and make recommendations for improving sustainability.

Level: Undergraduate Level 1 subject

Equivalent Subjects: BIOS 1029 - Resource Sustainability BIOS 1031 - Resource Sustainability (WSTC)

BIOS 1033 Concepts in Human Physiology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios1033/>) **Legacy Code:** 301254

This unit introduces the core concepts and terminology necessary to provide a basic understanding of the physiological responses of the human body using relevant examples. These include the processes of homeostasis, cell-cell interactions and the physical and chemical transport processes that are required to carry out integrated functions. Students will explore these key physiological concepts through practical hands-on experiments and in interactive group work in prac and tutorial classes, respectively. The unit provides the foundation to study the physiology of human organ systems.

Level: Undergraduate Level 1 subject

Incompatible Subjects: BIOS 1025 Introduction to Physiology

NATS 1009 Human Anatomy and Physiology 1

BIOS 1022 Introduction to Human Biology

BIOS 1036 Human Development and Disease across the lifespan (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios1036/>) **Legacy Code:** 401394

This unit builds on fundamental assumed knowledge of anatomy and physiology and introduces the study of human disease processes or pathophysiology through the framework of human development as a way of examining growth, health and disease at different stages of the lifespan. General concepts underlying human diseases as well as disorders relating to the lifespan will be studied. Developmental changes in physical, cognitive, social, intellectual, perceptual, personality and emotional growth are discussed. Common communicable and non-communicable, acute, chronic and degenerative health conditions are discussed from a pathophysiological, psychosocial and epidemiological perspective, and their impact on the day to day function of individuals and populations is explored. Risk factors for conditions and disease trajectory are explored at individual and society level, as well as the impact of these conditions on individuals, the health system and wider society.

Level: Undergraduate Level 1 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 1037 Human Development and Disease across the Lifespan (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios1037/>) **Legacy Code:** 700314

BIOS 1039 Biodiversity (UG Cert) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios1039/>) **Legacy Code:** 500050

How many species walk, fly, swim or slither, crawl, hop, wriggle or just float, hitchhike or move so slowly that they appear not to move at all? No one knows and new species appear almost every day. This unit focuses on this spectacular diversity of living things and the process of evolution. Students explore and classify biodiversity and how organisms' function, acquire and assimilate resources and co-ordinate growth and reproduction. Organisms interact with one another and their environment forming a complex set of interactions in ecosystems. It is these interactions that have driven evolution. Ultimately human survival depends on the sustainable use of this biodiversity and ecosystems.

Level: Undergraduate Level 1 subject

BIOS 2005 Botany (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios2005/>) **Legacy Code:** 300836

From microscopic algae to giant flowering angiosperms, this unit develops students knowledge and understanding of plants on earth. The unit covers the topics of plant anatomy and morphology, classification and systematics, and evolution. Students will examine the major groups of plants: green algae, bryophytes, lycophytes, monilophytes, gymnosperms and angiosperms. Laboratory and field work involves the study of common Australian plants and economically significant plants.

Level: Undergraduate Level 2 subject

Pre-requisite(s): BIOS 1001

Equivalent Subjects: LGYB 5440 - Botany LGYA 5941 - Botany

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 2006 Comparative Physiology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios2006/>) **Legacy Code:** 300838

Building on the underlying physical and chemical principals/laws that define physiology, this unit from both a systems (e.g. Respiratory) and environmental (e.g. Marine) perspective, seeks to compare the functional physiology of organisms at all levels of organisation. Particular attention will be paid to respiration, temperature tolerance & regulation, living in water, sensory and neurophysiology. Students will have the opportunity to carry out a defined research project.

Level: Undergraduate Level 2 subject

Pre-requisite(s): BIOS 1025 OR

BIOS 2014 OR

AGRI 1003 OR

BIOS 2008 Ecology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios2008/>) **Legacy Code:** 300839

We live in a society where environmental problems dominate public debate. Ecology is one of the sciences required to find solutions to such problems; terms and ideas that came originally from ecology are used in public discussions, and in legislation. This unit will introduce students to ecology: what is studied, how it is studied, what are the strengths and limitations of ecology. Current ecological thinking will be covered, from the scale of individual organisms, through populations, and up to communities and ecosystems. Methods of study will be highlighted using evidence from molecular ecology through to field investigations.

BIOS 2011 Exercise Nutrition, Body Composition and Weight Control (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios2011/>) **Legacy Code:** 400884

In 2016, this unit is replaced by 401141 - Exercise Nutrition. This unit provides students with an understanding of the interdependent areas of nutrition, body composition and body weight control within the context of sport, physical activity, and exercise. Nutritional needs and recommendations for all levels and types of physical activity are covered along with the links between nutrition and health, body composition, control of body weight and composition. Students will develop skills in nutritional analysis, body composition assessment and the development of exercise programs for weight control. Students will use these skills and knowledge in the individualisation of advice on exercise nutrition and body composition control.

Level: Undergraduate Level 2 subject

Pre-requisite(s): NATS 1009 AND

BIOS 2012 Exercise Physiology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios2012/>) **Legacy Code:** 401142

This unit covers the essential physiology that helps us understand how we control our exercise behaviour. In lectures there is a focus on physiological control, with emphasis on neuromuscular, cardiovascular, respiratory and thermoregulatory responses during exercise, as well as adaptation of these responses in response to ageing, disease and exercise training. In laboratory classes, there is a focus on the acquisition and interpretation of physiological responses during exercise.

Level: Undergraduate Level 2 subject

Pre-requisite(s): NATS 1009 AND

NATS 1010 AND

SPRT 1001 AND

NATS 1022

Equivalent Subjects: BIOS 2037 - Sport and Exercise Physiology

BIOS 2014 Functional Proteins and Genes (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios2014/>) **Legacy Code:** 300936

Biochemistry is the study of the chemistry of life. By understanding the structure and roles of biological macromolecules found in cells students will develop the concept of self assembly of these molecules to form life. Topics include the structure of carbohydrates, lipids, proteins, and nucleic acids and how they function in the lipid and aqueous environments of the cell. Basic metabolism is introduced with an overview of the major pathways in cells, mechanisms of regulation, and an introduction into important cofactors and intermediary molecules. These concepts will be reinforced through practical classes that teach critical skills in experimental design, analysis and interpretation.

Level: Undergraduate Level 2 subject

Pre-requisite(s): BIOS 1012 AND

CHEM 1005

Equivalent Subjects: BIOS 2001 - Biochemistry 1 BIOS 2036 - Proteins and Genes

BIOS 2016 General Microbiology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios2016/>) **Legacy Code:** 300844

Microorganisms play a crucial role in soil and water ecosystems, in health and disease of plants and animals, including humans, as well as in industries such as the food and brewing industries. The unit builds on students existing knowledge of cell biology and biodiversity, and explores the characteristics of micro-organisms, the conditions required for their growth and survival, methods of control and their significance in the environment, health and industry. The theory and practice of microbiology are integrated in the laboratory component in which students learn techniques of handling, observing, growing and counting microorganisms.

Level: Undergraduate Level 2 subject

Pre-requisite(s): BIOS 1012 OR

BIOS 1001

Equivalent Subjects: BIOS 2015 - General Microbiology

Incompatible Subjects: LGYC 0093 - Microbiology 11 BIOS 2023 - Microbiology 1 BIOS 2022 - Microbiology 1

BIOS 2018 Genetics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios2018/>) **Legacy Code:** 300845

Our ability to rapidly and cheaply sequence a genome, ranging from humans, to native and domesticated plants and animals, and infectious bacteria and viruses, has revolutionised the field of genetics. More than ever, we understand our genetic relationship to life on earth, uncovering surprising similarities between our genome and the genomes of small worms and fruit flies. This unit will compare the genomes of different organisms and apply the methodology and theory of modern genetics to understand how the diversity of genetic variability impacts the structure and evolution of genomes, the expression of genes, and ultimately on the health and form of an organism.

Level: Undergraduate Level 2 subject

Pre-requisite(s): BIOS 1012 OR

BIOS 1001 OR

AGRI 1009

Equivalent Subjects: LGYB 5446 - Genetics 22 BIOS 2019 - Human Genetics BIOS 2017 - Genetics

BIOS 2021 Metabolism (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios2021/>) **Legacy Code:** 300848

Organisms degrade food molecules to generate energy and converts excess food molecules into internal fuel stores. This unit will cover topics including: bioenergetics; the structures of key molecules; glycolysis, gluconeogenesis, glycogen synthesis and breakdown; fatty acid oxidation and synthesis; amino acid catabolism; urea synthesis; citric acid cycle; electron transport and oxidative phosphorylation. Emphasis will be on the regulation and integration of these pathways, including their responses to hormonal regulation. The effects of altered dietary and hormonal status on metabolic pathways and their consequences for the organism will be discussed.

Level: Undergraduate Level 2 subject

Pre-requisite(s): BIOS 2014

Equivalent Subjects: BIOS 2002 - Biochemistry 2 CHEM 2005 - Human Metabolism Disease

Incompatible Subjects: LGYA 5859 - General Biochemistry

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 2022 Microbiology 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios2022/>) **Legacy Code:** 300833

In this unit students will use an inquiry-based approach to explore the origin and diversity of microorganisms and their significance in the environment, in foods and industry as well as in health and disease. Students will be introduced to the structure, reproduction, classification, cultivation and enumeration of bacteria, viruses, fungi and protists. The conditions required for growth and survival of microorganisms will be studied as well as physical and chemical methods of control. In laboratory classes students will develop skills in culturing and observing microorganisms and in designing experiments to test microbiological concepts. This unit is a pre-requisite for Microbiology 2 and Level 3 Microbiology units.

Level: Undergraduate Level 2 subject

Equivalent Subjects: BIOS 2023 - Microbiology 1

Incompatible Subjects: BIOS 2015 - General Microbiology

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 2024 Microbiology 2 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios2024/>) **Legacy Code:** 300896

The unit focuses on the origins of genetic variation and the process of gene regulation in prokaryotes and explores the metabolic diversity of microorganisms from a variety of habitats and their application in industry and biotechnology. Using published scientific literature, students will learn how scientists research functional microbial physiology in the postgenomic era. The principles and applications of recombinant DNA techniques are discussed. Laboratory classes introduce students to techniques used to study microbial physiology and biotechnology based on microbial metabolism, such as examining the activity of antimicrobials and biotechnology such as microbial fuel cells.

Level: Undergraduate Level 2 subject

Pre-requisite(s): BIOS 2022

Equivalent Subjects: BIOS 2025 - Microbiology 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 2026 Molecular Biology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios2026/>) **Legacy Code:** 300817

Molecular biology is central to many fields of the biomedical and natural sciences, and includes genetics, immunology, cell biology, biochemistry, and forensics. Through comparative studies of different organisms, this unit will describe fundamental concepts and methods in the study of DNA and RNA and the application of molecular biology in advanced fields such as genomics. Subjects will include DNA replication; transcriptional, post-transcriptional and epigenetic regulation of gene expression; microarrays, and an introduction to bioinformatics. Practical work will provide opportunities to become familiar with the methods of molecular biology, with an emphasis on the development of problem solving and analytical skills

Level: Undergraduate Level 2 subject

Pre-requisite(s): BIOS 2014 OR

BIOS 2018 OR

BIOS 2021

Equivalent Subjects: BIOS 3020 - Molecular Biology BIOS 3015 - Human Molecular Biology

BIOS 2032 Plant Physiology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios2032/>) **Legacy Code:** 300865

Plants are the primary producers of terrestrial ecosystems and moderators of climate change. This unit introduces students to how plants grow and interact with their environment. Students will learn how leaves turn sunlight energy into sugars; stems transport water, solutes and organic compounds; roots acquire water and mineral nutrients by themselves or in association with soil microbes; and hormones regulate plant development and responses to the environment. This knowledge set is crucial for managing our Century's key challenges of food security and climate change. Students will be required to travel to the Hawkesbury campus where the practicals take place.

Level: Undergraduate Level 2 subject

Equivalent Subjects: LGYA 5946 - Introductory Plant Physiology BIOS 2033 - Plant Physiology

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 2034 Principles of Evolution (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios2034/>) **Legacy Code:** 300980

This unit is designed to impart an understanding of the core concepts in modern evolutionary theory, and an appreciation of the central position it plays in unifying all sub-disciplines of biology. The unit will cover modern synthesis, phylogenetics, phylogeography, origin of variation, genetic drift, natural selection, and coevolution, with a major emphasis on evolutionary mechanisms and analytical techniques.

Level: Undergraduate Level 2 subject

Pre-requisite(s): BIOS 1001 AND BIOS 1012

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 2035 Principles of Zoology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios2035/>) **Legacy Code:** 300979

Explores the diversity of invertebrate and vertebrate life in a phylogenetic context. Taxonomy, anatomy, ecology, ethology and physiology of major groups of animals are examined. Patterns will be examined from an evolutionary perspective and the unit will focus on structure and function to examine specialisations and adaptations of animals to their environment. The unit will use lectures and laboratory sessions to allow an interactive appreciation of the diversity of biological mechanisms and processes in the Animal Kingdom.

Level: Undergraduate Level 2 subject

Pre-requisite(s): BIOS 1001

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 2040 Invertebrate Zoology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios2040/>) **Legacy Code:** 301256

More than 99% of animals are invertebrates and due to their key role in all ecosystems, renowned biologist E. O. Wilson famously described them as the 'little things that run the world'. Besides their ecological importance, many invertebrates are useful to humans, whereas others are harmful to agriculture, human and veterinary health. This unit introduces invertebrate diversity in the context of their ecological and economic importance. It also develops skills necessary to classify and distinguish between the major invertebrate taxa. This unit includes fundamental hands-on laboratory and field studies skills for students with broad career pathways in science (e.g. animal, environmental, forensic and medical sciences) as well as agriculture, environmental management, and education.

Level: Undergraduate Level 2 subject

Pre-requisite(s): BIOS 1001

Equivalent Subjects: NATS 3026 Forensic Biology BIOS 2035 Principles of Zoology

Incompatible Subjects: BIOS 3017 Invertebrate Biology

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 2041 Vertebrate Zoology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios2041/>) **Legacy Code:** 301257

This unit examines the functional ecology and diversity of vertebrate animals (fish, amphibians, reptiles, birds and mammals). It combines anatomy, physiology, ecology and behaviour, to explain how vertebrates survive and reproduce in relation to their environment. We will uncover the evolutionary relationships among vertebrate groups, and examine their adaptations to different environmental challenges. The unit also explores patterns in vertebrate diversity, with a focus on Australian ecosystems. Students further develop their knowledge of the scientific method to conduct their own project to investigate how environmental factors influence vertebrate animal abundance and diversity. Students may be required to travel to another campus to undertake this unit.

Level: Undergraduate Level 2 subject

Pre-requisite(s): BIOS 1001

Incompatible Subjects: BIOS 3023 Vertebrate Biodiversity

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 2042 Biochemistry (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios2042/>) **Legacy Code:** 301460

Biochemistry is the study of the chemistry of life. By understanding the structure and roles of biological macromolecules found in cells students will develop the concept of self assembly of these molecules to form life. Topics include the structure of carbohydrates, lipids, proteins, and nucleic acids and how they function in the lipid and aqueous environments of the cell. Basic metabolism is introduced with an overview of the major pathways in cells, mechanisms of regulation, and an introduction into important cofactors and intermediary molecules. These concepts will be reinforced through practical classes that teach critical skills in experimental design, analysis and interpretation.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 3001 Advanced Cell Biology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3001/>) **Legacy Code:** 300850

Cells of the body are studied in the context of health and disease, including mechanisms by which cells respond to the environment and integrate in and around tissue. Fundamental cellular processes are discussed that are important in embryonic development, stem cells, haematology and cancer. This unit investigates the action of hormones, growth factors and morphogens; their receptors and signalling pathways and the cellular responses they trigger. This unit covers modern techniques in cell culture, tissue engineering, advanced microscopy and other modern experimental approaches that enable dynamic understanding of live cell function.

BIOS 3003 Advanced Sports Physiology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3003/>) **Legacy Code:** 400888

In 2017, this unit is replaced by 401146 - Applied Physiology. This unit presents the knowledge and laboratory skills essential to understanding the physiological demands on the sports participant, as well as to develop, implement and evaluate sports-specific training programs. Students will develop the knowledge and skills necessary to perform and interpret results for a number of standard laboratory and field-based physiological tests used in talent identification and the assessment of high performance athletes. Prescription focuses on the development and implementation of sport specific fitness programs. Also covered are the physiology of ergogenic aids, overtraining, muscle fatigue and soreness; physiological factors limiting performance; and physiological responses to exercise in challenging environments.

BIOS 3004 Analytical Microbiology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3004/>) **Legacy Code:** 300866

The unit provides a theoretical and practical introduction to wide range of microbiological techniques that are commonly used in medical science, industrial and food microbiology, environmental science, and research. Building on a basic understanding of microbiology the unit shows how microorganisms can be isolated, identified, and enumerated using traditional microbiological methods, modern variations on traditional methods, and more recent immunological and molecular methods. The laboratory component is an integral component of the unit as the students use a variety of techniques, methods and commercial systems that are applied in microbiological laboratories, and incorporates problem solving and inquiry based exercises.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BIOS 2022

Equivalent Subjects: BIOS 3031 - Analytical Microbiology

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 3005 Applied Biomechanics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3005/>) **Legacy Code:** 401147

To fully understand the science underlying the optimisation of human movement, students require a comprehensive working knowledge of Biomechanics. This unit represents a theoretical and applied study of selected topics in Biomechanics. It builds on the basic principles of Biomechanics that are presented in the unit Biomechanics and applies this knowledge to the analysis of sporting and human exercise performance. To achieve this, advanced methods and concepts in the biomechanical analysis of human performance are identified and explored.

Level: Undergraduate Level 3 subject

Pre-requisite(s): HLTH 2003

Equivalent Subjects: BIOS 3006 - Applied Biomechanics of Exercise
BIOS 3007 - Applied Biomechanics of Sport and Exercise

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 3007 Applied Biomechanics of Sport and Exercise (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3007/>) **Legacy Code:** 400889

To fully understand the science underlying the optimisation of human movement, students require a comprehensive working knowledge of Biomechanics. This unit represents a theoretical and applied study of selected topics in Biomechanics. It builds on the basic principles of Biomechanics that are presented in the unit Introduction to Biomechanics and applies this knowledge to the analysis of sporting and human exercise performance. To achieve this, advanced methods and concepts in the biomechanical analysis of human performance are identified and explored.

Level: Undergraduate Level 3 subject

Pre-requisite(s): HLTH 2008

Equivalent Subjects: BIOS 3006 - Applied Biomechanics of Exercise

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 3012 Conservation Biology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3012/>) **Legacy Code:** 300855

Most species disappearances have occurred in major extinction events spread over geological time. Are we in the midst of and the cause of another mass extinction event? This unit will explore this idea by examining the processes that have led to, and are leading to species extinction and the current biodiversity crisis. Many of the methods and issues used in and associated with conservation will be covered in a variety of case studies, field and laboratory activities.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BIOS 1001 AND

BIOS 2005 OR

BIOS 2006 OR

BIOS 2032 OR

BIOS 2018 OR

BIOS 2008

Equivalent Subjects: LGYA 6073 - Environmental Biology LGYA 6182 - Conservation Biology

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 3013 Ecosystem Carbon Accounting (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3013/>) **Legacy Code:** 300856

A critical part of society's response to climate change is to measure the movement of greenhouse gases. Once this is done, steps taken to reduce these gases can be correctly targeted and the impact of such steps monitored. This unit will introduce students to the scientific measurement of greenhouse gas uptake and emissions, including assessment of uncertainties and verifiability of measurement. Ecosystem-level models will be used to estimate and quantify movement of greenhouse gases, allowing quantification of the net greenhouse gas emissions over the life cycle of a product. These approaches are vital steps in moving our society to a sustainable future.

Level: Undergraduate Level 3 subject

Pre-requisite(s): EART 2001

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 3014 Genes, Genomics and Human Health (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3014/>) **Legacy Code:** 300820

Level: Undergraduate Level 3 subject

Pre-requisite(s): BIOS 2018 OR

BIOS 2026 OR

BIOS 2014 OR

BIOS 2021

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 3017 Invertebrate Biology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3017/>) **Legacy Code:** 300918

Invertebrates are the most diverse and abundant organisms in aquatic and terrestrial environments. Due to their key role in many ecosystems, biologist E. O. Wilson coined the phrase of invertebrates as the 'little things that run the world'. Besides their ecological importance, many invertebrates are useful to humans, whereas others are harmful to agriculture, human and veterinary health. This unit highlights invertebrate diversity and life histories as well as their key ecological and economic importance. It also includes hands-on laboratory and field studies. This unit is designed for students with career pathways in science (e.g. animal, environmental, forensic and medical sciences) as well as agriculture, environmental management and education.

Level: Undergraduate Level 3 subject

Equivalent Subjects: BIOS 3018 - Invertebrate Biology NATS 3026 - Forensic Biology

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 3019 Marine and Aquatic Ecology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3019/>) **Legacy Code:** 300978

Temperate freshwater, estuarine and marine aquatic ecosystems play vital roles in providing food, water, recreation and other ecosystem services to human society and habitats for important species that make up global biodiversity. Yet aquatic habitats are the most threatened ecosystems on earth, under threat from global climate change and urbanisation. Through inquiry and problem solving this unit will equip students with the necessary techniques in experimental design and analysis needed to investigate aquatic ecosystems and knowledge of the main animal and plants in aquatic and marine ecosystems. The logic and philosophy of science, scientific studies and experimental analyses will be used to understand temperate aquatic ecosystems throughout this unit. On completion students will have the background knowledge and skills communicate to a range of audiences, so that they can contribute beneficially to management and/or conservation of waterways and oceans and the biodiversity within.

Level: Undergraduate Level 3 subject

Equivalent Subjects: BIOS 3009 - Aquatic Ecology BIOS 3010 - Aquatic Ecology

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 3021 Plant Health and Biosecurity (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3021/>) **Legacy Code:** 300921

This unit explores needs of world food production systems for improved plant health and biosecurity, from paddock to plate and environmental consequences of management practices. Through their studies, students will learn to recognise the significance of plant pests (invertebrates, microorganisms and weeds) and their impact on human society and food security, and methods of reducing their damage to plants and plant products. Major areas of study include: recognition of pests and diseases and assessment of field damage; strategies for reducing pest damage (including legislative, physical, biological, genetic and chemical control methods) and their benefits and limitations; the theory and practice of integrated pest and disease management systems; and issues associated with quarantine and biosecurity.

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYA 6250 - Plant Microbiology and Protection

Incompatible Subjects: LGYA 5948 - Plant Microbiology Interactions LGYA 6200 - Plant Protection

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 3023 Vertebrate Biodiversity (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3023/>) **Legacy Code:** 300861

This unit examines the functional ecology and diversity of vertebrate animals (fish, amphibians, reptiles, birds and mammals). It takes an integrative approach, combining anatomy, physiology, ecology and behaviour, to explain how vertebrates survive and reproduce in relation to their environment. We will uncover the evolutionary relationships among vertebrate groups, and examine their adaptations to different environmental challenges. The unit also explores patterns in vertebrate diversity, with a focus on Australian ecosystems. Students will apply their knowledge of the scientific method to design and conduct their own research project to investigate how environmental factors influence vertebrate animal abundance and diversity.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BIOS 1001

Equivalent Subjects: LGYA 5856 - Animal Form Function BIOS 3024 - Vertebrate Biodiversity

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 3026 Evolution and Genetics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3026/>) **Legacy Code:** 301253

This unit will ensure students are able to understand the core concepts in modern evolutionary theory and the central position that evolution plays in unifying all sub-disciplines of biology. It will also enable students to distinguish the major genetic mechanisms that underpin these theories and critically assess the general importance of genetics in the evolutionary process. In particular, students will gain an in depth knowledge on speciation and population divergence, origin of genetic variation, genetic drift and founder effects, natural and sexual selection, migration, mutation and coevolution, with a major emphasis on genetic mechanisms and the analytical techniques used to assess them. Students may be required to travel to a different campus to undertake this unit.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BIOS 1012 AND

BIOS 1001

Incompatible Subjects: BIOS 2034 Principles of Evolution

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 3027 Molecular Biology of the Cell (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3027/>) **Legacy Code:** 301251

Molecular biology is central to many fields of the biomedical and natural sciences, and includes genetics, immunology, cell biology, biochemistry, and forensics. Through comparative studies of different organisms, this Unit will explain fundamental concepts and methods in the study of DNA and RNA, extending to the application of molecular biology in more advanced fields such as genomics. Subjects will include DNA replication; transcriptional, post-transcriptional and epigenetic regulation of gene expression; microarrays, and an introduction to bioinformatics. Practical work will provide opportunities to become familiar with the methods of molecular biology, with an emphasis on the development of problem solving and analytical skills. Students may be required to travel to a different campus to undertake this unit.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BIOS 2014 OR

BIOS 2018

Incompatible Subjects: BIOS 3015 Human Molecular Biology

BIOS 2026 Molecular Biology

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 3028 Pathological Basis of Human Disease (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3028/>) **Legacy Code:** 301260

Pathology is the study of disease. Students will gain an understanding of human pathogenesis, general and systems pathological processes, and the scientific basis of diagnostic and treatment options. The unit builds upon the students' fundamental knowledge of physiological processes and knowledge of normal human tissue and organ histology, and examines histopathological changes evident in disease states. Students may be required to travel to another campus to undertake this unit.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BIOS 2029 OR

BIOS 2030 OR

NATS 2035

Incompatible Subjects: BIOS 2027 Pathological Basis of Disease

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 3029 Biotic interactions (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3029/>) **Legacy Code:** 301266

This unit will introduce the diversity of biotic interactions observed in nature, with an emphasis on their significant roles in maintaining ecosystem function and regulating biological diversity. Major themes will include the role of microbes in plant and animal health and nutrient acquisition via the soil and gastrointestinal microbiomes, the chemical ecology of interactions between plants, and herbivores and pollinators, and interactions between predators and prey. The consequences of biotic interactions for participants can vary from mutual benefit to benefit for one participant and harm for the other, however these outcomes can often change through time and space. Students will be guided to an understanding of how ecological circumstances determine the consequences of biotic interactions.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BIOS 2008 AND

BIOS 1001

Equivalent Subjects: BIOS 3012 Conservation Biology

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 3030 Global Change Ecology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3030/>) **Legacy Code:** 301268

Students in Global Change Ecology synthesise and apply their knowledge about how ecological systems are responding to human impacts occurring in the Anthropocene, and how adaptation and mitigation can moderate these impacts. Students will demonstrate attributes expected of Ecology graduates, including skills in oral and written communication, quantitative analysis, and critical thinking. Guest speakers from the research community and industry will be invited to represent potential career paths related to ecological sustainability and the broader career destinations of science graduates.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BIOS 2008 AND

EART 2001

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 3032 Plant Science (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3032/>) **Legacy Code:** 301272

Plants are the primary producers of terrestrial ecosystems and moderators of climate change. This unit introduces students to how plants grow and interact with their environment. Students will learn how leaves turn sunlight energy into sugars; stems transport water, solutes and organic compounds; roots acquire water and mineral nutrients by themselves or in association with soil microbes; and hormones regulate plant development and responses to the environment. This knowledge set is crucial for managing our Century's key challenges of food security and climate change. Students will be required to travel to the Hawkesbury campus where the practicals take place.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BIOS 1001

Incompatible Subjects: BIOS 2032 Plant Physiology

BIOS 2033 Plant Physiology

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 3033 Applied Bioinformatics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3033/>) **Legacy Code:** 301406

The ability to perform computational experiments and analyse data is a key component for a successful career in the biological sciences. This unit focuses on how biology has been enhanced through advances in technology, genomics, transcriptomics, proteomics and metabolomics in the development of cell phenotype. Using model systems, this unit shows how research biologists use computational cell biology to form hypotheses, mine data, analyse experiments, and synthesise information. Students will apply bioinformatics and engage with next-generation DNA sequencing data. Students will apply web-based bioinformatics toolkits to construct and compare model genomes, transcriptome, proteome and metabolome information to profile cell genotype and phenotype. Students will undertake a project that interprets and communicates research findings in the context of real world applications, legal and ethical frameworks.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BIOS 2018

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 3034 Molecular Biotechnology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3034/>) **Legacy Code:** 301405

Molecular techniques in cell biology are rapidly developing and offer new solutions to disease mitigation, as well as sustainable solutions to environmental and industrial imperatives. The fundamental cellular processes along with stem cell development, transformation, transfection, cell engineering and re-programming are some of the advanced applications covered in this unit. Students will conduct guided projects investigating the action of hormones, growth factors, morphogens and bio-actives; their receptors and signalling pathways and the cellular responses they trigger. Molecular Biotechnology covers modern techniques in cell screening, cell culture, advanced characterization and experimental approaches enabling dynamic understanding of live microbial, animal and plant cells.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BIOS 2018 OR BIOS 3027 AND

Equivalent Subjects: BIOS 3001 - Advanced Cell Biology

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 3035 Sustainable Environments (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3035/>) **Legacy Code:** 301409

As a student in Sustainable Environments you will synthesize and apply your knowledge about how ecological systems are responding to human impacts in the Anthropocene and how adaptation and mitigation can moderate these impacts. You will demonstrate knowledge of the role of biological and physical processes in provision of ecosystem services. You will apply analytical skills to identify sustainable solutions in social-ecological systems. You will incorporate social and cultural contexts, including relevant Aboriginal perspectives, in communicating science-based knowledge related to the United Nations sustainable development goals in an independent, problem-based sustainability project.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BIOS 2008

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 3036 Agricultural Biosecurity (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3036/>) **Legacy Code:** 301450

Students will be exposed to current and emerging biosecurity issues world food production systems are expected to comply with and develop to ensure sustainable and safe animal and plant products. This unit will enable you to recognise, monitor and control animal and plant pests (invertebrates, microorganisms and weeds) and their impact on human society and food security. Major areas of study include strategies and procedures to identify, record and assess damage to animal and plant products. Included in this unit are key issues related to legislative, physical, biological, genetic and chemical control methods, along their benefits and limitations. Theory and practice of integrated pest and disease management systems and issues associated with quarantine and biosecurity are contextually embedded in unit content and activity.

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYA 6250 Plant Microbiology and Protection BIOS 3021 Plant Health and Biodiversity

Incompatible Subjects: LGYA 5948 Plant Microbiology Interactions LGYA 6200 Plant Protection

BIOS 3037 Climate change and biodiversity conservation (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios3037/>) **Legacy Code:** 301480

Level: Undergraduate Level 3 subject

Equivalent Subjects: EART 3001 Biological Adaptation to Climate Change

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 4001 Science, Technology and Environment Honours Project (30 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios4001/>) **Legacy Code:** 300412

This is a 60 credit point year-long subject taken over two terms (30 credit points in each term). The aim of this subject is to further develop the student's research and problem solving skills. The student is required to implement a research plan, complete a substantive piece of research in a relevant field within Science, Technology and the Environment and to communicate the results of that work to an interested and technically literate audience. Students will present their research as a thesis with a substantial chapter detailing research objectives, methodology and research outcomes. The thesis topic and structure will vary according to the area of interest of the student and the expertise of the supervisor. The project is meant to be a significant undertaking and to incorporate some element of innovation. Throughout this subject regular planned consultations between the student and supervisor(s) will occur and students will be required to attend seminar series or regular research meetings; these may be formal components of other subjects within the Bachelor (Honours) program. Students are expected to work to a schedule devised in consultation with their supervisor. The schedule will include dates set for progress reports and the presentation of draft chapters for review by the supervisor. The subject builds upon the skills developed in the undergraduate program, extending students' competencies in a range of practical techniques and processes of critical thinking. Students who successfully complete the Honours program will have achieved the appropriate background to enable them to pursue further postgraduate research and/or coursework in the sciences or pursue a career in industry or profession.

Level: Undergraduate Level 4 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BIOS 7001 Emerging Technologies for Biological Science (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bios7001/>) **Legacy Code:** 800186

This unit serves to enhance the technological education and training for students undertaking research in biological, agricultural and medical sciences. The unit will teach current and emerging technologies utilised in biological investigations with a focus on model species of animals, plants, insects and microorganisms. The unit is structured around emerging technologies in research fields of: 1) whole organism physiology, 2) cell molecular biology and biochemistry, and 3) genomic and epigenomic processes encoded by the nucleus. Students will be exposed to a systems approach in order to investigate complex interactions with a view towards understanding the impacts of the environment on biological interactions. Teaching will be undertaken by Western Sydney University-HIE staff who are world leaders in their respective research fields.

Level: Postgraduate Coursework Level 7 subject

Building (BLDG)

BLDG 0001 Academic Skills for Construction Management (WSTC Prep) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg0001/>) **Legacy Code:** 700200

This unit is designed to assist students to become successful independent and reflective learners. It introduces students to a range of theories and concepts to facilitate the development of practical skills and personal attitudes necessary for success in tertiary study. The unit also develops basic competencies in using computers and application software for the Building Design Management and Construction Management industries. The unit covers the use of word-processing software and spreadsheets. Students are also introduced to project management and design software.

Level: Undergraduate Level 0 Preparatory subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 0002 Building Calculations (WSTC Prep) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg0002/>) **Legacy Code:** 700318

This unit is designed to assist students to become competent in the field of introductory senior mathematics. It introduces and reinforces mathematical skills in the areas of scale, application of scale, Pythagoras theory, trigonometry, sine and cosine, application of sine and cosine, building volumes, application of building volumes, gradients, application of gradients and thermal flow. Emphasis is placed on developing key competencies in building calculations.

Level: Undergraduate Level 0 Preparatory subject

Equivalent Subjects: MATH 0027 - Scientific Methods in Construction Management

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 1006 Building 2 (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg1006/>) **Legacy Code:** 700071

This unit has been replaced by equivalent unit 700305 from Term 3, 2021. The aim of this unit is to provide students with an overview of the design, classification, applicable Australian Standards, structural systems, construction techniques, materials handling systems, building services, fit-out and finishes for larger scale buildings.

Level: Undergraduate Level 1 subject

Equivalent Subjects: BLDG 1005 - Building 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 1007 Construction Work Safety (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg1007/>) **Legacy Code:** 301061

This introductory unit describes the context of safety management in the Australian construction industry. The topics covered include: The poor long-term record in the construction industry on Workplace Health and Safety (WHS); Strategies for improving the industry performance; Introduction to hazard identification and risk management; and Individual safety awareness and personal responsibility.

Level: Undergraduate Level 1 subject

Equivalent Subjects: BLDG 1008 - Construction Work Safety (WSTC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 1008 Construction Work Safety (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg1008/>) **Legacy Code:** 700256

This unit describes the context of safety management in the Australian construction industry. The topics covered include: The poor long-term record in the construction industry on Workplace Health and Safety (WHS); Strategies for improving the industry performance; Introduction to hazard identification and risk management; and Individual safety awareness and personal responsibility.

Level: Undergraduate Level 1 subject

Equivalent Subjects: BLDG 1007 - Construction Work Safety

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 1009 Environmental Building Design (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg1009/>) **Legacy Code:** 301062

This unit explores the important parameters that are used to facilitate sustainable change in the built environment. Building design is a tool to minimise the use of scarce resources and reduce the impact on the natural Australian landscape. Improving the standard of liveability in urban and peri-urban communities is addressed through the development of holistic building design solutions.

Level: Undergraduate Level 1 subject

Equivalent Subjects: BLDG 1010 - Environmental Building Design (WSTC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 1010 Environmental Building Design (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg1010/>) **Legacy Code:** 700255

This unit explores the important parameters that are used to facilitate sustainable change in the built environment. Building design is a tool to minimise the use of scarce resources and reduce the impact on the natural Australian landscape. Improving the standard of liveability in urban and peri-urban communities is addressed through the development of holistic building design solutions.

Level: Undergraduate Level 1 subject

Equivalent Subjects: BLDG 1009 - Environmental Building Design

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 1011 Property Building (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg1011/>) **Legacy Code:** 301157

This unit provides students with an overview of regulations and construction techniques with an emphasis on low-rise residential buildings in the Australian context. It covers general process; building regulations; environmental issues; surveying techniques; structural elements (footings, framing and bracing); envelope; services; fit-out and finishes.

Level: Undergraduate Level 1 subject

Incompatible Subjects: BLDG 1001 Building 1 BLDG 1003 Building 1 (WSTC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 1012 Property Development Controls (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg1012/>) **Legacy Code:** 200435

Property Development Controls provides students with an understanding of the property planning process from both a State government and Local government perspective. The unit will cover the areas of planning instruments, planning process, property development control issues and planning applications. The unit will also address the areas of the valuation and development impact of planning and environment regulations, with specific reference to the regulatory framework that regulates planning and development in NSW and the impact on the property industry in Australia.

Level: Undergraduate Level 1 subject

Incompatible Subjects: ARCH 2003 - Development Control

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 1013 Building Science (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg1013/>) **Legacy Code:** 301219

This unit provides students with an introductory overview of the way in which scientific principles impact on the structure, fabric and performance of the built environment. Areas covered will include the concepts of force, energy and work in building structures; properties of common building materials; and significant aspects of heat, light and sound in buildings. All the theoretical content will be contextualised within examples drawn from the construction industry. Students will be able to recognise the critical data required for practical decision-making in the area of building technology.

Level: Undergraduate Level 1 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 1014 Non-Residential Building (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg1014/>) **Legacy Code:** 301227

The aim of this unit is to provide students with an introduction to the design, classification, applicable Australian Standards, structural systems, construction techniques, materials handling systems, building services, fit-out and finishes for larger scale buildings. The unit focusses on non-residential building projects such as shopping centres, factories, warehouses, office buildings and associated facilities.

Level: Undergraduate Level 1 subject

Equivalent Subjects: BLDG 1004 Building 2

BLDG 1006 Building 2 (WSTC)

BLDG 1005 Building 2

BLDG 1017 Non Residential Building (WSTC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 1015 Residential Building (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg1015/>) **Legacy Code:** 301226

This unit provides students with an overview of regulations and construction techniques with an emphasis on low-rise residential buildings in the Australian context. It covers general process, building regulations, environmental issues, surveying techniques, structural elements (footings, framing and bracing), envelope, services, fit-out and finishes.

Level: Undergraduate Level 1 subject

Equivalent Subjects: BLDG 1002 Building 1

BLDG 1003 Building 1 (WSTC)

BLDG 1001 Building 1

BLDG 1018 Residential Building (WSTC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 1016 Building Science (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg1016/>) **Legacy Code:** 700308

This unit provides students with an introductory overview of the way in which scientific principles impact on the structure, fabric and performance of the built environment. Areas covered will include the concepts of force, energy and work in building structures; properties of common building materials; and significant aspects of heat, light and sound in buildings. All the theoretical content will be contextualised within examples drawn from the construction industry. Students will be able to recognise the critical data required for practical decision-making in the area of building technology.

Level: Undergraduate Level 1 subject

Equivalent Subjects: BLDG 1013 - Building Science

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 1017 Non-Residential Building (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg1017/>) **Legacy Code:** 700305

This unit provides students with an introduction to the design, classification, applicable Australian Standards, structural systems, construction techniques, materials handling systems, building services, fit-out and finishes for larger scale buildings. The unit focusses on non-residential building projects such as shopping centres, factories, warehouses, office buildings and associated facilities.

Level: Undergraduate Level 1 subject

Equivalent Subjects: BLDG 1004 - Building 2 BLDG 1006 - Building 2

(WSTC) BLDG 1005 - Building 2 BLDG 1014 - Non-Residential Building

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 1018 Residential Building (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg1018/>) **Legacy Code:** 700304

This unit provides students with an overview of regulations and construction techniques with an emphasis on low-rise residential buildings in the Australian context. It covers general process, building regulations, environmental issues, surveying techniques, structural elements (footings, framing and bracing), envelope, services, fit-out and finishes.

Level: Undergraduate Level 1 subject

Equivalent Subjects: BLDG 1002 - Building 1 BLDG 1003 - Building 1 (WSTC) BLDG 1001 - Building 1 BLDG 1015 - Residential Building

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 2001 Building Estimates and Tendering (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg2001/>) **Legacy Code:** 301207

This unit will provide students with an understanding of the principles of design economics and the factors that affect the cost of buildings. Students will learn cost planning process and will be introduced to a range of estimating techniques that could be used at various stages of a building project. A particular focus would be to understand the tendering process and how to prepare detailed estimates using unit rate method.

Level: Undergraduate Level 2 subject

Equivalent Subjects: BLDG 2010 - Estimating 1

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 2002 Building Measurement (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg2002/>) **Legacy Code:** 301208

This unit is designed to develop the techniques required to measure, quantify and prepare bills of quantities for residential construction using standard method of building measurements. It will help students to appreciate basic role of a quantity surveyor.

Level: Undergraduate Level 2 subject

Equivalent Subjects: GEOM 2001 - Quantity Surveying 1

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 2003 Building Regulations Studies (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg2003/>) **Legacy Code:** 300885

This unit develops an awareness of the regulations used to control risk in buildings. Major sources of risk, such as fire and public health, are identified and controlled. Building regulations of high risk regions, such as cyclonic, seismic and bushfire-prone areas, are also discussed. The unit emphasises the safety of vulnerable occupants, such as young children, disabled people and the elderly. The unit also explores recent developments in the National Construction Code (NCC: formerly BCA) concerning energy efficiency.

Level: Undergraduate Level 2 subject

Equivalent Subjects: BLDG 3002 - Building Regulation Studies BLDG 3003 - Building Regulation Studies

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 2004 Built Heritage (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg2004/>) **Legacy Code:** 301085

This unit explores the history of building design in Australia and applies this contextual knowledge to the design of additions to existing buildings, as well as, to infill development in heritage areas. Built form, scale, materials, finishes and streetscape are considered so that new structures complement rather than detract from existing heritage buildings. The appropriateness of preservation, restoration, renovation, retrofit and adaptation strategies for older buildings is examined in the context of market and regulatory constraints on built heritage.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 2011 Contract Administration (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg2011/>) **Legacy Code:** 301224

This subject presents the principles of construction contracts and how the contracts are managed in a construction contract at an introductory level. Key project parties, project life cycle, procurement approaches, payment contracts and contract documents are also introduced. Students will complete a range of tutorials and assessments that aim to build understanding of the administration of a contract while further developing the communication skills and basic ability to read, review and interpret contract

Level: Undergraduate Level 2 subject

Incompatible Subjects: GEOM 2002 Quantity Surveying 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 2012 Contract Administration (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg2012/>) **Legacy Code:** 700309

In this unit, students will examine and investigate the contractual aspects with respect to time, cost, quality and scope in building contracts. The students will develop technical skills for the administration of construction contracts and be able to prepare payment certificates and cash flow statements.

Level: Undergraduate Level 2 subject

Equivalent Subjects: BLDG 2011 Contract Administration

Incompatible Subjects: GEOM 2002 Quantity Surveying 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 2014 Work-Integrated Learning in Sustainable Construction (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg2014/>) **Legacy Code:** 301429

In this unit, students will engage in project-based learning related to Sustainable Construction to practice sustainable approaches in real construction projects. Students will select a project with an agreed industry partner, which will involve sustainable construction practices, for example: sustainability assessments, managing green building projects, carbon emission assessments, cost-benefit analysis and the circular economy. This unit contributes towards the skills required for a work-ready graduate and allows the student to plan, undertake and report on a specific aspect of practice in the context of work.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 3001 Building Design Process (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg3001/>) **Legacy Code:** 301087

Building design is an iterative process. In this subject students will gain experience in generating design proposals and responding to simulated client, regulator and stakeholder feedback. Holistic design solutions that address economic, environmental and social issues will be generated for realistic building projects with an emphasis on regulatory compliance and project value for money.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BLDG 3007

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 3004 Construction Information Systems (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg3004/>) **Legacy Code:** 200503

This unit is designed to provide skills and knowledge for information management technology and practice as it relates to the building industry. The unit gives an overview of information management, data collection and storage, information classification systems, communications, specialist computer applications and artificial intelligence.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 3006 Construction in Practice 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg3006/>) **Legacy Code:** 300886

This unit is designed to allow the student to gain experience with the complexity of the construction industry by integrating knowledge from earlier units. The unit involves group work on construction planning and management, regulatory control and client liaison required for initiating and completing a residential construction project.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BLDG 1001 AND

ARCH 1001 AND

BLDG 1005

Equivalent Subjects: BLDG 2008 - Construction in Practice 1

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 3007 Design Brief Formulation (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg3007/>) **Legacy Code:** 301086

This unit explores the process of formulating the quantitative and qualitative requirements for a complex construction project. Students will analyse and evaluate competing parameters for a specific building project which contains residential, commercial and community facilities.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ARCH 1001 OR

ARCH 1004 OR

ARCH 1004

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 3008 Negotiation in the Built Environment (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg3008/>) **Legacy Code:** 301105

Construction and Property development is the most complex activity in the Australian economy. There are many professional groups involved in the sector. This unit will train students in the negotiation skills required to successfully complete projects from the perspective of a construction manager, building surveyor, planner, civil engineer, construction lawyer and property developer.

Level: Undergraduate Level 3 subject

Equivalent Subjects: BLDG 2009 - Decision Making for Construction Professionals

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 3009 Quality and Value Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg3009/>) **Legacy Code:** 300748

Introduces students to the concepts of quality systems value management techniques and their application to the built environment. Students will gain knowledge of quality assurance and value management theories, techniques and principles so that they can apply as they enter into their professional careers.

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYA 4735 - Quality and Value Management

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 3010 Building Cost Studies (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg3010/>) **Legacy Code:** 301234

This Subject provides students with advanced quantity surveying techniques for the evaluation of construction costs in the construction management and built environment context. Students learn to perform various cost studies, consider sustainability issues and make whole life cost choices that contribute to cost effective construction projects. The tools and techniques students learn are essential in dealing with increasing complexity in the industry.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 3011 Construction Business Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg3011/>) **Legacy Code:** 301427

This unit is centred around the dynamics of managing a construction contracting enterprise. Student groups act as a Board of Directors to plan, communicate, execute, and adjust strategy as they pursue to optimise their firm's outcomes in an online competitive game. Knowledge areas of staffing, finance, labour management, risk management and tendering are challenged. Each week, student groups are scored objectively and given feedback. This shows the team the strengths and weaknesses of the prior week's decision making. Academic staff will work with each student group to refine and improve understanding of the complex dynamics involved. Assessments will be based on decision-making improvement and mastery of strategic and operational principles.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 3013 Work-Integrated Learning in Global Construction (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg3013/>) **Legacy Code:** 301431

In this unit, students will engage in project-based learning related to Global Construction practices in the industry. Students will select a project with an agreed industry partner on construction and management of mega or complex projects to study aspects such as stakeholder management and communication, modern construction methods, productivity and quality assurance. This unit contributes towards the skills required for a work-ready graduate and allows the student to plan, undertake and report on a specific aspect of practice in the context of work.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 3014 Introduction to Building Fire Safety (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg3014/>)

This subject provides the foundations in fire safety engineering principles and the techniques and tools used in building fire safety design. Students learn the key principles of fire and heat transfer, building material and cladding systems' behaviours in fire, fire testing methods, fire-damage assessment methods, and concepts of performance-based building fire safety design. Using examples of fire engineering briefs and reports, students expand their knowledge and skills in real-world contexts. It also builds the skills required for a work-ready graduate and allows the student to plan, undertake and report on a specific aspect of practice in the context of their work.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 3015 Contract Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg3015/>)

This subject provides students with the knowledge and skills to manage building contracts, expanding on knowledge gained in the first year core subject Contract Administration. Students learn the professional practice skills for quantity surveying and contract administration services during construction. Knowledge gained in this subject will benefit students aspiring to careers such as Contract Managers and Quantity Surveyors.

Level: Undergraduate Level 3 subject

Incompatible Subjects: GEOM 2002 Quantity Surveying 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 3016 Work-Integrated Learning in Advanced Digital Construction (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg3016/>)

As increased digitalisation drives the construction industry, this unit engages students in industry project-based learning related to Advanced Digital Construction. Students will select a project with an agreed industry partner, which involves or anticipates involvement in any of the following advanced digital construction applications: BIM, e-procurement and tendering, smart contracts, robotics, drones, artificial intelligence, virtual reality, IoT, additive manufacturing (3D) and digital twins. This unit contributes towards the skills required for a work-ready graduate and allows the student to plan, undertake and report on a specific aspect of practice in the context of work.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 4001 Building Design Project 1 (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg4001/>) **Legacy Code:** 301099

In this subject, students will source a suitable design project to complete as a capstone work which illustrates the skills they have developed throughout their program. The project will contain a level of complexity exceeding that of previous building designs produced in the program. Diverse stakeholder input on the projects impact will be gathered and assessed. Knowledge gained in this subject will benefit students aspiring to roles in the integrated building design industry and the delivery of building projects.

Level: Undergraduate Level 4 subject

Pre-requisite(s): BLDG 3001

Incompatible Subjects: CIVL 4018 Building Design Project 1 (Honours)

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 4002 Building Design Project 2 (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg4002/>) **Legacy Code:** 301100

In this subject, students demonstrate professional standards in completing a design solution for a specific real-world project. Students expand on the design solution completed for Building Design Project 1 into a fully resolved CAD model suitable for costing, scheduling, and contracting. Students apply technical and critical thinking skills to address the project constraints, and present project documentation (site plans, floor plans, elevations, sections, details and specifications) of a quality suitable to apply for a Construction Certificate. Knowledge gained in this subject will benefit students aspiring to roles in the integrated building design industry and the delivery of building projects.

Level: Undergraduate Level 4 subject

Pre-requisite(s): NONE

Co-requisite(s): BLDG 4001 Building Design Project 1

Incompatible Subjects: CIVL 4019 Building Project 2 (Honours)

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 4003 Construction Economics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg4003/>) **Legacy Code:** 200504

This subject is designed to provide students with: an understanding of economic principles, national and international economic issues; general investment issues; how the national and international economy functions; how the building industry and the building firm relates to the national and international economy; and how economic reasoning may be applied to various problems in the building industry.

Level: Undergraduate Level 4 subject

Co-requisite(s): BLDG 4012 Industry Based Learning for students in 2607 Bachelor of Construction Management

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 4004 Estimating 2 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg4004/>) **Legacy Code:** 300726

The aim of this unit is to give students a hands-on experience of the tendering process for construction professionals. Students undertake a team research project to determine the optimum parameters for a civil/building infrastructure estimation.

Level: Undergraduate Level 4 subject

Equivalent Subjects: LGYB 5406 - Estimating 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 4005 Major Project in Construction (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg4005/>) **Legacy Code:** 300536

This unit will enhance the ability of students to investigate a selected topic with a construction industry focus and involves preparation of a literature review. Content includes mechanics of a literature review, use of research (or strategic planning) in the construction industry, development of high-value competencies in terms of marketing, organisational structure and project management.

Level: Undergraduate Level 4 subject

Pre-requisite(s): Successful completion of 200 credit points for students in 2607 Bachelor of Construction Management and 3697 Bachelor of Construction Management Studies (exit only)

Successful completion of 130 credit points for students enrolled in Bachelor of Construction Management Studies Bachelor of Laws

Equivalent Subjects: LGYB 5398 - Major Project 1

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 4006 Modern Construction Enterprises (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg4006/>) **Legacy Code:** 301158

In this unit the pace of change in the construction industry will be addressed. Particular emphasis is placed on the ways in which construction businesses need to adapt their practices to deal with increased digitisation, industrialisation and globalisation. The impact of disruptive innovation on 'back of house' operations in construction enterprises will be studied and trends identified.

Level: Undergraduate Level 4 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 4007 Modern Construction Projects (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg4007/>) **Legacy Code:** 301159

In this unit, accelerating changes in the way construction projects are procured and delivered will be studied. Innovations relating to pre-site construction and to productivity measurement will be evaluated. Quality assurance and risk management will be considered in the light of new project delivery systems. Ways to improve end user satisfaction with construction project delivery will be addressed.

Level: Undergraduate Level 4 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 4008 Digital Construction (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg4008/>) **Legacy Code:** 301225

This unit offers knowledge and skills essential for a successful application of Building Information Modelling (BIM) in the context of built environment. Building Information Modelling (BIM) has the potential to improve integration between design and construction processes, reduce design discrepancies and rework, optimise project time and cost performance, and manage risks. Students will develop an understanding of the generation, reviewing and application of 3D, 4D and 5D BIM models in building projects. Virtual and augmented reality, spatial information capture and performance management systems will also be introduced. This unit will be taught through intensive practice-based workshops and computing labs, enabling students to build skills in virtual design and construction processes.

Level: Undergraduate Level 4 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 4009 Residential Building Project (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg4009/>) **Legacy Code:** 301231

This unit is designed to allow students to gain experience with the complexity of the construction industry by integrating knowledge from earlier units. The unit involves group work on construction planning and management, regulatory control and client liaison required for initiating and completing a complex residential construction project.

Level: Undergraduate Level 4 subject

Pre-requisite(s): BLDG 1015 AND ARCH 1004

Equivalent Subjects: BLDG 2008 Construction in Practice 1 BLDG 3006 Construction in Practice 1

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 4010 Construction Research Methods (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg4010/>) **Legacy Code:** 301243

This unit introduces students to various research methods that are applicable for research in the Built Environment and also guides students on how to carry out a literature review leading to identifying a clear research question. Students will be required to submit a research proposal for an identified research problem within a chosen research topic, under the supervision of an assigned research academic.

Level: Undergraduate Level 4 subject

Pre-requisite(s): Students must be enrolled in programs 3762 Bachelor of Construction Management (Honours) and 3782 Bachelor of Construction Management Advanced (Honours)) and have completed 220 credit points

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 4011 Construction Thesis (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg4011/>) **Legacy Code:** 301244

In this subject, students continue their research based on the literature review and research design submitted as part of the Construction Research Methods, under the close guidance of the same research supervisor. The research will be extended using appropriate research methods to perform data collection, data analysis and research conclusions. The students will submit an original thesis report on a research endeavour (continued from the research report in unit Construction Research Methods). In addition to the specialist knowledge on the chosen research topic, students will learn a range of skills including academic writing, project management, critical thinking and analytical skills.

Level: Undergraduate Level 4 subject

Pre-requisite(s): BLDG 4010

Incompatible Subjects: ENGR 4024 - Construction Management Honours Thesis

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 4012 Industry Based Learning (0 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg4012/>) **Legacy Code:** 300724

Students are required to undertake 1200 hours of industry based experience as required by course and professional accreditation bodies.

Level: Undergraduate Level 4 subject

Equivalent Subjects: LGYB 5394 - Industry Based Learning

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 4013 Work-Integrated Learning in Construction Leadership (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg4013/>) **Legacy Code:** 301433

In this unit, students will engage in project-based learning related to Construction Leadership within an industry framework. Students will select a project with an agreed industry partner to develop any of the following managerial and leadership skills in construction settings: organisation management and applications, strategic management, change management, corporate social responsibility, human resource management, knowledge management and organisational resilience. This unit contributes towards the skills required for a work-ready graduate and allows the student to plan, undertake and report on a specific aspect of practice in the context of work.

Level: Undergraduate Level 4 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 4014 Building Design Project 1 (Honours) (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg4014/>)

This is a capstone subject, where students will source a suitable design project at their own initiative to illustrate the skills they have developed throughout their program. The project will contain a high level of complexity exceeding that of previous building designs produced in the program. Both the complexity level and the number of design constraints will distinguish this project from the ones undertaken in the non-honours stream subjects. Diverse stakeholder input on the project's impact will be gathered and assessed. The design solution generated will show mastery of resolving complex design problems which integrate technical knowledge with economic and social responsibility. These skills are highly sought after by employers in the building design industry.

Level: Undergraduate Level 4 subject

Pre-requisite(s): BLDG3001 - Building Design Process

Equivalent Subjects: CIVL 4018

Incompatible Subjects: BLDG4001 - Building Design Project 1 (non-honours stream)

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 4015 Building Design Project 2 (Honours) (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg4015/>)

In this subject, students will continue to develop the design solution they created in Building Design Project 1 (Honours) into a fully resolved CAD model suitable for costing, scheduling and contracting. Students apply technical and critical thinking skills to address the project constraints, and present project documentation (site plans, floor plans, elevations, sections, details and specifications) of a quality suitable to apply for a Construction Certificate. Complex constraints relating to buildability and efficient project delivery will be resolved. Strict budgetary constraints will be imposed and students will be expected to demonstrate a capacity to use lateral thinking and generate creative solutions in response to problematic situations which arise during project delivery but which were unknown at project commencement. Knowledge gained in this subject will benefit students aspiring to roles in the integrated building design industry and the delivery of building design solutions.

Level: Undergraduate Level 4 subject

Co-requisite(s): BLDG 4014 - Building Design Project 1 (Honours)

OR

CIVL 4018 - Building Design Project 1 (Honours)

Equivalent Subjects: CIVL 4019

Incompatible Subjects: BLDG4002 - Building Design Project 2 (non-honours stream)

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 4016 Work-Integrated Learning in Construction Procurement Management (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg4016/>)

In this subject, students will engage in project-based learning related to Construction Procurement to gain practical skills in managing complex and dynamic construction industry procurement practices. Students will select a project with an agreed industry partner on any of the following suggested topics: new procurement systems, commercial and business management implementations, ethics and trust-based relationships, risk management, sustainable and lean construction. This subject contributes towards the skills required for a work-ready graduate and allows the student to plan, undertake and report on a specific aspect of practice in the context of work.

Level: Undergraduate Level 4 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 5001 Construction Claims (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg5001/>)

This subject introduces contractual procedures and legal principles relating to construction claims. Students develop cognitive and technical skills to construct and assess construction claims through practical and real world activities. In addition, students examine delay analysis and quantum determination in extension of time (EoT) claims with real work examples. An important component of this subject is understanding the role and responsibility of an expert witness, managing expert appointments effectively, acquiring skills when compiling comprehensive expert reports and delivering expert evidence to tribunals. Students will have opportunities to expand their skills through professional practice tasks.

Level: Postgraduate Coursework Level 5 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 7001 Advanced Contract Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg7001/>) **Legacy Code:** 301188

This unit introduces various contract types and risks involved in construction project management. The unit extends to examining contractual claims management and procedures together with alternative dispute resolution methods. The unit will further help students to understand change management process and develop a change management plan.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 7002 Building Regulations (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg7002/>) **Legacy Code:** 300947

This unit introduces the role and functions of the building surveyor and the National Construction Code of Australia (NCCA). The topics include building legislation, NCCA general provisions, structure and philosophy. Students are required to understand the objectives, the function statements and the performance requirements of various sections of Volume One of NCCA. The concept of performance based approach is discussed and compared with the prescriptive approach. The content covers the relationship between research in the development of building codes and the role played by approval/certifying authorities in building assessment and approval. Legal obligations of building surveyors, their tasks of assessment, enforcement and documentation are also explained.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: BLDG 7010 - Fire and Building Regulations

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 7003 Building Studies (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg7003/>) **Legacy Code:** 300716

This unit describes and analyses the technological, socio-economic and sustainability factors that influence the building industry. The topics include advances in contemporary issues affecting sustainability and energy conservation, access and adaptable housing, safety in special areas and building design in accordance with the relevant legislative requirements. Use of assessment tools for sustainability is covered. Discussions are also made on development management, the roles and the relationship between building owners / occupiers, developers and building surveyors.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYB 5426 - Building Studies

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 7004 Building in Bushfire Prone Areas (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg7004/>) **Legacy Code:** 200458

This unit describes the basis for the design and construction of buildings to withstand bushfire attack, the measures that can be incorporated into building design to achieve this and the legislative building requirements affecting bushfire environments. The unit examines the mechanisms of bushfire attack on structures, the role of landscaping on building survival and how materials perform in the presence of a bushfire event. The unit describes the role of the Building Code of Australia (BCA) and Australian Standards in the construction of various building types and the legislative and regulatory environment in which this operates.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 7005 Egress and Risk Assessment (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg7005/>) **Legacy Code:** 300717

This unit introduces the concept of risk assessment for fire safety systems relevant to life safety and property protection. The unit helps students develop an understanding of building occupant characteristics and human behaviour during fire emergencies. Parameters, methods and criteria for risk and economic assessments are covered in this unit.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYB 5424 - Fire Safety Systems 1 (Property)

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 7006 Financing Cities in the Global Economy (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg7006/>) **Legacy Code:** 101315

Financing infrastructure to keep cities running and growing at a time when governments face new financial constraints is a key challenge for urban managers. In order to be able to contribute to the debate about financing cities it is important for future urban managers to develop a basic financial literacy, understand and draw on the options for financing essential urban functions in Australia cities and elsewhere, and assess the tensions involved in public and private financing pathways. This unit addresses these needs through both theoretical and practical approaches to the city as a set of flows within a wider urban network of relations. Students develop their understanding via interactive lectures, case studies, fieldwork exercises and assignments.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 7007 Interpreting Building Regulations (Residential Buildings) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg7007/>) **Legacy Code:** 301103

The basis of this unit is to ensure students become accustomed to reading and interpreting laws that specifically relate to building legislation. The unit provides students with an introduction to and sound working knowledge of the prescriptive provisions of the National Construction Code (BCA) Volume 1 & 2, associated Standards, codes and statutory interpretation as it applies to residential buildings. This unit will develop a sound knowledge of the National Construction Code (BCA) - Volume 2 and an introduction to rise in storeys, types of construction and the fire requirement for building elements in the National Construction Code (BCA) Vol. 1, Building Profession Act 2005 and other associated legislation. Residential building work includes work under the Home Building Act 1989, which involves the construction of a dwelling, and alterations or additions to a dwelling. It also will relate to repairing, renovating, decorating or applying protective treatment to a dwelling. The unit applies to residential buildings and associated structures and includes the evaluation and interpretation of performance requirements, classification of buildings according to National Construction Code (BCA) criteria, limitations of the referenced documents (National Construction Code (BCA) - Volume 2) and strategies for compliance. Students will need to relate the objectives of the National Construction Code (BCA) and the purpose of its respective provisions in relation to construction of residential buildings and the evaluation of associated documentation.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 7008 Professional Practice and Building Law (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg7008/>) **Legacy Code:** 301104

The basis of this unit is to ensure students become accustomed to reading and interpreting building and related laws. The unit provides students with background knowledge of the negligence, administrative law, life safety, proportional liability, contracts and statutory interpretation as it applies to architecture, building surveying, fire engineering and bushfire protection. The unit studies the codes of professional conduct, ethics, conflict of interest and the rules of evidence within the legal constraints when acting as certifiers and or experts. The jurisdictional requirements for certification are considered and assessed. These professions can act as expert witnesses and consequently need to understand codes of professional conduct, ethics, conflict of interest and the rules of providing expert evidence. In doing so, they are potentially required to brief solicitors or other legal professionals and will ultimately have a duty to the court or tribunal.

Level: Postgraduate Coursework Level 7 subject

BLDG 7009 Project Procurement Systems (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg7009/>) **Legacy Code:** 301191

This unit examines contemporary practice in relation to procurement strategies such as traditional procurement, relational contracting, strategic project alliancing, and public-private partnerships / private finance initiatives within project environments. The unit will challenge students to examine built environment business ecologies which underpin strategic procurement decision making. Unique procurement environments will be explored, allowing the students to examine key themes of procurement management.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 7011 Work-Integrated Learning in Project Management A (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg7011/>) **Legacy Code:** 301366

This work integrated learning unit will provide students enrolled in the Master of Project Management with an opportunity to undertake work placement focusing on project management (PM) in a professional organisation within an industry relevant to students' specialisation or generic option. The placement will allow students to observe and develop PM professional skills and behaviour, integrate theoretical and practical PM knowledge and conventions into a real world setting, and establish project management competency, all in line with recognised world standard in project management. This unit aims to promote greater engagement with career planning and progression and hence improve job readiness.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: INFO 7010 - Research Project A INFO 7011 - Research Project B

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 7012 Work-Integrated Learning in Project Management B (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg7012/>) **Legacy Code:** 301367

This WIL unit builds on its predecessor, Work-Integrated Learning in Project Management A and will provide students enrolled in the Master of Project Management with an opportunity to undertake work placement focusing on project management (PM) in a professional organisation within an industry relevant to students' specialisation or generic option. The placement will allow students to further develop PM professional skills and behaviour, integrate theoretical and practical PM knowledge and conventions into a real world setting, and establish project management competency, all in line with recognized world standard in project management. The unit aims to further promote greater engagement with career planning and progression and hence improve job readiness.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): BLDG 7011

Incompatible Subjects: INFO 7010 - Research Project A INFO 7011 - Research Project B

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 7013 Project Procurement Systems (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg7013/>) **Legacy Code:** 301492

This subject examines contemporary practice in relation to procurement strategies such as traditional procurement, relational contracting, strategic project alliancing, and public-private partnerships / private finance initiatives within project environments. The subject will challenge students to examine built environment business ecologies which underpin strategic procurement decision making. Unique procurement environments will be explored, allowing the students to examine key themes of procurement management.

BLDG 7014 Construction Industry Practice A (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg7014/>)

In this unit, students are placed with relevant employers to work on a variety of industry related tasks. Placements are structured for student engagement in professional work in their relevant field of study. Placement agencies ensure students are supervised by experienced practitioners, are mentored through site visits and work on projects in a professional capacity. Agreements with supervisors and clear communication lines are set to clarify student engagement and their involvement in meaningful professional tasks that contribute to an authentic learning experience. This unit aims to promote greater engagement with career planning and progression and hence improve job readiness.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): Students must be enrolled in courses 3705 Master of Fire Safety Engineering 3703 Master of Building Surveying or 3708 Master of Bushfire Protection and have completed a minimum of 40 credit points before enrolling in this unit

Restrictions: Please see the Subject Details page for any restrictions for this subject

BLDG 7015 Construction Industry Practice B (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/bldg7015/>)

In this subject students are placed with relevant employers to work on a variety of industry related tasks. Placements are structured for student engagement in professional work in their relevant field of study. Placement agencies ensure students are supervised by experienced practitioners, are mentored through site visits and work on projects in a professional capacity. Agreements with supervisors and clear communication lines are set to clarify student engagement and their involvement in meaningful professional tasks that contribute to an authentic learning experience. BUSM 0029 Decision Making for Business (WSTC Prep) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm0029/>) **Legacy Code:** 700322

The world of business is a complex one, where decisions can have a major impact on a firm's success or failure. So how do you make a good business decision? In this unit students will explore the value of numerical data as a tool to help businesspeople make informed decisions using sound evidence. We start with the basics of quantitative data - statistics - as a way of calculating the probable outcomes of particular decisions. We then explore how another crucial set of numbers for a firm - the financials - can also empower businesspeople to make smart decisions.

BUSM 1021 Management Practice (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm1021/>) **Legacy Code:** 200890

This online unit introduces management ideas and uses activities to build on the students' existing knowledge and skills through the application of management theory. The unit will develop an understanding of management practice in the wider context of organisations. Students will critically evaluate their workplace context in relation to management practice and review their knowledge and skills. The unit is suitable for anyone who has undertaken workplace learning in the last three years and wants to develop an academic understanding of management disciplines such as operations, marketing, strategy, and their own management practice.

Level: Undergraduate Level 1 subject

BUSM 1023 Managing People at Work (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm1023/>) **Legacy Code:** 200300

'Managing People at Work' provides an introductory framework for the study of employment relations. The unit is approached from a stakeholder perspective, emphasising the way that management, labour and the State, along with other key stakeholders, act, both separately and together, to structure the employment relationship. In doing so, the unit integrates industrial relations and human resource management theory and practice, illustrating the links between the two disciplines. The content of the unit is structured so as to provide an initial introduction to the disciplines of industrial relations, human resource management, and employment relations, and to the key stakeholders in the employment relationship. Building on this framework, a theoretical and empirical analysis of employment relations processes is provided, with particular emphasis given to recent changes in the role and perspectives of stakeholders.

Level: Undergraduate Level 1 subject

BUSM 1028 Professional Communication Skills for Business (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm1028/>) **Legacy Code:** 200878

This online unit is for Bachelor of Business Administration students to develop specialised reading and writing skills for business study purposes. Students will study a range of business related material that have been especially designed to develop knowledge and reading and writing skills. Topics include areas of human resource management; finance and accounting; marketing and a number of business analysis methods. Some of the study materials are authentic texts from the business world, others have been adapted or designed for the unit. Different styles of writing from business studies and business are introduced. Through examining successful examples of student writing and work-related documents, and reflecting on what makes these texts successful, students will learn to analyse case studies and produce effective academic business documents.

BUSM 1040 Enterprise Leadership (Block) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm1040/>) **Legacy Code:** 500077

Enterprise Leadership begins the development of the understanding of the role and function of business management and enterprise leadership concepts. Enterprise leaders need to balance a range of stakeholder perspectives in dynamic internal and external environments at local and global levels. Students are introduced to people, managerial and organisational processes designed to achieve enterprise leadership. Problem solving scenarios and experiential learning provide students with a foundation to develop personal and professional skills required to effectively manage their careers.

Level: Undergraduate Level 1 subject

BUSM 1044 Leadership in Complexity (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm1044/>) **Legacy Code:** 800239

This subject is designed for high-achieving students enrolled in the Bachelor of Creative Leadership or Advanced Degrees. The subject focuses on theories and traits of different leadership styles in cross-disciplinary environments and their application in various contexts. Leadership is examined through multidisciplinary lenses thereby broadening students' perspectives of leadership and encouraging interdisciplinary thinking and action as emergent creative leaders. Students are challenged to lead in complexity and prepare for unknown futures and skill sets necessary to drive change through innovation.

Level: Undergraduate Level 1 subject

Equivalent Subjects: BUSM 1016 - Leadership in a Complex World
Incompatible Subjects: Students cannot take BUSM 1044 if they have already taken BUSM 1036

BUSM 2001 Business Organisations and Their Environments A (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm2001/>) **Legacy Code:** 200882

This online unit introduces students to an examination of the environments in which business organisations operate. The unit adopts a practice-based learning approach, which means that students focus on how the ideas and issues discussed impact on organisations with which they are familiar. Students will begin by assessing their current knowledge and understanding of business organisations and then go on to explore how organisations we see today have been shaped. Drawing on individual experience of organisations as well as working collaboratively, students will develop a critical theoretical and practical understanding of the nature of business organisations and the internal and external factors that shape them.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 2002 Business Organisations and Their Environments B (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm2002/>) **Legacy Code:** 200884

This online unit extends the examination of the environments in which business organisations operate which was introduced in Business organisations and their environment A. The unit focuses initially on three sets of debates that are current in the world of business - globalisation, corporate social responsibility and regulation. Students are then asked to consider what organisations might look like in the future. Are newer organisational forms, such as open-source networks and social enterprises, just a transient phase or the start of a revolution in the operation of business? What are the implications of this for the world of work? Each topic will be approached through case study material and theoretical debates and students will work collaboratively and individually to build skills and critical understanding.

Level: Undergraduate Level 2 subject

Pre-requisite(s): BUSM 2001

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 2004 Business, Society and Policy (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm2004/>) **Legacy Code:** 200158

Business organisations influence and evolve through ongoing social, political and technological change. Taking the perspective that businesses both affect and are affected by government and society, the unit examines the complexities of interactions between three sectors: business, society and government. The unit emphasises the social responsibility of business. The different ideologies used to legitimise the actions of business, the responses from society and the role of government (local, transnational and global) in regulating interactions, are critically evaluated.

Level: Undergraduate Level 2 subject

Equivalent Subjects: BUSM 2003 - Business Society and Policy (UWSC)

BUSM 2005 Cost Benefit Analysis (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm2005/>) **Legacy Code:** 200924

Students will learn and apply Cost Benefit Analysis, the most commonly used economic tool in business, consultancy and government organisations. The unit is a core unit in the Economics major but is open to all students who have a basic understanding of economics and a desire to improve their analytical skills and employability. At the completion of the unit, students will be able to explain the economic foundations of cost-benefit analysis and they will have experience with analysing, critically evaluating and developing a cost-benefit analysis for a specific proposal. Students will also consider risk analysis and cost-effectiveness analysis.

Level: Undergraduate Level 2 subject

Pre-requisite(s): BUSM 1006 OR

ECON 1011 OR

MKTG 1005

BUSM 2014 Enterprise Industrial Relations (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm2014/>) **Legacy Code:** 200614

Enterprise Industrial Relations builds participants' analytical and research abilities, developing capacity to identify, diagnose and engage with industrial relations challenges from different stakeholder perspectives. Participants work with real-world industrial relations, looking at individual employees' workplace and labour market experiences; the goals and activities of managers; and the role and practices of tribunals, enforcement agencies, employer associations and trade unions. This is done through activities that require working collaboratively on problems using online research to investigate contemporary practice, such as the drivers behind enterprise agreements and the implications of institutional arrangements and trade unions for productivity, equity and human resource utilisation. It is a core unit for the human resource management undergraduate program.

Level: Undergraduate Level 2 subject

Pre-requisite(s): BUSM 1023

Equivalent Subjects: BUSM 2015 - Enterprise Industrial Relations

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 2016 Entrepreneurial Management and Innovation (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm2016/>) **Legacy Code:** 200154

This unit examines the theory, practice and nature of entrepreneurship, as a virtual but often neglected and misunderstood mode of management. A basic premise underlying this unit is that all business entities require enterprising management to enhance their survival ability. This proposition is relevant to new and older, small and large organisations. Additionally, contemporary management practice requires the modern manager to be creative in a learning context and the ways in which these creative environments are reached through entrepreneurship are explored.

Level: Undergraduate Level 2 subject

Co-requisite(s): BUSM 1038

Equivalent Subjects: LGYB 0476 - Entrepreneurial Management and Innovation (UWSC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 2018 Food and Beverage Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm2018/>) **Legacy Code:** 200992

A key component of the hospitality industry is the provision of food and beverages. Food and Beverage Management prepares the student to run his or her own business, or to take on management level positions in this field. It focuses on the managerial knowledge and skills required to supervise all components of a foodservice system: marketing, menu planning, production, service, financial controls and quality assurance. Those who wish to work in management positions within the foodservice industry, including in hospitals, restaurants, hotels, and other establishments will benefit from this unit.

Level: Undergraduate Level 2 subject

Equivalent Subjects: BUSM 2033 - Managing the Food and Beverage Experience

LGYA 4392 - Food Service Systems

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 2020 Health Services Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm2020/>) **Legacy Code:** 400277

The health workplace is a complex and sophisticated environment that can be understood in many different ways and mean different things to different members of an organisation. Assumptions about organisational structure and action are based on conceptualisations and beliefs about the nature and goals of an organisation. This unit aims to develop an introductory understanding of health administration and management practice and business skills required in an evolving health landscape in concordance with the international competency framework for health administrators and managers.

Level: Undergraduate Level 2 subject

Co-requisite(s): Students enrolled in 3711 Bachelor of Information and Communications Technology (Health Information Management) must have completed or be enrolled in INFS 3010 Healthcare Data Environments

BUSM 2022 Human Resource Development (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm2022/>) **Legacy Code:** 200859

'Human Resource Development' (HRD) looks at how the development of people and their skills is essential to the 21st century workplace. By examining the key processes of employee learning, development and career management, participants will understand HRD's impacts on workers' employability and careers, organisational effectiveness and economic sustainability. The unit introduces concepts of workplace learning and engages participants in case study discussion and research into current HRD trends in Australian and international workplaces. The goal of Human Resource Development is to support participants to ask questions about current practice and to encourage critical understanding of the field.

Level: Undergraduate Level 2 subject

Pre-requisite(s): BUSM 1023

Equivalent Subjects: BUSM 2013 - Employee Training and Development
BUSM 2012 - Employee Training and Development

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 2024 Incubator 2: Start-up Essentials (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm2024/>) **Legacy Code:** 301206

There are unavoidable legal situations and ethical dilemmas in all professions. As an entrepreneur, facing these legal and ethical circumstances is much more formidable. This unit aims to prepare students to understand the legal and ethical landscape that applies to start-up (or any) organisation. As such, unit aims to cover the topics such as: creating a business plan, negotiating employment contracts, etc. The unit will be delivered through a number of modules. As an integral part of the unit, students are expected to engage and work in "start-up co-working space" on a regular basis. At the successful completion of this unit, students would have developed a thorough understanding of the local and international legal and ethical landscape within which modern start-up organisations operate. NOTE: This unit is offered at the Werrington Campus "Launch Pad".

Level: Undergraduate Level 2 subject

Equivalent Subjects: BUSM 2023 - Incubator 2 Legal and Ethical Setting of Entrepreneurship

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 2027 Leadership, Influence and Change A (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm2027/>) **Legacy Code:** 200883

This online unit focuses on leadership and change practice, and has considerable potential to support employability. It is the first of two units on leadership, influence and change and lays the foundation for the evidence-based inquiry to be carried out in 200885 Leadership, influence and change B. Its strong work-based and reflective enquiry component will help students explore how to initiate and carry through improvements and projects to current work. Students will also develop skills to enable them to manage their learning in new work contexts. In this unit, the concept of 'work' is not limited to paid employment. However, for successful completion of this unit it will be very important to be involved in some ongoing project where students can influence others and initiate change.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 2028 Management of E-Business Processes (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm2028/>) **Legacy Code:** 200255

The Internet and WWW have recast the role of e-business systems in organizations and the management of these systems. Many organizations use web-based technologies to bring about fundamental changes in the way they interact with their suppliers and customers. It is becoming increasingly important to digitally enable the core business processes of their organization. A vital factor for successful e-business organizations is their ability to manage their core business processes and information resources. This unit covers e-business planning, strategies for managing information, knowledge and business networks in e-business, and strategic management for e-business systems including their connection to enterprise resource planning (ERP) systems, supply chain management systems (SCM) as well as customer relationship management systems (CRM).

Level: Undergraduate Level 2 subject

Equivalent Subjects: LGYA 4367 - Information Systems and Business Processes

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 2029 Management of Projects (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm2029/>) **Legacy Code:** 200528

Management of Projects introduces students to the role of projects in organizations and the associated issues in managing projects, including the management of project teams and project lifecycles. While project management is well understood in areas such as construction and information systems, this unit also covers its use in other business applications, such as product development, advertising and promotional campaigns, organizational change and the implementation of corporate strategy. The use of cases, simulations and other exercises allows students to gain a realistic appreciation of the issues involved in managing projects. A range of project management tools and techniques are demonstrated through these case studies.

Level: Undergraduate Level 2 subject

BUSM 2043 Project Management in Humanitarian and Development Studies (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm2043/>) **Legacy Code:** 102707

The primary aim of this unit is to equip students with the concepts, processes and major techniques employed in project management. By integrating theory and practice this unit provides a strong foundation for students in project management as an essential skill in the field of humanitarian and development studies. The unit uses the project management body of knowledge (PMBOK) which covers the required competencies in project management including planning, monitoring, control, implementation and evaluation.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 2044 Health Service Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm2044/>) **Legacy Code:** 401393

The unit builds on previous Health Services Management curriculum. It is focused on the changing role of the health services manager and competencies required to manage and lead health services efficiently and effectively in both current and emerging areas of healthcare and health management. Various management functions are explored through 140 hours of placement with blended learning activities including: strategic management, values-based healthcare, quality and safety, risk and governance, health services policy and performance management, finance and resource allocation.

Level: Undergraduate Level 2 subject

Co-requisite(s): BUSM 1037

Incompatible Subjects: BUSM 3015 - Health Services Management Practice BUSM 3014 - Health Services Financial Management

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 2045 Sport and Society (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm2045/>) **Legacy Code:** 201079

Sport plays a prominent role in the lives of many people across Australia and globally. It provides an opportunity for pleasure and a sense of freedom which may be missing in modern society. However, sport is a contested concept and can be a domain which both reinforces and challenges notions such as gender, ethnicity, and nation. This unit explores sport from a sociological perspective, examining the relationship between sport and society, and encourages students to challenge accepted norms and ideologies.

Level: Undergraduate Level 2 subject

Equivalent Subjects: SPRT 3004 - Contemporary Issues in Sport Management BUSM 3068 Sport and Society

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 2046 Managing in the Global Environment (Block) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm2046/>) **Legacy Code:** omp

This unit introduces students to the complexities of managing in the changing economic, political, legal, technological and sociocultural factors that influence management practice. By addressing issues of cultural awareness, this unit provides an organisational behaviour approach to managing in a dynamic global environment. Management practice and theoretical knowledge are linked in this unit through experiential based learning and assessment activities such as critical analysis of contemporary media, research and case studies.

Level: Undergraduate Level 2 subject

Equivalent Subjects: BUSM 2009 - Cross cultural management BUSM 2010 - Cross cultural management (UWSC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 2047 Venture Makers Foundations (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm2047/>)

The world we inhabit is ever changing - and so is the way that we will work in the future. Technology continues to evolve and impact the way consumers, business and government interact. Graduates today encounter an increasingly complex working environment and need to be equipped with the mindset, skills-set and tools to navigate uncertainty and complexity, whilst having the capacity to identify and act on emerging opportunities presented by changing environments. The Venture Makers Foundations subject is a highly innovative, unique transdisciplinary entrepreneurship training and development experience. This subject provides students with an entrepreneurial perspective and the skills that are needed to thrive and navigate disruption. The subject is delivered in partnership with innovative Industry partners and is authentic, immersive, and relevant, enabling students to develop real professional industry networks locally, nationally, and internationally. Students will develop core entrepreneurial skills and enhance their work readiness as they create and design solutions for solving complex, real-world challenges with potentially significant global impact. The subject is available to all bachelor degree students as an elective.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3001 Advanced Business Seminars (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3001/>) **Legacy Code:** 200572

A seminar series involving speakers from outside the university will present on current theoretical or practical issues affecting business and commerce. Students interested in this unit should contact the Unit Coordinator to see whether they qualify.

Level: Undergraduate Level 3 subject

Pre-requisite(s): Students must have successfully completed at least 90 credit points in business related units

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3002 Business Leadership (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3002/>) **Legacy Code:** 200573

Business Leadership explores the multiple opinions and complex perspectives regarding leadership in the global business context. Exploring the nature of leadership across different cultures and situations, students develop an insight into the highly sophisticated meanings of leadership emerging from the broad literature, history and accounts on the topic. Future leaders emerge from this unit recognising the importance and relevance of their personal leadership goals in the early stages of a business or commerce career.

Level: Undergraduate Level 3 subject

Pre-requisite(s): Students must have successfully completed at least 90 credit points of business related units

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3004 Contemporary Management Issues (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3004/>) **Legacy Code:** 200568

This is an engaged unit that requires students to undertake real-world projects to support selected industry or community partners. The unit blends in-class and online activities as well as individual and group work, with self-directed problem-based learning. The focus of students' learning is on sustainable business, including the economic, social and environmental dimensions of business. The in-class workshops support students to conduct the required engagement activities with industry or community partners. As a third-year unit, attention is given to students' application of the knowledge and skills already acquired in their degree programs, and on the practice of business management skills.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 1038 OR

BUSM 1008 OR

BUSM 1019

Equivalent Subjects: LGYB 9012 - Contemporary Management Issues

BUSM 3005 Creating Change and Innovation (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3005/>) **Legacy Code:** 200862

The future of work requires us to: be innovative; manage change; have interpersonal skills; and be lifelong learners. Towards these aspirations, this subject introduces the concepts of change and innovation as they relate to organisational transformation. It explores change as a human and social process. Furthermore, it offers opportunities to consider relevant bona fide examples of change and innovation to expand ideas on how to inspire and lead organisational transformation. As such, this subject provides the theoretical and practical understandings that you will need as both a student of change and a future manager.

Level: Undergraduate Level 3 subject

Equivalent Subjects: BUSM 3038 Management of Change LGYB 9013 Management of Change

BUSM 3006 Design Thinking for Creativity (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3006/>) **Legacy Code:** 200918

Innovation and creative thinking are important skills in strategy development. Part of this process is the ability to solve problems and discover new opportunities; or in other words, the notion of "design thinking". This unit introduces students to concepts and frameworks to create innovative products, services and systems for a range of enterprises, industries and markets. Students will explore and analyse business and social networks, clusters and ecosystems via practice based projects. Design thinking principles will be applied to systematically develop ideas into innovative solutions as a way to drive business growth.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3007 Destination Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3007/>) **Legacy Code:** 101270

Destination Management provides students with a fundamental understanding of the concepts in destination management. This includes coordination of the destination in terms of the tourism industry's sectors, their relationship with each other and the challenges they face. An appreciation of the importance of a destination's unique cultural, natural and economic attributes is developed from the viewpoint of the visitor and industry representatives. The implications of organising urban spaces for the visitor experience and its influence on sustainability and competitiveness are explored.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3008 Developing Sport Professionals (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3008/>) **Legacy Code:** 200997

The Sport Management Internship unit provides students with an opportunity to engage with the sport industry through a 120 hour [minimum] industry placement. Students are provided with a unique opportunity to observe sport management practitioners in action and learn in a practical "hands-on" setting. Experience in the field of study is an essential ingredient in preparing an individual for employment either during the period of study or after graduation. Students have the opportunity to apply theoretical concepts, knowledge and skills acquired in lectures and workshops in professional sport, recreation and aligned settings.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 1031

Equivalent Subjects: LGYA 7605 - Professional Practice in Sport Management 3 LGYA 7603 - Professional Practice in Sport Management 2 LGYA 4807 - Professional Practice in Sport Management 1 BUSM 3066 - Sport Management Internship

BUSM 3009 Enterprise Internship (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3009/>) **Legacy Code:** 200920

This unit is designed to bring to life the knowledge gained during the students' study whilst applying it practically to diverse business contexts through work integrated learning. The internship will build on the comprehensive, coherent and connected knowledge gained in business specialisations to allow the students to explore and develop attributes required to be successful in contributing to outcomes in a business environment. Assessment of the unit is through a practical application of the learned theory into an assessable business report framework. Entry to this unit is by application. Contact the unit coordinator for details.

Level: Undergraduate Level 3 subject

Equivalent Subjects: BUSM 3003 - Business Report

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3010 Entrepreneurial Team (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3010/>) **Legacy Code:** 200609

This unit is intended to provide an opportunity for high performing students to participate in a team which will develop a business plan for a company division, a non-profit enterprise, an existing business or a new business opportunity.

Level: Undergraduate Level 3 subject

Pre-requisite(s): Successful completion of 160 credit points of business related units

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3011 Frontiers of Business Theory and Analysis (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3011/>) **Legacy Code:** 200574

This unit looks at selected contemporary issues in business, industry and commerce. Each selected issue will be examined in terms of the way in which the problem is defined, competing definitions of the problem, components of the problems and relationships to other contemporary issues. Relevant theoretical perspectives will be examined and evaluated.

Level: Undergraduate Level 3 subject

Pre-requisite(s): Students must have successfully completed at least 90 credit points of business-related units

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3014 Health Services Financial Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3014/>) **Legacy Code:** 400279

The Australian health care system must account for use of resources, and ensure their equitable and efficient use. Increasingly devolution of management function to cost centre level in health care organisations is occurring. Managers must consider the financial implications of clinical decisions, understand and act on accounting information. They are held responsible for the financial outcomes of their activities. This unit develops a basic knowledge of accounting principles, health services funding arrangements, government reforms, financial reporting, preparation of budgets, business cases and economic appraisals. There are 140 hours of placement in the field working with health managers on financial issues.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 3015

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3015 Health Services Management Practice (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3015/>) **Legacy Code:** 400787

The unit begins with an overview of the complexity and variability of health services and provides an understanding of component organisations, federal and state policy issues and environmental factors including the role of the private sector and non-government organisations. The changing role of the health services manager and competencies required for effective managing are examined. Influences on organisations are reviewed, including structures, culture, power and politics. Various management functions are explored through 140 hours of placement e.g. strategic planning, performance management, people management including workplace relations, conflict resolution, resource management (financial and asset), risk management, health and safety in the workplace and quality assurance.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 2020

Equivalent Subjects: LGYA 7186 - Health Services Management 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3016 Health Services Quality Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3016/>) **Legacy Code:** 400284

The need to improve quality while reducing expenditure has forced health services to re-evaluate their strategies. For these reasons many have embraced the philosophies of Total Quality Management (TQM). Central to its practice is a focus on flexible, consultative management, with the needs of the customer seen as vital to guiding a continuous process of improvement. TQM is a whole system concept, which recognizes the need to manage sets of interacting technical, cultural and political issues. This unit explores the various aspects of TQM and in particular its application within the health services.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3017 Health Services Workforce Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3017/>) **Legacy Code:** 400788

NOTE: This subject is no longer on offer from Spring 2022. Students should enrol in BUSM 3080 Health Care Systems and Organisation Culture instead. This is a flexible learning unit looking at human resource management (HRM) as a strategic activity of health organisations especially as workforce shortages pose significant challenges to the health and aged care sectors. The workforce, with appropriate knowledge and expertise, is essential to the efficient and effective delivery of quality health services. Successful organisations shape the workforce to anticipate current and future directions and goals. Workforce planning is a crucial element of this approach and its success.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 3015

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3019 Hospitality Management Applied Project (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3019/>) **Legacy Code:** 200561

Students studying Hospitality Management Applied Project may have the opportunity to undertake an international field trip to experience the hospitality industry from an international perspective. This unit provides students a unique opportunity to integrate knowledge gained from operational and theoretical perspectives of hospitality studies into application in an engaged research project in hospitality management. Students will engage in comprehensive projects which bring together real world industry problems and hospitality theory.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 2036

Equivalent Subjects: LGYA 4386 - Tourism and Hospitality Research Project

Incompatible Subjects: LGYA 4813 - Sport Management Applied Project

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3021 Hospitality Places and Spaces (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3021/>) **Legacy Code:** 200989

Contemporary hospitality settings often require specialised services and distinctive facilities. Matching the physical spaces and places with hospitality, to the services and experiences provided, is an integral part/consideration of contemporary hospitality practice. As future managers in the industry, it is imperative to have a sound basic knowledge of the design, development and commercial viability of such products, services and spaces, especially in the context of consumer expectations, in order to remain competitive and sustainable.

Level: Undergraduate Level 3 subject

Equivalent Subjects: BUSM 3055 - Planning and Design Hospitality Facilities

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3022 Hospitality Profitability and Entrepreneurship (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3022/>) **Legacy Code:** 200994

This unit examines operations management in the hospitality sector, as a means to achieve profitability. Students will develop advanced knowledge and desirable attributes applicable to operational planning, financial management, risk management and legal compliance, human resource management, business relationship management and sustainability. Special emphasis is placed on providing students with knowledge and skills to make informed decisions to proceed and develop their own ventures or alternatively be more innovative within existing businesses.

Level: Undergraduate Level 3 subject

Equivalent Subjects: BUSM 3020 - Hospitality Management Operations

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3023 Hospitality and Tourism in Practice (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3023/>) **Legacy Code:** 200995

Hospitality and tourism play an important role in society impacting directly and indirectly on many elements of everyday life. With the ability to both positively and negatively impact on individuals, communities and economies, hospitality and tourism are viewed from the perspective of different stakeholders. Within this unit a contextual understanding and analysis of hospitality and tourism is provided through interaction with industry practitioners and discussion of contemporary issues impacting the industry.

Level: Undergraduate Level 3 subject

Incompatible Subjects: BUSM 3018 - Hospitality Industry

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3024 Human Resource and Industrial Relations Strategy (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3024/>) **Legacy Code:** 200740

Students in 'Human Resource and Industrial Relations Strategy' analyse the human resource and industrial relations strategies of the major employment relations stakeholders. While the principal focus is on the organisational level of analysis and on the strategic interventions introduced by management, the unit also analyses the strategic roles of government, trade unions, and employer associations. Through a range of learning activities, students examine the relationship between business strategies and HR/IR strategies, strategic HR/IR interventions, the concept of strategic choice as it concerns stakeholders and the evaluation of strategy. Students also engage with the development of human resource management and industrial relations as a professional field and consider ethics and professional standards.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 1023 OR

BUSM 1021

Incompatible Subjects: LGYA 4824 - Human Resource Strategy LGYA 4823 - Industrial Relations Strategy

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3025 Incubator 5: Operational Aspects of Entrepreneurship (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3025/>) **Legacy Code:** 301170

Planning is an important part of setting up a start-up business. This would require investigating into setting goals, figuring out how to track progress, what to do when things don't go to plan and also to communicate your business concept to others, such as potential investors. This unit aims to develop the skills and knowledge required for making a business plan for the start-up organisation through a number of theoretical topics, such as: developing marketing and operational plans, staffing and management. At the completion of this unit, students will have developed a viable business plan for their start-up. NOTE: This unit is offered at the Werrington Campus "Launch Pad".

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3027 Innovation and Professional Practice (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3027/>) **Legacy Code:** 200919

Innovation and Professional Practice uses design thinking to develop participants' capacity to innovate across a range of changing organisational environments and future-oriented work roles.

Networking, collaboration and team work around contemporary projects will develop the attitudes and abilities characteristic of ways that professionals lead and contribute to innovation in many contexts. The unit builds on study of organisation and leadership in the Bachelor of Business, and develops participants' innovative thinking through the prism of business acumen. The unit supports work integrated learning approaches that will enable participants to develop portfolio evidence of their professional capacity to lead and participate in sustainable business change.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3028 Innovation, Enterprise and Society (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3028/>) **Legacy Code:** 200917

Innovation, Enterprise and Society focuses on forces driving innovation, creativity and technical change at the levels of entrepreneurship, enterprise, economy and society. It also examines the effects of innovation at these various levels. This unit is a professional core unit in the Bachelor of Business. The unit takes a multi-disciplinary approach utilising critical thinking, debates, problem solving, policy analysis and case studies. Students will understand the professional, social, public policy and global networks and systems informing and surrounding innovation. Successful completion of the unit equips students to appreciate the entrepreneurial, political and social dimensions of innovation.

Level: Undergraduate Level 3 subject

BUSM 3030 International Business Project (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3030/>) **Legacy Code:** 200590

This is a capstone unit in International Business. The aim of the unit is to give students a real-life action learning project in which they undertake an international business strategic planning and analysis exercise for a client organisation. This project usually involves students working in small teams for a client organisation under the direct supervision of the lecturer.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 1015

Equivalent Subjects: LGYA 9777 - International Business Project 1

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3031 International Business Strategy (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3031/>) **Legacy Code:** 200626

In an environment where operating internationally is becoming the norm rather than the exception, firms are faced with ever increasing complexity when formulating their business strategy. This requires an understanding of how firms become and remain international, the basic modes of international involvement, the practice of multinational management and how firms can establish a balance between the sometimes conflicting demands of headquarters, the subsidiary and the governments of all the countries where the multinational enterprise operates. This unit will cover these issues and will deal with both large and small companies that must be global to survive.

Level: Undergraduate Level 3 subject

Pre-requisite(s): MKTG 1006 OR

BUSM 1015

Equivalent Subjects: LGYA 9771 - International Business Strategy

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3032 International Human Resource Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3032/>) **Legacy Code:** 200621

'International Human Resource Management' examines the implications for human resource management that arise from the internationalisation of organisations. Through portfolio reports and case studies, students analyse a range of comparative systems and structures of employment relations and the strategic management of global organisations. This analysis includes a focus on key human resource functions including recruitment, training, reward and evaluation of the impact of society, politics, economics and culture of host countries on human resource strategies. Students examine also the role of global stakeholders and assess the implications for human rights that arise from globalisation.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 1023

Equivalent Subjects: BUSM 2026 - International Human Resource Management

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3033 International Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3033/>) **Legacy Code:** 200623

International Management provides an overview of issues confronting managers working in a complex globalised environment. Areas such as global and regional integration, the role of ethics and social responsibility, as well as the changing political, legal and technological environment require consideration by management in multinational organisations. The role of culture and human resource management is another significant area of failure by global managers. Finally global strategic issues such as managing political risk and government relations will be analysed to allow a deeper level of understanding of the complexities of managing in an internationally competitive marketplace.

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYA 9900 - International Management

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3036 Leadership and Entrepreneurship (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3036/>) **Legacy Code:** 200863

This unit explores the links between leadership and entrepreneurship in the context of dynamic domestic and global environments. It develops an understanding of how to initiate a business venture, taking advantages of perceived opportunities and mobilising the required resources. To this end, different theories and perspectives on leadership and entrepreneurship are examined, and students are encouraged to apply them to real-life situations. The knowledge and skills learned in this unit will enable future leaders to revitalise organisations and create value in the process of transforming innovations into goods or services.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3037 Leadership, Influence and Change B (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3037/>) **Legacy Code:** 200885

This online unit builds on the work completed in Leadership, Influence and Change A. Students further their capacity to identify leadership, influence and change issues in their workplace. The work then focuses on an evidence based inquiry (EBI) report that demonstrates the learning across the two units. This will involve scoping, tightening the focus and then moving into an action phase for the EBI. In this way, the EBI will be the backbone of this unit.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 2027

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3041 Managing Across Organisational and Cultural Boundaries (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3041/>) **Legacy Code:** 200889

This online unit makes a broad distinction between organisational, inter-organisational and international contexts. Students will explore what is involved in collaborating effectively within and across such different contexts. There are six study themes throughout this unit, all of which are central to understanding how different individuals perceive and experience the different contexts in which they work. The themes are: managing aims, power, politics and trust, cultural diversity, international management perspectives, the darker side of collaborative arrangements and paradoxes, tensions and dialectics.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3042 Managing Diversity (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3042/>) **Legacy Code:** 200150

This unit explores the complexities and challenges of managing diverse workforces in contemporary organisations. Using applied learning approaches, students are required to formulate corporate policies relating to diversity and then evaluate the implications for implementing these policies in a real world setting. As a key component of human resource management, students are expected to appreciate both the theoretical and practical elements of managing diversity and are required to reflect on their own learning process throughout the unit.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 1023

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3043 Managing Human Resources and Industrial Relations (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3043/>) **Legacy Code:** 200175

This unit integrates the study of strategic theory and practice in the management of human resource management and industrial relations as they co-exist together in the employment relations model. Emphasis is placed on a blended learning approach to teaching and learning. Students undertaking this unit are required to participate in a HR Simulation exercise that explores the realities of employment relations in practice. Seminars feature role plays and case studies.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 1023

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3044 Managing Marketing and Finance (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3044/>) **Legacy Code:** 200887

This practical online unit is divided into two sections - marketing and finance - which will be studied sequentially. Topics in both sections have been chosen for their relevance to the needs of managers who may not have direct responsibility for either marketing or finance as such, but whose practice will be enhanced by an understanding and application of marketing practices and financial concepts. As students work through activities, problems and solutions, they will come to understand the organisational and wider management context in which they work as well as the constraints, choices and demands that managers need to take into account when making decisions.

Level: Undergraduate Level 3 subject

Incompatible Subjects: MKTG 3016 - Strategic Marketing Management

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3045 Managing Operations (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3045/>) **Legacy Code:** 200865

Managing Operations is a comprehensive unit that focuses on the importance of operations in creating competitiveness and dynamic capabilities for individual organisations and organisations connected through supply chains and logistics processes within a global context. The unit is designed for students interested in enhancing their knowledge and skills in designing and improving critical operational processes used by organisations to provide products and services to customers. It encompasses internal and external operations for manufacturing and service organisations; their strategic choices; and tactical and operational decision-making processes for the management of critical and extended resources. The latest qualitative and quantitative tools and techniques, online business simulations and international case studies are used to practise problem solving processes to address challenges of a global nature in the business world.

Level: Undergraduate Level 3 subject

Equivalent Subjects: BUSM 3013 Global Operations and Logistics Management

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3046 Managing Organisations and People (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3046/>) **Legacy Code:** 200886

This online unit will enable students to critically reflect on and analyse key management tasks including processes of people management. It also explores how context shapes management practice and the importance of understanding the management of organisational change. It takes a problem-based approach to management learning and combines academic understanding of management issues with opportunities to apply knowledge. Students will have the opportunity to identify problems in their own workplaces and use management concepts, tools and techniques learned in this unit to make recommendations to address the problem.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3048 Negotiation, Bargaining and Advocacy (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3048/>) **Legacy Code:** 200613

In 'Negotiation, Bargaining and Advocacy' students identify and assess contrasting approaches to negotiation and identify the importance of strategy and judgement in negotiation. Students develop their skills through a team-based online negotiation and a critique of the experience of this negotiation. Through case studies, students examine conciliation, mediation and arbitration with a particular focus on advocacy practice in industrial tribunals. An important theme in the unit is the assessment of the contextual and regulatory factors that shape negotiation, bargaining and advocacy practice. This aspect draws on contemporary debates in these spheres most notably concerning the Australian context.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 1023

Equivalent Subjects: LGYA 9847 - Negotiation Bargaining and Advocacy

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3050 Operations and Logistics in Practice (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3050/>) **Legacy Code:** 200565

Students studying Operations and Logistics in Practice may have the opportunity to undertake an international field trip to experience operations and logistics environments from an international perspective. Operations and Logistics in Practice enable students to analyse and discuss contemporary operations and logistics issues in a workshop environment. This unit is designed to offer an advanced holistic view of operations and logistics and a framework to assist students in researching and assessing trends in industry. This unit offers a balance of class work and field trips to operations and logistics oriented organisations.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 3013

Equivalent Subjects: LGYA 4652 - Logistics Management in Practice
 LGYA 4406 - Operations Management in Practice

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3052 Organisational Learning and Development (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3052/>) **Legacy Code:** 200157

Organisational Learning and Development is a Level 3 undergraduate unit which analyses practices and processes designed to transform and renew organisations, in order to enable them to respond effectively to change. This unit will use case studies and other experientially based activities to promote a better understanding of structural and human resources interventions used to ensure organisational survival in rapidly changing environments.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3053 Our Sporting Future (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3053/>) **Legacy Code:** 201001

Sport has become increasingly globalised, commercialised and professionalised, and is influenced by advances in technology and innovation. It is now recognised that sport can play an important role in areas such as economic regeneration, diplomacy, social integration and improving health and wellbeing. This unit will develop students' understanding of how to encourage participation and drive growth in sports business in the face of a rapidly changing landscape.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 1031

Incompatible Subjects: BUSM 3047 - Managing Service and Experience

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3054 People, Work and Society (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3054/>) **Legacy Code:** 200860

'People, Work and Society' draws on psychology and sociology to deepen participants' practical human resource management (HRM) expertise. Designed for those aiming at careers as HRM professionals, participants will use HRM knowledge to develop policy and procedure that takes account of the psychology of individuals and groups as well as rising expectations for socially-responsible management. The complexities and rewards around managing diverse workforces receive particular attention. Through the challenge of real-world activities, participants are introduced to the difficult judgements that confront HRM professionals around people at work.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 1023

Equivalent Subjects: BUSM 3075 - Workplace Behaviour
 LGYA 9849 - Workplace Behaviour

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3058 Practice Management for Health Professionals (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3058/>) **Legacy Code:** 400156

From 2017 students should take 401149 - Exercise Physiology Across the Lifespan. This unit is aimed to introduce the student to the management issues in establishing and working in a clinical practice. While the unit will cover issues related to health professionals and public sector management, the focus of the unit will be on issues in private practice. The aim of the unit is to introduce the student to a wide range of topics, including an over view of health care funding in Australia, private and public health system, developing a business plan, different business structures, financial management, managing staff and occupational health and safety issues.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3059 Processes and Evaluation in Employment Relations (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3059/>) **Legacy Code:** 200575

This unit applies theory and skills developed throughout the discipline in Human Resource Management to real-world organisational and policy challenges and opportunities. Students will develop and use employment relations concepts and "metrics" to design implementation plans and to evaluate policies, practices and change initiatives. Students' skills in communication and problem solving will be assured in this unit.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 1023

Equivalent Subjects: LGYA 4642 - Human Resources Development Seminar

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3061 Project Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3061/>) **Legacy Code:** 300727

This unit is to give students an understanding of appropriate methods of managing construction projects and to develop skills in using these methods on the type of projects the students expect to undertake in their professional careers. Content: Major knowledge areas of project management.

Level: Undergraduate Level 3 subject

Equivalent Subjects: BUSM 3060 - Project Management

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3062 Quality Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3062/>) **Legacy Code:** 200167

The principles taught in Quality Management underpin the successful management of all business enterprises. Students enrolled in this unit will be introduced to the latest concepts in performance excellence, with a strong emphasis on service quality. Various tools and techniques that support performance excellence are presented, including ISO9000, Six Sigma, and high-performance human resource practices. Contemporary areas covered in this unit involve identifying customers' needs, and involvement in organisational performance which is supported by continuous improvement and organisational learning.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3063 Reward and Performance Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3063/>) **Legacy Code:** 200739

'Reward and Performance Management' introduces students to critical perspectives in reward management. Through case studies students consider the wider context in which reward strategies are devised and the strategic decisions that arise if reward is to meet regulatory requirements, organisation objectives and the expectations of the workforce. Students examine the component parts of contemporary reward and critically assess the relationship between performance and reward. Through engagement with different types of performance management systems, students identify and assess contrasting approaches to performance management.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 1023

Incompatible Subjects: BUSM 3040 - Management of Employee Performance LGYA 4822 - Remuneration Theory and Practice

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3064 Service Industry Analytics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3064/>) **Legacy Code:** 200991

Service Industry Analytics is designed to provide a working knowledge of how to analyse and report information required in planning and operating a services business. It explores the methods, uses and limitations of contemporary research in the sport and hospitality industries. Students will gain experience with the planning and implementation of research and assessment of service research problems, utilising the collection and analysis of both quantitative and qualitative data.

Level: Undergraduate Level 3 subject

Equivalent Subjects: BUSM 2036 - Service Industry Studies

LGYA 4814 - Sport Management Research Methods

LGYA 4799 - Hospitality Business Research Methods

LGYA 4863 - Services Research Methods

MKTG 2011 - Customer Insights

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3065 Special Event Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3065/>) **Legacy Code:** 200990

Special Event Management is designed to introduce students to event management in order to develop their skills and knowledge relating to the organisation of various event forms. The unit provides students the opportunity to practically apply management strategies, leadership theories, communication skills, and administration skills to facilitate the design, marketing, communication, innovation and planning of their own event. Careers in the industry can be found across diverse fields in the public and private sectors including hotels, event management companies, exhibition and sports venues, and in community organisations such as clubs, schools and charities.

Level: Undergraduate Level 3 subject

Equivalent Subjects: BUSM 3067 - Sport and Hospitality Event Management

Incompatible Subjects: LGYA 4810 - Sport Event and Facility Management

LGYA 4864 - Convention and Special Event Management

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3069 Strategic Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3069/>) **Legacy Code:** 200587

This unit explores the nature and essence of strategy and how this is created in various organisational, industry and economic contexts. The complexity of the strategy process, content and context means that there is not one clear position on strategy. The impact of this complexity on managers seeking to develop a strategic thinking capability is examined. The paradoxes and debates in the field of strategy are explored in an effort to understand the concept of sustainable competitive advantage. Students will utilise the theoretical knowledge presented in a dialectical enquiry framework to undertake strategic analysis, and develop a selection of strategic options, for case study scenarios and in a team strategy simulation.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 1038 OR

BUSM 1008 OR

BUSM 1019

Equivalent Subjects: LGYC 0040 - Strategic Management

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3070 Strategic Sport Leadership (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3070/>) **Legacy Code:** 200998

In contemporary sport environments, sport practitioners require an in-depth understanding of strategic leadership processes and practices. In order to respond to sport's ongoing professionalisation, globalisation, demographic changes and emerging consumer needs, sport managers and government policy makers require knowledge and skills which will allow them to successfully manage these changes. Students will develop knowledge and skills in areas such as policy development and strategic planning, executive leadership and change management processes and practices. The unit content will be applied across diverse sport environments including high performance sport in not-for profit contexts and community sport with a focus on sport for development. Students will apply their strategic leadership knowledge and skills by formulating a policy or related initiative for a sport agency or organisation.

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYA 4491 - Sport Management Planning and Development

SPRT 3016 - Sport Management Planning and Development

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3071 Technology Management for Competitiveness (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3071/>) **Legacy Code:** 200668

This contemporary unit provides an understanding of technology management and productivity measurement/improvement concepts aimed to improve the competitiveness of organisations. Students are introduced to a range of tools and techniques to acquire and implement technology and develop productivity improvement programs within global operations and supply chain context. The interaction between technological change and competitiveness (productivity and other performance measurement systems) is also explored. The unit is relevant to managers or technologists with responsibilities for managing technological change

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYA 4405 - Productivity and Technology Management

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3072 Tourism Industry Professional Placement (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3072/>) **Legacy Code:** 102385

Tourism Industry Professional Placement (TIPP) provides students with understanding and experience of the tourism or related industry workplace. Students work in a voluntary capacity with an industry host to gain work-ready skills and undertake professionally appropriate tasks. Students complete a Professional Placement Proposal and Professional Placement Report.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3073 Tourism Policy and Planning (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3073/>) **Legacy Code:** 101904

This unit gives students a general understanding of planning theory as it relates to sustainable tourism policy and practice. Students will apply this knowledge to tourism sites, facilities and activities in Sydney with a major assignment focusing on Sydney Olympic Park. A self-guided field trip enables students to apply and understand various planning techniques, tourism policies, scenario mapping strategies and consider conflict resolution practices. Students will present their ideas by integrating quantitative and qualitative data, both in teams and individually. At the conclusion of this unit students will have the skills to apply planning theory to an analysis of tourism policies, sites, facilities and activities in a global city such as Sydney.

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYA 1265 - Tourism Policy and Planning BUSM 2035 - Recreational Tourism Policy and Planning

Incompatible Subjects: LGYB 8930 - Tourism Policy and Planning LGYA 6103 - Recreational Planning towards Sustainable Tourism LGYB 8197 - Sustainable Tourism and Recreational Planning

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3074 Work Employment and the Labour Market (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3074/>) **Legacy Code:** 200243

This unit provides an in-depth study of the links between work, employment and wider labour market issues. An introductory framework will be provided emphasizing the historical perspectives of work and the key theories and concepts involved in industrial sociology. Current and future issues and trends in work organization and practice and their relationships to society will also be considered. The unit will then examine the relationship between labour markets, employment and government policy in both macro and micro settings. Particular emphasis will be placed upon the interaction of regional labour markets, policies and outcomes for key labour market segments.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 1023

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3077 Construction Project Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3077/>) **Legacy Code:** 301229

This unit is to give students an understanding of appropriate methods of managing construction projects and to develop skills in using these methods on the type of projects expected to undertake in their professional careers. It covers the major knowledge areas of project management theory as they relate to construction.

Level: Undergraduate Level 3 subject

Equivalent Subjects: BUSM 3060 Project Management
BUSM 3061 Project Management

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3078 Business Report (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3078/>) **Legacy Code:** 201043

This unit is designed to bring to life the knowledge gained during the students' study whilst applying it practically to diverse business contexts through a work integrated learning research project. The project will build on the comprehensive, coherent and connected knowledge gained in business specialisations to allow the student to explore and develop attributes required to be successful in contributing to outcomes in a business environment. Students will have an opportunity to work under the supervision of an academic on a research project. Assessment of the unit will include a formal research presentation to academics and/or industry. Entry to this unit is on a competitive basis. Contact the unit coordinator for details.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3079 Travel in the Digital Age (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3079/>) **Legacy Code:** 102779

This unit explores the ways in which digital technologies are reshaping travel, including travellers' experiences, and planning and management of the travel industry. Students will learn how digital technologies are being utilised, and the opportunities and challenges these technologies present. The unit will provide opportunities to engage with travel apps, virtual/augmented reality technologies, smart attractions and transport technologies. Students will also learn how to conceptualise and pitch their own digital travel products. Upon completion of the unit, students will be well placed to develop and manage innovative, socially responsible travel and mobility technologies.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3080 Health Care Systems and Organisation Culture (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3080/>) **Legacy Code:** 401389

This unit identifies complexities associated with health care systems and processes, equipping students with the essential business skills to deal with challenges arising throughout the process of managing health services. A key focus of the unit is in the management of resources as a strategic activity of health organisations, particularly in relation to human resources, as workforce shortages pose a significant challenge to contemporary health management practice.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 1037

Equivalent Subjects: BUSM 3017 - Health Services Workforce Management

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 3081 Business Analytics Project (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm3081/>) **Legacy Code:** 201091

This unit provides students with the experience of applying business analytics skills and knowledge gained throughout the course of their degree in general and from the Business Analytics major in particular. Students will undertake a project in a real-world case setting to transform data to knowledge providing analytical solution to a client-specified problem. In teams, students will develop a project proposal, final report and/or interactive project tool and presentation. Students will gain insight into the profession of business analytics through independent learning and reflective practice.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BUSM 1042

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 4001 Business Analysis Seminars (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm4001/>) **Legacy Code:** 200896

This unit introduces students to exemplary research in selected contemporary issues in business practice and policy. Presented through a series of seminars by leading business academics, selected issues will be examined in terms of the competing definitions of the problem, the methods of analysis to be used to address the problem, components of the problems and relationships to other contemporary issues. As business research is inherently inter-disciplinary and involves multiple stakeholders, relevant and competing theoretical perspectives explaining selected issues will be examined. Different methods of investigation and analysis of issues will be evaluated.

Level: Undergraduate Level 4 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 4002 Seminal Papers in Business (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm4002/>) **Legacy Code:** 200898

The aim of this unit is to develop skills in applying rigorous analysis and critical assessment to research-debates in business disciplines through an examination of seminal literature in particular business fields which often embrace conflicting theoretical approaches. This will provide candidates with the advanced skills needed to critically analyse debates in a business discipline, while also enabling them to gain more familiarity with theories, issues, and problems in a particular research area. Seminal business papers will be analysed through a balanced and constructive critique of their strengths and weaknesses, providing suggestions for how the work might be extended or improved. From this unit, students will be able to apply the rigorous analytical skills to their own work.

Level: Undergraduate Level 4 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7001 Advanced Research Skills (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7001/>) **Legacy Code:** 200745

Advanced Research Skills is designed for students who are undertaking Doctoral studies. This unit aims to equip participants with sound knowledge of research methods in business, their criteria for use, their basis of selection, their underlying assumptions and limitations, and their computational implications and processes. The unit will introduce candidates to different methodologies in management research and will also provide in-depth study of particular methods that candidates are expected to use in their thesis, e.g. case studies, surveys, questionnaire design, conducting interviews and focus groups as well as qualitative and quantitative data analysis.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): BUSM 7075

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7003 Applied Business Project (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7003/>) **Legacy Code:** 200798

This is a unit in which students will have individual responsibility for the timely completion of a significant project under the guidance of a member of the University's academic staff. Students will be required to take a real business issue or problem and apply the relevant theories, frameworks and/or concepts learned throughout the MBA. Projects should focus on issues that would be addressed by senior management within an organisation, and should apply a consultancy perspective. This is the capstone unit. Students should take it as their last unit of study.

Level: Postgraduate Coursework Level 7 subject

BUSM 7004 Applied Project (Human Resources and Management) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7004/>) **Legacy Code:** 200954

Applied Project (Human Resources and Management) is an integrated capstone unit that brings together the skills and understandings HRM and management students have developed during their course of study. The unit encourages HRM and management students to demonstrate their ability to solve multidisciplinary problems in relation to current and future issues that affect the application of human resource and management functions in contemporary workplace and industry contexts. The unit will also allow students to critically evaluate issues critical to these professional domains to determine and assess effective solutions. The topics are determined from year to year by discussions between the individual student, the unit coordinator and the student's chosen supervisor.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7007 Business Communication Skills (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7007/>) **Legacy Code:** 200817

This unit is designed to assist students to enhance their ability to make written and oral reports suitable for presentation to employers and stakeholders in a modern business environment. More specifically, this foundation unit assists students to evaluate academic literature in various business contexts, to communicate effectively as an individual or within groups and to apply ethical practices in different business contexts. These traits can be applied in the workplace and any contemporary business environment.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7008 Business Internship (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7008/>) **Legacy Code:** 200769

The Business Internship is designed for students who want to gain industry experience and further their studies through a 10-week business internship. This Business Internship unit is based on a project style unit which requires students to undertake a research project in their chosen field whilst attending an industry based internship.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: BUSM 7070 - Masters Project

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7010 Business Operations Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7010/>) **Legacy Code:** 200782

This unit introduces participants to operations management in a range of organisational and industry contexts. Operations management is an important element of business strategy and integral to both service and manufacturing sectors alike. Students will develop an appreciation of the latest trends in operations management and the applications currently adopted in organisations. They will also learn to apply quantitative techniques for analysing problems and providing recommended solutions. This unit provides an excellent foundation for further specialist study in operations management but also works well for students in general business programs.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 4461 - Operations Management

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7011 Business Operations and Logistics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7011/>) **Legacy Code:** 200838

This unit introduces students to operations and logistics management theory and practice. Operations and logistics management is an important element of business strategy and it is integral to both service and manufacturing industries. Students will develop an appreciation of the latest trends in business operations and logistics management and the applications currently adopted in organisations and industries. They will also learn to apply quantitative techniques for formulating/ analysing problems and providing recommended solutions. This unit provides an excellent foundation for further specialisation in logistics and supply chain management but also works well for students in general business operations programs.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: BUSM 7010 - Business Operations Management

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7012 Business Project (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7012/>) **Legacy Code:** 200829

This is a 20 credit point subject over two Quarters, 20 weeks in total, 10 credit points in each Quarter. Business Project equips professionals to address contemporary challenges through research and applying knowledge developed in earlier units of study. This student-centred subject provides close supervision of research and analytical practices to enhance skill development and capacity to engage with problems confronting organisations, taking account of contexts and multiple stakeholders. Students will have scope to focus on issues that are of particular concern to organisations or interest for their careers. As an integrating subject, it demands participants bring together their knowledge and curiosity to develop recommendations in a format that can showcase their achievements. In order to complete this subject, students must have studied this subject over two teaching periods.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7013 Business, Society and the Environment (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7013/>) **Legacy Code:** 200847

Business, Society and the Environment draws on social enquiry and reflection to explore the complex relationships between business and the stakeholders of business, by critically evaluating the social, environmental and political impacts of business decisions and practices. The unit focusses on the challenges and ethical dilemmas emerging from global capitalism, and addresses the significance of government in regulating the impact of business on society and the environment. The unit critically considers the nature of the firm and the role of ideology to justify business decisions.

Level: Postgraduate Coursework Level 7 subject

BUSM 7014 Compliance Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7014/>) **Legacy Code:** 200776

This unit comprises three modules that focus on quality management, risk management, and performance measurement and benchmarking. The quality systems module explores quality management principles, systems, and frameworks, and the role that quality management plays in creating customer value, improving competitiveness and enhancing organisational effectiveness. The risk management module examines the important risks that need to be managed by businesses, especially in a global business setting, and introduces common frameworks that can be used to develop risk management strategies. The performance measurement and benchmarking module elaborates upon the evolution of performance measurement frameworks and introduces approaches that can be used by businesses to assess the status of their business processes and enhance performance through benchmarking. It will draw upon the concepts and theories covered in the quality and risk management modules. All three modules incorporate aspects related to economic, social and environmental responsibility. Students are required to study all three modules.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 4463 - Management of Quality

Incompatible Subjects: BUSM 7074 - Performance Measurement and Benchmarking LGYB 9039 - Risk Management

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7016 Contemporary Organisation Behaviour (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7016/>) **Legacy Code:** 200788

Contemporary Organisation Behaviour has been designed to offer you tools which can help you manage people in an increasingly complex organisational climate. Therefore, the objectives of the unit focus on critically evaluating how organisations, groups and teams, and individual behaviour, can affect work performance and productivity. You will explore in depth a range of Organisational Behaviour variables using theory as the foundation for evaluation and/or research while developing skills in professional practice for communicating, collaborating and critically reflecting. You will have opportunities to relate and apply concepts to your work experience and context learning what might be most relevant to your future plans in management.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: BUSM 7017 - Contemporary Organisation Behaviour

Incompatible Subjects: BUSM 7060 Management Skills

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7018 Contemporary People Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7018/>) **Legacy Code:** 200826

The unit serves as an introduction to human resource management for those considering careers in employment relations and those who will potentially have people management responsibilities. HR processes and practices are studied in contexts and with a consideration of stakeholders' interests, leading to an appreciation of the contribution of human resource management to organisational success. Students will evaluate particular approaches to human resource management through analysing real-world cases and practical activities.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 8572 - Human Resource Management LGYA 4898 - Human Resource Management

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7019 Corporate Governance and the Global Environment (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7019/>) **Legacy Code:** 200795

Corporate governance is the set of processes, policies and laws affecting the way a firm is directed, administered or controlled. This unit examines corporate governance systems and how these may contribute to sustainable enterprise. Models of corporate governance are analysed, and decision-making processes are evaluated in various economic and social contexts. The unit also introduces the institutions of the legal system, with particular emphasis on domestic and international corporations law.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 8690 - Governance and Ethics

Incompatible Subjects: LAWS 7009 - Commercial Law

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7020 Creating Sustainable Organisations (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7020/>) **Legacy Code:** 200853

'Creating Sustainable Organisations' explores new pathways to sustainability and leadership for the 21st Century, encouraging continual reflection and discussion on the nature and implications of current debates on environmental and social issues. It examines different models and strategies designed to balance the need for business growth with responsiveness to social and environmental issues. 'Creating Sustainable Organisations' provides students with the skills to lead in ways that will enable them to be active participants in the solution to the planet's environmental and social problems.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 8728 - Creating Sustainable Organisations

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7021 Credit and Lending Decisions (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7021/>) **Legacy Code:** 51166

Lending is one of the most important functions of any financial institution. If not managed properly, it can lead to credit quality problems, threatening the existence of the financial institution. This unit aims to provide an analysis of the various lending activities of financial institutions, emphasising the assessment of credit proposals and the management of credit risk.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7022 Derivatives (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7022/>) **Legacy Code:** 201001

This unit provides an introduction to the major classes of derivatives: forwards, futures, swaps and options. These are studied in detail with the objective of elucidating the ways in which these instruments can be used for the purposes of hedging, speculation and arbitrage. In addition to the analysis of derivative usage and market growth, considerable attention is given to the objective of gaining an understanding of the fundamentals of derivative pricing.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7023 Developing Business Expertise (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7023/>) **Legacy Code:** 200790

This unit addresses one of the key internal issues facing business today: understanding and using a range of business information to make strategic decisions. Students will use the knowledge gained from prior units to solve business problems, deal with unique situations or plan and manage changing circumstances. A multi-disciplinary approach to analyse business situations will be applied to enable students to recognise this inter-related nature of business disciplines. A simulated practice in the application of knowledge to complex situations will be applied to provide an experiential learning environment.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7024 Developing Human Capital and Organisational Capability (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7024/>) **Legacy Code:** 200827

The unit equips students to lead human resource development initiatives by developing specialist knowledge and skills. Contemporary human resource development is studied within the context of strategic employment relations, challenges around talent management, the evolution of training and development in firms and in public institutions, and with some consideration of organisational learning. By working through stakeholder differences and labour market segments, students argue as they apply knowledge to different contexts. Through argument and application comes insight into critical perspectives on building human capability, career management and development, and current and future trends in human resource development in a number of countries.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 8882 - Employee Training and Development
LGYA 4896 - Developing Human Capital

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7025 Diversity, Labour Markets and Workforce Planning (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7025/>) **Legacy Code:** 200828

Demographic change, economic cycles and labour force participation patterns influence the manner in which HRM functions are conducted. This unit focuses on the way an organisation's external environment impacts on both strategic and workforce maintenance planning. The unit is designed to enable employment relations professionals and managers to plan for organisational sustainability, managing workforce-related risk, and growth. The emphasis on labour markets, workforce diversity and planning allows for accommodation of demographic changes, human capital shortages and economic cycles when planning for labour supply and labour demand requirements.

While the aim is to identify gaps between the present and future human capital needs - and implementing solutions so the organisation can accomplish its mission, goals, and objectives - the difficulty of this systematic and proactive process increases with the complexity of an organisation and the longer the time horizon used in the planning.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 8596 - Work and Society
LGYA 4899 - Work Society and Labour Markets
LGYA 4901 - Workforce Planning

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7026 Emerging Leaders (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7026/>) **Legacy Code:** 200789

Developing competitive advantage in a globalised business context demands that leaders recognise the imperative of managing stakeholders during periods of significant and complex organisational strategic change. The focus of 'Emerging Leaders' is the development of skills and knowledge that underpins capacities for successful strategic partnering both within and outside the organisation. Engaging with the research and debates on leadership as they relate to current leadership practice and principles in various international and organisational contexts means these newly emerging leaders will be in a position to lead and ensure the performance of individuals, teams and organisations.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7027 Employment Relations Professional Practice (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7027/>) **Legacy Code:** 200717

Employment Relations Professional Practice concentrates on communicating and performing as employment relations professionals. Students practice the activities undertaken by professionals, such as advocacy and presentation, team work, information and knowledge management, research, analysis and problem solving, and producing reports, policies and analytical essays, with opportunities for feedback. The focus is knowledge of the ER professions, such as the role, function and ethics of human resource managers, industrial officers and the role of professional bodies in Australia and internationally. Support for academic practice will accompany professional activities. The unit is designed for those wanting to build a career in employment relations.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7028 Entrepreneurial Management Capabilities (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7028/>) **Legacy Code:** 200850

Developing innovation and entrepreneurial capability is essential for small, medium and large businesses. This unit introduces students to practical and applied knowledge supported by theory, concepts, frameworks for understanding and developing innovation and entrepreneurial thought, capability, infrastructure and platforms. Students will be exposed to leadership and approaches to the development of new products, services, processes and business models, with support from Western Sydney University's Launch Pad Technology Business Incubator.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7029 Event Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7029/>) **Legacy Code:** 200844

Event management draws on a wide range of skills involved in functioning in the hospitality industry. Whilst investigating the concept of events, students are asked to consider the logistics and management involved in creating an event-based experience for their guests. To facilitate the provision of an event experience, this unit investigates areas of risk management, planning and logistics, event stakeholders and media and volunteer management.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7030 Facilities and Venue Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7030/>) **Legacy Code:** 200846

Increasingly, hospitality-orientated businesses involve large scale or specialist facilities and venues which require ongoing development, maintenance and redevelopment. This unit provides an understanding of key principles involved in the design and redesign of the use of space, drawing on the principles of servicescapes and planning for a customer experience. Consideration is given to the functional, organisational, environmental and aesthetic aspects of facilities and venues, in the context of organisations which need to manage revenue and distribution channels to remain competitive and sustainable.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7031 Financial Institution Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7031/>) **Legacy Code:** 51165

This unit provides participants with an overview of the types of financial institutions and the regulatory context within which they operate. Financial risk management and corporate responsibility serve as an underpinning framework to consider the complexity associated with managing contemporary financial institutions in an Australian and International context. A focus of the unit is to provide participants with an opportunity to use techniques to measure and manage financial risk.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7032 Financial Institutions and Markets (MAF) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7032/>) **Legacy Code:** 51163

This unit helps students to: understand the role and nature of financial markets and institutions; develop computational skills for transactions in financial markets; understand the factors that determine share price, interest rates and exchange rates; and understand major derivative products and their use in financial markets. This subject contains financial institutions and markets and the transactions that take place in them.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7033 Financial Statement Analysis (PG) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7033/>) **Legacy Code:** 51214

The major sources of information on which to base judgements on borrowing capacity, liquidity, managerial effectiveness, and investment potential remain the financial statements of an organisation. This unit is a result of the claim made by Foster, an authority in the finance field, that developments in the fields of accounting, economics, finance and statistics (as they relate to financial statement analysis) are understood well enough to permit financial statement analysis to be studied intensively.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7034 Foundations of Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7034/>) **Legacy Code:** 200785

Developing one's own professional skills, being able to assess and develop the skills of others, and astutely reading the environment, are core to high-achieving executives. Foundations of Management introduces new managers to the fundamentals of management. It takes an holistic view of the elements related to optimal performance of managers, drawing from and reflecting upon participants' experiences. The elements consist of the awareness of ones self as a manager, identifying and developing own management skills required for now and the future needed when working within a dynamic organisational environment. The focus is developing one's own management skills through the application of theory to management practice.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: BUSM 7101 - Workplace Management Dynamics BUSM 7060 - Management Skills

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7035 Funds Management and Portfolio Selection (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7035/>) **Legacy Code:** 51168

This unit provides an introduction to the theory, concepts, tools, techniques and applications of investment management, drawing on examples from the Australian financial system. The unit focuses on various asset pricing models including capital asset pricing model, single index model arbitrage pricing theory and Fama-French three factor model. The unit introduces various portfolio management strategies, asset classes including bonds and equity securities. The unit also highlights various fund performance measures.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7036 Funds Management and Portfolio Selection (EO) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7036/>) **Legacy Code:** 900655

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7037 Gastronomy and the Food and Beverage Experience (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7037/>) **Legacy Code:** 200842

This unit focuses on the provision of food and beverage - a fundamental operational component of the majority of hospitality businesses. As consumer understanding of food and beverage increases there is a need for the industry to advance their knowledge and for businesses to provide offerings which extend beyond the traditional food and beverage frameworks in order to stay competitive. The role of food within society and subsequent commercial implications, including gastronomic tourism, food quality and safety are discussed in this unit.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 4590 - Gastronomy and the Management of the Food Experience

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7040 Governance, Ethics and Social Entrepreneurship (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7040/>) **Legacy Code:** 200848

There is a growing need for communities and not-for-profit organisations to maintain a degree of organisational and social sustainability, without recourse to philanthropy, government, or other sources of aid. This unit adopts business and entrepreneurial principles to identify and explain the management of a social venture, with a view to ensuring organisational and social sustainability. The unit provides an understanding of governance and ethical practice to support social outcomes.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7042 Hospitality and Tourism in Society (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7042/>) **Legacy Code:** 200837

This unit unpacks the concept of hospitality and addresses the questions of what the hospitality industry is, and what its role is in the broader societal context. Linking together elements of tourism and leisure, consideration is given to the impacts, both positive and negative, of hospitality on individuals, communities and economies. Discussions of the integration, communication, planning, and interconnection between hospitality and tourism and their implications in society are also considered.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7043 Industrial Relations and Workplace Change (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7043/>) **Legacy Code:** 200719

Industrial Relations and Workplace Change is designed to equip current and future employment relations professionals and practitioners with the knowledge necessary to analyse and implement the processes for workplace change and workplace-level bargaining. The understanding of workplace change covered in this unit includes an emphasis on rights, obligations and "voice". The unit focuses on workplace change problem solving for employee engagement and dispute resolution in both local and global workplace change contexts.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 8579 - The Industrial Relations Process

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7044 Information for Business (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7044/>) **Legacy Code:** 200726

This unit examines the information requirement for effective marketing decisions. The unit explores approaches managers can use to identify information requirements and then to use different financial, environmental and market information. Topics include interpretation of business performance, preparation of marketing forecasts and budget allocations.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 4630 - Marketing Research LGYA 4627 - International Business Research

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7045 Innovation Through Digital Technology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7045/>) **Legacy Code:** 200845

Business innovation in the Digital Economy recognises that current economic development and leadership is based on digitisation of the global economy. This unit provides a framework for understanding management issues, business development and technology use and change in the areas of innovation and digital business. The unit introduces students to various digital technologies and applications that companies need to address for creating new business opportunities in the fast changing global business environment. Students will develop an appreciation of digital business as a form of organisational innovation and the importance of innovation in the digital economy. Students will learn to formulate a digital business strategy for an organisation and understand various issues involved in digital business innovation. Students will be exposed to the University's business and technology incubator environment.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7046 Innovation for New Markets (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7046/>) **Legacy Code:** 200851

Entrepreneurship, innovation and new markets are pertinent activities that have collectively become cornerstones of how firms grow and interact with society. This unit introduces students to issues, principles and frameworks associated with exploring opportunities and challenges that relate to these three activities. Emerging and new markets are examples of markets that represent opportunities and challenges for innovation and entrepreneurial activities. Through selected readings that emphasise key themes and issues, students will be exposed to an understanding of what constitutes entrepreneurship, innovation, new markets and market development, how they are influenced by the ever-changing business environment, an examination of opportunities that emerge as a result of changing technology and consumer expectations taking place in emerging and new markets. Emerging markets have become a key source of innovation in products, services and business processes which calls for an examination as to whether these can be extended to developed markets. The unit provides students with an opportunity for continuous practical experiential learning through collaboration with industry Launch Pad partners.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7047 Innovation, Creativity and Entrepreneurship (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7047/>) **Legacy Code:** 200792

The aim of this unit is to provide students with the necessary skills to understand, execute and manage entrepreneurial innovation processes in firms/organisations, and be more prepared to succeed within an increasingly complex, global and highly competitive entrepreneurial environment. Firms/organisations of various sizes, including small and medium enterprises (SMEs) that are innovative and entrepreneurial provide vision, nurture creativity and idea management as part of their everyday activities and in seeking long-term sustainability.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 8997 - Innovation and Entrepreneurship

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7048 Innovation, Creativity and Foresight (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7048/>) **Legacy Code:** 200852

Creativity is a systematic, logical process mixing imaginative and creative thinking. Ideation is a process for forming and relating ideas derived through creativity. Innovation seeks to take ideas through invention and entrepreneurial processes to create new economic and social value. Students will be exposed to a variety of brainstorming, creativity and foresight methods and tools, with emphasis on scenario planning methods. Students will be introduced to workshop development, moderation and management approaches and methods. Selected key themes on economic, social, technological, and sustainable development for Australia over the next 10-30 years will be analysed and developed through a scenario planning workshop process, with outputs mapped to business and social innovation and entrepreneurship thinking, and platforms. Students will also be exposed to creativity and foresight methods used by the Western Sydney University Launch Pad Business Technology Incubator.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7050 Integrated Business Experience 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7050/>) **Legacy Code:** 200831

Successful professionals must be able to view issues and problems from multiple perspectives and be able to utilise a range of different skills to make appropriate decisions. This unit introduces this multi-faceted approach to business by taking the knowledge gained in earlier units and of the real-world of business and applying this via case studies. Students will be expected to work independently and in syndicate teams to solve common issues facing businesses and policy makers using critical, integrative and creative thinking. It is recommended that this unit be the final subject within the graduate certificate.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7051 Integrated Business Experience 2 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7051/>) **Legacy Code:** 200843

Successful professionals must be able to view organisational issues from multiple perspectives (range of stakeholders) and levels (from local to international), then be able to utilise a range of different skills to make appropriate decisions. This unit takes this multi-faceted approach by utilising the knowledge gained in earlier units and applying it to case studies. Building on the unit 'Integrated Business Experience 1', an international focus provides participants with the opportunity to consider issues on a broader scale. Students will be expected to work with a group simulation to solve common issues facing organisations and policy makers using critical, integrative and creative thinking.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): BUSM 7050

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7053 International Finance (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7053/>) **Legacy Code:** 51211

This unit provides a comprehensive analysis and coverage of contemporary international finance by describing the international financial system, institutions and market practices; international finance theorems and their application; Euromarkets; international borrowing, lending and capital sourcing; measurement of foreign exchange risk; managing foreign exchange exposure; foreign currency derivatives, international investment; and globalisation and the MNC.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7054 International and Global Employment Relations (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7054/>) **Legacy Code:** 200720

This unit is designed to put national-level employment relations into international and global perspectives. Students will be equipped to work in globalised labour markets and to assist organisations in responding effectively to international environments. The nature of globalisation, national systems of employment relations and significant contemporary human resource management issues are explored.

The implications of social, cultural, political and economic factors in differing national, international and global contexts for employment relations strategies and practices are examined.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: LGYA 8593 - International Human Resource Management LGYA 8584 - Themes in International and Comparative Employment Relations

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7055 Internship (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7055/>) **Legacy Code:** 200830

This is a 20 credit point subject over two Quarters, 20 weeks in total, 10 credit points in each Quarter. Internship is designed for students who want to gain industry experience and further their studies through a 20-credit point business internship, conducted over two consecutive teaching sessions. This Internship subject is based on a 'project style' subject which requires students to undertake a research project in their chosen field whilst attending an industry-based internship. These highly sought after internships will be filled on a competitive basis.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7058 Leading Contemporary Organisations (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7058/>) **Legacy Code:** 200833

This unit explores the processes and challenges encountered by leaders in contemporary organisations, taking into account rapidly changing environments. Through an in-depth appraisal of various leadership theories and concepts, it encourages students to reflect on the key competencies required for effective leadership. It also emphasises the importance of self-knowledge, values and ethics for contemporary leaders. Students will be required to design a leadership development program to address current and future leadership issues.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7059 Logistics Processes in Enterprise Resource Planning (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7059/>) **Legacy Code:** 200836

This unit introduces key logistics processes supported by modern ERP (Enterprise Resource Planning) systems, using an integrated process perspective of the firm. Each process within broader logistics processes provides the basis for executing logistics operations in a range of organisations across manufacturing, service and government sectors. Logistics processes are introduced through key process cycles including manufacturing, planning and control (MPC) in production planning, procurement cycle in purchasing, sales order processing in sales and distribution, and logistics execution. Cross-integration of these process cycles is also illustrated using various integrations among the procurement, fulfilment, production and warehouse management processes. Logistics processes are demonstrated using data, application and technical integration within an ERP system environment.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7060 Management Skills (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7060/>) **Legacy Code:** 200768

This unit explores the skills of managers and their effect on organisational leadership. The contemporary organisations in which we work bring together a complex array of relationships and processes that require ongoing development of a broad range of skills for the manager. Management and leadership, and the skills required for both, are not seen as separate in this unit. This unit focuses on building the skills which will best prepare managers and leaders for dynamic and changing organisational environments.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7061 Managerial Economics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7061/>) **Legacy Code:** 200793

This unit introduces students to the application of basic economic concepts to managerial decision-making and their use in a range of business environments. Students will learn how to apply microeconomic tools to common problems facing business managers, such as maximising profit, setting prices, creating efficient incentive structures, and selecting competitive strategies. Case studies are also used to demonstrate the value of microeconomic tools in making business decisions, and to foster the student's application of their learning to their own business environment.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 8716 - Economic Contexts for Managers
 LGYA 8679 - International Financial Management ECON 7002 - International Trade and Industry Economics

Incompatible Subjects: ECON 7001 - Economics (PG)

BUSM 7070 Masters Project (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7070/>) **Legacy Code:** 200280

Masters Project is an integrated capstone unit that brings together the skills and understanding marketing students have developed during their course of study. The unit encourages students to demonstrate their ability to solve problems in relation to current and future issues within a marketing context in contemporary business. The unit allows students to critically evaluate issues relevant to their topic and assess effective solutions. The topics are determined by discussions between the individual student, the unit coordinator and the student's chosen supervisor.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 8752 - Applied Marketing Planning
 LGYA 8767 - Masters Project in International Business
 LGYA 4472 - Business Project (International Marketing)

BUSM 7071 Negotiation and Conflict Resolution Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7071/>) **Legacy Code:** 200796

Negotiation has become a strategic necessity for many firms wishing to survive and grow in today's increasingly competitive globalised economy. Negotiation and conflict resolution errors can be costly to direct and indirect stakeholders. As such, Negotiation and Conflict Resolution Management will provide theoretical frameworks for students to develop the practical skills needed to manage the negotiation and conflict resolution needs of any organisation. Through the use of role play and simulations, students will be required to analyse corporate data and apply strategies to create a negotiated agreement. It examines negotiation in different contexts including multiparty negotiations. Emphasis is also placed on causes of conflict and how to identify potential indicators, leading to an analysis of the different conflict modes and patterns.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 8695 - Negotiation for Managers LGYA 8696 - Conflict Resolution

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7072 New Venture Finance (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7072/>) **Legacy Code:** 200849

New Venture Finance introduces students to essential theories, frameworks, principles and requirements for understanding and seeking funding for new ventures, with a focus on investor philosophy. A dynamic approach to seeking initial and subsequent funding for developing innovations and entrepreneurship is emphasised in this unit, recognizing that most new ventures are not fully funded as they launch. The unit also explores approaches related to new ventures at the stage at which they are maturing into defined businesses. Students will be introduced to commercialisation and strategies for the development of business plans designed to seek funding and support.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7073 One Hundred Days (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7073/>) **Legacy Code:** 200797

This integrative unit focuses on the first one hundred days of a business executive who has commenced in a new management role. Students will gain insights into the challenges facing managers today and develop the skills in leadership and management expertise that were introduced in earlier units. The premise of this unit is that regardless of their level of experience, all managers undertaking new responsibilities need to understand who the key stakeholders are and what the business' personnel practices, financial objectives and marketing strategies are. Students will be given scenarios covering a range of business environments and are expected to problem solve these using the skills and knowledge learned in previous units.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): BUSM 7023

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7075 Philosophical Foundations of Business Research (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7075/>) **Legacy Code:** 200743

This unit aims to develop a deeper understanding of the theoretical traditions in business research, the philosophy of science that informs research and the methodological approaches in business research. We discuss in depth the assumptions behind two major paradigms: The deductive (quantitative) and the inductive (qualitative) paradigms.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7076 Practice Management for Health Professionals (PG) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7076/>) **Legacy Code:** 400736

This unit is aimed to introduce the student to the management issues in establishing and working in a clinical practice. While the unit will cover issues related to health professionals and public sector management, the focus of the unit will be on issues in private practice. The aim of the unit is to introduce the student to a wide range of topics, including an over view of health care funding in Australia, private and public health system, developing a business plan, different business structures, financial management, managing staff and occupational health and safety issues.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7077 Preparation for Postgraduate Study in Business (40 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7077/>) **Legacy Code:** 200942

Preparation for Postgraduate Study in Business complements and extends your prior learning providing advanced preparation in a range of business areas and a foundation for your further postgraduate business studies. An appreciation of the global economy will provide a framework for exploring people and culture as well as managing people in organisations. You will evaluate organisational performance using diverse data and intelligence and by interpreting financial statements. You will also explore essential aspects of financing enterprises and financial markets. This unit will enable you to develop the professional and academic skills necessary for ethical conduct in business and in preparation for advanced study in postgraduate business courses.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7078 Project Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7078/>) **Legacy Code:** 51240

This unit introduces students to the philosophy, tools and techniques for effectively managing projects in an organisation. Participants will be required to apply lessons learned to real-world situations and cases, developing their professional expertise in project management in ways that are relevant to their careers. Topics include organisational strategy and project selection; project definition and criteria of merit; tools and techniques; team leadership and management; development of project plans; estimation of time and resources; risk analysis and management; scheduling and control; resource allocation; project tracking; project closure and review. Participants will be expected to use MS Project as a project management tool.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7079 Purchasing and Materials Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7079/>) **Legacy Code:** 51259

This unit introduces purchasing and materials management through a number of concepts, processes and methods across a number of industry sectors including manufacturing, service and public sector. It covers a range of topics including purchasing strategy, organisational structure and responsibilities, global supply management, supplier selection and evaluation, procurement process, price/cost analysis, purchasing contract arrangements and inventory management. Students will develop an appreciation of theoretical knowledge in purchasing and materials management and applications and systems currently adopted in organisations. The knowledge and skills developed through lectures, case analyses and hands-on exercises will prepare students to manage a range of purchasing and materials management functions in global organisations.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7081 Reward Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7081/>) **Legacy Code:** 200721

This unit enables employment relations professionals to deploy advanced practitioner skills in specific workplace and institutional contexts. The management and the negotiation of reward are emphasised. Innovations such as strategic and total reward strategies are critically examined. These innovations relate to the key issues of market-imperatives and fairness, including the balance between collective and individually-determined reward and reward strategies related to performance.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 9000 - Remuneration Theory and Practice

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7082 Risk Management and Decision Making (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7082/>) **Legacy Code:** 301192

This unit introduces decision theory, concepts and techniques applicable in managing projects. These techniques provide the basis for understanding project risks. The risk management process is reviewed in detail and dynamics of applying it in specialisation domains is discussed. The unit also analyses the concept of value and how value management is applied in managing projects. The different approaches of applying value management in different specialisations are discussed.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7083 Security Analysis and Portfolio Theory (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7083/>) **Legacy Code:** 51212

This unit examines the valuation of assets, firms and securities. The focus is on the attempt by active investors to identify mispriced securities through projection of a firm's future cash flows based on pro forma financial statements, translating those projections to values and dividing the firm value among the different security holders of the firm. Students develop their understanding of accounting, finance and economic concepts in this applied unit by building models of a firm and conducting analyses of the equity valuation.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7084 Start-up (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7084/>) **Legacy Code:** 200971

This is a 20 credit point subject over two Quarters, 20 weeks in total, 10 credit points in each Quarter. Developing start-ups and rejuvenating existing businesses are essential for industry and regional development and regeneration. This subject integrates knowledge from the Master of Business Administration (MBA) Program into frameworks for students to experience developing an idea into prototype products and services and start-up businesses.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7085 Strategic Bank Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7085/>) **Legacy Code:** 51173

This unit examines a range of contemporary issues facing financial services firms in the twenty-first century. The unit provides an in-depth examination of changing demands and needs of the various stakeholders of financial services firms and a major emphasis is put on the evaluation and analysis of resulting implications. For each identified issue, major conclusions are drawn and strategies developed to deal with the associated challenges and opportunities for management. Special topics are covered in line with pertinent events in the industry.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): BUSM 7031

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7086 Strategic Business Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7086/>) **Legacy Code:** 200841

This unit critically examines strategic management processes in various business, industry and economic contexts. Students actively participate in experiential learning focussing on strategic leadership, visioning, situation analysis, objective setting and evaluation. Students apply current strategy models and theories to solving industry-specific problems and scenarios. The teaching methods are application-oriented using a variety of engaging technologies and media which simulate real-world strategic problem-solving.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7087 Strategic Employment Relations (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7087/>) **Legacy Code:** 200722

This capstone unit aims for students to acquire the skills, knowledge and understanding of the challenges of managing people strategically in complex and turbulent environments. The unit examines theories on business strategy, strategic management, human resource strategy and industrial relations strategy. The use of knowledge of Human Resource Management and Industrial Relations in strategic analysis and evaluation for transforming the people management function is explained. Management practice is considered through examining ways of acting strategically relative to tendencies for the human resource function to become mired in tactical responses. The tools and techniques for analysing, implementing and evaluating strategy are emphasised.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: LGYA 8573 - Employment Relations Strategy and Change

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7088 Strategic Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7088/>) **Legacy Code:** 200794

Strategic Management integrates business functional knowledge. The practical approach provides opportunities to use a range of strategic analysis tools and to engage in problem-solving (individually and collaboratively). Simulated strategic decision-making that includes data interpretation and generating options requires exercise of communication, research, and information literacy capabilities. This unit will allow MBA graduates to interpret data, generate strategic options and contribute to strategic decision-making in a number of organisational contexts.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: BUSM 7104 - Strategic Analysis and Decision Making

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7090 Strategic Project Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7090/>) **Legacy Code:** 301193

This unit teaches students the importance of aligning projects with the business strategy. Strategic alignment is a two-way process. Overall business strategy guides project planning, and, in turn, project success drives enterprise strategy. Students understand the bigger-picture goals, how to identify what is being accomplished and why, and how to achieve goals. Other topics include measuring project success and portfolio and program management.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7091 Strategic Technology Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7091/>) **Legacy Code:** 200777

This unit provides participants with an understanding of the diverse and complex issues surrounding the strategic management of technology. Special emphasis will be placed on the basic concepts and theories that will be needed to understand, anticipate, acquire, and use technology strategically for attaining a competitive edge in the market. The unit is of particular relevance to managers, engineers, technologists, and scientists who have, or will have, responsibilities for managing technological change and innovation.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYB 9051 - Strategic Technology Management

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7092 Supply Chain Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7092/>) **Legacy Code:** 200329

With a rapid increase in global trade and increasing customer expectations, firms are under considerable competitive pressure to find cost-effective and creative ways of delivering value to customers. Since the creation of customer value needs to be viewed holistically - from raw material movement from suppliers through to transformation in the factory and then on to distributors and customers - the effective management of the supply chain and related business networks is critical to achieving competitive advantage. Through formal lectures, case study discussions, and assignments, this unit provides the foundational knowledge, tools, and techniques needed to participate in the design, implementation, and management of an effective supply chain.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7093 The Business Environment (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7093/>) **Legacy Code:** 200783

This unit introduces students to different aspects of the business environment so they develop a general understanding of a wide range of topics within the field of commerce. Management, marketing, legal and economic perspectives are explored as components of business structures taking into account the interactions between political, social, and fiscal environments. It is recommended that students undertake this unit in their first quarter of study.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: LGYA 4461 - Operations Management
ECON 7001 - Economics (PG) BUSM 7010 - Business Operations Management
BUSM 7044 - Information for Business LGYA 8762 - International Business Environment

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7094 The Contemporary Business Environment (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7094/>) **Legacy Code:** 200820

This unit provides foundational knowledge that is needed to appreciate the complexities involved in managing businesses in an uncertain and complex global setting. Emphasis is placed on the influence of the economic, socio-cultural, political, and technological environments on a business and the need for businesses to adopt a global perspective in formulating and implementing strategic interventions for enhancing competitiveness.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: BUSM 7093 - The Business Environment

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7097 Time and Quality Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7097/>) **Legacy Code:** 301195

This unit introduces time and quality management using basic planning and quality concepts. The unit will cover concept of planning and critical path methods including Project Evaluation and Review Technique (PERT), Line of Balance (LoB), Resource Management and Network. Relevant time management software is to be introduced in this unit to plan and manage project activities. The unit will also help students to understand and analyse quality system accreditation process and manage scope and changes in a project.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7098 Tourism Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7098/>) **Legacy Code:** 200839

This unit considers concepts of tourism management and explores the structure of tourism from a systems approach across an Australian and international context. Consideration is given to the tourist motivation to explore why tourism is undertaken, ranging from the traditional to special interest. The objectives and benefits/risks are considered from each stakeholder's perspective where stakeholders may include relevant government organisations, tour operations, consumers, and service providers throughout the Tourism Supply Chain. Planning of the tourist experience is also explored to provide an improved understanding and management of tourists

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7099 Understanding Contemporary Organisations (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7099/>) **Legacy Code:** 200825

Understanding Contemporary Organisations introduces the theoretical perspectives offered by the disciplines of business and organisation studies to students who have not previously undertaken a business study program. Students will develop their understanding of organisational structure and design and then examine the processes and practices that flow from structure and design. Through this unit, students build an integrated understanding of marketing, finances and people management practices in contemporary organisational settings.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7101 Workplace Management Dynamics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7101/>) **Legacy Code:** 200725

Workplace interactions are dynamic, fluid and responsive to changing economic, social, political and technological circumstances. Adopting a critical approach, the focus is on the concerns of managers and workers in their day-to-day interactions. Participants will explore the impact of organisational and socio-economic change on organisation stakeholders with emphasis on the impact of the new forms of work and technology, economic developments, workforce diversity, and cross-cultural communication. Dynamics equips business students with the ability to analyse and address a changing business environment, appropriate for careers in Australia and internationally.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: LGYA 4617 - Dynamics of Workplace Management
LGYA 8768 - Managing Diversity

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7105 Business Analytics in Practice (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7105/>) **Legacy Code:** 201019

This unit will explore and analyse ideas and concepts related to business intelligence and advanced analytics in business and broader economic contexts. The ability to identify, gather, extract, and analyse data is vital to organisations. Business analytics uses a variety of software applications to transform such data into useful information that can then be used for constructive decision making, improving operational effectiveness and efficiencies and identifying new business opportunities.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: MKTG 7002 - Applied Marketing Solutions

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7106 Ethics and Professionalism in Financial Services (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7106/>) **Legacy Code:** 201037

This unit will address the ways in which ethics play a pivotal role in professional behaviour. The process of professionalism is an integral part of management and is responsible for effective decision making. This unit considers the challenges in the financial services environment that require strong ethical values and professional judgement. Ethical decision making is a fundamental requirement of good business practice. This unit will consider the importance of ethics, the FASEA Code of Ethics, how to apply different ethical frameworks for decision making and the meaning of being a professional in financial services. This unit is available as a standalone bridging unit which is accredited by the Financial Adviser Standards and Ethics Authority (FASEA) having met the FASEA curriculum and standards requirements.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

BUSM 7109 Environmental Management: A Business Perspective (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/busm7109/>) **Legacy Code:** 201081

In this project oriented unit, students apply environmental management concepts within a business context. Students explore a range of practices and strategies to a sustainable business operation, learning why environmental sustainability is the world's most challenging and complex issue. As part of group work projects, students investigate methods and tools to analyse environmental management practices, determine environmental risks, and develop associated mitigation strategies. Additionally environmental management systems and relevant international standards are used to evaluate business environmental performance in real-world cases and emerging environmental management initiatives, such as the circular economy, natural capital accounting, and environmental and social profit and loss.

Chemical Sciences (CHEM)

CHEM 0001 Chemistry (WSTC Prep) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem0001/>) **Legacy Code:** 700043

This unit is a platform to introduce Chemistry to students. It introduces students to the basic concepts required to satisfy the needs of most first year university science units in both skill and content areas. It is intended that students will gain a greater understanding of the theoretical concepts covered in the unit by completing the practical component of the unit. Students will also be introduced to professional pathways in science.

Level: Undergraduate Level 0 Preparatory subject

Equivalent Subjects: CHEM 0002 - Chemistry (UWSC)

CHEM 1003 Essential Chemistry 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem1003/>) **Legacy Code:** 300800

This unit provides an introduction to some of the essential knowledge, concepts and skills of chemistry, to serve the needs of students majoring in chemistry and those requiring a working knowledge of chemistry. Observable chemical facts and phenomena including structure, dynamics, and energetics, are explained in terms of current mathematical and visual models and further developed in Essential Chemistry 2. Evidence for chemical understanding is provided using IR spectroscopy, mass spectrometry, and computer molecular modelling. Laboratory skills relate theory to practice through the development of practical skills required to determine the concentration of an analyte using volumetric and spectrophotometric analysis.

Level: Undergraduate Level 1 subject

Equivalent Subjects: CHEM 1001 - Chemistry 1 CHEM 1011 - Principles of Chemistry CHEM 1004 Essential Chemistry 1

Restrictions: Please see the Subject Details page for any restrictions for this subject

CHEM 1004 Essential Chemistry 1 (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem1004/>) **Legacy Code:** 700121

This unit provides an introduction to some of the essential knowledge, concepts and skills of chemistry, to serve the needs of students majoring in chemistry and those requiring a working knowledge of chemistry. Observable chemical facts and phenomena including structure, dynamics, and energetics, are explained in terms of current mathematical and visual models and further developed in Essential Chemistry 2. CHEM 1005 Essential Chemistry 2 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem1005/>) **Legacy Code:** 300803

This unit introduces an investigation of the reactivity of covalent molecules, in particular, of carbon-based compounds. Focusing on introductory chemical dynamics and thermodynamics, students will develop an in-depth understanding of the structure, nomenclature and reactivity of the principal organic functional groups, extending their basic principles of chemistry. They will also understand how molecules are synthesised and the ways they react being important in the function and role of chemistry in biological systems in our domestic and industrial worlds.

Level: Undergraduate Level 1 subject

CHEM 1008 Introductory Chemistry (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem1008/>) **Legacy Code:** 300808

The chemical sciences underpin our understanding in the environmental, forensic, health, medical, biological and physical sciences. This unit familiarises students with the fundamental principles of chemistry and how chemistry shapes the world around us. Students will be introduced to the concepts of atomic structure, the reactivity of substances, the Periodic Table, stoichiometry, and will learn about the structure and reactivity of substances and mixtures in different chemical environments, and exposed to different forms of electromagnetic radiation. Students will explore real world problems and apply the fundamental principles of chemistry to better understand how we may shape our own future.

Level: Undergraduate Level 1 subject

Equivalent Subjects: CHEM 1007 - Introductory Chemistry CHEM 1009 - Introductory Chemistry (WSTC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

CHEM 1009 Introductory Chemistry (WSTC) (10 Credit Points)

CHEM 2001 Analytical Chemistry (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem2001/>) **Legacy Code:** 300832

This unit provides insight into both classical methods of analytical analysis and an introduction to modern instrumental methods of analysis. Specifically, the classical methods of analysis include volumetric and gravimetric methods, while the modern instrumental methods include separation techniques and spectroscopy. The role of spreadsheets in data analysis and presentation is discussed and applied in the laboratory program.

Level: Undergraduate Level 2 subject

Pre-requisite(s): CHEM 1003 OR CHEM 1008

Equivalent Subjects: CHEM 2002 - Analytical Chemistry 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

CHEM 2006 Inorganic Chemistry (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem2006/>) **Legacy Code:** 300899

This unit introduces students to a thorough study of coordination chemistry (discussing complexes, ligands, structure, isomerism, stability, reaction mechanisms, oxidation states, elements in the first transition series, coordination chemistry in biological systems). The unit then moves on to areas of fundamental inorganic chemistry, including bonding, and solid state chemistry. Advanced Modules cover the following topics: spectroscopy in coordination complexes, physiology and inorganic chemistry, and medicinal inorganic chemistry. This unit also introduces many of the laboratory techniques and equipment that are used in synthetic procedures in coordination chemistry.

Level: Undergraduate Level 2 subject

Pre-requisite(s): CHEM 1003 OR CHEM 1008

Incompatible Subjects: CHEM 2007 - Inorganic Chemistry 2 CHEM 2004 - Coordination Chemistry

Restrictions: Please see the Subject Details page for any restrictions for this subject

CHEM 2008 Organic Chemistry (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem2008/>) **Legacy Code:** 300876

Organic molecules are at the heart of the chemistry of life and industry. This unit builds on the fundamental chemical principles, exploring reaction mechanisms and the concept of reactivity and stereo- and regio-selectivity of many of the central reactions that form the basis of living processes, modern research, and contemporary industrial transformations. The unit contains a problem-based module on the application of spectroscopic methods to organic structure elucidation, focusing on spectroscopic data and a practical section on organic synthesis. The unit will focus on complex organic molecules including biologically relevant molecules, and examples from chemical industries, medicinal and pharmaceutical industries.

Level: Undergraduate Level 2 subject

Pre-requisite(s): CHEM 1005

Equivalent Subjects: BIOS 2039 - Molecules of Life Synthesis and Reactivity CHEM 2009 - Organic Chemistry

Restrictions: Please see the Subject Details page for any restrictions for this subject

CHEM 2010 Physical Chemistry (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem2010/>) **Legacy Code:** 300849

Physical Chemistry describes the fundamentals of energy changes in chemical systems (thermodynamics), the rates and mechanisms of chemical reactions (kinetics), and electrochemistry and/or ion and electron transport. These concepts will be applied to a range of chemical and/or biochemical processes. A major focus of the unit will be to develop the ability to study quantitative chemical/biochemical problems, and develop useful physical chemistry experimental and data-analysis skills.

Level: Undergraduate Level 2 subject

Pre-requisite(s): CHEM 1003 OR CHEM 1008 AND CHEM 1005

Equivalent Subjects: LGYB 6359 - Chemistry 2 LGYB 9672 - Physical Chemistry 2 CHEM 2011 - Physical Chemistry 2 LGYA 6135 - Bimolecular Dynamics

Restrictions: Please see the Subject Details page for any restrictions for this subject

CHEM 3001 Advanced Analytical Chemistry (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem3001/>) **Legacy Code:** 300925

This unit builds on Analytical Chemistry 2 and focuses more on instrumental analysis, isolation and cleanup techniques and aspects of quality control and quality assurance in an analytical laboratory and in manufacturing are discussed. The instrumental methods covered include atomic spectroscopy (for example, atomic absorption and emission, x-ray fluorescence), molecular spectroscopy (for example, UV-Vis, IR, fluorometry, mass spectrometry), chromatography, electrochemistry, thermal methods and automated methods. The theory of the instrumental methods, their construction, operation and applications are covered. The theory and application of isolation and cleanup techniques in inorganic and organic residue analysis are given.

Level: Undergraduate Level 3 subject

Pre-requisite(s): CHEM 2001

Equivalent Subjects: CHEM 3006 - Analytical Chemistry 3 CHEM 3002 - Advanced Chemical Analysis

Restrictions: Please see the Subject Details page for any restrictions for this subject

CHEM 3003 Advanced Inorganic Chemistry (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem3003/>) **Legacy Code:** 300907

Building on the foundations laid in Inorganic Chemistry, this unit focuses on structure and bonding in inorganic chemistry, and the stereochemistry of coordination complexes. Spectroscopic and magnetic properties of inorganic compounds are evaluated as a consequence of structure and bonding, and an introduction to X-ray methods for structure determination is given. Kinetics and mechanism of inorganic reactions are examined, and the area of bioinorganic chemistry is developed. Unique structures and reactions of organotransition metal chemistry are explored. Advanced Modules cover aqueous chemistry of cations and oxyanions, inorganic materials, molecular orbital theory in coordination complexes, group theory; lanthanides and actinides.

Level: Undergraduate Level 3 subject

Pre-requisite(s): CHEM 2004 OR

CHEM 2007 OR

CHEM 2006

Equivalent Subjects: LGYB 9729 - Inorganic Chemistry 3 CHEM 3011 - Inorganic Chemistry 3 LGYA 6134 - Advanced Inorganic Chemistry

Restrictions: Please see the Subject Details page for any restrictions for this subject

CHEM 3004 Advanced Organic Chemistry (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem3004/>) **Legacy Code:** 300906

This unit builds on the reactions learnt in the unit Organic Chemistry, extending the range of C-C bond forming reactions to include the most significant in modern synthesis. In the second stage students learn to develop multistep synthetic strategies to produce target molecules using their level 2 organic chemistry and the reactions above. Structural analysis by mass spectroscopy and more advanced NMR techniques is also investigated. The students use this chemistry in a lab course designed to highlight a number of these concepts (including the synthesis of 2 pharmaceutical compounds and a team experiment) and to extend their range of practical skills.

Level: Undergraduate Level 3 subject

Pre-requisite(s): CHEM 2008

Equivalent Subjects: LGYA 6141 - Drug Design and Synthesis CHEM 3013 - Organic Chemistry 3

Restrictions: Please see the Subject Details page for any restrictions for this subject

CHEM 3005 Advanced Physical Chemistry (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem3005/>) **Legacy Code:** 300926

Advanced Physical Chemistry builds on the fundamental principals of energy changes in systems (thermodynamics), and the rates and mechanisms of reactions (kinetics) learnt in Physical Chemistry and extends this so that students gain an understanding of polymer and surface chemistries. This unit also will strengthen student's problem solving skills in quantitative chemical analysis, develop experimental techniques and advanced data-analysis skills.

Level: Undergraduate Level 3 subject

Pre-requisite(s): CHEM 2010

Equivalent Subjects: CHEM 3015 - Physical Chemistry 3

Restrictions: Please see the Subject Details page for any restrictions for this subject

CHEM 3008 Biodevices (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem3008/>) **Legacy Code:** 300890

This unit replaces 300414 - Biodevices from Autumn 2014. The unit will investigate nature's nanomachines; lipids, DNA and proteins. The students will learn how only a few basic building blocks can self-assemble into more complex structures, which in turn self-assemble into more complex hierarchical structures from which one can build biodevices. These fascinating self-organising supramolecular structures generally involve some kind of non-covalent binding. Particular emphasis is placed on the underlying principles that govern the functioning of such machines and some coverage of the modelling of such processes using techniques such as statistical thermodynamics is given. Biological computing is also covered.

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYA 6025 - Biodevices

Restrictions: Please see the Subject Details page for any restrictions for this subject

CHEM 3010 Forensic Chemistry (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem3010/>) **Legacy Code:** 300868

This unit extends the student's knowledge and understanding of chemical topics that are relevant to forensic investigations, and provides a deeper understanding of the underlying chemical and physical principles. Topics are taught in the context of the correct principles and procedures for collecting and conserving evidence, and the safe handling of chemical substances. Topics include an extended range of modern chemical instrumentation; the chemistry and analysis of various classes of drugs; clandestine drug laboratories; fire, arson and accelerants; explosions and explosives; and various forms of trace evidence (including textile fibres, glass and paint).

Level: Undergraduate Level 3 subject

Pre-requisite(s): NATS 2019 OR

CHEM 2001

Equivalent Subjects: CHEM 3009 - Forensic Chemistry

Restrictions: Please see the Subject Details page for any restrictions for this subject

CHEM 3012 Nanochemistry (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem3012/>) **Legacy Code:** 300895

The unit covers basic theory of surface chemistry, latest technologies of surface depositions and industrial and commercial applications of nanomaterials and nanopowders. Upon successful completion, the students will achieve an in-depth understanding of techniques of preparation of nanomaterials and nanopowders that includes plasma arching, chemical vapour deposition, electrodeposition, sol-gel synthesis, ball milling and the use of natural particles. Technical aspects of process control on the microstructure and properties of coatings will be discussed. Case studies of applications of nanopowders and nanomaterials such as biomedical implants, insulators, high power magnets, molecular sieves, supercomputers, jet engines and other industrial applications will be pursued.

Level: Undergraduate Level 3 subject

Pre-requisite(s): CHEM 1003

Equivalent Subjects: LGYA 6162 - Nanochemistry LGYA 6030 - Nanopowders and Nanomaterials

Restrictions: Please see the Subject Details page for any restrictions for this subject

CHEM 3014 Pharmacological Chemistry (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem3014/>) **Legacy Code:** 300920

This unit is aimed at undergraduates with grounding in chemistry and biochemistry who have an interest in a career related to medicinal chemistry. Because it concerns the manner in which foreign molecules can interact with the body's mechanisms it is of direct relevance not only to the pharmaceutical industry but also to the food, agricultural, cosmetic (etc) industries. It conveys the fascination of designing chemical structures for particular uses within biological systems and which overlap the disciplines of chemistry, biochemistry, cell biology and pharmacology. Emphasis is placed upon design of the chemical structure itself rather than an investigation of the specific chemical structure of its site of action in the body. This is reflected in the laboratory work which traces the historical development of drug design, essentially through a process of a series of inorganic syntheses, relevant to a range of common drugs.

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYA 5935 - Pharmacological Chemistry

Restrictions: Please see the Subject Details page for any restrictions for this subject

CHEM 9001 HDR Thesis - Functional Genomics (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem9001/>) **Legacy Code:** 800144

Level: PhD and Research Masters Level 9 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CHEM 9002 HDR Thesis - Nanotechnology (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem9002/>) **Legacy Code:** 800142

Level: PhD and Research Masters Level 9 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CHEM 9003 Higher Degree Research Thesis - Chemical Sciences (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem9003/>) **Legacy Code:** 800075

Level: PhD and Research Masters Level 9 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CHEM 9004 Higher Degree Research Thesis - Chemistry (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem9004/>) **Legacy Code:** 800132

Level: PhD and Research Masters Level 9 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CHEM 9005 Higher Degree Research Thesis - Forensics (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/chem9005/>) **Legacy Code:** 800158

Level: PhD and Research Masters Level 9 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

Civil Engineering (CIVL)

CIVL 1001 Surveying for Engineers (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl1001/>) **Legacy Code:** 300738

This is a core unit which provides students with basic skills that are required to carry-out Surveying. After the completion of this unit, students will be able to carry-out required preliminary surveying for most of the civil and construction engineering projects. This unit will also serve as a foundation for most of the units that follow in the course.

Level: Undergraduate Level 1 subject

Pre-requisite(s): MATH 1016

Equivalent Subjects: CIVL 1002 - Surveying for Engineering CIVL 1003 - Surveying for Engineers (WSTC AssocD)

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 1003 Surveying for Engineers (WSTC AssocD) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl1003/>) **Legacy Code:** 700120

This unit provides students with basic skills that are required to carry out surveying. After the completion of this unit, students will be able to carry out required preliminary surveying for most of the civil and construction engineering projects. Offerings of alternate units are dependent on there being sufficient student enrolment numbers. If enrolments are low, the College may cancel delivery of the alternate unit.

Level: Undergraduate Level 1 subject

Equivalent Subjects: CIVL 1001 - Surveying for Engineers

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 2002 Environmental Engineering (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl2002/>) **Legacy Code:** 300737

This unit teaches the fundamental theory and methods required for a civil engineer to solve environmental issues they would face in their professional life.

Level: Undergraduate Level 2 subject

Equivalent Subjects: CIVL 4006 - Environmental Engineering

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 2003 Fluid Mechanics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl2003/>) **Legacy Code:** 300762

This unit provides a basic understanding of fluid mechanics principles. Fluid mechanics is the study of the properties and movements of fluids, and key to understanding many of our engineering systems involving fluids, such as power generation, lubrication, irrigation and navigation. While the main focus is on incompressible fluids, effects of compressible fluids are also discussed. The theories learned in classes are reinforced in laboratory sessions. Students analyse fluid systems and apply principles in designing basic pipes and open-channels.

Level: Undergraduate Level 2 subject

Pre-requisite(s): MATH 1016 AND

ENGR 1011 OR

ENGR 1028

Equivalent Subjects: CIVL 2015 - Water Engineering CIVL 2004 - Fluid Mechanics (WSTC Assoc Deg)

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 2004 Fluid Mechanics (WSTC AssocD) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl2004/>) **Legacy Code:** 700111

The unit provides a basic understanding of fluid mechanics principles. While the main focus will remain on incompressible fluids, effects of compressible fluids will also be discussed. The theories learned in classes will be reinforced in laboratory sessions. Offerings of alternate units are dependent on there being sufficient student enrolment numbers. If enrolments are low, the College may cancel delivery of the alternate unit.

Level: Undergraduate Level 2 subject

Pre-requisite(s): MATH 1017 AND ENGR 1012

Equivalent Subjects: CIVL 2003 - Fluid Mechanics

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 2007 Introduction to Structural Engineering (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl2007/>) **Legacy Code:** 300733

This unit covers the basic concepts in analysing and designing simple structural members. It consists of the fundamentals of structural analysis, concrete structures and steel structures

Level: Undergraduate Level 2 subject

Pre-requisite(s): MECH 2003

Equivalent Subjects: CIVL 2006 - Introduction to Structural Engineering CIVL 2008 - Introduction to Structural Engineering (WSTC Assoc Deg)

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 2008 Introduction to Structural Engineering (WSTC AssocD) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl2008/>) **Legacy Code:** 700115

This unit covers the basic concepts in analysing and designing simple structural members. It consists of the fundamentals of structural analysis, concrete structures and steel structures. Offerings of alternate units are dependent on there being sufficient student enrolment numbers. If enrolments are low, the College may cancel delivery of the alternate unit.

Level: Undergraduate Level 2 subject

Pre-requisite(s): MECH 2004

Equivalent Subjects: CIVL 2007 - Introduction to Structural Engineering

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 2012 Soil Mechanics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl2012/>) **Legacy Code:** 300985

This is an introductory unit covering the use of soil, and the water in it, as an engineering material. It will provide students with a basic understanding of the physical and mechanical properties of soils, simple soil testing methods to characterise soil strength and deformation behaviour, and how to apply basic techniques to assess the hydro-mechanical response of soils subjected to loading.

Level: Undergraduate Level 2 subject

Pre-requisite(s): MATH 1016

Equivalent Subjects: CIVL 2011 - Soil Engineering CIVL 2013 - Soil Mechanics (WSTC AssocD)

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 2013 Soil Mechanics (WSTC AssocD) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl2013/>) **Legacy Code:** 700245

This unit is an introductory unit covering the use of soil, and the water in it, as an engineering material. It will provide students with a basic understanding of the physical and mechanical properties of soils, simple soil testing methods to characterise soil strength and deformation behaviour and how to apply basic techniques to assess the hydro-mechanical response of soils subjected to loading. Offerings of alternate units are dependent on there being sufficient student enrolment numbers. If enrolments are low, the College may cancel delivery of the alternate unit.

Level: Undergraduate Level 2 subject

Pre-requisite(s): MATH 1017

Equivalent Subjects: CIVL 2011 - Soil Engineering CIVL 2012 - Soil Mechanics

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 2016 Civil and Substructure (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl2016/>) **Legacy Code:** 301220

This unit provides an overview of civil construction and associated sub-structure works comprising footings, pilings and slabs and the high costs associated with these elements. Through site surveys, site assessments and design proposals students will apply their developing understanding of bulk excavation, site drainage, service mains (electricity, gas, water, sewerage, data), roads and retaining walls to real world examples. Students will also examine public infrastructure such as ports, tunnels, bridges and highways to deepen their knowledge base. Additionally, in order to further understand the high costs involved in sub structure works, students will learn to identify problems faced on sites including rock, chemically-aggressive soils and water-logged sites.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 2017 Sustainable Construction Materials (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl2017/>) **Legacy Code:** 301399

This unit focusses on the suitability for purpose (performance, durability, sustainability and standards and regulatory compliance) of building and construction materials. Students investigate the physical properties and behaviour of various timbers, metals, concretes, polymers, new materials and composite systems, and their durability within Australia's diverse environments. Students also consider sustainable and eco-friendly construction materials in life-cycle assessment of construction systems and materials selection at the design stage.

Level: Undergraduate Level 2 subject

Incompatible Subjects: CIVL 2009 - Material Science in Construction

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 2018 Water Supply Systems Design (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl2018/>) **Legacy Code:** 301424

In this unit students will examine the quality of water and the standards to be met for the supply of water that is fit for its intended use. The design of treatment processes to meet these standards as well as principles underlying the hydraulic design of the treatment systems are examined in the context of both urban and remote rural communities. Students will also explore alternative supply systems and their merits and demerits, including economic viability, in order to gain design and analysis skills with respect to various water supply systems.

Level: Undergraduate Level 2 subject

Pre-requisite(s): CIVL 2002 OR ENGR 1050 AND CIVL 2003

Co-requisite(s): CIVL 3011

Equivalent Subjects: CIVL 4014 Water and Wastewater Treatment

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 3002 Concrete Structures (UG) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl3002/>) **Legacy Code:** 300736

This unit covers the basic elements of structural behaviour and design with reinforced and pre-stressed concrete. Students will learn to analyse the section capacity of reinforced concrete beams, slabs, and columns, and design simple suspended structures. The unit places a strong emphasis on the process of structural design.

Level: Undergraduate Level 3 subject

Pre-requisite(s): CIVL 2007

Co-requisite(s): CIVL 3014

Equivalent Subjects: CIVL 3001 - Concrete Structures (UG)

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 3003 Construction Planning (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl3003/>) **Legacy Code:** 300728

This unit is intended to provide students with the ability to organise the resources required for a major construction project; to plan the sequence and timing of construction operations; and to assess the risk inherent in achieving a construction schedule.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BLDG 1005 OR GEOM 2001 OR BLDG 2002

Equivalent Subjects: BLDG 3005 - Construction Planning

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 3004 Construction Technology 3 (Concrete Construction) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl3004/>) **Legacy Code:** 200502

The aim of this unit is to introduce students to the concept of structures, loads and the effect of loads on structures in relation to concrete construction. Students will have an in-depth understanding of concrete as a construction material. It covers the construction technology aspects of concrete structural components and systems, including beams, columns, slabs and frames. Emphasis will be given to formwork design and construction. Students will be introduced to the relevant Australian Standards for concrete construction. The unit also aims at developing students' ability to deal professionally with other building professionals, including architects and structural engineers.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 3005 Construction Technology 4 (Steel Construction) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl3005/>) **Legacy Code:** 200470

This unit deals with the construction of structural steelwork. Students will gain a better understanding of mechanical properties of steel. It covers various components in structural steelwork, and their behaviour under loads. Students will also be introduced to various frame systems in multi-story and high-rise construction and relevant Australian Standards for steel construction. Emphasis will be given to safe erection and assembly of structural steelwork. Due consideration will be given to the requirements of Workcover in relation to site safety and material handling. An introduction will also be given for Steel-concrete composite construction.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 3007 Engineering Geomechanics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl3007/>) **Legacy Code:** 301001

This unit will present the application of principles of soil mechanics to the solution of foundation and geotechnical problems including the evaluation of allowable bearing capacity of shallow and pile foundations, the stability of earth retaining structures and the stability of slopes.

Level: Undergraduate Level 3 subject

Pre-requisite(s): CIVL 3014 AND CIVL 2012 OR CIVL 2011

Equivalent Subjects: CIVL 3008 - Foundation Engineering

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 3010 Highway Infrastructure (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl3010/>) **Legacy Code:** 300988

This unit focuses on two key aspects of highway infrastructure design, namely, the bridge superstructure design and the foundation soil preparation prior to construction of the highway pavement. It aims to provide students with specialised knowledge in bridge loading and structural design, methods to deal with soft and weak grounds, and building of earth embankments to support the highway pavement. These aspects will be discussed in relation to Australian design codes.

Level: Undergraduate Level 3 subject

Pre-requisite(s): CIVL 2007 AND CIVL 2012

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 3011 Hydraulics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl3011/>) **Legacy Code:** 300765

The unit covers the principles of open channel hydraulics, pipe hydraulics and culvert hydraulics. Specific topics in open channel hydraulics include uniform flow, resistance equations, specific energy principle, flow types, gradually varied flow and rapidly varied flow. The purpose is to enable design of efficient open channels to meet engineering requirements. In addition, principles of pipe and culvert hydraulics are introduced, enabling analysis and design of pipe networks and culverts.

Level: Undergraduate Level 3 subject

Pre-requisite(s): CIVL 2003

Equivalent Subjects: CIVL 2015 - Water Engineering CIVL 2014 - Water Engineering

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 3012 Steel Structures (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl3012/>) **Legacy Code:** 300730

This unit covers the basic behaviour of steel members and structures, the appropriate methods to analyse them and the design criteria and methods used to proportion them.

Level: Undergraduate Level 3 subject

Pre-requisite(s): CIVL 2007

Co-requisite(s): CIVL 3014

Equivalent Subjects: CIVL 3013 - Steel Structures

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 3014 Structural Analysis (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl3014/>) **Legacy Code:** 300732

This unit introduces students to the aspects of structural analysis of trusses, beams and frames. It covers the first-order elastic analysis of statically determinate and indeterminate structures. This course aims to teach students to master basic skills in structural analysis as well as skills in using computer software to analyse complex structures.

Level: Undergraduate Level 3 subject

Pre-requisite(s): CIVL 2007

Equivalent Subjects: CIVL 3015 - Structural Analysis

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 3016 Building Superstructure (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl3016/>) **Legacy Code:** 301221

The aim of this unit is to provide students with an understanding of the factors that contribute to the design and construction of a building superstructure. Students will be introduced to relevant Australian Standards for common construction materials and practices. The unit also aims to develop the ability of construction students to communicate professionally with other building professionals including structural engineers. Emphasis will be given to the strength, behaviour and failure of structural members, connections and frames.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 3017 Construction Scheduling (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl3017/>) **Legacy Code:** 301230

This unit is intended to provide students with the skills and ability to organise the resources required for a major construction project, to plan the sequence and timing of construction operations, and to assess the risk inherent in achieving a construction schedule.

Level: Undergraduate Level 3 subject

Pre-requisite(s): BLDG 1005 OR

BLDG 1014 OR

GEOM 2001 OR

BLDG 2002

Equivalent Subjects: BLDG 3005 Construction Planning

CIVL 3003 Construction Planning

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 3018 Hydrogeology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl3018/>) **Legacy Code:** 301397

This unit covers principles of hydrogeology. It contains concepts related to occurrence of groundwater, groundwater movement, groundwater hydraulics, water wells, quality of groundwater, groundwater modelling and groundwater management. The objectives of this unit are to enable students to learn the concept of groundwater and apply the learnt concepts in solving groundwater problems in engineering practice.

Level: Undergraduate Level 3 subject

Pre-requisite(s): CIVL 2003

Equivalent Subjects: EART 3004 - Hydrogeology

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 3019 Wastewater Systems Design (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl3019/>) **Legacy Code:** 301426

Providing clean water and sanitation is one of the United Nations Sustainable Development Goals. Students will gain knowledge and skills in designing and proposing modifications to current wastewater and sanitation practices. Students will examine conventional processes and explore how they should be modified to address emerging issues (contaminants, climate variability) and how the potential of wastewater as a resource can be realised. Students will also identify various ways smart technologies can be adopted in addressing the challenges facing wastewater disposal/resource recovery.

Level: Undergraduate Level 3 subject

Pre-requisite(s): CIVL 2003 AND

CIVL 2002 OR

ENGR 1050 OR

PROC 1006

Equivalent Subjects: CIVL 4014 - Water and Wastewater Treatment

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 3020 Sustainable Waste Engineering (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl3020/>) **Legacy Code:** 301422

Sustainable waste management is an important consideration for any student who is training to become an engineer, as waste is produced in all engineering fields. In this unit students will identify and characterise sources of solid and hazardous waste generated in the community. The application of circular economy and zero waste principles are examined alongside real-world case studies to focus on sustainable management of waste incorporating minimisation, recycle, recovery and disposable options.

Level: Undergraduate Level 3 subject

Equivalent Subjects: CIVL 4011 Waste Management

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 4001 Applied Mechanics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl4001/>) **Legacy Code:** 300986

Applied mechanics deals with the mechanical responses of structural components under various loading and support conditions. This unit will introduce the theoretical foundations and solution methods for the stability and dynamic responses of beams, columns and plates and their associated applications in engineering practices.

Level: Undergraduate Level 4 subject

Pre-requisite(s): CIVL 3014

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 4002 Composite Structures (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl4002/>) **Legacy Code:** 300987

This unit builds on knowledge gained in steel and concrete structures, especially the design of structural members using either steel or concrete. Students will learn the design of composite beams, floors, columns and connections based on Australian and International standards as well as mechanics of materials.

Level: Undergraduate Level 4 subject

Pre-requisite(s): CIVL 3012 AND CIVL 3002

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 4003 Construction Technology 5 (Envelope) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl4003/>) **Legacy Code:** 200471

After undertaking this unit, you should understand the way internal spaces are designed and constructed to optimise thermal, visual and acoustic comfort and for energy efficiency.

Level: Undergraduate Level 4 subject

Co-requisite(s): Students in 2607 Bachelor of Construction Management must enrol in BLDG 4012 Industry Based Learning before enrolling in this unit

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 4004 Construction Technology 6 (Services) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl4004/>) **Legacy Code:** 300725

To provide students with a vehicle to develop knowledge and skills needed to comprehend the design of services in major buildings, and in so doing engender a life-long interpretation of the intricacies of physical installation and their critical sequence in the construction process.

Level: Undergraduate Level 4 subject

Equivalent Subjects: LGYB 5400 Construction Technology 6 (Services)

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 4005 Construction in Practice 3 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl4005/>) **Legacy Code:** 200484

This unit enables students to integrate and develop knowledge gained earlier in the course allowing them to simulate industry practice. Students are given a brief to undertake large and complex construction projects (eg. high rise buildings, airport construction, or sports stadium construction). They then take account of regulatory control, financial limitations, and stakeholder impacts whilst managing a team and being flexible and responsive to changing demands.

Level: Undergraduate Level 4 subject

Co-requisite(s): Students in 2607 Bachelor of Construction Management must enrol in BLDG 4012 Industry Based Learning before enrolling in this unit

Equivalent Subjects: LGYB 5402 - Building in Practice 3

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 4008 Pile Foundations (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl4008/>) **Legacy Code:** 300990

This unit covers analysis and design criteria for pile foundations subjected to axial, lateral and dynamic loading based on the Australian Standards. Computer software necessary to carry out analysis and design will be introduced. Also field testing methods available for pile integrity testing will be discussed.

Level: Undergraduate Level 4 subject

Pre-requisite(s): CIVL 3007 OR CIVL 3008

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 4009 Timber Structures (UG) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl4009/>) **Legacy Code:** 300739

Students learn about the engineering properties of timber and assess it as a construction material. Design methods based on structural mechanics are covered including the design of members and connections.

Level: Undergraduate Level 4 subject

Pre-requisite(s): CIVL 2007

Co-requisite(s): CIVL 3014

Equivalent Subjects: LGYB 1031 - Timber Structures (UG)

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 4010 Transportation Engineering (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl4010/>) **Legacy Code:** 300982

This unit provides students with the course material that will assist them with the execution of Civil Engineering Construction and Urban Development / Town Planning projects. The unit mainly focuses on the planning, design and construction of transportation facilities for urban and rural areas. Students will have an opportunity to implement the skills learnt using a case of a subdivision development.

Level: Undergraduate Level 4 subject

Pre-requisite(s): CIVL 1001 AND

ENGR 2016 AND

EART 4001

Incompatible Subjects: CIVL 2005 - Infrastructure Engineering

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 4011 Waste Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl4011/>) **Legacy Code:** 300994

Sustainable waste management, to reduce climate impact, is an important consideration for any student who is getting trained as an engineer. In this unit students will identify and characterise sources of atmospheric, solid and hazardous waste generated from the community. Students will then focus on sustainable management of waste incorporating minimisation, recycle, recovery and disposable options as well as greenhouse gases and their impact on climate change.

Level: Undergraduate Level 4 subject

Pre-requisite(s): CIVL 2002

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 4012 Water Resource Engineering (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl4012/>) **Legacy Code:** 300993

This unit introduces optimisation theories applicable to water resources projects. The unit applies different optimisation models to select the best option available. Engineering economic theories specifically applicable to water resources projects are also discussed.

Level: Undergraduate Level 4 subject

Pre-requisite(s): CIVL 3011

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 4015 Complex Building Project (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl4015/>) **Legacy Code:** 301232

This unit enables students to integrate and develop knowledge gained earlier in the course allowing them to simulate industry practice.

Students are given a brief to undertake large and complex construction projects (eg. high rise buildings, airport construction, or sports stadium construction). They then take account of regulatory control, financial limitations, and stakeholder impacts whilst managing a team and being flexible and responsive to changing demands.

Level: Undergraduate Level 4 subject

Co-requisite(s): BLDG 4012

Equivalent Subjects: LGYB 5402 Building in Practice 3

CIVL 4005 Construction in Practice 3

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 4016 Envelope and Services (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl4016/>) **Legacy Code:** 301222

The building envelope and its inter-relationship with building services are critical to the successful functioning of our modern built environment. In this unit students will learn how to minimise operational energy requirements by making good choices in terms of materials and systems which focus on end-user needs. Measurement of building performance and continuous improvement is addressed alongside compliance with building codes and relevant Australian standards.

Level: Undergraduate Level 4 subject

Equivalent Subjects: CIVL 4003 Construction Technology 5 (Envelope)

CIVL 4004 Construction Technology 6 (Services)

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 4017 Surface Water Hydrology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl4017/>) **Legacy Code:** 301329

Surface water hydrology covers the principles of hydrology as it pertains to surface water component of the hydrologic cycle. The principal focus is on the relationship between rainfall and surface runoff. The extent of flooding resulting from storm events will be evaluated through floodplain delineation process. Successful completion of this unit provides the competencies required to propose sustainable engineering solutions to potential adverse impacts of land-use changes. This unit builds on the hydraulic concepts acquired from the units completed earlier.

Level: Undergraduate Level 4 subject

Pre-requisite(s): CIVL 3011

Equivalent Subjects: CIVL 4007 - Hydrology EART 4001 - Surface Water Hydrology

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 4018 Building Design Project 1 (Honours) (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl4018/>) **Legacy Code:** 301101

In this unit, students who have a record of superior performance in the Building Design Management program, will source a suitable design project at their own initiative, to complete as a capstone work which illustrates the skills they have developed throughout their study program. The project will contain a high level of complexity exceeding that of previous building designs produced in the program. Both the complexity level and the number of design constraints will distinguish the project undertaken for this unit from the non-honours stream unit. Diverse stakeholder input on the project's impact will be gathered and assessed. The design solution generated will show mastery of complex design problems which integrate technical knowledge with economic and social responsibility. Superior skill in resolving design conflicts will be demonstrated.

Level: Undergraduate Level 4 subject

Pre-requisite(s): BLDG 3001

Incompatible Subjects: BLDG 4001 Building Design Project 1

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 4019 Building Design Project 2 (Honours) (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl4019/>) **Legacy Code:** 301102

In this unit, students who have a record of superior performance in the program will continue to develop the design solution they created in Building Design Project 1 (Honours) into a fully resolved CAD model suitable for costing, scheduling and contracting. Construction Certificate documentation of professional standard will be generated. Both the complexity level and the number of design constraints will distinguish the project undertaken for this unit from the non-honours stream unit. Diverse stakeholder input on the projects impact will be gathered and assessed. Complex constraints relating to buildability and efficient project delivery will be resolved. Strict budgetary constraints will be imposed and students will be expected to demonstrate a capacity to use lateral thinking and generate creative solutions in response to problematic situations which arise during project delivery but which were unknown at project commencement.

Level: Undergraduate Level 4 subject

Pre-requisite(s): CIVL 4018

Incompatible Subjects: BLDG 4002 Building Design Project 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 4020 Construction Research Project (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl4020/>) **Legacy Code:** 301223

In this unit students will undertake practical research into identified technical, managerial or economic problems in the construction industry. Groups of up to four students will collectively undertake these industry based research projects and produce an individual final report plus another tangible outcome as agreed at the project proposal stage. A wide range of indicative practical projects will be available to assist and direct the research effort.

Level: Undergraduate Level 4 subject

Pre-requisite(s): BLDG 4010

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 5001 Building Engineering (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civil5001/>)

This subject provides students with an understanding of the factors that contribute to decisions in building design, particularly compliance with the National Construction Code and related standards. Students apply their learning to real world contexts as they integrate the construction codes, standards and engineering structural principles to building engineering. Students build their skillset to assess the structural performance acceptability of buildings.

Level: Postgraduate Coursework Level 5 subject

Equivalent Subjects: CIVL 7011 - Building Engineering

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 7001 Advanced Applied Mechanics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civil7001/>) **Legacy Code:** 301010

Applied mechanics deals with the mechanical responses of structural components under various loading and support conditions. This unit will introduce the theory of elasticity and study the bending, buckling and vibration behaviours of beams, plates and shells and their associated applications in engineering practices.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 7002 Advanced Composite Structures (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civil7002/>) **Legacy Code:** 301008

This unit enables students to gain an in-depth knowledge into composite structures based on Australian Standards and International Standards. Recent advances in the design of composite beams, slabs, columns and connections will be introduced.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 7003 Advanced Geotechnical Engineering (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civil7003/>) **Legacy Code:** 300604

This unit will provide an overview of soil mechanics concepts required for the solution of practical geotechnical engineering problems. Students will be taught soil and foundation analysis including design techniques. The topics will cover shallow foundations, pile foundations, the stability of earth retaining structures, excavations, soft soils, groundwater flow and stability of slopes. Practical engineering cases will be emphasized.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 6113 - Foundation Engineering (PG)

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 7004 Advanced Highway Infrastructure (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civil7004/>) **Legacy Code:** 301011

This unit teaches pavement design and ground engineering design as part of construction of the highway. The aim is to provide students with advanced knowledge in designing pavement structures and ground improvement techniques to deal with soft and weak grounds for construction of highway and highway embankments. These aspects will be taught in relation to Australian practices.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 7005 Advanced Numerical Methods in Engineering (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civil7005/>) **Legacy Code:** 301024

The finite element method is an essential tool for the analysis and design of machine parts and civil engineering structures. The objective of this unit is to introduce the principles of finite element method and the applications of one, two and three dimensional elements in solving various engineering problems.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 7006 Advanced Structural Analysis (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civil7006/>) **Legacy Code:** 300594

This unit will introduce students at postgraduate level to structural analysis of trusses, beams, frames and plates. It covers the slope deflection method and matrix method for analysis of beams, trusses and frames, and the bending and buckling analysis of beams and plates under various loading conditions. The theories learned in classes will be reinforced in practical sessions by using computer software packages.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: LGYA 5845 - Linear and Nonlinear Analysis of Structures LGYA 5976 - Advanced Structural Engineering LGYA 5837 - Numerical and Finite Element Methods

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 7007 Advanced Timber Structures (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civil7007/>) **Legacy Code:** 301009

This unit enables students to gain an in-depth knowledge into timber structures based on Australian Standards. Design of timber beams, floors, columns and connections will be introduced with a focus on the use of plywood, round timbers, glue-laminated timber and structural laminated veneer lumber.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 7008 Advanced Waste Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civil7008/>) **Legacy Code:** 301017

This unit covers sources, identification and characterisation of solid and hazardous waste generated from the community. Sustainable management of waste incorporating minimisation, recycle, recovery and disposable options is discussed. Also, atmospheric pollutants and their control, greenhouse gases and their impact on climate change are examined.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 7009 Advanced Water Engineering (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl7009/>) **Legacy Code:** 300595

This unit introduces advanced principles of engineering hydrology as it pertains to the surface water component of the hydrologic cycle. Students are exposed to floodplain analysis techniques. The focus is on practical engineering solutions to issues originating from catchment development. Students are exposed to commonly used hydraulic and hydrologic software packages to delineate flooded areas resulting from such developments.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: CIVL 4007 Hydrology EART 4001 Surface Water Hydrology

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 7011 Building Engineering (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl7011/>) **Legacy Code:** 300713

The aim of this unit is to provide students with an understanding of the factors that contribute to decisions in building design in respect of compliance with building regulations and standards. Topics include soil classification for construction, footing systems, loadings and their evaluation, structural materials and systems, structural behaviour and strength, and failure and rectification.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: CUVL5001 - Building Engineering LGYB 8310 - Building Engineering

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 7012 Building Fire Services (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl7012/>) **Legacy Code:** 300711

This unit describes the various types and application of building services and fire safety systems. It introduces appropriate standards for building fire service system design and the methods of applying recommendations of fire engineering assessments with respect to building services and fire safety systems.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYC 0661 - Building Fire Services

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 7013 Deep Foundations (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl7013/>) **Legacy Code:** 301015

This unit covers advanced analysis and design criteria for deep foundations. Both statically and dynamically loaded deep foundations are covered including the site investigation methods and field testing methods adopted in practice for determining integrity and load carrying capacity. Appropriate computer software will be introduced to carry out the deep foundation design according to the Australian Standards.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 7014 Sustainable Systems (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl7014/>) **Legacy Code:** 301003

This unit teaches students the essential tools available to achieve environmental sustainability in various engineering/construction/industrial design professional settings. The focus of the unit is on the application of the tools and exploration of Australian regulatory and sustainable development practices.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 7015 Water Resources Systems Analysis (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl7015/>) **Legacy Code:** 301012

Water resources projects are large infrastructure projects requiring huge capital expenditure. In addition, multiple options are usually available to meet the project goals but at different costs and under varying constraints. This unit presents the application of optimisation techniques to select the best project from a list of competing projects. Applications of these techniques to optimally allocate available water resources are discussed. These are presented within the context of maximising the return of investment.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 7017 Wastewater Treatment and Recycling (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/civl7017/>) **Legacy Code:** 301278

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CIVL 7018 Water Treatment and Distribution (10 Credit Points)

COMM 0011 Texts and Communication (WSTC Prep) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm0011/>) **Legacy Code:** 700192

This unit assists students to develop skills in reading and textual analysis. It introduces students to the basic principles of reader response theory and general strategies to improve reading resilience. Textual analysis skills are built through engagement with a diverse range of texts on a variety of themes, which are relevant both to the contemporary world and to later studies at both the Foundation and University level. By the end of this unit, students will be able to read, discuss, analyse and write about texts in ways appropriate to academic levels of study.

COMM 0015 Communication Practices (WSTC Prep) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm0015/>) **Legacy Code:** 700324

What does it mean to be a communication professional in the digital age? In this unit students will explore the various study and career options available to them in communication industries. They will engage with a range of skills and practices to boost their success in later units and to start thinking and working like a communication professional. Engaging in a case study of an Australian media professional and developing a professional profile of their own ensures that students can identify and develop their own strengths relevant to their communication journey.

COMM 1004 Approaches to Text (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm1004/>) **Legacy Code:** 100641

Why do we read books? Reading literary texts is crucial to our ways of understanding the world and ourselves. In this unit students learn that reading resilience, close reading skills and the ability to identify specific literary techniques are foundational to studying literature. Students will read a range of Australian texts including fiction, poetry, short stories, drama and criticism. They will analyse how meanings in those texts are shaped by diverse cultural and international contexts. This unit builds reading capacity while engaging students in key debates about literature today: what it means, how it works, and why it matters.

COMM 1007 Communication in Health (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm1007/>) **Legacy Code:** 400732

Good communication within the health care setting is associated with improved health outcomes. This unit introduces students to foundation knowledge and skills required for effective communication with various stakeholders in varied and complex health situations. The unit is skills-based and uses case studies to create scenarios to which students learn to respond. There is a focus on the client interview and various questioning techniques designed to facilitate a therapeutic relationship as a means of developing rapport and trust. Strategies to promote communication within, between and across health professional disciplines, teams and government agencies is also explored. Written forms of documentation as well as communication skills required to communicate health information to clients, groups and the wider community are also presented. The unit uses a 'student capital' framework to facilitate reflection on current communication skills and those required for success at university and in future practice.

Level: Undergraduate Level 1 subject

Equivalent Subjects: LGYA 7034 - Communication for the Helping Professions COMM 1008 - Communication in Health (WSTC)

COMM 1008 Communication in Health (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm1008/>) **Legacy Code:** 700062

Communication is integral to professional relationships, whether working individually with a client, educating community members on health matters, or working with other professionals as part of a multidisciplinary team. This unit aims to develop communication skills in preparation for work within the health professions across these areas. Communication skills will include those needed to form therapeutic relationships with individual clients and groups, as well as those required to communicate health information to clients, groups and the wider community. Students will develop skills to establish appropriate working relationships with professional colleagues.

Level: Undergraduate Level 1 subject

COMM 1009 Creative Writing: Practical Skills and Knowledge (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm1009/>) **Legacy Code:** 102437

This is the second of two Level 1 foundation units in the Creative Writing Major. The unit focuses on developing students into writers by giving them the practical skills and theoretical knowledge needed to become published writers. Students will develop a body of original creative work while reflecting critically upon writing practice. The unit is built around participation in writing workshops, which emphasise improving your work via practical feedback from tutors and peers. Themes covered include writing the personal, writing about place, experimentation, specificity, originality, voice and starting a career in writing. No previous creative writing experience is necessary.

Level: Undergraduate Level 1 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 1010 Creative Writing: The Imaginative Life (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm1010/>) **Legacy Code:** 102436

What is an imaginative life, and how do we bring it into the practice of creative writing? This is the first of two Level 1 foundation units in the Creative Writing Major, in which students can find the right place to begin their own writing journey. They will learn how storytelling in all its forms shapes our imaginative life, and begin to acquire practical skills to develop their writing. The unit involves two-hour workshops taught by experienced and widely published writers from the Writing and Society Research Centre and the school of HCA. No previous creative writing experience is necessary.

Level: Undergraduate Level 1 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 1011 Data, Mediation and Power (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm1011/>) **Legacy Code:** 700269

Data, Mediation and Power investigates the operation of power in contemporary digital media cultures and economy. The unit examines the primary role played by data in determining how we live in the world. This includes how we interact with the world, its people and digital artefacts, in terms of communication and meaning. The unit focuses on technologies of control and governance related to algorithmic architectures and data economies. Who benefits from data and mediation and what are the limits and possibilities of data? Ultimately, this kind of critical analysis invites us to think about what constitutes a just, democratic society and what constitutes an ethical media life.

Level: Undergraduate Level 1 subject

Co-requisite(s): Students enrolled in the combined Diploma/Bachelor courses listed below must pass all College Preparatory units listed in the course structure before progressing to the Year Two units

Equivalent Subjects: COMM 1023 - Mediated Mobilities COMM 1012 - Data Mediation and Power

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 1012 Data, Mediation, Power (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm1012/>) **Legacy Code:** 102421

COMM 1015 Foundations of Media Arts and Production (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm1015/>) **Legacy Code:** 101927

In 2021, this unit replaced by unit 102825 - Introduction to Screen Media. This unit explores creative and independent media arts practices across moving image, audio and participatory forms, and introduces students to fundamental principles of sound and screen production. The unit maps theoretical and practical connections between the creation and study of images and sound across media formats through an integrated theory/practice programme focused on the processes through which media artefacts are created. Students learn how to analyse and critically evaluate screen media and also to plan and make simple short works of their own. It introduces students to relevant media arts histories and contexts (with a focus on cinema) in addition to a range of technologies, media practices and production techniques.

Level: Undergraduate Level 1 subject

COMM 1018 Introduction to Journalism (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm1018/>) **Legacy Code:** 100556

This unit introduces students to the fields of journalism and new media, covering the concepts of news values and news research for target audiences. It looks at the role of the journalist and the professional skills of news gathering and news writing. The subject also considers the legal and ethical obstacles and obligations faced by journalists operating in an environment of fast paced communication. The methodologies underlying professional practice as well as delivering news with speed for multimedia platforms are central to this unit.

Level: Undergraduate Level 1 subject

COMM 1020 Media Cultures and Industries (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm1020/>) **Legacy Code:** 101926

This unit introduces students to the concept of media in terms of how it has changed, how it works and its impact on our lives and society. It builds the necessary foundation for further theoretical and practical study and understanding of the media in future years. Its approach brings practice-based research together with experiential learning and theoretical reflection. At the conclusion of this unit students will be able to demonstrate a fundamental critical understanding of the media. In addition, students will have developed their digital literacy through the creation of digital creative works.

Level: Undergraduate Level 1 subject

COMM 1031 University Study and Communication Skills 2 (Block Mode) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm1031/>) **Legacy Code:** 102053

This unit further develops skills acquired in University Study and Communication Skills 1. It also provides opportunities for students to: develop knowledge about working in teams; research a topic of their choice; practice and present a formal oral and visual presentation to their peers; and prepare an associated written report.

Level: Undergraduate Level 1 subject

Pre-requisite(s): COMM 1030

Equivalent Subjects: COMM 1025 - Practical Literacy Communication Skills (Block Mode)

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 1032 Writing Ecologies (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm1032/>) **Legacy Code:** 101920

This unit introduces students to a set of theories and strategies for exploring storytelling in networked environments and the way social and cultural experiences continue to shape and inform the way we read, write and communicate. Grounded in contexts key to Communication Arts practice, the unit explores what it means to be digitally literate, the difference between newer and older storytelling environments, and the way networked technologies have re-shaped contemporary reading/writing practices. Students will complete a range of analytical and creative tasks that aim to build understanding of the dynamic nature of communication while further developing academic research and writing skills.

Level: Undergraduate Level 1 subject

COMM 1036 Introduction to the Creative Industries (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm1036/>) **Legacy Code:** 102836

Careers in the Creative Industries are on the rise. They're innovation-led, mobile, global and adaptable. In the short-term success can be a matter of luck but a long-term career requires tactics, talent, and savvy business acumen. In this hands-on unit we'll introduce you to some of the key opportunities in the Creative Industries in fields as diverse as Communication, Media, Music, Design, Writing and associated aspects of Intellectual Property Law and Entrepreneurship. We'll look at the Creative Industries from historical and contemporary perspectives, and hear from industry contributors working in the field right now. You'll be introduced to 'future of work' skillsets, including entrepreneurship, leadership, collaboration and communication capabilities, and you'll learn how to situate your own creative knowledge within them.

Available to students from all disciplines, this unit will suit you if you're passionate about taking your creative career to the next level.

Level: Undergraduate Level 1 subject

COMM 1037 Digital Narrative (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm1037/>) **Legacy Code:** 102827

Effective storytelling is at the heart of engaging content. In this unit, you'll learn the basic principles of fictional, narrative storytelling used in screen media. Following on from Screen Media Fundamentals, you'll learn more advanced principles of screen media production, including genre, visual storytelling, camera coverage, lighting, visual style, editing, sound design and performance. You'll also develop an awareness of key narrative concepts such as narrative form, structure, conflict and basic scriptwriting techniques. You'll plan and create a short narrative screen media work, which will demonstrate your enhanced storytelling and production skills.

Level: Undergraduate Level 1 subject

Pre-requisite(s): COMM 1041

Incompatible Subjects: COMM 2036 - Screen and Sound Practices 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 1038 Digital Narrative (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm1038/>) **Legacy Code:** 700327

COMM 2001 Account and Client Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2001/>) **Legacy Code:** 101941

Effectively managing a client or an 'account' requires a special combination of skills. In this subject, you'll learn the basic principles of account management and how to nurture and foster an environment of trust, respect and partnership. Working on an applied project, you'll explore best practice in 'hard skills': understanding clients' objectives, developing a strategy, managing a project, preparing and holding effective meetings, writing WIPs (work in progress) and contact reports, and working toward specific financial/success metrics. Just as important to your success in client-facing roles are 'soft skills'. You'll learn how to be more proactive, overcome procrastination, manage 'challenging' personalities, develop a network, adapt to cross-cultural differences, and present well. Both hard and soft skills are critical to the success of your project, your role as client liaison, and importantly, your career.

Level: Undergraduate Level 2 subject

Pre-requisite(s): -

COMM 2009 Cinema and Censorship (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2009/>) **Legacy Code:** 102192

Censorship of the arts has long been a contentious issue. This unit examines the cultural contexts and debates surrounding censorship, as well as the institutions, policies, and people that figure prominently in the history of cinema censorship. Censorship discourses reveal shifts in how 'national morality' is constructed, and often display cultural anxieties about changing meanings of gender, sexuality, race, and class. This unit offers an historical survey of film censorship from the 1890s to today, utilising various theoretical approaches (feminist theory, critical race theory, queer theory, and cultural theory), with an emphasis on topics such as obscenity, pornography, violence, and blasphemy.

Level: Undergraduate Level 2 subject

COMM 2011 Communication Strategies (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2011/>) **Legacy Code:** 102056

Communication Strategies is a dynamic practice-oriented unit designed to teach students how to interrogate and analyse real clients' products/services, issues and opportunities, markets and audiences, in order to develop effective communication strategies. Through discussion topics and project-based work, students will learn how to design and implement a holistic communications strategy that is relevant for a particular client.

Level: Undergraduate Level 2 subject

COMM 2014 Editing and Publishing (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2014/>) **Legacy Code:** 102435

What makes a good editor? How do editing and publishing work in Australia and the wider market? This unit provides an introduction to basic skills required when editing texts for publication, and a survey of key issues confronting literary publishing in Australia. Skills in editing and an understanding of Australian publishing are valuable assets for students of creative writing. They are also relevant to industry-based work in a range of related fields such as advertising, public relations and journalism. This unit will focus on three areas: the practice of editing, modes of publishing, and the economics of writing and publishing.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 2015 Events Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2015/>) **Legacy Code:** 101940

This unit introduces understandings about events as forms of public relations typologies and promotional models. These include strategic public relations and management processes, researching the event promotion environment, infrastructure, organisational and event promotion processes and funding. Students will analyse behaviours of event publics, audiences and participants, matching event opportunities with publics, and conceptualising events as service experiences. Students will develop strategies for developing event partnerships, funding and sponsorship relationships. These include managing the development of the event setting/venue, programming and personnel affecting the on-site event experience, and developing appropriate merchandising strategies for events.

Level: Undergraduate Level 2 subject

Pre-requisite(s): MKTG 1009

Equivalent Subjects: COMM 3017 - Events Management

COMM 2016 Experimental Writing and Electronic Publication (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2016/>) **Legacy Code:** 100584

Experimental Writing and Electronic Publication is a practical and experiential exploration of modernist writing practices. Students will be introduced to a range of innovative writing techniques designed to stimulate creative thinking and assist in the development of a regular writing practice. Areas of study include: exploration of pre-writing processes; experimental writing genres; power of language; evaluative process; and the development of individual and collaborative techniques for planning and executing writing projects. A primary component of this unit includes working on writing exercises both at home and in class. These exercises will be used to develop the end-of-unit major project.

COMM 2017 Feature Writing (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2017/>) **Legacy Code:** 102061

This subject takes students beyond event and reactionary reporting towards an understanding of the proactive process of exploration, interpretation and exposure in journalism. Students learn how to find, filter and file information in a dynamic and constantly changing environment. Given a lot more time to explore issues, students learn to add value to information while keeping the story current, to deadline and in the public sphere, while negotiating with the media industry to get their stories out into the public sphere. Students are encouraged to develop their unique writing styles while also focusing on social issues such as trauma, violence, mental health and wellbeing.

Level: Undergraduate Level 2 subject

COMM 2019 Interactive Design: Games (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2019/>) **Legacy Code:** 102272

This unit focuses on game design from an interactive design perspective. Approaches utilising current digital technologies for advanced interactive design are explored. Students will design and produce simple games for mobile and/or desktop delivery. The focus of the unit is about the communication and experience design, rather than technical implementation. Interactive game design examples are examined from the context of shifting production languages, convergent technologies and the design professional contexts. This unit includes game development concepts, platforms, goals and genres, player elements, simple story and character development, gameplay, levels, interface, and the game development process. Students will play games, analyse them, and complete a game design with appropriate documentation.

Level: Undergraduate Level 2 subject

Equivalent Subjects: COMM 2018 - Interactive Design II

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 2020 Introduction to Film Studies (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2020/>) **Legacy Code:** 100964

The unit will introduce students to the key theoretical strands of film studies and key concepts in the analysis of film. The unit will explore techniques of narrative, performance, genre, realism and spectatorship, as well as introducing methods to analyse the use of editing, cinematography and sound. A case study of a key historical film movement or genre will introduce students to the study of cinema in its cultural contexts. The unit will also address the transformations in screen cultures as a result of digital technologies and new media.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 2022 Journalism: Research and Investigation (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2022/>) **Legacy Code:** 102017

Investigation and research are fundamental to journalism and many other forms of writing. This unit provides students with the skills to dig deeper to uncover information with which they can build stories that have depth and impact. Students will analyse the role and power of investigative journalism within the information media industry.

Level: Undergraduate Level 2 subject

Pre-requisite(s): COMM 1018

Equivalent Subjects: LGYA 0583 - Speciality News Reporting COMM 2021 - Investigative Journalism

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 2024 Media Law and Ethics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2024/>) **Legacy Code:** 101928

Media Law and Ethics focuses on the media and communication industries of public relations, journalism, advertising and media production, and examines issues including: the legal framework in which these creative communication industries operate, the role of ethics in decision-making in these industries, and the impact of regulation. It considers these issues in relation to their historical and philosophical contexts, and in terms of the contemporary context of digital networked media. This unit provides a foundation for professional practice in the Communication and Creative Industries key programs.

Level: Undergraduate Level 2 subject

Equivalent Subjects: COMM 2010 - Communication Law and Ethics

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 2026 New Media Contexts (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2026/>) **Legacy Code:** 700084

The convergences and diversifications in the communications media industries of the past two decades have completely altered the environment within which they operate for producers and consumers alike. Issues about digitalisation, convergence, globalisation, the network society and communications media governance require a complete reconceptualisation of the media in order to be able to understand the impact of these changes upon professional practices and consumer habits. This unit will introduce students to international perspectives on issues in the new media contexts, and an appreciation of some of the social and cultural implications.

Level: Undergraduate Level 2 subject

Equivalent Subjects: COMM 2025 - New Media Contexts

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 2027 News Reporting (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2027/>) **Legacy Code:** 102062

This unit introduces students to news gathering, research, story construction and news writing for delivery over a variety of platforms, from print-based to online, broadcast and social media. It gives students foundation skills which they can then apply in the subsequent electronic and feature units.

Level: Undergraduate Level 2 subject

Pre-requisite(s): COMM 1018

Equivalent Subjects: LGYB 0129 - Online Journalism COMM 2028 - News Reporting for Convergent Media

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 2029 Photo Journalism (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2029/>) **Legacy Code:** 100953

Students studying this unit examine the function of photojournalism in the process of newsgathering and production and examine the relationship between images and text and their communicative potential. The unit involves a variety of approaches to photojournalism using monochrome and colour photography and location lighting for social documentary for ultimate use in a range of published forms.

Level: Undergraduate Level 2 subject

Equivalent Subjects: LGYA 0636 - Photo Journalism

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 2032 Professional Writing and Editing (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2032/>) **Legacy Code:** 101929

Professional communicators require advanced writing and editing skills. This unit explores the nature of writing and preparation of texts for use across different media platforms and in various contexts. In particular, the unit develops skills in editing and re-purposing of writing, and further develops understanding of key writing tools such as voice, emphasis, tone, grammar and punctuation and Plain English for professional purposes. Through in-class workshops and time-restricted editing tasks, students will demonstrate a range of professional writing skills from corporate communications to advanced editing. Through in class presentations, discussions and short written tasks, students will demonstrate an applied understanding of conceptual and theoretical issues related to writing and editing for diverse audiences and applied to a range of current issues.

Level: Undergraduate Level 2 subject

Equivalent Subjects: LGYA 0221 - Convergence and New Media COMM 2012 - Convergence and New Media COMM 2025 - New Media Contexts COMM 2026 - New Media Contexts (UWSC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 2035 Screen and Sound Practices 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2035/>) **Legacy Code:** 102406

This unit introduces students to the principles of screen and sound media production with an emphasis on digital video, new media, and short film drama production. Students develop an awareness of screen language through critical reflection upon classic and contemporary cinemas as well as practical exercises. Through a series of specialised modules and workshops, students develop their knowledge and skills in media production including camera coverage, visual storytelling, genre, narrative, montage, and sound design and editing. The unit is complemented by technical training in camera, sound and editing software.

Level: Undergraduate Level 2 subject

Equivalent Subjects: COMM 2034 Screen and Sound Practices

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 2036 Screen and Sound Practices 2 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2036/>) **Legacy Code:** 102407

Following on from Screen and Sound Practices 1, this unit introduces students to more advanced principles of screen and sound media production with an emphasis on digital video, new media, and short film drama production. Students develop a depth of awareness about screen language through critical reflection upon classic and contemporary cinemas as well as practical exercises. Through a series of specialised modules and workshops, students continue to develop their knowledge and skills in media production including camera coverage, visual storytelling, genre, narrative, montage, and sound design and editing. The unit is complemented by further technical training in camera, sound and editing software. Students produce a major creative media project for a video work under 10 minutes duration.

Level: Undergraduate Level 2 subject

Pre-requisite(s): COMM 2035

Equivalent Subjects: COMM 2034 - Screen and Sound Practices

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 2043 Writing Fiction (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2043/>) **Legacy Code:** 100896

In this unit students explore, critically examine, and write in a range of fictional and essay forms. They critique a wide variety of published fiction in order to enhance their understanding of approaches, possibilities, and techniques, thereby developing a greater capacity to write and critically evaluate their own work. Students create their own fiction in the form of written exercises and assignments, which they will have the opportunity to workshop and present to peers in a supportive and constructive critical environment.

Level: Undergraduate Level 2 subject

Equivalent Subjects: LGYB 6562 - Creative Writing LGYB 4536 - Writing Fiction

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 2047 Pitch: Podcasting Essentials (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2047/>) **Legacy Code:** 102697

This unit will teach students the fundamentals of podcasting, giving them the expertise needed to produce their own podcast feature. Working with academics and industry experts students will learn research and communication skills for finding, pitching and developing audio stories (backgrounding, writing, interviewing, presentation, critical review) and basic technical skills in sound and editing. This unit will show students how to get the most out of their software and hardware, and how to maximise their distribution channels to reach target audiences. Students will also learn how to recognise and evaluate key legal and ethical issues in research and recording content for publication. There is no need to know any of these things already, or have a story ready to tell; this unit is for all levels of experience and disciplinary backgrounds.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 2048 Communicating for Sustainability (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2048/>) **Legacy Code:** 102705

This unit will enable you to become an environmental sustainability leader by building your capacity to be a confident and effective communicator. Environmental sustainability is vital to human wellbeing and planetary health. Effective communication is required to bring about transformation at individual, organisational and societal scales. In this unit you will participate in three modules focused on the key ingredients required for communicating sustainability: strategy, design and storytelling. Weekly learning pods developed by industry and academic leaders are designed to demonstrate what has worked well in practice, across business, government, community and not-for-profit sectors. Assessments provide you with an opportunity to implement the models, concepts and ideas you've learnt during the weekly learning content. This unit is recommended for all students, regardless of discipline.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 2050 Multiliteracies (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2050/>) **Legacy Code:** 102739

This unit develops students' skills, knowledge and competencies to address a wide range of literacies across multiple technologies, platforms and contexts, including the digital, written, visual, aural, spatial, gestural, and tactile dimensions of meaning production. In any society there are a range of literacies, and contexts in which those literacies might be deployed. Multiliteracies go beyond the traditional textual models of literacy to describe the rich variety of cognitive and cultural tools we use to make sense of the everyday. Multiliteracy is key to our professional and personal effectiveness as well as to our functioning as individuals and citizens in a world characterised by increasing local diversity and global connectedness.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 2051 Animation and Visual Effects (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2051/>) **Legacy Code:** 102828

Explore the art and technology of animation and visual effects as applied to digital screen media production. In this unit, you will be introduced to the principles of animation and compositing and learn how to create effective motion sequences integrated with sound. Working with commercial software, you will explore the unique possibilities of animation and visual effects production and experiment with alternative, creative, narrative storytelling approaches. Develop critical, conceptual and practical skills within the context of animation and visual effects which will then enable you to deliver powerful and compelling visual stories on multiple media platforms.

Level: Undergraduate Level 2 subject

Equivalent Subjects: COMM 2008 - Animation and Visual Effects
COMM 2031 - Principles of Non-Linear Editing
COMM 2042 - Visual Effects
VISU 2007 - Animation and Visual Effects (WSTC)
COMM 2054 - Animation and Visual Effects (WSTC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 2052 Documentary: Factual Screen Media (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2052/>) **Legacy Code:** 102830

Documentary is an evolving area that continues to flux and change. Due to developments in media distribution, technological change and convergence, audiences are increasingly engaging with factual content in new and innovative ways. This unit explores both conceptual and production approaches to documentary in various forms. Students are introduced to key documentary histories and modes and examine a range of traditional and evolving practices including animated, online interactive and transmedia documentary outcomes. Students produce a short documentary project and in doing so develop professional skills and approaches to production roles as well as ethical relationships and responsibilities with participants and topics.

Level: Undergraduate Level 2 subject

Pre-requisite(s): COMM 1015 OR COMM 1039

Co-requisite(s): COMM 1037

Equivalent Subjects: COMM 2041 - Video Camera and Image Formation COMM 2013 - Documentary Media

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 2053 Narrative: Fictional Screen Media (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2053/>) **Legacy Code:** 102829

In the 21st Century the nature of storytelling has evolved. Fictional screen narratives are now delivered across multiple platforms, devices and spaces. At the same time different platforms are strategically used to extend and add new layers to stories while deepening audience interaction and engagement. This unit introduces students to more advanced principles and processes in the production of fictional screen media. Students will learn how to work effectively in collaborative production teams across various key roles in pre-production, production and post-production. Working in teams, students produce a creative cross-platform narrative screen media project.

Level: Undergraduate Level 2 subject

Pre-requisite(s): COMM 1015 OR COMM 1039

Equivalent Subjects: COMM 3020 - Media Arts Project

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 2054 Animation and Visual Effects (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm2054/>)

Explore the art and technology of animation and visual effects as applied to digital screen media production. In this unit, you will be introduced to the principles of animation and compositing and learn how to create effective motion sequences integrated with sound. Working with commercial software, you will explore the unique possibilities of animation and visual effects production and experiment with alternative, creative, narrative storytelling approaches. Develop critical, conceptual and practical skills within the context of animation and visual effects which will then enable you to deliver powerful and compelling visual stories on multiple media platforms.

COMM 3005 Australian Textual Studies (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3005/>) **Legacy Code:** 100849

This unit aims to increase students' knowledge of the scope and variety of Australian writing. It examines a range of Australian texts from a number of contexts, usually organised along historical and/or thematic lines, and considers the role of writing both "high" literature and more popular forms in constructions of Australian culture. Issues of place, gender and race may be foregrounded, and consideration given to how these influence images of Australia. Film and television texts may also be included or emphasised.

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYB 0186 - Australian Textual Studies LGYB 4976 - Australian Authors Special Study LGYB 4974 - Australian Literature The City and The Bush

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 3006 Cinema and Experience (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3006/>) **Legacy Code:** 101984

Film Studies and Literary Studies share some common theoretical foundations and analytical methods. However, considered in its cultural contexts, the question of how a film is experienced by spectators becomes critical. Films engage spectators in an embodied and affective way. The unit will argue that we cannot understand how a film takes up thematic and cultural questions without exploring the dynamics of spectatorship. This unit will explore some key approaches to film spectatorship and will look at how cinematic techniques shape narrative, genre, character, and thematic and cultural questions into embodied and affective experience.

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYB 0027 - Film Genre and Affect LGYA 0256 - Film and Affect

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 3008 Communication Research Project (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3008/>) **Legacy Code:** 101930

This final year unit provides a capstone experience as a bridge into professional work or as a precursor to further research studies. The 'open box' approach invites students to develop a concept for a research report or professional project, undertaking preparatory stages of collective and individual research in an area of interest that has emerged as a result of previous studies. Students will generate project options that draw on historical and contemporary research issues and approaches to guide the development of their own research questions and methods specific to their object of research. A range of methodological approaches will be explored, including practice-based methods, industry observation/shadowing, qualitative interviews, and quantitative digital methods. Students will develop their own reading lists, identify appropriate research methods and conduct some pilot testing and evaluation of findings for their project. Students will also learn how to read and consume academic and scholarly research in order to critique problematic issues in published research reports.

Level: Undergraduate Level 3 subject

Equivalent Subjects: COMM 3039 - Visual Thinking COMM 3019 - Media Analysis

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 3010 Creative Industries Professional Project or Internship (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3010/>) **Legacy Code:** 102433

Creative Industries Professional Project or Internship will allow students to work with Creative Industries practitioners in a 'real world' context. Students will collaborate with an industry partner, applying design thinking to achieve creative solutions within an internship placement or develop their own creative industry project.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 3011 Creative TEAMS 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3011/>) **Legacy Code:** 102431

Creative TEAMS 1 will bring students together in interdisciplinary groups to work with Creative Industries practitioners in a 'real world' context. Students will learn how to collaborate to develop an original solution to a "wicked" problem set by the industry partner. Through research and planning, in relation to a set of relevant constraints: such as cultural, social, environmental, site and audience, students will develop a strategy that utilises the appropriate media, message and approach, to address the identified target audience, based on research findings.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 3012 Creative TEAMS 2 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3012/>) **Legacy Code:** 102432

Creative TEAMS 2 will bring students together in interdisciplinary groups to work with Creative Industries practitioners on professional projects. Students will learn how to collaborate to develop original solutions with industry partners. Through research and planning, in relation to a set of relevant constraints: such as cultural, social, environmental, site and audience, students will develop a strategy that utilises the appropriate media, message and approach, to address the identified target audience, based on research findings.

Level: Undergraduate Level 3 subject

Pre-requisite(s): COMM 3011

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 3013 Creative Writing Project (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3013/>) **Legacy Code:** 100859

This unit extends students beyond the writing of individual stories and poems into larger areas of creative writing, such as the discontinuous narrative, the novella, and the cycle of related poems and/or stories. It involves students in the process of developing a major project from an initial set of ideas, through the stages of drafting to a "finished" product, using workshop techniques, individual interviews and peer critiquing.

It aims to give each student some experience of a relationship with readers (fellow students) and an editor (the tutor).

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 3014 Digital Communication (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3014/>) **Legacy Code:** 102518

This unit covers the theory and practice of social/digital media (SDM) for marketing and communication in a variety of business, advertising and public relations agency contexts. It provides an introduction to the areas of strategy, creative writing and media planning for SDM. It examines trends and issues surrounding the usage of SDM and application and development of practical and tactical tools. Case studies and examples are used to demonstrate best practices. Students develop a major project where they demonstrate appropriate and professional usage of SDM strategies and tactics in a marketing communication context.

Level: Undergraduate Level 3 subject

Pre-requisite(s): MKTG 1001 OR

MKTG 1009 AND

COMM 2011

Equivalent Subjects: COMM 3016 - Digital and Social Media Communications

COMM 3015 Digital Journalism Production (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3015/>) **Legacy Code:** 102057

Digital technologies have revolutionised news delivery. Journalists in every area of the profession now require video, audio, online and print skills to work across multiple platforms and contexts. This unit introduces students to multiplatform digital journalism and the ways in which multiple media can be used to tell stories for a range of contexts. Students develop their own blog site, that is populated using digital devices for working with video, audio and text to engage with a range of social media storytelling modes to extend stories across multiple media contexts. Based on an understanding of ethical and informed journalism practices, students are encouraged to develop their own voice as an independent thinker and writer into the public domain of online publishing.

Level: Undergraduate Level 3 subject

Equivalent Subjects: COMM 3036 - Television Journalism COMM 3030 - Radio Journalism

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 3018 Internship (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3018/>) **Legacy Code:** 101173

This unit provides students with the opportunity to apply the skills and knowledge they are developing during their studies to tasks within a workplace (the host organisation). The unit may involve substantial contact with the public through workplace placements and, for this reason, it is equivalent to a professional placement. The unit is recommended for students in their third year of study (or part time equivalent).

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYA 0737 - Advertising Internship LGYB 0070 - Professional Internship - Public Relations LGYB 0119 - Professional Internship - Journalism LGYB 0074 - Media Co-Productions DESN 3009 Professional Practice Design

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 3022 Media Memory (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3022/>) **Legacy Code:** 101931

Media memory is now a critical field of study in journalism, advertising, visual communication and media. The media builds local, national and transnational identities through the representation of the past. Media industries such as advertising rely upon collective memories to design campaigns in order to reach particular audiences. Journalists increasingly 'assemble' stories from digital archives, recombining similar or related events from the past to build stories and features of the present. Individuals increasingly contribute to news events through their own 'witnessing' of events, capturing and sharing material using mobile and social media. This unit addresses these processes by providing a brief history and overview of approaches to thinking about media and memory, in the context of the significance of media convergence and digital memory within contemporary media ecologies. The unit provides students with a series of case studies that approach the memory of particular events, drawing on examples from advertising, public relations, visual communication, animation, film, broadcasting and journalism. Students develop a media research project that engages with the material presented in the unit.

Level: Undergraduate Level 3 subject

Equivalent Subjects: COMM 3031 - Researching Media Audiences

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 3024 Modernity and Cinema (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3024/>) **Legacy Code:** 101001

This unit will engage with the question of how social and aesthetic issues interact in films by examining specific questions which are related to cinema history. Issues of identity will be used to focus upon the ways in which historical contexts interrelate with artistic practice. The unit will consider the process of creating emotions, the consideration of techniques of production and the manipulation of cinema language, the use of narrative or non-narrative form to convey the sense of reality, (or the unreal, the uncertain).

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYC 1620 - Modernity and Cinema

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 3025 News Teams (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3025/>) **Legacy Code:** 102063

This unit introduces students to the concept surrounding the editorial team process and the culture of the newsroom across all news media. It explores the social and organisational context of news production in commercial, public or community news organisations. It draws upon theory from communication, sociology, psychology, and management to provide a broad understanding of the principles and practices of effective and creative news teams. It critically analyses the structures, processes and techniques of news gathering to enable quality team outcomes. The unit encourages collaborative working relationships and develops students' own practice in a team.

Level: Undergraduate Level 3 subject

Equivalent Subjects: COMM 3026 - News Teams and Newsroom Cultures

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 3035 TV Production 2 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3035/>) **Legacy Code:** 102409

In 2023, this unit replaced by 102834 - Screen Media: Capstone Production. Television Production 2 is a practical and vocational unit that provides students with a range of advanced skills for working in the television production and broadcast sector. The course encourages multiplatform conceptualisation and distribution of projects exploring the futures of television in online, mobile and networked environments. Students build on their knowledge and experience from TV Production 1 across a range of roles including project planning, scriptwriting and research, filming, sound recording, video editing, and post production. Working in small teams students develop and produce a TV series with professional production values for broadcast through public media contexts.

Level: Undergraduate Level 3 subject

Pre-requisite(s): COMM 3034

Co-requisite(s): COMM 2036

Equivalent Subjects: COMM 3021 - Media Arts Workshop COMM 3038 - Video Project COMM 3033 - TV Production COMM 3050 - Screen Media Capstone Production

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 3037 Transmedia Production (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3037/>) **Legacy Code:** 101939

In 2023, this unit replaced by 102833 - Screen Media: Capstone Development. Video is now delivered across multiple platforms and spaces, both online and offline via mobile networks; through festivals, public spaces and galleries and across social network sites. At the same time video productions are increasingly designed to be Transmedia where different platforms are strategically used to extend and add new layers to stories while deepening audience interaction and engagement. Students will learn about 360 degree storytelling as strategic communications. Students will develop a professional transmedia project proposal for a service, product or system that works across multiple platforms, engaging with audiences through social network sites. Students will explore how content can be meaningfully embedded and linked across multiple platforms to engage target audiences.

Level: Undergraduate Level 3 subject

COMM 3042 Writing Poetry (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3042/>) **Legacy Code:** 101011

What does a poem look or sound like today? In this unit students examine poetic forms, styles and techniques from various cultures of the 20th and 21st centuries. Students are taught to analyse and write poetry via a series of guided workshop exercises. They learn that writing poetry also involves becoming a skilled reader of and about poetry. Students enrich their knowledge and love of poems by scrutinising a range of poetic types and methods including imagism, metaphor, free verse, humour, spoken word traditions, song-writing, ecological poetics, and visual and digital poetics. No previous experience in poetry writing is necessary.

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYB 4537 - Writing Poetry

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 3043 Writing Portfolio (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3043/>) **Legacy Code:** 100582

In this level 3 foundation unit of the Creative Writing Major, students are guided by experienced, professional writers in producing an extended portfolio of original creative writing, in a genre (or genres) of their choice. Students will read closely from a wide range of literary texts while completing an intensive program of in-class writing and workshopping activities. They will gain skills in reading and interpreting texts from different genres, eras and contexts - including culturally diverse settings. Students will develop skills in drafting, editing and polishing their own creative work, and in situating their writing within the Australian literary and publishing industries.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 3045 Advertising: Campaigns (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3045/>) **Legacy Code:** 102730

In this capstone unit students will learn to professionalise key aspects of the advertising management process. The unit provides the opportunity to link and apply theoretical understanding with research, writing, planning, creative development and media, and presentation skills in response to a live client brief provided by a multi-national advertising agency. The 'real world' situation allows students to demonstrate their capacity for problem analysis and to develop appropriate and timely solutions. Students will work within an allocated budget and to realistic industry deadlines to produce a campaign they can include in their portfolio. Assessment tasks will enable students to demonstrate emerging professional capacity and prepare themselves for a communication position, either in an advertising agency, media agency or consultancy.

Level: Undergraduate Level 3 subject

Pre-requisite(s): COMM 2011 AND

COMM 2006

Equivalent Subjects: LGYA 1057 - Advertising Campaigns COMM 3007 - Communication Campaigns

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 3046 Personal Branding Strategies: Build and Manage Your Career Profile (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3046/>) **Legacy Code:** 102780

A strong personal brand can open doors to career opportunities, promotions and partnerships in all industries. This unit is essential for anyone who wants to propel their career, build a reputation, capitalise on opportunities and stand out to future employers. Using user-centred theories and approaches, we'll teach you how to create a personal brand aligned to your values and goals in a way that engenders confidence, trust and credibility. You'll learn the skills to network so you can connect with and leverage the influencers who can accelerate your reputation. How to build and showcase your brand, both online and offline, and how to manage it over time. How to craft short talks and presentations (based on the philosophies and techniques of TED), to inspire your audience to action. This unit is recommended for all students, regardless of discipline.

Level: Undergraduate Level 3 subject

Incompatible Subjects: COMM 2049 - Personal Branding Strategies Build and Manage Your Career Profile

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 3047 Episodic Screen Media (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3047/>) **Legacy Code:** 102831

In this subject students will analyse and develop an episodic narrative production proposal using concepts and production strategies for serialised narrative storytelling for online platforms. Students will be introduced to the University's broadcast television studio and operation. Students will build their knowledge and practical skills in the conceptualisation, planning, editing of serialised online web and streamed digital based narratives. This subject will require students' attendance in workshops delivered in blocks and participation in studio recording.

Level: Undergraduate Level 3 subject

Equivalent Subjects: COMM 3021 - Media Arts Workshop

COMM 3038 - Video Project

COMM 3033 - TV Production

COMM 3034 - TV Production 1

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 3048 Immersive Screen Technologies (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3048/>) **Legacy Code:** 102832

New technology developments have facilitated the integration and design of immersive technologies to more fully engage audiences with narratives and brands. In this subject, students will study user engagement and visual effects theory and analyse the application of these theories and business models on innovative commercial and creative industries case studies. Students will be introduced to using immersive cross platform technologies and 360 filming. Students will develop a scoping and design template for their own project concept. The project proposal will outline the rationale, using visual design elements and compositing requirements, to build a multi-layered digital experience for a venue, project or brand.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 3049 Screen Media: Capstone Development (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3049/>) **Legacy Code:** 102833

In this unit students develop a major screen media project which will be produced in the unit Screen Media Capstone Production. The nature of the project may vary depending on students' interests and career aspirations. Projects may range from documentary, drama, episodic, animation, immersive, transmedia, interactive and other hybrid forms. Depending on the nature the project, projects maybe developed individually or in interdisciplinary groups. Projects may be original creative ideas or undertaken in collaboration with an industry and/or community partner.

Level: Undergraduate Level 3 subject

Pre-requisite(s): COMM 3047 AND

COMM 3048

Equivalent Subjects: COMM 3021 - Media Arts Workshop COMM 3037 - Transmedia Production

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 3050 Screen Media: Capstone Production (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm3050/>) **Legacy Code:** 102834

In this unit students produce projects that were planned and developed in the previous unit, Screen Media: Capstone Development. This unit provides the opportunity for students to consolidate theoretical knowledge and practise-based skills acquired throughout their course to produce a substantial screen media project. Students may choose to take on a leadership role such as producer or director, or students may choose develop their skills targeted to their own area of interest. This may involve a specific production area or crew role which may be undertaken on more than one project. Students will also produce an online portfolio featuring key achievements made throughout the course, for the purpose of enhancing graduate employment prospects.

Level: Undergraduate Level 3 subject

Equivalent Subjects: COMM 3021 - Media Arts Workshop COMM 3038 - Video Project COMM 3033 - TV Production COMM 3035 - TV Production 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 7001 Adaptive Leadership, Management and Team Work (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm7001/>) **Legacy Code:** 102519

The Creative Industries provide opportunities for innovative and integrative working styles and methods, particularly in SMEs and multi-disciplinary collaborations. This industry-facing unit provides an understanding and application of specified theories and methods of leadership, management and collaboration, with a creative, technological and/or entrepreneurial focus. You will devise an individual, semester-long professional development challenge in leadership, management or collaboration and apply your learnings to problem-solve a current professional situation. A supplementary collaborative group project allows you to apply and customise industry roles, techniques and processes in a strategic response to a client brief. You will investigate and analyse one model of leadership, management or collaboration that is found in the creative industries.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 7002 Convergent Media Internship (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm7002/>) **Legacy Code:** 101426

This professionally oriented unit consists of a work internship placement with a corporate media or community communications division of an organisation. These agencies may include WSU research centres, educational, community and cultural agencies within Sydney and corporate and professional organisations in Australia or off-shore, as agreed. The focus of the internship is to research and contribute to audience/community liaison and development, and/or to contribute to the cross media production and/or marketing plans of the organisation. During the placement students will develop documentation to capture and manage ideas about professional development, industry trends, professional links, case studies and associated documentation. On completion of the placement students will present a comprehensive report.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 7003 Foundations of Media Arts Production (PG) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm7003/>) **Legacy Code:** 102300

This unit explores creative and independent media arts practices across moving image, audio and participatory forms, and introduces students to fundamental principles of long-form sound and screen production. The unit maps theoretical and practical connections between the creation and study of images and sound across media formats through an integrated theory/practice programme focused on the processes through which long-form media artefacts are created. Students learn how to analyse and critically evaluate screen media and also to plan and make simple short works of their own. It introduces students to relevant media arts histories and contexts (with a focus on cinema) in addition to a range of technologies, media practices and production techniques.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 7004 In the Realms of the Sensory: Ecologies of Word, Sound and Image (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm7004/>) **Legacy Code:** 102342

This unit develops an awareness of the cultural, aesthetic and sensory contexts in which the communication, design and creative arts are practiced. It examines approaches to creative practice and the role that creativity and experimentation, as well as collaboration and social creativity, play in the research process. Particular attention is paid to visual, aural, and alphabetic technologies, and the form of augmented virtual realities and artefacts they create. Mimicry, novelty and improvisation, critique and speculation, 'handability' or tacit knowledge are some of the practices and concepts studied. While the unit is designed for students engaged in creative research, it has relevance for those analysing creative works as part of their research.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 7006 Media Project Production (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm7006/>) **Legacy Code:** 101745

This unit offers an individual, or group of, student(s) the opportunity to develop, produce and evaluate a Media Project developed in the Media Project Proposal Unit. The project production will cover implementation and evaluation issues relevant to media products. The final product is intended to be a significant new media project prototype. Individual students can negotiate the project of their choice, but this should be based on the Media Project Proposal (or equivalent) developed in the Spring Semester, or first half of semester if you are a full time student. A 5,000 word report forms part of the assessment.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): COMM 7007

Equivalent Subjects: LGYA 1411 - Media Production

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 7008 Media Research Project (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm7008/>) **Legacy Code:** 102521

This research-focused unit enables students to develop and produce a major work on a convergent media subject and theme, such as: communications and design theories and practices, data visualisation, content creation for convergent media, and digital humanities.

The unit will cover methods for designing and implementing an academic or practice-based research project through workshops and exercises. Students may be introduced to techniques for: differentiating appropriate research methodologies; integrating research techniques into the planning and creation of a research project; field research, action research and research-creation; devising a literature review and constructing a logical argument; and critical reading.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 7009 Mobile Media (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm7009/>) **Legacy Code:** 101743

The proliferation of the mobile device and the evolution of mobile networks has profoundly changed the social and interpersonal sphere and the global media landscape. This unit combines both theory and practice to engage with Mobile Communications and Society: the cultural, family and interpersonal consequences of mobile communication and its effect on every day life, social cohesion, political and economic activities, social development and change, and Mobile Media: current media production and distribution platforms, practices and trends. This unit includes the production of content for distribution via mobile devices.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 7010 New Genres in Research Writing (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm7010/>) **Legacy Code:** 102662

This unit focuses on new, innovative, interdisciplinary genres of writing arising after the putative end of critique and with the rise of non-representational thought. These new writing practices mix genres and meld theoretical, critical and creative modes. Focusing on fictocriticism, creative nonfiction, documentary fiction and the multi-media essay, we explore the experimental ethos and affective and new materialist methodologies to which these forms lend themselves. Students will develop a body of original creative-critical work in any genre through a series of seminars and writing workshops.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 7011 Researching Convergent Media (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm7011/>) **Legacy Code:** 101962

The contemporary creative industries landscape is characterised by the breakdown of traditional media silos and the transformation of media production and consumption practices. Media, marketing and creative professionals are now required to understand and connect with their audiences across multiple media platforms and to undertake diverse research deploying many new methodologies. The aim of this unit is to provide students with an historical, geopolitical and theoretical introduction to research in the creative industries. The case studies and topics covered vary from semester to semester and can include data visualisation, digital ethnography, digital games, community media, digital arts, activist networks, social media and cross platform projects. Using current media theory, design theories, and research methodologies, students will select, analyse and contextualise case studies.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 1632 - Methods and Case Studies in Convergent Media

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 7012 Strategic Communication (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm7012/>) **Legacy Code:** 102292

Local and international industry trends show that strategic communication, particularly including agendas of innovation and ethics, are a growing force in the convergent media landscape. This unit introduces students to both the science and art of strategic communication. It is grounded in an advanced understanding of the complexity of human communication processes and driven by a conviction that systematic research and analysis is required to inform strategic communication responses. This unit is based around a series of assessments that require students to address a real-world business challenge or a social issue in ways that take advantage of convergent media environments.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: LGYA 1704 - Strategic Communication

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 7013 Ideate, Develop: Makerspace 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm7013/>) **Legacy Code:** 102717

Ideation is at the core of creative industries. This practice-led research unit will teach you how to ideate, develop and pitch a major project, which you can then produce in the Makerspace 2 unit. We will show you how to mobilise your own creative interests, how to identify and research a creative or market challenge, and teach you techniques for generating ideas and innovative solutions-based responses. You'll learn systemic methods and tools for creative ideation across multiple platforms and channels, including UX (user experience), UI (user interactivity), design thinking, IA (information architecture) and UCD (user centred design). We'll also teach you how to pitch your project so it captures the imagination and attention of clients and audiences.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: COMM 7007 - Media Project Proposal

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 7014 Innovate: The Entrepreneurial Mindset (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm7014/>) **Legacy Code:** 102719

This unit focuses on current trends and issues in innovation and entrepreneurship in the creative industries with a strong focus on small to media enterprises (SME), ventures within existing business and within government. The unit addresses methodologies for innovation, such as design-thinking and futuring; the role and efficacy of public and private incubators; the forms, foundations, qualities and capacity of entrepreneurship and business development strategies; and the role of networking and industry partnerships, with a focus on the capacities of social media to effect change in markets and partnerships, and business development strategies. The unit covers existing 'new' business models and emerging trends, such as social entrepreneurship and co-working spaces. The unit builds on previous capstone units Ideate, Develop: Makerspace 1 and Produce, Generate: Makerspace 2 in introducing further methods for creative ideation with a focus on technology.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: COMM 7005 - Innovation and Entrepreneurship PG

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMM 7015 Key Concepts in Communication and Media Research (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comm7015/>)

Mobile and networked media technologies have massively transformed how we work, learn, interact and play. Given this transformation, media and communication is now a vital area of research in every field and discipline. In this subject, you will be introduced to classic and contemporary media and communication technologies, texts and scholars as you explore historical and still unfolding developments and events. In doing so, you will consider how changes to media technologies, industries and practices impact upon – and are influenced by – people, cultures and economies. As you expand your knowledge of existing scholarship, you will learn how to identify and integrate the concepts, theories, methods and ethical frameworks that are most appropriate for your own thesis project.

Complementary Therapies (CMPL)

CMPL 1001 Traditional Chinese Medicine 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl1001/>) **Legacy Code:** 400346

This unit provides a comprehensive introduction to traditional Chinese medicine (TCM). Students are introduced to basic TCM theory, and the physiological principles of the diagnostic system that forms the basis of TCM practice. The history and philosophy of Chinese medicine is introduced and discussed in the light of contemporary clinical practice.

Level: Undergraduate Level 1 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 1002 Traditional Chinese Medicine 2 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl1002/>) **Legacy Code:** 400348

This unit provides learning experiences that enable students to expand upon their understanding of TCM philosophy and principles, with particular reference to developing diagnostic skills in TCM. Students acquire basic skills in case history taking, interpretation of relevant signs and symptoms, arriving at a TCM diagnosis, and devising suitable treatment strategies.

Level: Undergraduate Level 1 subject

Pre-requisite(s): CMPL 1001

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 2002 Channels and Points 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl2002/>) **Legacy Code:** 400874

Acupuncture is one of the principal therapeutic interventions in Traditional Chinese Medicine (TCM). This unit introduces students to acupuncture theory and practice, and provides opportunity to develop practical skills. It covers the theory of channels and points, channel pathway, point location and indications of the conception and governor vessels, and the first 6 channels in the meridian cycle. This unit also expands upon the student's understanding of TCM theory and practice principles. This unit includes mandatory clinical placement

Level: Undergraduate Level 2 subject

Pre-requisite(s): CMPL 1002

Co-requisite(s): CMPL 2006

Equivalent Subjects: LGYA 7238 - Acupuncture 1

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 2003 Channels and Points 2 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl2003/>) **Legacy Code:** 400875

Acupuncture is one of the principal therapeutic interventions in Traditional Chinese Medicine (TCM). This unit completes the study of the system of channels and points, which forms the basis of clinical application of acupuncture. It covers the channel pathway, point location and indications of the last 6 channels of the meridian cycle and the extra points. It also reinforces the student's ability to identify and palpate surface anatomy relevant to identifying the acupuncture point locations covered in this unit and relevant safe administration of needling. This unit expands the student's understanding of TCM theory and practice principles. This unit includes mandatory clinical placement

Level: Undergraduate Level 2 subject

Pre-requisite(s): CMPL 2006 AND

CMPL 2002

Equivalent Subjects: LGYA 7238 - Acupuncture 1

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 2004 Chinese Materia Medica 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl2004/>) **Legacy Code:** 400876

Herbal medicine is one of the principal therapeutic interventions in Traditional Chinese Medicine. This unit introduces students to the therapeutic and reference organisation of Chinese medicinal herbs, and enables students to commence using the materia medica. It covers the commonly used herbs in each of the six categories of the Chinese materia medica, including the herbal properties, actions, indications, contraindications, combined usage as well as herbal dispensing. This unit also expands upon the student's understanding of TCM theory and practice principles. This unit includes mandatory clinical placement

Level: Undergraduate Level 2 subject

Pre-requisite(s): CMPL 1002

Co-requisite(s): CMPL 2006

Equivalent Subjects: LGYA 7239 - Chinese Herbal Medicine 1

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 2005 Chinese Materia Medica 2 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl2005/>) **Legacy Code:** 400877

This unit completes the study of Chinese medicinal herbs, which forms the basis for Chinese herbal medicine. It covers the commonly used herbs in each of the twelve categories of the Chinese materia medica, including the herbal properties, actions, indications, contraindications and combined usage. It also introduces the basic knowledge of herbal pharmacognosy. This unit also expands upon the student's understanding of Traditional Chinese Medicine theory and practice principles.

Level: Undergraduate Level 2 subject

Pre-requisite(s): CMPL 1002 AND

CMPL 2004

Equivalent Subjects: LGYA 7240 - Chinese Herbal Medicine 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 2006 Traditional Chinese Medicine 3 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl2006/>) **Legacy Code:** 400352

This unit enables students to develop a sound understanding of causes of disease in TCM with a particular focus on TCM disease pattern differentiation. Students will be able to identify the clinical manifestations relating to specific patterns and develop the appropriate TCM treatment principles. This is complemented by the reinforcement of skills in case history taking and TCM diagnostics.

Level: Undergraduate Level 2 subject

Pre-requisite(s): CMPL 1002

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 3001 Acupuncture Techniques (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl3001/>) **Legacy Code:** 400873

This unit consolidates and extends students' knowledge of acupuncture theory and practice, and provides further opportunity to develop practical skills. Students are introduced to the theory of point combinations and the development of acupuncture prescriptions and treatment plans. Practical sessions include obtaining Qi (De Qi), promoting Qi techniques, tonifying and reducing needling techniques, moxibustion, cupping, Gua Sha, Tuina, intradermal/cutaneous needling, scalp acupuncture, auricular acupuncture, wrist/ankle acupuncture, electroacupuncture and laser acupuncture. This unit also expands upon the student's understanding of the theory and practice principles of traditional Chinese medicine.

Level: Undergraduate Level 3 subject

Pre-requisite(s): CMPL 2003 AND CMPL 2006

Equivalent Subjects: CMPL 2001 - Acupuncture 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 3002 Chinese Medicinal Formulas (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl3002/>) **Legacy Code:** 400878

Herbal medicine is the principal therapeutic intervention in Traditional Chinese Medicine (TCM). This unit follows from Chinese Materia Medica 1 & 2, and begins the study of major Chinese herbal formulas, which form the basis for clinical prescribing in Chinese herbal medicine. The focus of this unit is to compare and contrast the main formulas in specified categories, and to analyse the specific actions of the herbs that make up the formula. Students will be required to formulate, assemble and prepare complex prescriptions. This unit expands upon the student's knowledge of the Chinese Materia Medica, as well as the understanding of TCM theory and practice principles.

Level: Undergraduate Level 3 subject

Pre-requisite(s): CMPL 2006 AND CMPL 2005

Equivalent Subjects: LGYA 7240 - Chinese Herbal Medicine 3

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 3003 Traditional Chinese Medicine Practice 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl3003/>) **Legacy Code:** 400354

This unit is focused on introductory clinical practice in a clinical setting. It enables the students to link theory with practice. It expands the students' knowledge base of Chinese medicine theory and diagnosis, and the application of acupuncture and Chinese herbal medicine treatment. Students assist with clinical practice, take consultations, and perform basic acupuncture related techniques. Students will also learn basic skills in handling herbal preparation and dispensing. This unit includes mandatory clinical placement

Level: Undergraduate Level 3 subject

Pre-requisite(s): CMPL 2006

Co-requisite(s): CMPL 3001 AND CMPL 3002

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 3004 Traditional Chinese Medicine Practice 2 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl3004/>) **Legacy Code:** 400356

This unit focuses on the application of the skills and knowledge of TCM within a clinical setting. The unit provides the opportunity to expand students' knowledge base of the theory Chinese medicine through the work integrated experiential learning. Specifically, the unit covers TCM diagnosis, the application of Acupuncture techniques and the implementation of Chinese herbal medicine treatments. The unit also covers basic Chinese language including Pin Yin and Romanisation to enable students to apply TCM terminology as part of clinical practice. Under supervision, students have the opportunity to consult with clients/patients, perform basic acupuncture, and undertaken herbal prescription. Students will also undertake basic herbal processing and preparation of medicinal herbs.

Level: Undergraduate Level 3 subject

Pre-requisite(s): CMPL 3003

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 4001 Block Clinical Practicum (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl4001/>) **Legacy Code:** 401104

This unit provides the student with intensive, supervised clinical practice experience. Arrangements are usually made for students to complete this stage in China. Due to the travel restriction as a result of COVID-19 pandemic, this unit in 2020 is wholly offered in Australia. The unit represents the final clinical practicum stage with an opportunity in developing clinical skills. Students will be expected to demonstrate competence in handling patients in a clinical context, and manage their integrated care using Traditional Chinese Medicine.

Level: Undergraduate Level 4 subject

Incompatible Subjects: CMPL 7002 - Block Clinical Practicum (PG) AND LGYA 7257 - Block Clinical Practicum

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 4002 Chinese Internal Medicine 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl4002/>) **Legacy Code:** 401098

The study of internal medicine forms the basis of clinical practice in Traditional Chinese Medicine (TCM). This unit begins to bridge the gap between theory and practice. It enables the health professional to analyse, diagnose and treat common internal diseases with both acupuncture and herbal medicine and using a TCM approach. The focus of this unit is on the analysis of major presenting symptoms.

Level: Undergraduate Level 4 subject

Pre-requisite(s): CMPL 2006 AND

CMPL 3001 AND CMPL 3002

Incompatible Subjects: 700918 - Chinese Internal Medicine 1 (PG) LGYA 7251 - Chinese Internal Medicine 1

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 4003 Chinese Internal Medicine 2 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl4003/>) **Legacy Code:** 401102

This unit builds on Chinese Medicine 1 and extends the student's ability to analyse, diagnose and treat common and difficult diseases in internal medicine with both acupuncture and herbal medicine and using a TCM approach. Students will develop an understanding of the causes and pathophysiological mechanisms of a wide range of diseases.

Level: Undergraduate Level 4 subject

Pre-requisite(s): CMPL 2006 AND

CMPL 3001 AND

CMPL 3002

Incompatible Subjects: CMPL 7004 - Chinese Internal Medicine 2 (PG) AND LGYA 7251 - Chinese Internal Medicine 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 4004 Classical Texts in Chinese Medicine (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl4004/>) **Legacy Code:** 401100

This unit provides further learning experiences that enable the students to explore the original theories on physiology, pathology, diagnosis, differentiation and treatment of diseases through select periods of Chinese history. Many theoretical concepts, diagnostic systems and therapeutic methods of Traditional Chinese Medicine (TCM) are still in current usage, and will be covered through the study of important classical texts and academic schools of TCM thought. This unit expands upon the student's understanding of TCM theories and practice principles through studies of the classical literature.

Level: Undergraduate Level 4 subject

Pre-requisite(s): CMPL 2006 AND

CMPL 3002

Incompatible Subjects: CMPL 7006 - Classical Texts in Chinese Medicine (PG)

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 4005 Specialities in Traditional Chinese Medicine 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl4005/>) **Legacy Code:** 401099

This unit provides learning experiences that enable the health professional to analyse, diagnose and treat common gynaecological diseases and musculoskeletal conditions using a Traditional Chinese Medicine (TCM) approach with acupuncture and Chinese herbal medicine. Students will develop a good understanding of the causes and pathophysiological mechanisms of common gynaecological diseases and musculoskeletal conditions.

Level: Undergraduate Level 4 subject

Pre-requisite(s): CMPL 2006 AND

CMPL 3001 AND

CMPL 3002

Incompatible Subjects: CMPL 7021 - Specialities in Traditional Chinese Medicine Practice 1 (PG) LGYA 7248 - Specialities in Traditional Chinese Medicine 1

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 4006 Specialities in Traditional Chinese Medicine 2 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl4006/>) **Legacy Code:** 401103

The specialties of paediatrics, dermatology, ear, nose, throat (ENT) and eye diseases, are important divisions of Traditional Chinese Medicine (TCM) activity. This unit enables students to develop an understanding of the aetiology and pathophysiology of common paediatric, dermatological, ENT and eye disorders, and to analyse, diagnose and treat these conditions using acupuncture and Chinese herbal medicine.

Level: Undergraduate Level 4 subject

Pre-requisite(s): CMPL 2006 AND

CMPL 3001 AND

CMPL 3002

Incompatible Subjects: CMPL 7022 - Specialities in Traditional Chinese Medicine 2 (PG) LGYA 7259 - Specialities in Traditional Chinese Medicine 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 4007 Traditional Chinese Medicine Practice 3 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl4007/>) **Legacy Code:** 401101

This unit represents a continuation of the clinical practicum and development of clinical skills in relation to patient management and TCM health preservation and enhancement, including lifestyle, diet and physical exercise. Students will also be able to apply their knowledge of professional theory, practice, research and evaluation skills to the investigation of TCM problem. Students will be expected to demonstrate competence in handling patients in a clinical context, synthesise knowledge from their studies of specialities in Traditional Chinese Medicine and critically examine the practical aspects of acupuncture and Chinese herbal medicine research. This unit includes mandatory clinical placement

Level: Undergraduate Level 4 subject

Pre-requisite(s): CMPL 3004

Incompatible Subjects: CMPL 7023 - TCM Practice 3 (PG) AND LGYA 7249 - TCM Practice 3

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 4008 Traditional Chinese Medicine Practice 4 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl4008/>) **Legacy Code:** 401105

This unit represents a continuation of the clinical practicum and development of clinical skills. Students will integrate theoretical knowledge, practical and research skills, learnt in previous units, into clinical practice, including in: case investigation; diagnosis; formulation of treatment strategies; and the delivery of treatments to patients. Students will learn to act ethically in professional contexts. Students are expected to demonstrate professional competence in handling patients in a clinical context, critically evaluating complex cases, diagnosing, devising and managing the patients using TCM therapies.

Level: Undergraduate Level 4 subject

Pre-requisite(s): CMPL 4007

Incompatible Subjects: CMPL 7024 - TCM Practice 4 (PG) AND LGYA 7255 - TCM Practice 4

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7001 Advanced Acupuncture (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7001/>) **Legacy Code:** 400578

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7002 Block Clinical Practicum (PG) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7002/>) **Legacy Code:** 400927

This unit provides the student with intensive, supervised clinical practice experience. Arrangements will be made for students to complete this stage in China. This will involve students paying their own travel fares, as well as, training and accommodation fees to the Chinese institution. This unit represents the final clinical practicum stage and development of clinical skills. Students will be expected to demonstrate competence in handling patients in a clinical context, and manage their integrated care using TCM.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: LGYA 7257 - Block Clinical Practicum

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7003 Chinese Internal Medicine 1 (PG) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7003/>) **Legacy Code:** 400918

The study of internal medicine forms the basis of clinical practice in traditional Chinese medicine. This unit begins to bridge the gap between theory and practice. It enables the health professional to analyse, diagnose and treat common internal diseases with both acupuncture and herbal medicine and using a TCM approach. The focus of this unit is on the analysis of major presenting symptoms.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: LGYA 7246 - Chinese Internal Medicine

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7004 Chinese Internal Medicine 2 (PG) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7004/>) **Legacy Code:** 400922

This unit builds on Chinese Medicine 1 and extends the students ability to analyse, diagnose and treat common and difficult diseases in internal medicine with both acupuncture and herbal medicine and using a Traditional Chinese Medicine approach. Students will develop an understanding of the causes and pathophysiological mechanisms of a wide range of diseases.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: LGYA 7251 - Chinese Internal Medicine 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7005 Chronic and Complex Disorders in Chinese Medicine (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7005/>) **Legacy Code:** 401137

This unit will enable practitioners to extend their clinical reasoning skills to chronic and complex conditions seen in contemporary Chinese Medicine clinical practice. The unit will analyse specific cases and conditions which present a range of complex and contradictory signs and symptoms making diagnosis and treatment challenging. Senior practitioners of both acupuncture and Chinese herbal medicine will present their own clinical experience and assist students to understand their diagnostic and treatment processes.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: NATS 7005 - Chinese Medicine Specialties AND CMPL 7011 - Dermatology in Chinese Medicine

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7006 Classical Texts in Chinese Medicine (PG) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7006/>) **Legacy Code:** 400969

This unit provides further learning experiences that enable the students to explore the original theories on physiology, pathology, diagnosis, differentiation and treatment of diseases through select periods of Chinese history. Many theoretical concepts, diagnostic systems and therapeutic methods of Traditional Chinese Medicine (TCM) are still in current usage, and will be covered through the study of important classical texts and academic schools of TCM thought. This unit expands upon the students understanding of TCM theories and practice principles through studies of the classical literature.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: LGYA 7244 - Classical Texts in Chinese Medicine

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7007 Clinical Application of Classical Chinese Herbal Medicine (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7007/>) **Legacy Code:** 401130

This unit presents the origin, development and features of classical Chinese herbal medicine (Jing Fang), and reveals their pharmacological and clinical outcomes based on the latest clinical observation and research. This unit will appeal to practitioners seeking to extend and deepen their knowledge and clinical skills with Chinese herbs and to students embarking on research in this area. The classical texts contain deep insights on Chinese herbs and formulae for a range of conditions. Selective herbal formulae from the Treatise on Cold Pathogenic Diseases (Shanghan Lun) and the Synopsis of Golden Chamber (Jingui Yaolue) are explored in depth to demonstrate the clinical applications.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7008 Clinical Applications of Classical Acupuncture (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7008/>) **Legacy Code:** 401131

This unit presents the origin, development and features of classical acupuncture and reveals the clinical outcomes based on the latest clinical observation and research. This unit will appeal to practitioners seeking to extend and deepen their knowledge and clinical skills with traditional acupuncture and to practitioners embarking on research in this area. Ancient acupuncture theories and techniques will be taught with a focus on their application to contemporary practice based on latest research and on the different theoretical approaches in the design of acupuncture point prescriptions.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: CMPL 7001 - Advanced Acupuncture

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7009 Clinical Oncology and Chinese Medicine (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7009/>) **Legacy Code:** 401136

This unit is focused on the clinical application of Chinese herbal medicine (CHM) and acupuncture in the management of cancer. Today, cancer is one of the leading causes of death and disease burden. Survival rates for many types of cancer have improved in recent years and long-term survival challenges accepted practices in cancer care and management. This unit explores application of Chinese medicine to the management of cancer, through the ancient wisdom in the classic literature recourses and contemporary clinical practice and research. The unit addresses the commonly used strategies, approaches and roles of Chinese medicine at different stages of cancer as well as the use of Chinese medicine as a supplementary therapy for common types of cancer.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7010 Clinical Placement (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7010/>) **Legacy Code:** 401133

This unit provides four weeks of full-time (or part-time equivalent) clinical placement with a choice of clinical training in the defined specialty areas (women's health, musculoskeletal health, mental and neurological disorders, oncology, or chronic and complex diseases). The clinical placement is with experienced specialist practitioners provided in conjunction with the Beijing University of Chinese Medicine in China or by an approved alternative arrangement with the student and limited by available opportunities.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): CMPL 7025 OR

CMPL 7016 OR

CMPL 7009 OR

CMPL 7005

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7011 Dermatology in Chinese Medicine 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7011/>) **Legacy Code:** 400572

This unit along with Dermatology in Chinese Medicine 2 will enable practitioners to develop an in-depth understanding of Traditional Chinese Medicine (TCM) diagnosis and management of a wide range of skin diseases using acupuncture and Chinese herbal medicine. This unit includes orthodox medical diagnosis and management of common skin disorders and the integration of this with TCM theory, diagnosis and management. Dermatology in Chinese Medicine 1 and 2 together provide a strong specialist clinical focus on the management of skin disorders with Chinese medicine.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7012 Evidence Based Practice in Chinese Medicine (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7012/>) **Legacy Code:** 401129

This unit will introduce and develop the concepts and principles of evidence-based practice as applied to Traditional Chinese Medicine (TCM) and explore specific aspects of research development. Furthermore, this unit will focus on the clinical applications of such research-based evidence and highlight integrative methods combining TCM and biomedical diagnostics and disease management. Students will gain an understanding of the complexities, practicality, and applied methodologies used in research to establish the validity and reliability of TCM theories, diagnostics and interventional techniques in addition to the appropriateness of various outcome measures for research and clinical practice. This unit will provide students with a practical skillset designed to facilitate location, evaluation, integration, and application of scientific research evidence in clinical practice whilst also preparing students for development of research proposals in subsequent units such as Research Protocol Design & Practice.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: CMPL 7013 - Evidence Based Practice in Chinese Medicine 1 CMPL 7014 - Evidence Based Practice in Chinese Medicine 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7013 Evidence Based Practice in Chinese Medicine 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7013/>) **Legacy Code:** 400567

This unit will provide the student with the opportunity to develop the skills necessary to search, understand and critically appraise scientific literature related to Chinese medicine. Basic research methods will be introduced sufficient to support the student through this unit. This unit will introduce and develop concepts and principles of evidence-based practice applied to Chinese medicine and explore specific research developments in Chinese medicine.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7014 Evidence Based Practice in Chinese Medicine 2 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7014/>) **Legacy Code:** 400568

This unit will focus on the integration of Traditional Chinese Medicine (TCM) and Western medicine in the diagnosis and management of disease. A significant focus of this unit will be on the interpretation and integration of medical diagnostic tests with TCM diagnosis, and will include an examination of the research that attempts to validate TCM theory and diagnostic techniques. Students will learn how to integrate and prioritise clinical information and undertake the development of a research proposal.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7015 Mental and Neurological Disorders and Chinese Medicine (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7015/>) **Legacy Code:** 401135

This unit will enable practitioners to extend their understanding of Chinese Medicine management of a range of mental health conditions and neurological disorders. The clinical focus is on the Chinese Medicine diagnosis and management of these disorders and integration with the orthodox biomedical approaches to disorders that are common in the community. Chinese Medicine treatment will focus on acupuncture and Chinese herbal medicine treatments. Students will learn to apply Chinese Medicine's unique understanding and contribution to the rehabilitation of those who have suffered from disabling psychological/psychiatric and neurological diseases.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: NATS 7036 - Mental Health in Chinese Medicine NATS 7038 - Neurological Disorders in Chinese Medicine

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7016 Musculoskeletal Health in Chinese Medicine (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7016/>) **Legacy Code:** 401134

This unit will enable practitioners to develop an in-depth understanding of the diagnosis and management of musculoskeletal conditions with acupuncture and Chinese herbal medicine. This unit presents a systematic approach to the assessment of musculoskeletal disorders using Traditional Chinese Medicine (TCM), the application of specific medical tests and includes a focus on common musculoskeletal disorders, sports injuries and rehabilitation. Musculoskeletal Health in Chinese Medicine provides a strong specialist clinical focus on the management of musculoskeletal health disorders with acupuncture and Chinese herbal medicine.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: CMPL 7017 - Musculoskeletal Health in Chinese Medicine 1 CMPL 7018 - Musculoskeletal Health in Chinese Medicine 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7019 Pharmacology of Chinese Medicines (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7019/>) **Legacy Code:** 400569

This unit will introduce the student to the pharmacology and toxicology of Chinese herbal medicine. The unit will cover the pharmacological principles of Chinese herbal medicines and identify basic active constituents that contribute to the actions of Chinese herbal medicines. This unit will also introduce safety and toxicology of herbal medicines including mechanisms and measurement of toxicity, known potential adverse reactions of commonly used Chinese herbs, known potential interactions with Western pharmaceuticals and management of adverse events.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7020 Research Project and Thesis (30 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7020/>) **Legacy Code:** 401138

This is a 60 credit point year-long subject taken over two terms (30 credit points in each term). This subject requires students to complete a substantial piece of independent research in Chinese Medicine including research planning, study design, data collection, analysis and interpretation. Dissertation projects are developed in consultation with staff who possess similar research interests and relevant research experience. Students may wish to submit their work for examination in a form suitable for publication in the peer-reviewed literature (with supplementary material as appropriate).

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): CMPL 7012 AND

PUBH 7016 OR

HLTH 7008

Co-requisite(s): AGEN 7005

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7021 Specialities in Traditional Chinese Medicine 1 (PG) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7021/>) **Legacy Code:** 400919

This unit provides learning experiences that enable the health professional to analyse, diagnose and treat common gynaecological diseases and musculoskeletal conditions using a TCM approach with acupuncture and Chinese herbal medicine. Students will develop a good understanding of the causes and pathophysiological mechanisms of common gynaecological diseases and musculoskeletal conditions.

Level: Postgraduate Coursework Level 7 subject

Co-requisite(s): CMPL 7003

Incompatible Subjects: LGYA 7248 - Specialities in Traditional Chinese Medicine

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7022 Specialities in Traditional Chinese Medicine 2 (PG) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7022/>) **Legacy Code:** 400923

The specialties of pediatrics, dermatology, ear, nose, throat (ENT) and eye diseases, are important divisions of TCM activity. This unit enables students to develop an understanding of the aetiology and pathophysiology of common paediatric, dermatological, ENT and eye disorders, and to analyze, diagnose and treat these conditions using acupuncture and Chinese herbal medicine.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): CMPL 7003

Incompatible Subjects: LGYA 7259 - Specialities in Traditional Chinese Medicine 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7023 Traditional Chinese Medicine Practice 3 (PG) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7023/>) **Legacy Code:** 400920

This unit represents a continuation of the clinical practicum and development of clinical skills. Students will also be able to apply their knowledge of professional theory, practice, research and evaluation skills to the investigation of Traditional Chinese Medicine (TCM) problems. Students will be expected to demonstrate competence in handling patients in a clinical context, synthesise knowledge from their studies of specialities in TCM and critically examine the practical aspects of acupuncture and Chinese herbal medicine research. Students will also learn basic knowledge of health preservation and enhancement including lifestyle, diet and physical exercise.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: LGYA 7249 - Traditional Chinese Medicine Practice (Research Project)

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7024 Traditional Chinese Medicine Practice 4 (PG) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7024/>) **Legacy Code:** 400924

This unit represents a continuation of the clinical practicum and development of clinical skills. Students will be able to integrate their theoretical knowledge, practice skills and research base to the investigation, diagnosis and supervised treatment of patients in a clinical context. Students will be able to synthesise knowledge and competency in the practice of clinical areas of focus taught in Chinese Medicine I and II, and Specialties in TCM I and II. Students will be expected to demonstrate professional competence in handling patients in a clinical context, diagnosing more complex cases and devising and managing the integrated care of patients using TCM.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: LGYA 7255 - Traditional Chinese Medicine Practice 4

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7025 Women's Health in Chinese Medicine (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7025/>) **Legacy Code:** 401132

This unit will enable practitioners to extend their understanding of Chinese Medicine management of a range of women's health conditions. The clinical focus of this unit is on the integration of Chinese Medicine and conventional therapies in the treatment of disorders of the menstrual cycle, obstetric disorders, fertility, menopause and breast disease.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: CMPL 7026 - Women's Health in Chinese Medicine 1 AND CMPL 7027 - Women's Health in Chinese Medicine 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7026 Women's Health in Chinese Medicine 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7026/>) **Legacy Code:** 400570

This unit enables practitioners to extend their understanding of a range of gynaecological and obstetric disorders and to diagnose and treat these using acupuncture and patent herbal medicines. The clinical focus of this unit is on the integration of Traditional Chinese Medicine (TCM) in the treatment of disorders of the menstrual cycle, obstetric disorders, menopause and breast disease.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: CMPL 7026 - Women's Health in Chinese Medicine 1

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 7027 Women's Health in Chinese Medicine 2 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl7027/>) **Legacy Code:** 400571

This unit enables practitioners to extend their understanding of a range of gynaecological and obstetric disorders and to diagnose and treat these primarily using Chinese herbal medicine. The clinical focus of this unit is on the integration of Traditional Chinese Medicine (TCM) in the treatment of complex disorders of the menstrual cycle, infertility, obstetric disorders, menopause, pelvic and breast disease.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: CMPL 7027 - Women's Health in Chinese Medicine 2

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 9001 HDR Thesis - Centre for Complementary Medicine (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl9001/>) **Legacy Code:** 800138

Level: PhD and Research Masters Level 9 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

CMPL 9002 Higher Degree Research Thesis - Traditional Chinese Medicine (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/cmpl9002/>) **Legacy Code:** 800105

Level: PhD and Research Masters Level 9 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

Computer Science (COMP)

COMP 0001 Introductory Programming (WSTC Prep) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp0001/>) **Legacy Code:** 700204

The unit introduces students to computer programming as an essential tool for problem-solving and data analysis in engineering and science. The focus is on using an algorithmic approach to problem solving. Students will learn how to analyse and solve problems by designing an algorithm and implementing it in a high-level programming language.

This unit includes extensive practical work and problem-solving activities. It prepares students for the first year unit, Engineering Computing, in the Bachelor programs in Engineering. Students will also be able to use their acquired programming skills to perform calculations, analyse data and create graphs for their projects and reports in other units.

Level: Undergraduate Level 0 Preparatory subject

Equivalent Subjects: COMP 0002 - Introductory Programming (UWSC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 0002 Introductory Programming (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp0002/>) **Legacy Code:** 900084

Level: Undergraduate Level 0 Preparatory subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 0003 Programming Design (WSTC Prep) (5 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp0003/>) **Legacy Code:** 700047

This unit introduces students to the principles required for the effective design and development of solutions to computer program related problems. This unit has been developed to enhance a student's practical ability as well as build a solid theoretical foundation for further study in programming.

Level: Undergraduate Level 0 Preparatory subject

Equivalent Subjects: LGYB 0451 - Programming Design (UWSCDip) COMP 0004 - Programming Design (UWSC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 0004 Programming Design (WSTC) (5 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp0004/>) **Legacy Code:** 900009

Programming Design introduces students to the principles required for the effective design of solutions to computer program related problems. The course has been developed to enhance a student's practical ability as well as build a solid theoretical foundation for further study.

Level: Undergraduate Level 0 Preparatory subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 1001 3D Modelling Fundamentals (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp1001/>) **Legacy Code:** 301164

This unit will introduce the fundamentals of 3D surface modelling. Students will learn the theory of 3D surface modelling and will gain practical skills in creating 3D assets using a popular software package from Autodesk. They will also learn how to design characters and how to integrate their assets with a purpose of producing complex 3D scenes and animated movies. This unit is aimed at students who have no prior knowledge of 3D modelling and are not familiar with associated software packages.

Level: Undergraduate Level 1 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 1002 Advanced Computer Science Activities 1 (0 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp1002/>) **Legacy Code:** 300586

This unit is only for Bachelor of Computer Science (Advanced) students in year one of their studies. Students will participate in industry and research based extension activities (non-assessable). These activities will be identified with the goal of exposing students early in their degree and integrating them into a culture of academic enquiry, problem solving, knowledge generation and scholarship and an awareness of the challenges and current issues confronting the computing/IT industry. The unit will be used to record student activities and a satisfactory/unsatisfactory grade will be applied at the end of each semester.

Level: Undergraduate Level 1 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 1005 Programming Fundamentals (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp1005/>) **Legacy Code:** 300580

As a first unit in computer programming, Programming Fundamentals covers the basics of developing software with an emphasis on procedural programming. Students will learn about basic data structures, the concept of algorithms, fundamental programming constructs, common programming language features and functions, program design and good programming style. A high level programming language is combined with a highly visual framework to teach problem solving using software.

Level: Undergraduate Level 1 subject

Equivalent Subjects: COMP 1004 - Fundamentals of Programming LGYA 5799 - Programming Principles 1 LGYA 4364 - Business Application Development 1 COMP 1006 - Programming Fundamentals (WSTC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 1006 Programming Fundamentals (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp1006/>) **Legacy Code:** 700008

As a first unit in computer programming, Programming Fundamentals covers the basics of developing software with an emphasis on procedural programming. Students will learn about basic data structures, the concept of algorithms, fundamental programming constructs, common programming language features and functions, program design and good programming style. A high level programming language is combined with a highly visual framework to teach problem solving using software.

Level: Undergraduate Level 1 subject

Pre-requisite(s): Students enrolled in 7067 Diploma in Information and Communications Technology Extended must pass LANG 0002 Academic Communication 2 (WSTC Prep) or LANG 0032 English for Tertiary Study 2 (WSTC Prep) or LANG 0039 Introduction to Academic Communication 2 (WSTC Prep) and must pass INFO 0008 Computer Studies (WSTC Prep) and must pass COMP 0003 Programming Design (WSTC Prep) and must pass MATH 0008 Mathematics 2 (WSTC Prep) before enrolling in this unit

Students enrolled in 6035 Diploma Bachelor of Information and Communications Technology 6036 Diploma in Information and Communications Technology Bachelor of Information Systems and 7005 Diploma in Information and Communications Technology must pass COMP 0003 Programming Design (WSTC Prep) before enrolling in this unit

Students enrolled in 6038 Dip in Information and Communications Technology BICT(HIM) 6039 Diploma in Information and Communications Technology BICT 6040 Diploma in Information and Communications Technology BIS 7067 Diploma in Information and Communications Technology Extended 7134 Diploma in Information and Communications Technology Extended - ICT 7138 Diploma in Information and Communications Technology Extended-ICT 7139 Diploma in Information and Communications Technology Extended 7140 Diploma in Information and Communications Technology Extended-IS 7141 Diploma in Information and Communications Technology Extended-HIM 7163 Diploma in Information and Communications Technology(International) and 7164 Dip Information and Communications Technology (HIM) (International) must pass COMP 0003 Programming Design (WSTC Prep) and must pass MATH 0008 Mathematics 2 (WSTC Prep) before enrolling in this unit

Equivalent Subjects: COMP 1004 - Fundamentals of Programming LGYA 5799 - Programming Principles 1 LGYA 4364 - Business Application Development 1 COMP 1005 - Programming Fundamentals

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 1012 Programming Fundamentals (UG Cert) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp1012/>) **Legacy Code:** 500047

As a first unit in computer programming, Programming Fundamentals covers the basics of developing software with an emphasis on procedural programming. Students will learn about basic data structures, the concept of algorithms, fundamental programming constructs, common programming language features and functions, program design and good programming style. A high-level programming language is combined with a highly visual framework to teach problem solving using software.

Level: Undergraduate Level 1 subject

Equivalent Subjects: COMP 1004 Fundamentals of Programming LGYA 5799 Programming Principles 1

LGYA 4364 Business Application Development 1 COMP 1005

Programming Fundamentals

COMP 1006 Programming Fundamentals

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 1013 Analytics Programming (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp1013/>) **Legacy Code:** 301487

This subject covers the use of computers and computer programming for Data Science. After briefly considering spreadsheet systems, the subject will consider programming in the statistical system "R" in depth. Finally, other special purpose languages will be touched briefly (eg. SQL).

Level: Undergraduate Level 1 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 1014 Thinking About Data (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp1014/>) **Legacy Code:** 301488

This subject covers basic concepts of data centric thinking. The main areas discussed are; Populations and Samples; Sampling concepts; Types of Data; Descriptive Methods; Estimation and Inference; Modelling. The subject takes a computational and nonparametric approach, before briefly discussing theoretical concepts and distribution theory.

Level: Undergraduate Level 1 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 2001 Advanced Computer Science Activities 2 (0 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp2001/>) **Legacy Code:** 300587

This unit is only for Bachelor of Computer Science (Advanced) students in year two of their studies. Students will participate in industry and research based extension activities (non-assessable). These activities will be identified with the goal of exposing students early in their degree and integrating them into a culture of academic enquiry, problem solving, knowledge generation and scholarship and an awareness of the challenges and current issues confronting the computing/ IT industry. The unit will be used to record student activities and a satisfactory/ unsatisfactory grade will be applied at the end of each semester.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 2003 Computer Algebra (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp2003/>) **Legacy Code:** 301031

This unit will introduce the popular computational software Mathematica, through which students will explore and investigate real-world mathematical problems. The unit promotes an experimental side of mathematics and will employ symbolic computation to gain insight and intuition into problems, to discover mathematical patterns and relationships, and create impressive graphics to expose mathematical structures.

Level: Undergraduate Level 2 subject

Pre-requisite(s): MATH 1014

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 2004 Computer Networking (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp2004/>) **Legacy Code:** 300565

Computer Networking is an introductory unit in computer systems networking. It covers basic networking technologies, Ethernet fundamentals, ISO OSI model, routing, switching and subnetting, the Internet architecture, networking protocols including TCP/IP, important OSI layer 2 and 3 networking device fundamentals, basic network management and security issues. This unit is also the first of three units, which will prepare students for industry based networking certification (CCNA).

Level: Undergraduate Level 2 subject

Equivalent Subjects: COMP 2007 - Computer Networking Fundamentals LGYA 5739 - Applied Data Communications and Networking COMP 2006 - Computer Networking (WSTC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 2005 Computer Networking (Advanced) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp2005/>) **Legacy Code:** 300946

This unit introduces students to computer systems networking. It covers basic networking technologies, Ethernet fundamentals, ISO OSI model, routing, switching and subnetting, the Internet architecture, networking protocols including TCP/IP, important OSI layer 2 and 3 networking device fundamentals, basic network management and security issues. This unit is also the first of three units, which will prepare students for industry based networking certification (CCNA). Students in this advanced unit will be required to undertake individual assessment activities demonstrating a high level of technical and applied theoretical competency.

Level: Undergraduate Level 2 subject

Incompatible Subjects: COMP 2007 - Computer Networking Fundamentals LGYA 5739 - Applied Data Communications and Networking COMP 2004 - Computer Networking

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 2006 Computer Networking (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp2006/>) **Legacy Code:** 700012

This is an introductory unit in computer systems networking. It covers basic networking technologies, Ethernet fundamentals, ISO OSI model, routing, switching and sub-netting, the internet architecture, networking protocols, including TCP/IP, important OSI layer 2 and 3 networking device fundamentals, basic network management and security issues.

This unit is also the first of three units which will prepare students for industry based networking certification (CCNA).

Level: Undergraduate Level 2 subject

Pre-requisite(s): Students enrolled in 7067 Diploma in Information and Communications Technology Extended and 7134 Diploma in Information and Communications Technology Extended – ICT must pass LANG 0002 Academic Communication 2 (WSTC Prep) or LANG 0032 English for Tertiary Study 2 (WSTC Prep) or LANG 0039 Introduction to Academic Communication 2 (WSTC Prep) and must pass INFO 0008 Computer Studies (WSTC Prep) before enrolling in this unit

Students enrolled in 7138 Diploma in Information and Communications Technology Extended-ICT 7139 Diploma in Information and Communications Technology Extended 7140 Diploma in Information and Communications Technology Extended-IS and 7141 Diploma in Information and Communications Technology Extended-HIM must pass LANG 0012 Academic Professional Communication (WSTC Prep) and must pass INFO 0001 Academic Skills for ICT (WSTC Prep) before enrolling in this unit

Equivalent Subjects: COMP 2007 - Computer Networking Fundamentals LGYA 5739 - Applied Data Communications and Networking COMP 2004 - Computer Networking

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 2008 Computer Organisation (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp2008/>) **Legacy Code:** 300096

This unit is designed for computer science students, particularly those interested in systems programming and hardware development. The students will learn about the interface between the hardware and software of a computer system. This will involve study of some aspects of computer architecture and low level interfacing to gain an insight into central processing unit (CPU) organisation at the assembly language level. After completing this unit students will be able to write procedures in an assembly language, use their understanding of the relationship between the instruction set architecture and the implementation of high level languages to write efficient programs.

Level: Undergraduate Level 2 subject

Pre-requisite(s): The following pre-requisite unit applies to course 3771 only

ENGR 1045 Engineering Programming Fundamentals

The following pre-requisites apply to all courses except 3771

COMP 1005 Programming Fundamentals OR

ELEC 1006 Engineering Computing AND

MATH 1006 Discrete Mathematics OR

MATH 1016 Mathematics for Engineers 1

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 2009 Data Structures and Algorithms (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp2009/>) **Legacy Code:** 300103

This unit introduces students to fundamental data structures and algorithms used in computing. The material covered forms the basis for further studies in programming and software engineering in later units and for further training in programming skills. The unit focuses on the ideas of data abstraction and algorithm efficiency. The issues of computational complexity of algorithms are addressed throughout the semester. The topics covered include the fundamental abstract data types (lists, stacks, queues, trees, hash tables, graphs), recursion, complexity of algorithms, sorting and searching algorithms, binary search trees and graphs.

Level: Undergraduate Level 2 subject

Pre-requisite(s): COMP 2014 OR

COMP 2015 OR

COMP 2016 OR

ENGR 1045

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 2011 Games Technology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp2011/>) **Legacy Code:** 300491

This unit provides an introduction to the game industry as well as introducing students to the techniques of game design and construction. Students will be exposed to the history of game development and the key aspects of different genres of computer games.

Level: Undergraduate Level 2 subject

Equivalent Subjects: LGYA 5804 - Client Server Applications

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 2013 LAN Workshop (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp2013/>) **Legacy Code:** 300138

This unit provides students with the knowledge and skills necessary to install, test, tune, customise, repair and maintain networking hardware and software necessary to create a Local Area Network (LAN). Students also learn how to administer a LAN by setting up user accounts, access privileges, security procedures and back-up/recovery procedures.

Level: Undergraduate Level 2 subject

Equivalent Subjects: LGYA 6157 Networking Workshop

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 2014 Object Oriented Programming (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp2014/>) **Legacy Code:** 300147

This unit presents the concepts and principles of programming languages with the emphasis on object oriented paradigm. It addresses the importance of the separation of behaviour and implementation as well as effective use of encapsulation, inheritance and polymorphism. The students will gain intensive training in programming skills with supervised laboratory sessions and task oriented assignments.

Level: Undergraduate Level 2 subject

Pre-requisite(s): COMP 1005 OR

ENGR 1045

Equivalent Subjects: COMP 2015

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 2015 Programming Techniques (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp2015/>) **Legacy Code:** 300581

This unit is intended as a second unit of study in programming. It builds on a basic understanding of procedural programming as would be developed in a first unit. This unit continues the development of programming skills and methodologies required for professional programming and for further study in later computing units. Topics covered include multi-dimensional arrays, file I/O, searching and sorting, and an introduction to object-oriented programming involving classes and inheritance.

Level: Undergraduate Level 2 subject

Pre-requisite(s): COMP 1005

Equivalent Subjects: LGYA 5800

COMP 2017

COMP 2014

Incompatible Subjects: COMP 2016 - Programming Techniques (Advanced)

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 2016 Programming Techniques (Advanced) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp2016/>) **Legacy Code:** 300903

This unit builds on a basic understanding of procedural programming developed in previous units. Students continue to develop their programming skills and methodologies required for professional programming and for further study in later computing units. Topics covered include multi-dimensional arrays, file I/O, searching and sorting, and an introduction to object-oriented programming involving classes and inheritance. Students in this advanced unit will also investigate and apply advanced concepts such as function overloading and recursion.

Level: Undergraduate Level 2 subject

Pre-requisite(s): COMP 1005

Incompatible Subjects: COMP 2015 - Programming Techniques

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 2017 Programming Techniques (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp2017/>) **Legacy Code:** 700257

This unit is intended as a second unit of study in programming. It builds on a basic understanding of procedural programming as would be developed in a first unit. This unit continues the development of programming skills and methodologies required for professional programming and for further study in later computing units. Topics covered include multi-dimensional arrays, file I/O, searching and sorting, and an introduction to object-oriented programming involving classes and inheritance.

Level: Undergraduate Level 2 subject

Pre-requisite(s): COMP 1006

Equivalent Subjects: COMP 2015 - Programming Techniques LGYA 5800 - Programming Principles 2

Incompatible Subjects: COMP 2016 - Programming Techniques (Advanced)

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 2018 Simulation Fundamentals (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp2018/>) **Legacy Code:** 301167

In the last couple of decades computer modelling and simulation has evolved into an important discipline used in nearly every aspect of life from computer games to banking. What was once a tool for training pilots is now a capability to better understand human behaviour, enterprise systems, disease proliferation, and much more. This is an introductory, problem-based unit, where students will learn by doing. Students will acquire ability to use different simulation methodologies and tools such as InsightMaker and AnyLogic to build new insights into the world around you and learn how to share these insights effectively with others.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 2019 Systems Programming 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp2019/>) **Legacy Code:** 300167

This unit provides an introduction to the knowledge and skills required for the design, writing and support of technical software and other such functions normally falling within the role of the systems programmer. It provides for detailed study of a systems programming environment and its application to systems programming tasks.

Level: Undergraduate Level 2 subject

Pre-requisite(s): COMP 2015 OR

COMP 2016 OR

COMP 2020 OR

COMP 2014 OR

ELEC 1006 AND

ELEC 1001

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 2020 Technologies for Web Applications (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp2020/>) **Legacy Code:** 300582

Building on material covered in Programming Fundamentals this unit introduces students to some of the key technologies for developing interactive and dynamic web applications from both the client and server perspective. The unit covers web site design, web site development, web page accessibility and usability, HTML, CSS, client side and server side scripting, database interaction, web site promotion (Search Engine Optimisation) and web security.

Level: Undergraduate Level 2 subject

Pre-requisite(s): COMP 1005

Equivalent Subjects: COMP 2012 - Interactive Web Site Development

Incompatible Subjects: LGYA 5748 - Creating and Managing Web Sites

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 2021 Software Engineering Fundamentals (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp2021/>) **Legacy Code:** 301343

This unit will be offered at Engineering Innovation Hub - Hassall St, Parramatta campus. This unit provides an introduction to software engineering principles including basic software lifecycle concepts, modern development methodologies, conceptual modelling and how these activities relate to programming. Students apply this knowledge together with essential team-based project management to design, build and deploy a simple web-based application.

Level: Undergraduate Level 2 subject

Pre-requisite(s): ENGR 1045

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 2023 Mathematical Programming (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp2023/>) **Legacy Code:** 301375

This unit will introduce the programming language Python, through which students will explore and investigate practical mathematical problems. Python is one of the most powerful versatile programming languages, and it is increasingly used by engineers and scientists as well as banks and financial institutions to tackle their computational problems. The unit promotes an experimental side of mathematics and will employ Python-based computational tools to gain insight and intuition into problems, to discover mathematical patterns and relationships, and to use visualisation techniques to expose mathematical structures.

Level: Undergraduate Level 2 subject

Equivalent Subjects: COMP 2003 Computer Algebra

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 2024 Computer Networking (UG Cert) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp2024/>) **Legacy Code:** 500049

This is an introductory unit in computer systems networking. It covers basic networking technologies, Ethernet fundamentals, ISO OSI model, routing, switching and sub-netting, the internet architecture, networking protocols, including TCP/IP, important OSI layer 2 and 3 networking device fundamentals, basic network management and security issues. This unit is also the first of three units which will prepare students for industry-based networking certification (CCNA).

Level: Undergraduate Level 2 subject

Equivalent Subjects: COMP 2004 Computer Networking COMP 2007

Computer Networking Fundamentals

LGYA 5739 Applied Data Communications and Networking COMP 2006 Computer Networking

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 2025 Introduction to Data Science (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp2025/>) **Legacy Code:** 301486

Analysis of data is essential for scientific investigation, modelling processes and predicting future events. Data Science is the investigation of the tools required that allow us to perform this modelling and prediction. The increase in accessible data over the past few decades has promoted the use of Data Science, making it a desired skill in many professions. In this unit we further investigate the methods of regression, clustering and classification that form the basis of a data scientist's toolbox.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 2026 Visual Analytics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp2026/>) **Legacy Code:** 301489

This subject introduces the fundamentals and technologies of visual analytics to understand big data. It covers major concepts of information visualisation, human computer perception and methods for visual data analysis. Students will learn knowledge and skills for identifying suitable visual analytics techniques, methods and tools for handling various data sets and applications. The subject provides students with opportunities to explore novel research in visual analytics and visualisation.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3001 Advanced Computer Science Activities 3 (0 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3001/>) **Legacy Code:** 300588

This unit is only for Bachelor of Computer Science (Advanced) students in year three of their studies. Students will participate in industry and research based extension activities (non-assessable). These activities will be identified with the goal of exposing students early in their degree and integrating them into a culture of academic enquiry, problem solving, knowledge generation and scholarship and an awareness of the challenges and current issues confronting the computing/IT industry. The unit will be used to record student activities and a satisfactory/unsatisfactory grade will be applied at the end of each semester.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3002 Applications of Big Data (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3002/>) **Legacy Code:** 301110

Many techniques and tools have been developed over the past decade to cope with the ever-growing needs for the processing and analysis of big data. This unit will cover the key techniques that have been widely used in big data applications, such as relational and Not Only Structured Query Language (NoSQL) databases, Web Services, parallel and cloud computing, MapReduce, Hadoop and its eco-system. It aims to introduce the emerging technologies and applications in big data to students, and keep up with the latest trends in the industry.

Level: Undergraduate Level 3 subject

Pre-requisite(s): COMP 1013 OR COMP 1005

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3003 Cloud Computing Architecture (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3003/>) **Legacy Code:** 301204

This unit, the second part of the Amazon Web Services (AWS) Academy Cloud Computing Architecture curriculum, provides deeper understanding about advanced cloud computing services and how to architect cloud applications that are scalable, reliable, and efficient in terms of cost and performance. Students will learn advanced cloud computing concepts including notification and messaging, serverless computing, API gateways, NoSQL databases, content delivery networks, stream processing, and long-term storage. The unit also covers advanced cloud security and infrastructure automation. All these aspects are explored in practice with AWS services. Upon completion of this unit, students will be prepared for the AWS Certified Solutions Architect - Associate exam.

Level: Undergraduate Level 3 subject

Pre-requisite(s): COMP 3012 AND

COMP 1005

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3006 Computer Graphics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3006/>) **Legacy Code:** 300093

Computer Graphics will examine elementary graphics concepts, algorithms and programming skills for producing graphical applications, in both two-dimension (2D) and three-dimension (3D) using Open GL. Techniques and algorithms will be programmed in Processing, which is a very easy-to-learn programming language yet powerful and comprehensive.

Level: Undergraduate Level 3 subject

Pre-requisite(s): COMP 2014 OR

COMP 2015 OR

COMP 2016 OR

COMP 2020

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3007 Computer Networks and Internets (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3007/>) **Legacy Code:** 300095

This subject extends on the work undertaken in the prerequisite unit, Computer Networking, and provides students with an in-depth understanding of the role of switching technologies and router operations that support small to medium business networks. It includes wireless local area networks (WLANs) and security concepts. Students will also learn key switching and routing concepts allowing them to perform basic network configuration and troubleshooting, identify and mitigate LAN security threats, and configure and secure a basic WLAN. This is the second of three subjects that prepares the student for industry-based networking certification (CCNA).

Level: Undergraduate Level 3 subject

Pre-requisite(s): COMP 2004 OR

COMP 2005

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3009 Distributed Systems and Programming (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3009/>) **Legacy Code:** 300115

This unit covers the concepts, design, and programming of distributed systems. It builds on basic network communication protocols (specifically IP) to cover client server programming using both the system level socket interface and remote procedure calls. It also examines large scale distributed system architectures particularly those based on distributed objects and considers the complexities inherent in distributed transactions. Key concepts covered include data and algorithmic distribution, idempotent protocols, stateless and stateful servers, and distributed system transparency. Illustrative case studies are included.

Level: Undergraduate Level 3 subject

Pre-requisite(s): Successful completion of COMP 2004 Computer Networking and either COMP 2014 Object Oriented Programming or COMP 2015 Programming Techniques

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3011 Internet Programming (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3011/>) **Legacy Code:** 300130

This unit offers students basic concepts and latest technologies of internet programming and web-based application development. Utilising one of the popular internet programming languages, such as Java, it aims to develop the programming skills and methodologies required for both client-side and server-side programming as well as general purpose programming. The range of topics covered by the unit includes HTML, XML, Java applets, desktop application in Java, servlets, JavaServer Pages and JDBC.

Level: Undergraduate Level 3 subject

Pre-requisite(s): COMP 2014 OR

COMP 2015 OR

ELEC 1006 OR

COMP 2016

Equivalent Subjects: LGYA 5876 - Internet Computing

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3012 Introduction to Cloud Computing (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3012/>) **Legacy Code:** 301203

This unit, the first half of Amazon Web Services (AWS) Academy Cloud Computing Architecture curriculum, provides deep understanding of fundamental cloud computing concepts and how it can be applied to build cost-effective; highly available and fault tolerant systems. Students will learn concepts including system virtualisation; virtual machines; cloud networks; basic cloud storage and cloud databases; security in clouds; and auto-scaling, load balancing, and monitoring. All these aspects are explored in practice with AWS services.

Level: Undergraduate Level 3 subject

Pre-requisite(s): COMP 2004 OR

COMP 2005

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3013 Mobile Applications Development (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3013/>) **Legacy Code:** 300960

This unit teaches technologies and programming languages for developing applications on common mobile platforms, such as Android and iOS. Students will learn skills for developing programs on the above platforms, along with in-class sample applications that highlight platform-specific implementation details.

Level: Undergraduate Level 3 subject

Pre-requisite(s): For students enrolled in 3687 Bachelor of Information Systems 3688 Bachelor of Information Systems Advanced 3744 Bachelor of Information Systems Bachelor of Business 3745 Bachelor of Information Systems Advanced Bachelor of Business 6036 Diploma in Information and Communications Technology Bachelor of Information Systems or 6040 Diploma in Information and Communications Technology Bachelor of Information Systems - COMP 2020 Technologies for Web Applications

For students enrolled in 3639 Bachelor of Information and Communications Technology - COMP 2015 Programming Techniques For students enrolled in 3684 Bachelor of Information and Communications Technology (Advanced)- COMP 2016 Programming Techniques (Advanced)

For students enrolled in 3506 Bachelor of Computer Science - COMP 2014 Object Oriented Programming OR COMP 2020 Technologies for Web Applications

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3014 Networked Systems Design (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3014/>) **Legacy Code:** 300575

This unit builds on and consolidates the skills and knowledge gained in Computer Networking and Computer Networks and Internets. Students successfully completing this unit will acquire the necessary design skills and knowledge required to build and configure enterprise scale networks. The unit provides students with an opportunity to develop problem-solving techniques and decision-making skills to resolve networking issues. Students completing this unit and its prerequisites should also now be prepared to attempt world recognized network industry certification (CCNA).

Level: Undergraduate Level 3 subject

Pre-requisite(s): COMP 3007

Equivalent Subjects: LGYA 5741 - Broadband Networking

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3015 Operating Systems Programming (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3015/>) **Legacy Code:** 300698

This unit provides the knowledge of the internal structure and functionality of Operating Systems. An operating system defines an abstraction of hardware behavior and provides a range of services more suitable for ICT application development than what raw hardware could deliver, in terms of convenience, efficiency and security. It is important that ICT Professionals have some understanding of how these services are realized. For ICT Professionals whose role includes supporting the operating system this unit provides the introduction to the relevant theory and practice.

Level: Undergraduate Level 3 subject

Pre-requisite(s): COMP 2015 OR

COMP 2016 OR

COMP 2014

Equivalent Subjects: INFS 3014 - Operating Systems

Incompatible Subjects: COMP 3016 - Operating Systems Programming (Advanced)

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3016 Operating Systems Programming (Advanced) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3016/>) **Legacy Code:** 300943

This unit provides the knowledge of the internal structure and functionality of Operating Systems. Through the use of case studies the abstraction that Operating Systems provide will be investigated, and techniques for programming with these abstractions will be developed.

Level: Undergraduate Level 3 subject

Pre-requisite(s): COMP 2016 OR

COMP 2015

Incompatible Subjects: LGYA 6233 - Operating Systems Programming
INFS 3014 - Operating Systems

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3018 Professional Experience (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3018/>) **Legacy Code:** 300579

Professional Experience is a final year 'capstone' project unit. This unit provides opportunities for students to gain hands-on experience in software systems requirements definition, analysis, design and implementation, in a real-world setting. Students work in groups, guided by an academic supervisor or an industry mentor, in achieving the goals set by the client that provides the project. Suitable projects are sourced from external organisations or within Western Sydney University by way of giving the students professional experience in independent learning and reflective practice.

Level: Undergraduate Level 3 subject

COMP 3019 Professional Experience (Advanced) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3019/>) **Legacy Code:** 300900

Professional Experience (Advanced) is a final year 'capstone' work-placement unit. This advanced unit provides the opportunity for students to gain hands-on experience in software systems requirements definition, analysis, design, implementation and project management, in an external organisation under the supervision of industry experts. During the work placement students work in a real-life project applying the theories and technical skills learned in previous units in an industry setting. Students are allowed to propose a work-placement of their choice within an external organisation. School will assess the suggested work-placement for its suitability in meeting the set unit outcomes, prior to approval.

Level: Undergraduate Level 3 subject

Pre-requisite(s): INFS 2001 OR

INFS 2002 AND

COMP 3020 Social Web Analytics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3020/>) **Legacy Code:** 300958

The Social Web provides everyone with a voice; information from Facebook, Twitter and other social networks allows us to identify trends and relationships in society. Whilst this has interest on a personal level, the killer-apps will be in analysing social Web data for business, such as tracking the buzz around a new product, and understanding the relationships between customers and products. This unit will introduce its students to the Social Web data that is available, and blend data science and machine learning concepts to allow extraction and analysis of such data.

Level: Undergraduate Level 3 subject

Pre-requisite(s): Students who are NOT enrolled in 1837 Bachelor of Cyber Security and Behaviour 3769 Bachelor of Data Science or 3770 Bachelor of Applied Data Science must have successfully completed one the following three units

Students enrolled in 1837 Bachelor of Cyber Security and Behaviour must have successfully completed the following two units

MATH 2006 Experimental Design and Analysis AND MATH 1002

Analytics Programming

MATH 1028 Statistical Decision Making OR MATH 1003 Biometry OR

MATH 1030 Statistics for Business

Co-requisite(s): For students enrolled in courses 3769 Bachelor of Data Science or 3770 Bachelor of Applied Data Science

MATH 1033 Thinking About Data

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3021 Special Effects Programming (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3021/>) **Legacy Code:** 301173

This unit will focus on develop programming code to write shaders to create special effects, such as fog, shadows, fire, water, clouds, lightning, motion blur and reflections. These type of shaders are often seen in games and movies. Students will also learn about generic programming algorithms involved in building special effects.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3022 Systems Administration Programming (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3022/>) **Legacy Code:** 300165

This unit covers programming techniques and tools used to administer standalone and networked computer systems. The unit focuses on the use of high level interpretive scripting languages to automate everyday administrative tasks, and to monitor and control running systems.

Techniques to extend scripting language capabilities by dynamic linking to compiled code are examined, particularly in terms of access to operating system level functions. The unit also examines the use of administrative programs and tools to monitor and adjust system performance and capacity.

Level: Undergraduate Level 3 subject

Pre-requisite(s): COMP 2019

Incompatible Subjects: LGYA 6160 - Script programming

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3023 Systems and Network Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3023/>) **Legacy Code:** 300166

With the advent of the era of Internet of Things, the Internet has become a huge infrastructure in which various kinds of systems are running to deliver a plethora of network services. To ensure the efficient utilization of network resources (e.g., bandwidth) and the convenient access to network services, systems and networks must be managed in a proper way. Facing this demand, this unit covers the standards, protocols and skills pertinent to the management of systems and networks. Moreover, this unit introduces Software Defined Networking (SDN), a new paradigm for conducting network management with programmability, flexibility and scalability.

Level: Undergraduate Level 3 subject

Pre-requisite(s): COMP 3007 OR COMP 3025

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3024 Video Games Development (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3024/>) **Legacy Code:** 300862

This unit provides students with an in-depth understanding of the development and structure of game engines. It provides the student with a unifying overview of the many modules that are incorporated in a game engine as well as a detailed examination of game-play and engine programming.

Level: Undergraduate Level 3 subject

Pre-requisite(s): COMP 1005

Equivalent Subjects: LGYA 6086 - Games Theory and Design

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3025 Wireless and Mobile Networks (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3025/>) **Legacy Code:** 300952

This unit helps the students gain in depth knowledge in the core concepts and principles in the areas of wireless and cellular networks. It provides them with the technical skills needed to do requirement analysis and evaluate a range of wireless networked systems to plan their institution or expansion. The unit covers the communication characteristics and architecture of wireless systems along with various types of wireless networks, including wireless LANs, personal area networks, sensor networks, mesh networks, and broadband wireless networks. Given the widespread use of mobile phones and devices, a substantial part of the unit is devoted to the study of cellular networks. The unit also covers mobility management and wireless security issues and solutions. Upon completion of this unit, the students will have the capabilities needed for long term and independent learning in the rapidly evolving area of wireless and mobile networking.

Level: Undergraduate Level 3 subject

Pre-requisite(s): COMP 2004 OR COMP 2005

Equivalent Subjects: LGYA 5741 - Broadband Networking

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3027 Robotic Programming (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3027/>) **Legacy Code:** 301205

Robot Operating System (ROS) is a software integration system that is now widely used for robotics software deployment. The philosophy behind ROS is to modularise software that can work for other robots through small changes in the code. This unit focuses on the main concepts of software development under ROS by looking at the file hierarchical systems (e.g. Packages, Stacks, Messages, Services and others), module communication types through Nodes, Topics, Services, Messages, Bags, Master and how they integrate to operate robot sensors and actuators. This unit also looks at actual AI software examples using C++/Python and Answer Set Programming (ASP).

Level: Undergraduate Level 3 subject

Pre-requisite(s): COMP 2014 Object Oriented Programming and COMP 2019 Systems Programming 1

OR

COMP 2014 Object Oriented Programming and COMP 3015 Operating Systems Programming

OR

MECH 4003 Mobile Robotics

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3028 Software Construction (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3028/>) **Legacy Code:** 301348

This unit will be offered at Engineering Innovation Hub - Hassall St, Parramatta campus. This unit focuses on building students' knowledge in software design and construction. Students learn programming skills in a number of different languages, including JavaScript, shell programming, as well as the processes involved in software development. Students discover tools for version control, performance improvement, configuration and debugging with opportunities to apply their skills to a range of practical tasks.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ENGR 1045

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3029 Software Engineering Industry Project (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3029/>) **Legacy Code:** 301349

This unit will be offered at Engineering Innovation Hub - Hassall St, Parramatta campus. This unit enables students to experience real-life involvement in designing and implementing a quality software system that conforms to stakeholder requirements in the domain of data analytics. It builds on the skills developed in previous project units in specifying requirements, managing projects, communicating, working in teams to achieve a completed system, and reinforces skills in software design, coding, testing, reporting and the use of support tools. Students integrate these skills while learning about the domain and professional ways to liaise with the stakeholder to develop appropriate requirements, documentation and a final product.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ELEC 2017 AND ELEC 2019

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3032 Machine Learning (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3032/>) **Legacy Code:** 301435

Machine Learning is one of the most important technologies in the fields of Artificial Intelligence and Data Science used to explain large datasets, inform decisions and highlight risks. Machine Learning is relevant for solving a range of problems in many industries dealing with significant amounts of information and the structure of that information. In this unit, students put Machine Learning theory into action through widely used algorithms and practical applications for designing, training, and evaluating common learning models and systems. Students use Python programming and, as a result, learn about its important machine learning libraries and packages, such as Scikit-Learn, Keras and TensorFlow for solving practical problems and tasks.

Level: Undergraduate Level 3 subject

COMP 3033 Quantum Computing and Communication (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3033/>) **Legacy Code:** 301437

This unit introduces how computing and communication can be performed by harnessing quantum phenomena such as superposition and entanglement. From a computer science perspective, this unit directly starts with the mathematical models delivered by those quantum phenomena while skipping the details of Quantum Mechanics. Based on these mathematical models, this unit introduces the concept of qubits and quantum circuits, and then discusses the design of quantum algorithms and communication protocols, with an emphasis on their applications in Cyber Security. Besides being highly mathematical, this unit is also highly practical: quantum programming will be done throughout the unit with a user-friendly quantum simulator. Students completing this unit will develop skills in designing quantum algorithms and protocols which will be highly sought after in the current and emerging job markets.

Level: Undergraduate Level 3 subject

Pre-requisite(s): INFO 3006 AND

MATH 1028 OR

MATH 1030

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3034 Multimodal Interaction (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3034/>) **Legacy Code:** 301468

A key aspect within the field of Human Computer Interaction is capturing user input to a system or device. Called Multimodal Interaction, students learn about the variations of such inputs including how speech, vision, gesture and touch are used to interact with computing devices. Through a mixture of theoretical, research-oriented and practical concepts students will be introduced to novel techniques of interacting with computing devices and interfaces and discuss applications of them, across industrial and research applications, including digital assistants such as Siri, Alexa, facial recognition and surveillance systems.

Level: Undergraduate Level 3 subject

Pre-requisite(s): COMP 1005 AND INFO 3003

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 3035 Discovery Project (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp3035/>) **Legacy Code:** 301490

In this subject students will gain experience in applying data science skills and using knowledge gained during their bachelor's course of their primary discipline. Students will carry out a real life project transforming data to knowledge under the supervision of an academic mentor. Students will develop a knowledge discovery project proposal and carry out a literature review highlighting the current status of the problem. Assisted by a mentor they will apply the data science skills learned through-out the degree and produce a final discovery project report and/or interactive project tool and give an oral presentation.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 6001 Neuromorphic Algorithms and Computation (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp6001/>) **Legacy Code:** 800232

Designing and implementing processing pipelines for event-based sensory data is a crucial skill for neuromorphic engineers to test novel hardware platforms or to develop new algorithms and learning mechanisms. This project-based unit focuses on principles of neuromorphic algorithm design and hardware-friendly neural architecture design for neuromorphic information processors. This unit consists of two streams of research: applied event-based algorithms and bio-inspired spiking networks. Through solving increasingly challenging tasks using distributed, event-based competitive processing elements, students will learn the differences between conventional and neuromorphic algorithm design, critically assessing real-world problems in a structured manner.

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 6002 Neuromorphic Sensing (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp6002/>) **Legacy Code:** 800233

Neuromorphic sensors offer a new way to electronically sense and process data that have a unique structure based on principles found in biology. Understanding how they operate is integral to their effective use in practical situations, to the development of algorithms, process their data, and to the optimisation of their electronic designs. This unit focuses primarily on neuromorphic vision sensors, which are rapidly being adopted by multiple industries, including exciting applications in automotive and space. Students will develop an in-depth understanding of neuromorphic sensors and the skills to operate a neuromorphic sensor for acquiring data and solving real-world problems. This practical experience is in high demand from both research labs and the industry.

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7001 Advanced Routing (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7001/>) **Legacy Code:** 301065

As a Cisco Academy, Western Sydney University can offer students the opportunity to study the Cisco Certified Network Professional course Implementing Cisco IP Routing (ROUTE). This online unit will provide the knowledge, understanding and skills to deploy and manage a range of internal and external routing protocols for a large scale internetwork using Cisco equipment. Students will be expected to undertake individual research to contextualise Cisco in the broader networking environment. The unit provides hands-on lab experience via Netlabs?. If students successfully complete this unit they can progress to CCNP ROUTE certification.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7002 Advanced Topics in Networking (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7002/>) **Legacy Code:** 300252

This unit focuses on the advanced features of networked systems and the emerging network technologies and services. The unit provides students with an in-depth understanding of relevant protocols, the emerging standards, and standards organisations. The emphasis of the unit is on development of the student skills to enable them to do proficient research and development works and studies in the computer networking discipline.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7003 Big Data (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7003/>) **Legacy Code:** 301046

"Big data" is the label for the ever-increasing gigantic amount of data with which humanity has to cope. The availability of data and the development of cloud computing architectures to process and analyse these data have made data analytics a central tool in our endeavours. This unit will introduce students to the realm of "big data", covering the important principles and technologies of retrieving, processing and managing massive real-world data sets. It is designed to provide the basic techniques required by any discipline that needs to make sense out of the growing amount of data, and to equip students with the knowledge and key set of skills set to be competitive in the growing job market in the analytics field.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7004 Cloud Computing (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7004/>) **Legacy Code:** 301042

Cloud computing has become a driving force for information technology over the past several years, and it is moving towards a future in which we won't rely on local computers, but on centralised facilities operated by third-party compute and storage utilities. Governments, research institutes, and industry leaders are rushing to adopt Cloud Computing to solve their ever-increasing computing and storage problems arising in the Internet Age. This unit offers "Academy Cloud Foundations" (ACF) curriculum as part of Amazon Web Services (AWS) Academy. Students will develop knowledge and skills in the areas of virtualization technologies, cloud architecture, AWS core services and their pricing, security, architecture, and support.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7006 Data Science (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7006/>) **Legacy Code:** 301044

The explosion of data in the internet age opens up new possibilities for agencies and business to better serve and market to its customers. To take full advantage of these opportunities requires the ability to consolidate, manage and extract information from very large diverse data sets. In science, data sets are growing rapidly, with projects routinely generating terabytes of data. In this unit we examine the software tools and analytic methods that underpin a successful Data Science Project and gain experience in big data analytics.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7007 Information Security Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7007/>) **Legacy Code:** 301162

Cyber Crime costs are increasing at an alarming speed. Security management skills are now essential for IT management. This unit provides the knowledge, skills, techniques and mechanisms on information security management for postgraduate students. It covers topics on management aspects of information security such as business and Cybercrime, security awareness, security risks, security fundamentals, risk assessment and security system design, planning and regulatory issues for information system security.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7008 Internet of Things (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7008/>) **Legacy Code:** 301175

The Internet of Things (IoT) is drastically changing the way organisations operate and how individuals interact with the world. IoT is an infrastructure consisting of fairly constantly communicating objects, or things, that may be smart and process or act on data. The IoT facilitates detailed and meaningful interactions between humans, digital devices, and many other industrial and household equipment, appliances, and things. The IoT is also the enabler of smart environments, including smart homes, buildings, cities, transport, and healthcare, among many others. This unit discusses IoT technologies and applications in detail. It also introduces the students to trends, challenges, and key research topics in relevant areas.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7009 Mobile Computing (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7009/>) **Legacy Code:** 301043

This unit teaches technologies and programming languages for developing applications on common mobile platforms, such as Android and iOS. Students will learn skills for developing programs on the above platforms, along with in-class sample applications that highlight platform - specific implementation details.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): Students enrolled in 2761 Master of Business Administration Information and Communication Technology specialisation must have successfully completed COMP 7015 Programming Proficiency and INFS 7007 Systems Analysis and Database Management Systems

Students enrolled in all other courses must have successfully completed INFS 7009 Web Technologies

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7011 Multimedia Communication Systems (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7011/>) **Legacy Code:** 300256

This unit covers advanced concepts and technologies used in emerging multimedia communication systems. Theory, practice and standards for IT professionals endeavouring to build data compression systems for multimedia applications are emphasised.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7012 Network Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7012/>) **Legacy Code:** 300255

The performance of any modern organization is heavily dependent on their networked systems and how these systems are managed. The increasing demand for ICT services and the huge growth of the Internet have resulted in large heterogeneous networks. This unit addresses the issues relevant to management of such networks and the services that run on them. It covers the principles and current practices pertinent to integrated management of networks, systems, and services. The unit helps the students to understand relevant protocols, standards, and standards organizations. It also introduces them to trends and key research areas in management of networked systems.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 9360 - Management of Networked Systems

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7013 Network Technologies (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7013/>) **Legacy Code:** 300695

Computer networking is one of the fastest growing technologies of our time. The Internet interconnects billions of computers providing many new exciting opportunities and challenges. The Internet and the World Wide Web have provided the communication and infrastructure needed for global collaboration and information exchange. As a result of the rapid growth of networked systems and the diverse applications that run on them, success in many professions depends on a sound understanding of the technologies underlying these systems and applications. This unit explores these issues and provides the students with such an understanding. It covers the principles and current practices pertinent to computer networking and communications. It describes some of the important technologies and devices used in modern networks for information distribution and data sharing. The unit helps the students to understand important models, protocols and standards in networking and internetworking.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 5883 - Network Technology and Data Communications

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7014 Optimising Networks (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7014/>) **Legacy Code:** 301067

As a Cisco Academy, Western Sydney University can offer this Cisco Certified Network Professional course, 'Troubleshooting and Maintaining Cisco IP Networks' (TSHOOT). Cisco Systems are worldwide leaders in networking technologies, for telecommunication, corporate and private networking. This online unit will provide the knowledge, understanding and skills to troubleshoot communication on large-scale data networks using Cisco equipment and extend your research skills. Students will be provided with hands-on lab experience via Netlabs?. Students who successfully complete this module can progress and complete the CCNP TSHOOT certification with Cisco.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): COMP 7001 AND COMP 7010

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7015 Programming Proficiency (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7015/>) **Legacy Code:** 301038

This unit is aimed at the students whose undergraduate study is in a discipline other than computing or information technology. This unit first covers the programming fundamentals on data types, conditional selections and loop structures, and then further develops the problem solving skills through the use of user-defined functions, records, files, as well as the basic concept and techniques of object-oriented programming. A high level programming language is employed to implement all the problem solutions.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7016 Visualisation (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7016/>) **Legacy Code:** 301112

This unit introduces the fundamentals and technologies of information visualisation. It covers the major concepts of information visualisation, human-computer perception and methods for visual data analysis. Students will learn the knowledge and skills required for identifying suitable visualisation techniques and tools appropriate for various data types and applications. The unit provides students with opportunities to explore recent research in the visualisation field.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: MATH 2014 Visual Analytics

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7017 Wireless Networking (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7017/>) **Legacy Code:** 300389

Wireless technologies are amongst the most exciting and rapidly growing areas in computing and information technology. They implement applications that profoundly impact our personal way of communication, as well as how business in a variety of industries and organisations are conducted. This unit goes into details of such issues. It discusses wireless networking technologies and their related applications. The main features of wireless and mobile communication systems and the networked services that are based on these systems are also presented. The unit provides students with an in-depth understanding of relevant protocols, the emerging standards and standard organisations. The students are also introduced to some of the relevant current key research issues of the field.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7018 Advanced Cloud Computing (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7018/>) **Legacy Code:** 301363

This unit offers the Amazon Web Services (AWS) Academy "Academy Cloud Architecting" (ACA) curriculum and provides deeper understanding of advanced cloud computing services and how to architect cloud solutions. Students will learn advanced cloud computing concepts including notification and messaging, serverless computing, API gateways, NoSQL databases, and content delivery networks. The unit also explores strategies to enable high scalability, reliability, cost-efficiency, performance, and operational excellence in a cloud-based system. All these aspects are explored in practice with AWS services. Upon completion of this unit, students will be prepared for the AWS Certified Solutions Architect - Associate exam.

Level: Postgraduate Coursework Level 7 subject

Pre-requisite(s): COMP 7004

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7019 Applied Machine Learning (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7019/>) **Legacy Code:** 301312

This unit introduces the foundation and concepts underpinning Machine Learning (ML) at a more abstract level, and provides more focus on its practical applications in areas such as: the classification and extraction of text data from various documents and web pages, image processing, Google's PageRank algorithm and relational data mining (RDM). These learning objectives are achieved through various ML software and a series of practicals and projects. The unit covers the concepts and notions of supervised, unsupervised and reinforcement learning, perceptron, neural networks, support vector machines (SVM), knowledge representation (KR) based RDM, and a comprehensive introduction to the Scikit-learn ML Python libraries.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7020 Artificial Intelligence Ethics and Organisations (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7020/>) **Legacy Code:** 301314

Artificial Intelligence Ethics and Organisations provides students with a comprehensive grounding in the ethical issues of AI technologies. Students will learn about the relevant laws, regulations and policies with respect to AI ethics, and the existing framework and research trend in the field. With a series of case studies, students will learn how to apply general principles and guidelines in practice. They will also learn to identify potential risks and impacts, to ensure AI ethics are followed in different circumstances regarding data governance, automatic decisions, predictive analytics, autonomous system design and deployment, and structure changes of labour markets.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7021 Knowledge Representation and Reasoning (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7021/>) **Legacy Code:** 301315

Knowledge representation and reasoning is one of the fundamental components of Artificial Intelligence. It studies ways to represent and reason about human knowledge effectively in formal computational models, and eventually to solve complex tasks using computer systems. This unit covers logic foundations of knowledge representation and reasoning, Answer Set Programming approaches for declarative problem solving, intelligent agent modelling, diagnostic and probabilistic reasoning. This unit is part of the important preparations for career paths to AI engineers, robotics engineers and intelligent software engineers.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7022 Natural Language Understanding (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7022/>) **Legacy Code:** 301313

Natural Language Understanding involves machine reading comprehension and the technologies using it are becoming increasingly widespread. This unit provides a foundation in using the Natural Language Toolkit, which is a leading platform for building Python programs working with 'human language' data, as well as an introduction to Python for Natural Language Processing. Students will use algorithms and explore accessing text corpora and processing raw text; categorising words and classifying text; understanding information from text and analysing sentence structures; and understanding semantic meanings of sentences. Students also gain real-world hands-on experience with Natural Language Understanding through the practical tasks and assignments.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7023 Predictive Analytics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7023/>) **Legacy Code:** 301495

The information age has allowed business and science to take advantage of the vast amount of available data for predicting outcomes and estimating trends, to make informed decisions. Machine learning is the process of allowing a computer to learn from data, which at its heart is used in making these important decisions. This subject provides students with the knowledge and practice required to implement and effectively use these predictive models such as Neural Networks and Support Vector Machines, and provides opportunity for students to investigate state-of-the-art. Students will use the Python programming language throughout this subject.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: MATH 7011 Predictive Analytics

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7024 Programming for Data Science (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7024/>) **Legacy Code:** 301493

The use of computers and computer programming for Data Science is fundamental to the discipline. This introductory subject will briefly cover the use of spreadsheet systems and then will consider programming in the statistical system "R" in detail. Other special purpose languages will also be touched on briefly including SQL (Structured Query Language).

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

COMP 7025 Social Media Intelligence (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/comp7025/>) **Legacy Code:** 301494

Social Media Intelligence presents the theory and practice of extracting and analysing information from social media networks. The aims are to identify properties of social networks, and to make predictions about future events. Topics included will cover areas such as Graph theory, Game theory and Network dynamics and we will identify how these can be used to model and extract information from Facebook and Twitter.

Level: Postgraduate Coursework Level 7 subject

Curriculum and Ed. Studies (CEDS)

CEDS 3001 Bridging the Gap: Re-engaging Indigenous Learners (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/ceds3001/>) **Legacy Code:** 101756

This unit is available to all undergraduate students who have open electives. Bridging the Gap: Re-engaging Indigenous Australian Learners will provide students with knowledge and skills to develop teaching strategies that will bridge the education gaps existing for many Indigenous Australian (Indigenous) learners. Students will gain knowledge of quality teaching frameworks to engage all learners and in particular Indigenous learners. The unit will also increase students' awareness of the complexities of the cultural inter-relationships between many Indigenous and non-Indigenous learners. The unit focuses on empowering students to effectively teach: Indigenous Australians; Indigenous studies in consultation with Indigenous communities; and assess as well as evaluate resources for use in teaching Indigenous studies.

Level: Undergraduate Level 3 subject

Equivalent Subjects: TEAC 1019 - Issues in Aboriginal Education

Restrictions: Please see the Subject Details page for any restrictions for this subject

CEDS 7001 Education Policy, Practice and Global Knowledge Co-construction (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/ceds7001/>) **Legacy Code:** 102160

From 2020 students should note that core subjects are now taught in semesters rather than half yearly sessions. This subject explores the relationship between education and knowledge through reference to questions about the links between education policy practices and global knowledge production. The conceptual framework which provides the focus for this subject explores the dynamic, cyclical relations between the following: conditions of possibility for linking education policy practices and global knowledge production; contexts of negotiation/distance that affect this relationship; the modes of reception and rejection of the impact of linking of the two, and the mechanisms of connection that make this possible. These core concepts provide a focus for exploring questions about the relationship between 'education policy practices' and 'global knowledge production' in students' everyday work-life.

Level: Postgraduate Coursework Level 7 subject

CEDS 7002 So, You Want to Be an Academic? (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/ceds7002/>) **Legacy Code:** 800210

The knowledge labour market is tightening as more academics compete for the limited number of permanent and temporary positions available globally. Early career researchers must quickly adapt to established systems, increased workloads and sometimes stressful and changing work environments. They may be concerned about job security. The purpose of this unit is to introduce students to the world of academia, to assist them in developing the knowledge and skills required to thrive as early career researchers, and to establish networks that they can leverage in order to gain employment and be successful in their careers. Through an innovative model built on online activities and workshops, students will develop an understanding of the nature of academic work in Australia and around the world in the 21st century. Each student will partner with a mentor to develop time, project and people management skills, as well as mapping out networks to pursue near to and upon completion of the student's Doctoral (HDR) candidature.

CEDS 7003 Research Methods in Education (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/ceds7003/>) **Legacy Code:** 102824

Research Methods in Education provides students with an introduction to educational research methods and data analysis. It enables students to develop their understanding of how research evidence can be used to improve educational practice and policy, and the challenges associated with the use of research evidence in education. The unit will develop students' knowledge and skills to design research instruments and analyse research data. This unit is designed to provide students with foundational research skills for their application to research and professional projects.

Level: Postgraduate Coursework Level 7 subject

Earth Sciences (EART)

EART 1004 Soils (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/eart1004/>) **Legacy Code:** 300823

This unit provides students with a basic understanding of soil formation and erosion processes, soil physical, chemical and biological properties, and the diversity and classification of soils in the Australian landscape. These basic principles are explored in relation to the sustainable management of soils for horticultural and agricultural production and for environmental management, other land uses and in relation to forensic investigation and studies. The practical sessions are designed to reinforce the lecture material and include field description and analysis of soil profiles and properties, soil sampling principles and practice, laboratory measurement of soil physical and chemical properties essential/important for plant growth, soil biology and human and animal remains.

Level: Undergraduate Level 1 subject

Equivalent Subjects: LGYA 6191 - Noise Assessment PUBH 1003 - Environment and Health

Restrictions: Please see the Subject Details page for any restrictions for this subject

EART 2001 Climate Change Science (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/eart2001/>) **Legacy Code:** 300837

A factual understanding of the energy balance of the globe, how this impacts on climate and how climate has varied in the past, is essential for any person working in the climate change area. This unit will introduce students to the concept of energy balance and climate, our understanding of how climate works, and how it has changed through time. Topics in basic atmospheric science will give students a critical understanding of current environmental concerns and debates about radiative forcing (the greenhouse effect), climate change, ozone depletion, photochemical pollution and acid precipitation.

Level: Undergraduate Level 2 subject

Pre-requisite(s): CHEM 1008 OR
CHEM 1003 AND
BIOS 1001

Equivalent Subjects: LGYA 6248 - Atmospheric Science

Restrictions: Please see the Subject Details page for any restrictions for this subject

EART 2004 Soils and Substrates (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/eart2004/>)

This subject provides you with a basic understanding of soil formation and erosion processes, soil physical, chemical and biological properties, and the diversity and classification of soils in the Australian landscape. These basic principles, along with alternative substrates, are explored in relation to the sustainable management of soils and substrates for horticultural and agricultural production and for environmental management and other land uses. The practical sessions are designed to reinforce the lecture material and include field description and analysis of soil profiles and properties, soil sampling principles and practice, laboratory measurement of soil and substrate physical and chemical properties essential/important for plant growth, soil/substrate biology.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

EART 3001 Biological Adaptation to Climate Change (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/eart3001/>) **Legacy Code:** 300909

This unit investigates how organisms respond to variation in climate and what can be done to reduce their vulnerability to anthropogenic climate change. The unit makes use of a novel conceptual framework that defines 'vulnerability' as a function of the 'exposure' and 'sensitivity' of organisms to climate change. Therefore, we will begin by exploring how organisms are exposed to climate change, from regional climatic changes acting at the scale of populations, to local climatological effects acting at the scale of individuals. Next, we will examine what determines the sensitivity of organisms, focusing on the physiological, behavioural, and life-history traits that affect the ability of organisms to cope with and adapt to climate change. Then, we will show how exposure and sensitivity combine to determine the vulnerability of organisms, including in both managed and natural ecosystems. Finally, we will discuss the 'mitigation' and 'adaptation' strategies that can prevent the worst of the potential impacts from becoming realised and help protect our biodiversity in the face of anthropogenic climate change.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

EART 3005 Statistical Hydrology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/eart3005/>) **Legacy Code:** 300991

This unit covers the principles of statistical hydrology. It explores at-site flood frequency analysis, regional flood frequency analysis, trend analysis of hydrological data, linear regression analysis and multivariate statistical techniques to solve hydrological problems.

Level: Undergraduate Level 3 subject

Pre-requisite(s): EART 4001

Restrictions: Please see the Subject Details page for any restrictions for this subject

EART 3006 Science of the Anthropocene (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/eart3006/>) **Legacy Code:** 301212

The unit explores how the earth has been irreversibly altered through human activities. Topics include the composition of the ocean, land, and atmosphere, and the impacts humans have had on these systems. The unit looks at the detection and control of modern pollutants with a focus on field sampling and modelling of selected environmental systems. These topics will be brought to life in a two-day field trip to sites of significant anthropogenic impact.

Level: Undergraduate Level 3 subject

Equivalent Subjects: EART 3002 Environmental Geochemistry
EART 3003 Environmental Geochemistry

Restrictions: Please see the Subject Details page for any restrictions for this subject

EART 3007 Land Degradation and Contamination (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/eart3007/>) **Legacy Code:** 301273

This unit will examine current interdisciplinary topics on land degradation and contamination in both urban, peri-urban and rural environments. The effects of the various human induced land degradation and contamination processes and pollutants in terrestrial environments will be explored and how impacts can be ameliorated and managed. The focus is on both the science of environmental pollutants and on the remediation strategies currently available. Topics include; basic concepts of soils, study of the processes, common soil pollutants, persistent organic contaminants and pesticides, acidification of soils, quantitative risk assessment, land reclamation, and landfill sites

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

EART 3008 Soils and Substrates (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/eart3008/>) **Legacy Code:** 301446

This unit provides you with a basic understanding of soil formation and erosion processes, soil physical, chemical and biological properties, and the diversity and classification of soils in the Australian landscape. These basic principles, along with alternative substrates, are explored in relation to the sustainable management of soils and substrates for horticultural and agricultural production and for environmental management and other land uses. The practical sessions are designed to reinforce the lecture material and include field description and analysis of soil profiles and properties, soil sampling principles and practice, laboratory measurement of soil and substrate physical and chemical properties essential/important for plant growth, soil/substrate biology.

Economics and Econometrics (ECON)

ECON 0001 Economics (WSTC Prep) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ0001/>) **Legacy Code:** 700217

This unit is designed to familiarise students with some of the basic concepts and relationships of the discipline. It was developed to prepare students for undergraduate study in the academic discipline area of commerce/business and educate students as to the crucial role economic decisions have in society and how economic problems and issues dominate media and politics. By understanding Economics, students are empowered to participate effectively and knowledgeably in economic debate.

Level: Undergraduate Level 0 Preparatory subject

Equivalent Subjects: ECON 0002 - Economics (UWSC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 0002 Economics (WSTC) (10 Credit Points)

ECON 1002 Consumers, Firms and Markets (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ1002/>) **Legacy Code:** 700249

This unit is an introduction to microeconomics. It provides students with an understanding of basic concepts such as value, rational consumer behaviour, the behaviour of firms in various market structures, the efficiency and failings of markets, the distribution of wealth and income, and the role of government regulation and intervention. It illuminates these concepts by considering and debating their application to contemporary economic and social issues such as: the influence of marketing on consumer choices, the concentration of market power in Australian industries, rising income and wealth inequality, minimum wage laws, and governmental responses to environmental problems and climate change.

Level: Undergraduate Level 1 subject

ECON 1003 Financial Institutions and Markets (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ1003/>) **Legacy Code:** 200048

The investment, financing and risk management decisions made by individuals, firms and governments are implemented by creating and trading financial instruments in financial markets, often with the involvement of a variety of institutions. Using the Australian financial system as an illustration, Financial Institutions and Markets introduces students to the theory and functions of financial institutions and markets. Students develop an understanding of the role and functions of bank and non-bank financial institutions and of markets in equities, debt, foreign exchange and derivatives.

Level: Undergraduate Level 1 subject

ECON 1005 Globalisation and Australia (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ1005/>) **Legacy Code:** 200540

This unit provides an overview of the processes promoting globalisation and their impact upon Australian economic development. The unit stresses the interaction between the globalisation tendency and counteracting forces such as nationalism, and the contradictory economic, environmental, political, racial and class interests that have mediated and shaped the local impact of globalisation on the development of the Australian economy. The unit concludes by examining the socio-economic and environmental outcomes that ongoing globalisation is likely to produce in the 21st century for the world and Australia including the possibilities and prospects for indigenous economic development.

Level: Undergraduate Level 1 subject

ECON 1006 Introduction to Economic Methods (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ1006/>) **Legacy Code:** 200052

Introduction to Economic Methods covers basic concepts in mathematics and statistics to help student understanding of subjects such as accounting, management, marketing, finance, and economics. Students taking this unit are expected to improve their numeracy and analytical skills. In particular, students will learn how to collect, analyse and interpret data using simple descriptive and inferential statistical methods including simple regression analysis. In addition, by working through applied exercises, students are expected to improve their problem solving skills and acquire a basic understanding of calculus relevant to fields such as finance.

Level: Undergraduate Level 1 subject

Equivalent Subjects: LGYA 9799 - Introduction to Economic Methods MATH 1030 - Statistics for Business MATH 1028 - Statistical Decision Making MATH 1029 - Statistical Decision Making (UWSC) MATH 1012 - Management Analytics MATH 1031 - Statistics for Business (WSTC)

ECON 1011 Principles of Economics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ1011/>) **Legacy Code:** 200525

This unit is an introduction to economic concepts and contemporary economic issues. It introduces students to basic concepts such as markets and their operation, the behaviour of firms, the efficiency and potential failings of markets, the role of government, key macroeconomic problems such as recessions, inflation and unemployment, as well as contemporary fiscal and monetary policies. It illuminates concepts via application to contemporary economic issues and debates over different theoretical perspectives. This unit also exposes students to recent developments and policy controversies in economics.

Level: Undergraduate Level 1 subject

Equivalent Subjects: ECON 1007 - Introductory Economics ECON 1009 - Microeconomics ECON 1010 - Principles of Economics ECON 1012 - Principles of Economics (WSTC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 1013 The Australian Macroeconomy (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ1013/>) **Legacy Code:** 200549

This unit is an introduction to macroeconomic concepts, analysis and issues in the Australian context. Basic concepts introduced and applied include: national income accounting, economic structure, price indexes and inflation, the balance of payments, and labour market aggregates. These concepts are applied in describing and explaining the recent evolution of the Australian economy in terms of growth, structural change, price stability, and employment. This leads to a discussion of major policy issues such as the role of governments in managing economic fluctuations, and the implications of Australia's foreign liabilities. The course ends with a brief introduction to modelling income determination.

Level: Undergraduate Level 1 subject

Equivalent Subjects: ECON 1008 - Macroeconomics

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 1014 Consumers, Firms and Markets (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ1014/>) **Legacy Code:** 201099

This subject is an introduction to microeconomics. It provides students with an understanding of basic concepts such as value, rational consumer behaviour, the behaviour of firms in various market structures, the efficiency and failings of markets, the distribution of wealth and income, and the role of government regulation and intervention. It illuminates these concepts by considering and debating their application to contemporary economic and social issues such as: the influence of marketing on consumer choices, the concentration of market power in Australian industries, rising income and wealth inequality, minimum wage laws, and governmental responses to environmental problems and climate change.

ECON 2002 Corporate Financial Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ2002/>) **Legacy Code:** 200488

This unit introduces the fundamental concepts of finance theory and the tools of financial decision making in the context of the Australian institutional environment. These concepts relate primarily to the time value of money, risk and return, capital budgeting and capital structure. The unit's purpose is to develop an understanding of the basic practices of financial management from the perspective of a firm (both large and small). Students examine the investment, financing and dividend decisions of corporations.

Level: Undergraduate Level 2 subject

Pre-requisite(s): ECON 1006 OR MATH 1030

Equivalent Subjects: ECON 2003 - Financial Management FINC 2001 - Corporate Financial Decision Making

ECON 2004 Globalisation and Trade (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ2004/>) **Legacy Code:** 200541

Globalisation and Trade focuses on the role of trade in the process of globalisation. It covers the history and analytical methods of international trade theories and their applications in private industry and the public sector. The theories are applied to contemporary issues in their institutional settings, in particular to: growth and development; trading blocs; and trade strategies in the developed, underdeveloped and formerly planned economies. The unit provides students with a critical understanding of the major economic, environmental, social and ethical issues stemming from the process of globalisation and trade in the twenty first century.

Level: Undergraduate Level 2 subject

Pre-requisite(s): ECON 1011

Equivalent Subjects: ECON 2006 - International Trade Theory and Policy

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 2005 History of Economic Thought (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ2005/>) **Legacy Code:** 200064

This unit introduces the ideas of the most influential economic writers since Aristotle. Their theoretic contributions are discussed in the context of the political and philosophical debates and the economic issues of their times. The unit focuses on the theories of value and distribution; business cycles; and money and economic growth. It examines the criteria for progress in economic thought and considers the role of ideology and values. Students read selections from the writings of Smith, Ricardo, Mill, Marx, Marshall, Keynes and institutional writers.

Level: Undergraduate Level 2 subject

Pre-requisite(s): ECON 1009 AND

ECON 1008 OR

ECON 1011 AND

ECON 1013

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 2007 Macroeconomic Theory (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ2007/>) **Legacy Code:** 200547

Macroeconomic Theory aims to provide alternative theoretical explanations of the working of the macroeconomy. The unit will be based on the analytical narratives of macroeconomic developments taught in Australian Macroeconomy. Starting from the basic IS-LM model, it derives the aggregate demand (AD) curve and examines the components of commodity and money markets. It also analyses the labour market and derives the aggregate supply (AS) curve of an economy. Using the AD-AS model, it examines the interdependent nature of macroeconomic problems (e.g. inflation, unemployment), and the effectiveness of fiscal and monetary policies within a closed economy context. The basic model is then extended to analyse open economy issues (e.g., exchange rates and balance of payments, external shocks and international interdependence). Whenever appropriate, alternative approaches to macroeconomics are evaluated.

Level: Undergraduate Level 2 subject

Pre-requisite(s): ECON 1013

Equivalent Subjects: LGYA 4311 - Macroeconomic Analysis

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 3001 Applied Econometrics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ3001/>) **Legacy Code:** 200054

This unit builds on the econometric methods of Economic Modelling. The focus is on the linear model in econometrics in its application to economic and financial time series. The emphasis is on learning by doing in small group workshops.

Level: Undergraduate Level 3 subject

Pre-requisite(s): MATH 2002 OR ECON 3004

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 3002 Corporations, Economic Power and Policy (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ3002/>) **Legacy Code:** 200923

Australia's industrial, financial and retail sectors are dominated by powerful corporations which engage in a wide variety of competitive and cooperative behaviours. This unit examines how modern corporations position themselves in terms of investment in large-scale production, technological innovation, the manipulation of information, marketing, and cooperative strategies to gain market share and enhance their profitability. It also explores the effects of the interactions of corporate behaviour and public policy, including the governmental function of constructing and regulating explicit market rules of exchange.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 3003 Derivatives (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ3003/>) **Legacy Code:** 200079

This unit provides an introduction to the major classes of derivatives: forwards, futures, swaps and options. It examines how these instruments can be used by companies for the purposes of hedging, speculation and arbitrage. Each of these categories of derivatives is examined in some detail. Considerable attention is also given to various models used to price derivative products. The historical background to contemporary risk management is also considered.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ECON 1006 AND ECON 2002

Equivalent Subjects: LGYA 9824 - Risk Management LGYB 9004 - Options Futures and Derivative Products

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 3005 Economic Theories, Controversies and Policies (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ3005/>) **Legacy Code:** 200816

In 2016, this unit replaced by 200925 - Growth, Cycles and Crises. Economic Theories, Controversies and Policies presents alternative approaches to economic theories, controversies and policies. Topics may include recent developments or theoretical controversies in development economics, international trade, monetary economics, labour economics, environmental economics, managerial and industry economics, political economy, the economics of inequality, behavioural economics or feminist economics. Controversial contemporary policy debates, both in Australia and globally, will be examined. This unit will be team taught to expose students to a range of perspectives.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ECON 1011

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 3006 Economic and Financial Modelling (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ3006/>) **Legacy Code:** 200916

Economic and Financial Modelling examines regression analysis and its use in business especially in economics, finance and accounting. Topics will include the properties of estimators, hypothesis testing, specification error, multicollinearity, dummy variables, heteroskedasticity, serial correlation. It also introduces other modelling techniques in finance and economics. Empirical assignments undertaken by the student form an integral part of the unit. The emphasis is on learning by doing in small group workshops.

Level: Undergraduate Level 3 subject

Pre-requisite(s): MATH 1030 OR ECON 1006

Equivalent Subjects: ECON 3004 - Economic Modelling

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 3007 Economics and Finance Engagement Project (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ3007/>) **Legacy Code:** 200537

This unit will provide students with exposure to problems with which economists and finance professionals are confronted in their daily work. They will learn about and examine the multi-dimensional nature of the issues addressed by economists and finance professionals in real-life. Students will need to consider the nature of the problems, propose solutions, as well as address how realistic the solutions they are proposing are. They will learn how to systematically reflect on their contribution to the industry or community setting with which they engage.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 3008 Financial Institutions Lending (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ3008/>) **Legacy Code:** 200062

The major focus of this unit is the assessment and management of credit risk exposures and resulting implications on loan decisions and loan pricing decisions. The unit provides students with knowledge of traditional and modern credit risk measurement and management techniques, regulatory capital adequacy guidelines and economic capital decisions. Special topics covered include modern lending products and pertinent issues in lending. The unit covers current developments and debates in the field.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 3009 Financial Institutions Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ3009/>) **Legacy Code:** 200061

This unit provides an introduction to the theory and analytical techniques relevant to the management of Australian financial institutions. The unit presents a thorough examination of the major financial risks faced by Australian banks, and methods of measuring and managing these risks.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 3010 Globalisation and Asia (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ3010/>) **Legacy Code:** 200533

This unit aims to examine the role of the diverse economies of East Asia, Southeast Asia, and South Asia in the Global economy, and the complex economic, historical, political, social and cultural factors which have influenced and continue to shape the transformation of these economies. The unit will evaluate alternative development paradigms in light of the experience of these economies. The discussion will be cast within the wider debate about the role of foreign trade and investment flows. The unit will take the political economy approach to understanding both the transformation of these economies and their role in the Global Economy.

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYA 4320 - Asian Economies

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 3011 Government and the Economy (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ3011/>) **Legacy Code:** 200532

This unit focuses on the nature of state activity in the economy. The unit introduces students to different analytical approaches to the economic role of the state and considers their practical implications for economic policy analysis.

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYA 4318 - Public Finance

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 3012 Growth, Cycles and Crises (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ3012/>) **Legacy Code:** 200925

Growth, Cycles and Crises gives students an up-to-date understanding of macroeconomic developments, empirical puzzles, theoretical controversies and policy dilemmas of the day. It begins with an overview of different schools of thought and their historical roots. There follows an investigation of recent global crises, their underlying causes, and the policy responses in the major economic powers. We also consider the stresses on Australia resulting from global economic fluctuations and shifts, causing disruptive exchange rate swings and fiscal difficulties. Finally with major developments around the world and the controversies arising from them, such as debt crises and austerity debate, the problem of unbalanced growth in rapidly developing economies, and stagnation and policy zigzags apparent in some advanced economies.

Level: Undergraduate Level 3 subject

Equivalent Subjects: ECON 3005 - Economic Theories Controversies and Policies

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 3013 Industry Economics and Markets (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ3013/>) **Legacy Code:** 200531

The first part of this unit develops an understanding of the relationships between industry structure, the conduct of firms, and market performance. Alternative theories of the firm and strategic market behaviour are considered. The unit then examines the characteristics and operation of particular markets, including public goods and utilities, human resources, and natural and environmental resources. The analysis developed in the unit is used to provide insights into applied policy areas such as competition policy, regulation of public enterprises, microeconomic reform and industry policy.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ECON 1009 OR

ECON 1007 OR

ECON 1011

Equivalent Subjects: LGYA 4313 - Industry Economics and Policy

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 3014 International Finance (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ3014/>) **Legacy Code:** 200055

The study of international finance from the vantage point of a multinational enterprise provides students with a global insight into international trade for both manufactured and financial products. The unit recognises the increasing importance of global integration of money and capital markets - a trend that is creating expanded opportunities for both investors and organisations that need to raise capital. The recognition and management of risks associated with international operations are explored including cost of capital and financial structure, international financial markets crisis, international financial management, international monetary system, international diversification, foreign exchange risk management including the use of futures and options, foreign investment analysis, determination of exchange rates, balance of payments analysis, international debt crisis and country risk analysis.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ECON 2002

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 3016 Macroeconomic Issues (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ3016/>) **Legacy Code:** 200546

In 2016, this unit replaced by 200926 - Macroeconomic Measures and Models. Macroeconomic Issues provides tools to assess competing explanations, predictions and policy recommendations regarding the macroeconomy. Building on the introductory concepts, measures and simple theories, this unit develops a comprehensive model for identifying and quantifying the sources and mechanisms of macroeconomic change. A systematic modelling approach reveals whether differences are rooted in assumptions or empirical claims. We focus on Australia, but consider controversies relating to the USA, Asia and Europe, given their impact on global conditions and the lessons they offer for Australia. Topics include productivity and growth, the determinants of unemployment and inflation, the role of exchange rates in adjustment, and monetary and fiscal policy design.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ECON 1013 OR

ECON 2007 OR

LGYA 4311

Equivalent Subjects: LGYA 4317 - Macroeconomic Theory and Practice

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 3017 Macroeconomic Measures and Models (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ3017/>) **Legacy Code:** 200926

The unit equips students with formal tools to analyse macroeconomic problems. Students learn to use macroeconomic terms and measures competently in discussion, and interpret data from the income, product, external and government accounts, and labour force surveys. Through hands-on experience constructing and applying price indices, deflators and productivity measures, they acquire practical skills and a sound conceptual understanding of economic variables and the accounting framework. Students come to appreciate the power of macroeconomic models, learning how to capture myriad mechanisms and feedbacks in a single framework, for example to define and quantify multipliers and crowding-out effects. Finally, students gain an understanding of fundamental external constraints, such as international parity and balance of payments equilibrium conditions.

Level: Undergraduate Level 3 subject

Equivalent Subjects: ECON 3016 - Macroeconomic Issues

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 3018 Microeconomic Theory and Applications (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ3018/>) **Legacy Code:** 200530

In 2016, this unit replaced by 200923 - Corporations, Economic Power and Policy. The aim of Microeconomic Theory and Applications is to extend students' knowledge of microeconomic theory developed in Principles of Economics. After a more formal presentation, the rather idealistic assumptions used in the context of the perfectly competitive markets will be relaxed in order to model typical situations encountered in the business world. The theory of choice will be extended to situations where individuals face uncertainty regarding the outcome of their own actions. In terms of market structure, we will investigate the consequences in terms of price, quantity and consumer's surplus, of monopoly, oligopoly or duopoly markets. As some of these market structures imply that the individuals' decisions might strongly affect or be affected by a limited number of other decision makers, an introduction to Game Theory will be presented. Finally, our concerns for investigating more realistic economic situations will lead us to make a brief incursion into markets characterised by asymmetric information, the presence of public goods or the existence of externalities.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ECON 1011 OR
ECON 1006

Equivalent Subjects: LGYA 4313 - Industry Economics and Policy

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 3019 Political Economy (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ3019/>) **Legacy Code:** 200065

This unit examines various political economy approaches to the analysis of economics, mainly associated with Marxian, post-Keynesian, evolutionary schools of thought as well as development economics and the perspectives of international political economy. These may be regarded as the main alternatives to neo-classical economic theory. As they do not represent a unified body of thought, the unit will survey the main contributions of each, focusing on both the positive aspects of theory and the negative aspects relating to the critique of neo-classical theory.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ECON 1009 AND
ECON 1008 OR
ECON 1007

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 3021 The Superannuation Industry (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ3021/>) **Legacy Code:** 200077

This unit provides students with an understanding of the economics of retirement and retirement income provision, with particular emphasis on the Australian superannuation industry. On completion of this unit, students should have a comprehensive understanding of superannuation in Australia, as well as an appreciation of the economic issues associated with alternative models of retirement income provision.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 3022 Urban and Regional Economics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ3022/>) **Legacy Code:** 200075

Students wishing to enrol in this unit are advised to contact the Unit Coordinator. This unit deals with: models of short-run fluctuations of regional aggregates and the economic relations between regions; models of long-run change in regional aggregates and the long-run economic relations between regions; equilibrium models of intra-urban location; optimal models of intra-urban allocation; and optimal allocation of capital to urban land.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 4001 Advanced Analysis and Interpretation (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ4001/>) **Legacy Code:** 200897

Building on the introduction to the analysis of qualitative data presented in the core unit Research Design 1: Theories of Enquiry this unit, Advanced Analysis and Interpretation, will provide candidates with the techniques necessary to use, analyse and interpret qualitative data in business research. Presented as a series of seminar-workshops, candidates consider the theories that underpin the employed analytical methods, and then move to employ introduced qualitative software tools to analyse and interpret research data.

Level: Undergraduate Level 4 subject

Co-requisite(s): HUMN 4009

Restrictions: Please see the Subject Details page for any restrictions for this subject

ECON 7001 Economics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/econ7001/>) **Legacy Code:** 200425

This unit presents a broad overview of economics and the way economic activity, institutions and regulations shape social and business outcomes, knowledge that is critical for any student in a business-related discipline. Students will reflect critically on the key economic processes, theories and ideas. We study the way economics defines growth and wellbeing and the economic theories of income determination and business cycles that shape macroeconomic policy. Students will form perspectives on globalisation, trade, colonisation and development and the causes of, and solutions to, inequalities between Indigenous and non-Indigenous Australians. In the microeconomic component of the unit, we study the way economics understands and models individuals and the consumer, production and firms, markets and market structures, the role of government intervention and regulation, environmental outcomes and policy to control processes of economic power.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 8981 Economics (PG)

Electrical and Electronic Eng. (ELEC)

ELEC 1001 Digital Systems 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec1001/>) **Legacy Code:** 300018

This unit provides students with a solid background in digital logic design which is foundational to the fields of electrical and computer engineering. Digital logic design involves building electronic components and hardware, such as circuit boards and microchip processors. Students are first introduced to the fundamentals of digital logic, basic logic devices and Boolean algebra. This is followed by analysis and design of combinational and sequential logic circuits.

Level: Undergraduate Level 1 subject

Equivalent Subjects: ELEC 1002 - Digital Systems 1 (WSTC AssocD)

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 1002 Digital Systems 1 (WSTC AssocD) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec1002/>) **Legacy Code:** 700240

This unit provides students with a solid background in digital logic design which is foundational to the fields of electrical and computer engineering. Digital logic design involves building electronic components and hardware, such as circuit boards and microchip processors. Students are first introduced to the fundamentals of digital logic, basic logic devices and Boolean algebra. This is followed by analysis and design of combinational and sequential logic circuits. Offerings of alternate units are dependent on there being sufficient student enrolment numbers. If enrolments are low, the College may cancel delivery of the alternate unit.

Level: Undergraduate Level 1 subject

Pre-requisite(s): MATH 1010

Equivalent Subjects: ELEC 1001 - Digital Systems 1

ELEC 1003 Electrical Fundamentals (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec1003/>) **Legacy Code:** 300021

This unit introduces essential electrical engineering concepts that provide students with the basic requirements for analysing, designing, building, and testing simple engineering systems. Students use techniques for analysing different types of circuits based on their knowledge of electrical theory and the characteristics of power, electrical energy, signals, and electrical circuit components. Students have practical activities including conducting experiments in learning how electrical systems work. Students are introduced to Electrical Machines and Renewable Energy systems for a fundamental understanding.

Level: Undergraduate Level 1 subject

Equivalent Subjects: ELEC 1005 Electrical Fundamentals (WSTC)

ELEC 1004 Electrical Fundamentals (WSTC Assoc Deg)

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 1004 Electrical Fundamentals (WSTC AssocD) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec1004/>) **Legacy Code:** 700104

The objective of this unit is to introduce to the student a number of concepts within electrical engineering. These include basic definitions of charge, current, potential difference, power; electric circuits and basic laws such as Ohm's and Kirchoff's Laws; Thevenin, Norton's and the maximum power theorems; electromagnetism and the associated fundamental laws; capacitor and resistor circuits and time constants; an introduction to Electronics; communication waves; Logic gates and number systems; and an introduction to Electrical Machines and Renewable Energy systems. Basic principles are explained and applied to a range of typical electrical circuits and devices. These foundations provide students with the basic requirements for a career in engineering where the concepts can be developed or applied to more complex engineering systems.

Level: Undergraduate Level 1 subject

ELEC 1006 Engineering Computing (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec1006/>) **Legacy Code:** 300027

Engineering computing is an introduction to using computation to solve real problems. The unit also aims to instil sound principles of program design that can be utilised in many units throughout the students' course. The basic elements and structures of a high level language are taught. Students are exposed to numerous engineering problems and are encouraged to implement solutions using an algorithmic approach.

Level: Undergraduate Level 1 subject

Equivalent Subjects: ELEC 1008 Engineering Computing (WSTC) ELEC 1007 Engineering Computing (WSTC Assoc Deg)

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 1009 Electrical Circuit Fundamentals (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec1009/>) **Legacy Code:** 301336

This subject will be offered at Engineering Innovation Hub - Hassall St, Parramatta campus. This subject is an introductory unit in Electrical Engineering, which provides an introduction to electrical circuits and fundamental electrical elements as well as the technical skills to analyse such circuits. It is suitable for students pursuing further studies in Electrical Engineering such as Power and Energy, Telecommunications, Control, Instrumentation, as well as other related engineering disciplines including Computer Science and Engineering. In the practical section, this course provides hands-on experience in building and testing circuits. This unit is presented in such a way that students who have taken it are capable of building and analysing some practical, useful devices afterwards.

Level: Undergraduate Level 1 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 1011 Engineering Computing (10 Credit Points)

ELEC 2007 Engineering Visualization (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec2007/>) **Legacy Code:** 300029

This unit aims to provide a comprehensive introduction to fundamental concepts and algorithms in engineering visualization. Topics covered include visualization hardware, scan conversion of geometric primitives, 2D and 3D transformations, 3D viewing and projection, hidden surface removal, solid modelling, illumination models and image manipulation.

Level: Undergraduate Level 2 subject

Pre-requisite(s): Students must have passed ELEC 1006 Engineering Computing and either ELEC 2009 Microprocessor Systems or ELEC 2008 Microcontrollers and PLCs

Equivalent Subjects: LGYB 0688 - Computer Graphics

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 2008 Microcontrollers and PLCs (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec2008/>) **Legacy Code:** 300044

Through completion of an applied project students will develop an understanding of the hardware, architecture and the assembly language of microcontrollers in addition to the control of a mechanical system with a programmable logic controller (PLC). The unit looks at the applications of timers, interrupts and serial ports. Furthermore, the general approach in designing a microcontroller in mechanical systems will be studied. Students will use an Omron PLC to control a factory represented by four pneumatic cylinders. After covering the Ladder Logic programming language, they will move on to cover sequential programming and numerical manipulation using PLCs.

Level: Undergraduate Level 2 subject

Pre-requisite(s): ELEC 2004 OR

ELEC 1003 OR

ELEC 1009

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 2009 Microprocessor Systems (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec2009/>) **Legacy Code:** 300076

This unit introduces students to the internal structure of microprocessors used in computing systems and their fundamental operations. Topics include assembly language programming, interrupt processing, CPU functions, memory organization, and peripheral programming. The microprocessor and embedded processors are discussed. Students write assembly language programs, debug and create executable files to control microprocessor systems.

Level: Undergraduate Level 2 subject

Pre-requisite(s): ELEC 1001

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 2010 Power and Machines (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec2010/>) **Legacy Code:** 300052

This unit develops an understanding of the basic concepts of power and machines, including modern power systems and transformers, in addition to the fundamentals of electromechanical energy conversion. Students will also study magnetic circuits, modern permanent magnet materials and their characteristics, and balanced and unbalanced three-phase power systems.

Level: Undergraduate Level 2 subject

Pre-requisite(s): ELEC 2001 OR ELEC 2013

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 2011 Signals and Systems (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec2011/>) **Legacy Code:** 300057

This unit aims to develop students' understanding of continuous-time and discrete-time concepts and methods. It covers various signals and their analysis, as encountered in the fields of electrical, computer and telecommunication engineering.

Level: Undergraduate Level 2 subject

Pre-requisite(s): MATH 1019 AND ELEC 1003

Equivalent Subjects: ELEC 2012 - Signals and Systems (WSTC AssocD)

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 2012 Signals and Systems (WSTC AssocD) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec2012/>) **Legacy Code:** 700241

This unit aims to develop students understanding of continuous-time and discrete-time concepts and methods. It covers various signals and their analysis, as encountered in the fields of electrical, computer and telecommunication engineering. Offerings of alternate units are dependent on there being sufficient student enrolment numbers. If enrolments are low, the College may cancel delivery of the alternate unit.

Level: Undergraduate Level 2 subject

Pre-requisite(s): MATH 1020 AND ELEC 1004

Equivalent Subjects: ELEC 2011 - Signals and Systems

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 2013 Circuits and Signals (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec2013/>) **Legacy Code:** 301352

This unit will be offered at Engineering Innovation Hub - Hassall St, Parramatta campus. This unit covers the fundamentals of circuit, system and signal analysis on which most other courses in the electrical engineering curriculum are built. The unit provides a foundation in frequency domain analysis and in transform methods, as well as significantly extending alternate current analysis, transient analysis and other fundamental circuit analysis tools. Although there is a practical program in the laboratory, the theory aspects of this course are the primary focus.

Level: Undergraduate Level 2 subject

Pre-requisite(s): ELEC 1009

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 2014 Mathematics for Electrical Engineers 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec2014/>) **Legacy Code:** 301338

This unit will be offered at Engineering Innovation Hub - Hassall St, Parramatta campus. The unit combines two maths components, Vector Calculus and Complex Analysis, both of which incorporate calculus and linear algebra and have many applications to physics, engineering and mathematics, particularly electrical engineering. Vector Calculus involves calculus in two and three dimensions, theory of curves, vector functions and partial derivatives, two- and three-dimensional integration, line integrals and curl and divergence. Complex Analysis extends calculus from real numbers to complex numbers, and develops the theory of analytic functions, complex integration and Cauchy's theorem, series expansions, the residue theorem and applications to real improper integrals and trigonometric integrals.

Level: Undergraduate Level 2 subject

Pre-requisite(s): MATH 1035

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 2015 Mathematics for Electrical Engineers 2 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec2015/>) **Legacy Code:** 301339

This unit will be offered at Engineering Innovation Hub - Hassall St, Parramatta campus. This unit builds on two maths components begun in first year engineering, that is linear algebra and statistics. For linear algebra, the aim is to learn and apply the theoretical elements about linear combinations of vectors and matrices amongst other topics to problem sets. For statistics, the aim is to learn the various ways in which random variation arises in engineering contexts and apply methods and models for understanding data and making decisions. In both components, students will expand their skills in analytic thinking.

Level: Undergraduate Level 2 subject

Pre-requisite(s): MATH 1035

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 2016 Mathematics for Software Engineers (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec2016/>) **Legacy Code:** 301344

This unit will be offered at Engineering Innovation Hub - Hassall St, Parramatta campus. This unit builds on two maths components begun in first year engineering, which are Finite Maths and Statistics. For Finite Maths, the aim is for students to learn about the ideas in Number Theory, the theory of finite fields, cryptography and Algebraic Coding Theory as techniques for organising information and analysing it. For Statistics, the aim is to learn the various ways in which random variation arises in engineering contexts and apply methods and models for understanding data and making decisions. In both components, students will expand their skills in analytic thinking and making sense of data.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 2017 Requirements and Design Workshop (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec2017/>) **Legacy Code:** 301346

This unit will be offered at Engineering Innovation Hub - Hassall St, Parramatta campus. This unit has a series of software engineering workshops designed to teach students to work in teams and apply their knowledge to solve real-life problems. These workshops offer students opportunities to concentrate on software requirements analysis and design issues including artefacts produced as well techniques and tools to support this process (brainstorming, problem statements, requirements elicitation, producing design documents and prototyping). In addition, it provides students with some teamwork skills, requirements engineering and design techniques that an engineer would use in the early stages of the development process. The students are also getting experience on different aspects of designing a Web application with a major focus on the front-end.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 2018 Systems Modelling and Design (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec2018/>) **Legacy Code:** 301345

This unit will be offered at Engineering Innovation Hub - Hassall St, Parramatta campus. This unit reinforces the understanding of discrete mathematics and the role it plays in computing science and engineering. Students learn how to systematically derive implementations from formal specifications using simple mathematics. Students also learn to develop an understanding of the rules for deriving implementations from specifications. Why do they work? What do we have to prove and how? This is crucial for later industrial software engineering practice.

Level: Undergraduate Level 2 subject

Pre-requisite(s): MATH 1006 AND ENGR 1045

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 2019 Workshop on Reasoning about Programs (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec2019/>) **Legacy Code:** 301347

This unit will be offered at Engineering Innovation Hub - Hassall St, Parramatta campus. The goal of this unit is to develop skills in writing precise specifications of software programs and to translate these specifications into correct implementations. Further methods for reasoning about programs are introduced, including methods for reasoning about termination, program refinement and data refinement. Students learn to apply these ideas to structure their thinking about programs as well as to build a web application within a project context.

Level: Undergraduate Level 2 subject

Pre-requisite(s): ELEC 2018

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 3001 Communication Systems (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec3001/>) **Legacy Code:** 300007

This unit will provide a basic introduction to communication systems and techniques. Specific topics covered include energy and power spectral density, amplitude modulation, frequency modulation, pulse modulation, an overview of digital modulation techniques, noise in communication systems and an overview of current telecommunication systems; spread spectrum systems, optical communication systems, radio broadcasting and mobile communication systems.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ELEC 2011

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 3002 Data Communications (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec3002/>) **Legacy Code:** 300997

This unit is concerned with the principles and topics of fundamental importance to digital data communication, computer communication networks and telecommunications. The lower layers of the protocol structure (physical layer, data link layer and some aspects of the network layer) and the physical medium (hardware and transmission lines) are emphasized. An engineering approach will be taken to provide an insight to transmission and transmission media, communication techniques and transmission efficiency.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ELEC 2011

Incompatible Subjects: ELEC 4001 - Data Networks

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 3003 Digital Signal Processing (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec3003/>) **Legacy Code:** 300069

Students will develop an understanding of the fundamental concepts and principles in digital signal processing by applying the theory learned in their classes to practical exercises. The subject matter includes discrete-time signals and systems, the z-transform, sampling of continuous-time signals, transform analysis of linear time-invariant systems, filter design techniques, structures for discrete-time systems, the discrete Fourier transform and computation of the discrete Fourier transform.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ELEC 2011 OR

ELEC 2013

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 3004 Digital Systems 2 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec3004/>) **Legacy Code:** 300019

This unit covers modern logic design techniques and the process of creating logic circuits and systems from design specifications to implementation. Topics include logic design techniques for combinational and sequential logic circuits; hardware description language (HDL); logic circuit implementation using an HDL; state-of-the-art logic circuit design tools; and programmable logic devices.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ELEC 1001

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 3005 Electrical Drives (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec3005/>) **Legacy Code:** 300070

Through practical laboratory exercises students will analyse and evaluate electrical machines and drives. They will examine various types of electrical motors and drive systems, their applications and control. They will also study various types of speed control, starting and braking systems and dynamics.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ELEC 3006

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 3006 Electrical Machines 1 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec3006/>) **Legacy Code:** 300071

This unit introduces the fundamental principles of electrical machines, the principles of electromechanical energy conversion and the operation and analysis of Direct Current (DC) generators and motors, induction motors and synchronous machines. Students apply principles and theory to practical exercises to develop their understanding. The unit also introduces various special purpose electrical machines, such as permanent magnet machines, step motors and reluctance machines for an understanding on different types of machines.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ELEC 2010

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 3008 Instrumentation and Measurement (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec3008/>) **Legacy Code:** 300075

Through practical exercises students will engage with engineering measurement and instrumentation systems. Students determine the most appropriate measurement method and instrument, such as multimeters, digital oscilloscopes and interfacing modules, for particular applications. They will gain experience with the measurement of physical quantities and the instrumentation required to accurately present information to a controller. Additionally, transducers used to measure common physical quantities are presented in detail, while instrumentation includes a detailed analysis of zero-span circuits, Wheatstone bridges, instrumentation amplifiers, isolation amplifiers, voltage-to-current and voltage-to-frequency modules used for faithful signal transmission, digital-to-analogue and analogue-to-digital circuits to deepen student learning.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ELEC 2001 OR

ENGR 2001

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 3009 Power Systems (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec3009/>) **Legacy Code:** 300771

This unit provides students with a global picture of electrical energy systems. Through practical exercises students will examine and analyse the basic processes of generation, transmission and distribution, power system analysis and planning as well as power systems operation under steady-state and transient conditions. Various aspects of power system operation including harmonics, fundamentals of protection, environmental issues and renewable energy systems are also covered in this unit.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ELEC 2010

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 3010 Renewable Energy Systems Design (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec3010/>) **Legacy Code:** 301425

This unit prepares engineering students to be conversant with renewable energy systems. Students will learn to appraise environmental, social, legal, economic and political issues concerning renewable energy systems. Students will also learn relevant design skills related to renewable energy systems.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ELEC 1003 AND

ENGR 1011

Equivalent Subjects: ELEC 4006 Sustainable Energy Systems

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 3011 Power and Machines (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec3011/>)

This subject develops an understanding of the basic concepts of power and machines, including modern power systems and transformers, in addition to the fundamentals of electromechanical energy conversion. Students engage in practical activities to develop knowledge and skills in magnetic circuits, balanced and unbalanced three-phase power systems, and transformers. These concepts comprise essential knowledge for electrical engineers.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ELEC 2001 OR

ELEC 2013

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 4002 Power Electronics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec4002/>) **Legacy Code:** 300772

The unit covers various types of power electronics systems, their applications and use in Electrical Drive Systems. It also covers application considerations and modern developments in electronic systems. This course provides the fundamentals of Power Electronics and Industrial Electronics.

Level: Undergraduate Level 4 subject

Pre-requisite(s): ELEC 2010 AND

ELEC 2004

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 4003 Power Quality (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec4003/>) **Legacy Code:** 300995

This unit is to introduce students to power quality phenomena such as voltage sag/swell, distortions, unbalance, and flicker that occur in power systems. The unit also introduces terms and definitions associated with power quality, following which each phenomenon, that is, voltage sag/swell, transient overvoltage, and harmonics. In addition, flicker is presented and discussed in detail for students to understand the sources and impact of these occurrences on power system as well as typical mitigation techniques. Finally, students are introduced to power quality benchmarking, monitoring and assessment.

Level: Undergraduate Level 4 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 4004 Radio and Satellite Communication (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec4004/>) **Legacy Code:** 300489

This unit is offered in alternate years. This unit will develop an understanding of the theory and practice of radio and satellite communication techniques and measurements and provide an introduction to space communication systems. It will complement the general communication engineering units, addressing advanced topics important and specific to radio and satellite communications.

Level: Undergraduate Level 4 subject

Pre-requisite(s): ELEC 3001 OR ELEC 4001

Equivalent Subjects: LGYA 3699 - Satellite Communication

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 4005 Smart Grids and Distributed Generation (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec4005/>) **Legacy Code:** 300996

This unit is designed to model, analyse and control of newly developing areas of distributed generation and smart grids. The unit will cover modelling, control, simulation and protection of such systems. The unit will cover the impacts of renewable sources and power electronics on the operation of smart grids and micro-grids. The unit will also cover environmental and economic impacts of such systems.

Level: Undergraduate Level 4 subject

Pre-requisite(s): ELEC 3009

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 4006 Sustainable Energy Systems (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec4006/>) **Legacy Code:** 300998

This unit prepares engineering students to work in the area of renewable energy systems and to be knowledgeable and be in a position to appraise environmental, social, legal, economic and political issues concerned with renewable energy systems.

Level: Undergraduate Level 4 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 4007 Wireless Communications (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec4007/>) **Legacy Code:** 300065

The unit covers the analysis, design and operation of modern wireless communication systems. The primary focus is on the physical layer and hardware, emphasizing the fundamentals of coding and modulation, spread spectrum and multiple access techniques. Current wireless architectures and mobile communication systems are also covered.

Level: Undergraduate Level 4 subject

Pre-requisite(s): ELEC 3001 OR ELEC 3002

Equivalent Subjects: LGYA 5692 - Digital Communication Engineering

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 4008 Electrical Drives (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec4008/>)

Electrical drives are electromechanical systems which enable electrical machines to function. Through theoretical analyses and practical laboratory exercises, students analyse and evaluate electrical machines and drives as well as examine various types of electrical motors and drive systems, their applications and control. Students conduct experiments on speed control, starting and braking systems, and dynamics of electric motors. These activities comprise essential knowledge and skills for students to be competent in the area of power engineering.

Level: Undergraduate Level 4 subject

Pre-requisite(s): ELEC 3006

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 4009 Instrumentation and Measurement (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec4009/>)

Through practical exercises students will engage with engineering measurement and instrumentation systems. Students determine the most appropriate measurement method and instrument, such as multimeters, digital oscilloscopes and interfacing modules, for particular applications. They will gain experience with the measurement of physical quantities and the instrumentation required to accurately present information to a controller. Additionally, transducers used to measure common physical quantities are presented in detail, while instrumentation includes a detailed analysis of zero-span circuits, Wheatstone bridges, instrumentation amplifiers, isolation amplifiers, voltage-to-current and voltage-to-frequency modules used for faithful signal transmission, digital-to-analogue and analogue-to-digital circuits to deepen student learning.

Level: Undergraduate Level 4 subject

Pre-requisite(s): ELEC 2001 OR ENGR 2001

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 6001 Applied Project in Neuromorphic Engineering (40 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec6001/>) **Legacy Code:** 800235

This 40 credit point semester-long unit provides a capstone experience to students enrolled in the Master of Applied Neuromorphic Engineering. Students work on an industry-oriented project with practical application and outcome. Having the intention to go into industry, this unit provides opportunities for students to explore a relevant problem that can be completed in one semester. Students will gain valuable experience and industry insights.

Pre-requisite(s): INFO 7001 AND

ELEC 6003 AND
COMP 6001 AND
COMP 6002

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 6002 Master Dissertation in Neuromorphic Engineering (40 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec6002/>) **Legacy Code:** 800234

This is a 80 credit point year-long subject taken over two terms (40 credit points in each term). This subject is offered exclusively on campus for students to benefit from mentorships and regular interactions with leading researchers in the field. Students will have the opportunity to contribute towards impactful research projects, aiming at academic growth and progress. To achieve this goal, the Dissertation subject is designed for students to plan and execute a research-based project in the area of Neuromorphic Engineering. The main task in the year-long 80 credit point dissertation subject is an academic research paper that meets publishing standards and is peer-reviewed by external reviewers (getting the article published on a journal is not a completion requirement to the unit). The students shall be part of regular International Center for Neuromorphic Systems (ICNS) interactions, and benefit from supervisors in a discursive setting as the candidate makes progress.

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 6003 Neuromorphic Accelerators (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec6003/>) **Legacy Code:** 800231

Problem-oriented thinking and distributed system design are essential for neuromorphic engineers. This unit is designed to provide students with sufficient understanding to neuromorphic processor. Students will be able to implement spiking neural networks by programming neuromorphic processors. The lab work and programming assignments focus on different key aspects of programming neuromorphic processor: Neural modelling, Python programming, debugging code and hardware/software co-simulation. The workshops focus on the concrete implementation of neural networks.

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 6004 Neuromorphic Electronics Design (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec6004/>) **Legacy Code:** 800229

Efficient, parallel, low-power computation is a hallmark of brain computation and the goal of neuromorphic engineering. The focus of this unit is to design, implement and test accurate, electronic, very large scale integrated (VLSI) circuit model of neural systems and the associated signal processing. Students will have opportunities to design and build a neural system on hardware and gain resultant insights into applying neuromorphic engineering to real-world problems. This subject will be undertaken at Parramatta City - Hassall St campus.

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 7001 Advanced Control Systems (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec7001/>) **Legacy Code:** 300603

This unit covers continuous and discrete control systems. It reviews and builds on the fundamental concepts of the theory of feedback in continuous and discrete time to examine the analysis and design of advanced continuous and discrete time linear control systems. Transfer function and state variable methods are employed. Instruction makes use of extensive experimental tasks. There is also considerable use of Matlab simulations.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: LGYA 5850 - Digital Control LGYA 5813 - Advanced Control Systems

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 7002 Advanced Data Networks (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec7002/>) **Legacy Code:** 300173

This unit covers all major network technologies: asynchronous transfer mode (ATM), Internet, and telephony. Essential networking topics such as protocol layering, multiple access, switching, scheduling, routing, congestion control, error and flow control, and network security are covered in detail. An engineering approach is taken to provide insight into network design.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 7003 Advanced Electrical Machines and Drives (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec7003/>) **Legacy Code:** 300601

The subject covers various types of electrical motors and drive systems, their applications and control. The unit aims to introduce an advanced study of electrical machines and drives. It also covers application considerations and modern developments in high performance drive systems. This course covers various types of the speed control, the starting, the braking and the dynamics of different electrical machines and drives.

Level: Postgraduate Coursework Level 7 subject

Incompatible Subjects: LGYA 5847 - Variable Speed Electric Drives LGYA 5844 - Special Electrical Machines

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 7004 Advanced Power Quality (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec7004/>) **Legacy Code:** 301025

This unit is to introduce students to power quality phenomena such as voltage sag/swell, distortions, unbalance, and flicker that occur in power systems. The unit also introduces terms and definitions associated with power quality, following which each phenomenon, that is, voltage sag/swell, transient overvoltage, and harmonics. In addition, flicker is presented and discussed in detail for students to understand the sources and impact of these occurrences on power system as well as typical mitigation techniques. Finally, students are introduced to power quality benchmarking, monitoring, assessment. In addition Advanced knowledge on network frequency responses is presented.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 7005 Advanced Signal Processing (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec7005/>) **Legacy Code:** 300596

This unit covers the principles and techniques in signal processing. The subject matter includes advanced topics in discrete-time signals and systems, the z-transform and its applications in signal processing, advanced topics in the sampling of continuous-time signals, FIR and IIR filter design, filter structures, and the discrete Fourier transform and its computation. Students develop skills of analysing and designing digital signal processing systems.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 5840 - Signal Processing 1

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 7006 Advanced Smart Grids and Distributed Generation (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec7006/>) **Legacy Code:** 301026

This unit is designed to model, analyse and control of newly developing areas of distributed generation and smart grids. The unit will cover modelling, control, simulation and protection of such systems. The unit will also cover the impacts of renewable sources and power electronics on the operation of smart grids and micro-grids. The unit will also cover environmental and economic impacts of such systems.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 7008 Instrumentation and Measurement (PG) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec7008/>) **Legacy Code:** 300515

This unit covers topics associated with the measurement and presentation of physical parameters. A wide range of transducers are presented in detail, while instrumentation includes a detailed analysis of a multitude of analogue and digital circuits used to amplify, transmit, and display electrical signals. The application of these modules in modern measurement equipment is presented in details.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 7009 Personal Communication Systems (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec7009/>) **Legacy Code:** 300196

This unit covers the design fundamentals of cellular systems, including frequency reuse, channel assignments, radio wave propagation in mobile environments, modulation techniques, coding techniques, spread spectrum and multiple access. It includes topics from emerging wireless technologies, and third-generation mobile communication systems and standards.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 7010 Power System Planning and Economics (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec7010/>) **Legacy Code:** 300197

This unit covers planning techniques for energy and electrical power systems. It also covers the economics of various options and reliability of electrical power systems.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 9001 Higher Degree Research Thesis - Engineering (Computer) (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec9001/>) **Legacy Code:** 800053

Level: PhD and Research Masters Level 9 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 9002 Higher Degree Research Thesis - Engineering (Electrical) (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec9002/>) **Legacy Code:** 800051

Level: PhD and Research Masters Level 9 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 9003 Higher Degree Research Thesis - Engineering (Mechatronic) (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec9003/>) **Legacy Code:** 800057

Level: PhD and Research Masters Level 9 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ELEC 9004 Higher Degree Research Thesis - Engineering (Telecommunications) (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/elec9004/>) **Legacy Code:** 800055

Level: PhD and Research Masters Level 9 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

Environmental Studies (ENVL)

ENVL 1001 Understanding Landscape (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl1001/>) **Legacy Code:** 300812

This unit explores the historical and cultural perceptions and perspectives of the term 'landscape' and the sustainability and management of landscapes. Students become familiar with the terminology and concepts surrounding the natural landscape experientially through a series of field trips and develop an awareness and appreciation of both of the conceptual and actual landscape issues. Skills in mapping and spatial awareness skills and technologies will be developed through field trips and workshop sessions including GIS. Such skills will assist in developing a capacity to comprehensively describe and analyse the landscape.

Level: Undergraduate Level 1 subject

Equivalent Subjects: LGYA 6199 - Understanding Landscape LGYB 9526 - Understanding Landscape

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 1002 Environmental Issues and Solutions (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl1002/>) **Legacy Code:** 301271

This unit explores a variety of environmental issues with a focus on emerging environmental issues. The relationships between human health and environmental health are explored through a number of case studies. Concepts explored include 21st Century contaminants, noise, energy and water. Through a combination of case studies and practical field experience, students will develop the skills and knowledge appropriate to develop solutions to a variety of environmental issues. Students enrolled in the Undergraduate Certificate in Environmental Sustainability will not complete the practical field experience component of this unit, as they will be studying online.

Level: Undergraduate Level 1 subject

Equivalent Subjects: PUBH 1002 Environment and Health

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 1003 Environmental Issues and Solutions (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl1003/>) **Legacy Code:** 700296

This unit explores a variety of environmental issues with a focus on emerging environmental issues. The relationships between human health and environmental health are explored through a number of case studies. Concepts explored include 21st Century contaminants, noise, energy and water. Through a combination of case studies and practical field experience, students will develop the skills and knowledge appropriate to develop solutions to a variety of environmental issues.

Level: Undergraduate Level 1 subject

Equivalent Subjects: PUBH 1002 Environment and Health
ENVL 1002 Environmental Issues and Solutions

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 1004 Introduction to Environmental Science (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl1004/>) **Legacy Code:** 301407

Students learn how biology, chemistry and the physical sciences interact to regulate environmental processes in natural and built environments. They will evaluate concepts of sustainability and resilience and apply these perspectives to understand how human actions can alter the natural world. Students will use interdisciplinary approaches, including field studies, to investigate environmental processes and evaluate specific environmental challenges. Local and global environmental issues, sustainability, resilience and stewardship will be explored across diverse social and ecological contexts.

Level: Undergraduate Level 1 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 1005 Environmental Issues and Solutions (UG Cert) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl1005/>) **Legacy Code:** 500053

This unit explores a variety of environmental issues with a focus on emerging environmental issues. The relationships between human health and environmental health are explored through a number of case studies. Concepts explored include 21st Century contaminants, noise, energy and water. Through a combination of case studies and practical field experience, students will develop the skills and knowledge appropriate to develop solutions to a variety of environmental issues.

Level: Undergraduate Level 1 subject

Equivalent Subjects: PUBH 1002 Environment and Health
ENVL 1003 Environmental issues and Solutions
ENVL 1002 Environmental issues and Solutions

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 1006 Environmental Health Issues and Solutions (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl1006/>)

This subject explores the interdependent nature of human health and that of the environment, both natural and urban. Concepts explored include 21st Century contaminants, noise, energy and water. Through a combination of case studies and practical field experience, students will develop the skills and knowledge appropriate to develop solutions to a variety of environmental health issues.

Level: Undergraduate Level 1 subject

Equivalent Subjects: PUBH 1002 - Environment and Health
ENVL 1002 - Environmental Issues and Solutions

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 1007 Environmental Health Issues and Solutions (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl1007/>)

This subject explores the interdependent nature of human health and that of the environment, both natural and urban. Concepts explored include 21st Century contaminants, noise, energy and water. Through a combination of case studies and practical field experience, students will develop the skills and knowledge appropriate to develop solutions to a variety of environmental health issues.

Level: Undergraduate Level 1 subject

Equivalent Subjects: PUBH 1002 Environment and Health
ENVL 1002 Environmental Issues and Solutions

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 2001 Analysis of Spatial Data (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl2001/>) **Legacy Code:** 101646

The making and the use of maps. This unit involves the critical examination of the way geographical data is produced, analysed, mapped and used to inform both private and public decisions. Natural environment, health, accessibility and residential amenity are examples of phenomena that have an important geographical dimension. Policy responses to these phenomena need to be specific with regard to locations and places. Geographic information systems software and census will be used to produce maps based on the analysis and interpretation of data relating to the student's field of interest.

Level: Undergraduate Level 2 subject

Equivalent Subjects: LGYA 7235 - Analysis of Spatial Data

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 2002 Environmental Regulation and Policy (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl2002/>) **Legacy Code:** 300841

This unit aims to provide students with a broad understanding of the current environmental regulations available to environment protection and planning authorities at the State and Local Government level to protect and manage the natural and built environments. This unit will also consider environmental policy introduced by the State and Commonwealth governments to manage land use activities so as to encourage sustainable development practices. It is a suitable unit for students entering government or industry in environmental management, health and planning roles. There is a particular focus on the use of legislation and preparation of policy to address environmental and health risks to the community.

Level: Undergraduate Level 2 subject

Equivalent Subjects: ENVL 3001 - Environmental Regulations and Policy

ENVL 3002 - Environmental Regulations

ENVL 3010 - Environmental Planning Policy Regulation

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 2003 Landuse and the Environment (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl2003/>) **Legacy Code:** 300875

This unit will assist students develop a sound framework for the analysis of land use and its interactions with the environment. The skills gained will assist in the evaluation of land use at various levels from household to international level. Particular emphasis will be placed on students gaining a sound conceptual framework from which to examine sustainability at the environmental, economic, social, and production levels. Emphasis will be placed on the use of ecological footprinting as a tool.

Level: Undergraduate Level 2 subject

Equivalent Subjects: LGYA 6188 - Landuse and the Environment

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 2005 Internet of Things for the Environment (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl2005/>) **Legacy Code:** 301275

Internet of things (IoT) is about connecting platforms to internet for monitoring, managing and controlling them. Simply put, IoT can make 'dumb' things 'smart' by connecting them to the Internet and sensors. This results in improved efficiency of data collection, accuracy and decision making. The applications of IoT is rapidly expanding in environmental science and management, and the topics in this unit will cover aspects of IoT for water, air and noise pollution monitoring, extreme weather warning, river water flow monitoring, water quality management, irrigation management, flora and fauna monitoring, broadacre agriculture, protected cropping, biodiversity, ecosystems health, wildlife and more.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 2006 Environmental Planning and Climate Change (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl2006/>) **Legacy Code:** 301390

This unit is an introduction to environmental planning in local and state government and in particular the role of planning in protecting the natural environment, enhancing population health and/or encouraging sustainable development practices. Students focus on goal-setting for environmental protection and then explore how planning policy can assist with achieving these goals. Current metropolitan planning and strategy is examined using the Metropolitan Strategy for Sydney as the primary case study. The unit scopes environmental planning policies introduced by state, local and Commonwealth governments to adapt to climate induced impacts on the environment and on community health and well being.

Level: Undergraduate Level 2 subject

Equivalent Subjects: PUBH 3009 - Environmental Planning PUBH 2008 - Environmental Planning Climate Change

Incompatible Subjects: NATS 2020 - Healthy Built Environments

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 2007 Environmental Monitoring and Assessment (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl2007/>) **Legacy Code:** 301408

In this unit, you will develop the practical skills and underlying scientific knowledge required to address environmental questions across natural and built environments. Through practicals, workshops, and an independent research project you will learn how to design a monitoring and assessment program to characterise different environment situations, interpret data and propose management solutions to contemporary environmental challenges. The unit will introduce a range of topics, including the application of geographic information systems (GIS), remote sensing methodologies, environmental sensors, the internet of things and citizen science approaches to understand and improve environmental situations, and provides opportunities to research a chosen, real-world topic to assess an aspect of environmental sustainability.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 2008 Australian Ecosystems: Threats and Solutions (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl2008/>)

Australian ecosystems are home to a unique and diverse set of plants and animals. This diversity underpins healthy functioning and resilience of our ecosystems, yet is under threat from habitat degradation, pollution, invasive species and climate change. In this subject you will be introduced to different Australian vegetation communities and explore interactions with soil, animals and climate. You will learn how environmental threats and disturbances affect Australian ecosystems and be introduced to the principles of ecosystem conservation and policy. Practical include a mix of field- and lab-based activities to develop job-ready skills such as surveying and identifying ecological communities.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 2009 Ecosystem Restoration (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl2009/>)

Ecosystem Restoration will cover the most widely used and successful management strategies employed to conserve and restore native species and communities facing land degradation and major threats. This subject will cover policy requirements and active management strategies involved in rewilding, ecological restoration, reintroductions, translocations, and their implementation at local, national and global levels. You will explore the full range of concepts and tools for conservation management. This subject will focus on restoration and conservation from individuals to landscapes. Indigenous and industry groups will guide workshop discussions. Its focus is ecological, although consideration is also given to socio-economic factors that influence restoration programs.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 2010 Conservation Priorities and Process (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl2010/>)

Conservation Priorities and Practice examines the procedures involved in real world conservation interventions and their impact on biodiversity. You will develop the skills to assess the threatened status of species and ecosystems, and how decisions are made to prioritise resource allocation. You will be encouraged to think about conservation recovery plans in state, national, and international policy and governance frameworks. You will assess how conservation outcomes are managed on different land holdings such as private land including on farms (agroecology) and how biodiversity offsetting is applied. You will build a cross-disciplinary awareness of biodiversity conservation practices and how to engage with diverse interest groups.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 3003 Environmental Risk Management (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl3003/>) **Legacy Code:** 300858

This unit examines the world of environmental risk management and will introduce students to environmental management systems including Environmental Impact Assessment and Environmental Auditing. The unit considers and examines the application of the precautionary principle in real world situations. Students will also be introduced to methods of quantitative risk assessment as applied to environmental and agricultural risks such as urban, peri-urban and rural growth; industrial and agricultural land use; contaminated land, and climate change.

Level: Undergraduate Level 3 subject

Equivalent Subjects: ENVL 3004 - Environment Risk Management LGYA 6128 - Agriculture Risk

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 3005 Planning the City: Development, Community and Systems (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl3005/>) **Legacy Code:** 101593

This unit aims to provide students with a fundamental understanding of the role of government, focusing on the role and nature of planning across all levels of government from a variety of theoretical frameworks. It presents a critical examination of the urban development and planning processes, with particular attention given to the environmental and political issues associated with planning at the local government level. It looks at the changes and challenges confronting local government in view of the demands made on them by the changing social and economic conditions and societal values such as those relating to requirements for public participation, transparency and accountability. The unit also examines the role of private sector in planning and assessment processes.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 3006 Transport, Access and Equity (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl3006/>) **Legacy Code:** 101645

This unit examines the equity and efficiency issues in the provision of transport in cities and regions from a critical social science perspective. Issues of transport disadvantage and policy and planning responses to improve access to urban services are examined. The social and environmental impact of transport systems are considered in the context of urban management.

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYA 7234 - Transport Access and Equity

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 3007 Urban Environment (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl3007/>) **Legacy Code:** 300860

This unit explores the relationships between community, the natural environment and government within an urban context through considering how housing and urban development can influence population health. Concepts explored include "healthy housing", "active living" "safety by design" and "energy efficiency". Through a combination of case studies and practical field experience, students will develop the skills and knowledge appropriate to assessing the "healthiness" and sustainability of urban environments. The unit examines methods of construction and building regulation aimed at the preservation of health and amenity.

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYA 6254 - Urban Environment

Incompatible Subjects: LGYB 9943 - Environmental Health Law ARCH 3007 - Urban Development Systems NATS 2020 - Healthy Built Environments

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 3009 Air Quality and Climate Change (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl3009/>) **Legacy Code:** 301391

Deteriorating air quality and climate change are two major challenges facing humanity and threatening environmental sustainability and human health. As such, air quality and climate change are of International, National, State and local community concern. This unit critically analyses the many issues that relate to air pollution, including its nature, extent, impacts and monitoring. Students will examine an air pollution issue of their choice.

Level: Undergraduate Level 3 subject

Equivalent Subjects: PUBH 3001 - Air Quality and Climate Change LGYA 6192 - Air Quality Management

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 3010 Environmental Planning, Policy & Regulation (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl3010/>) **Legacy Code:** 301403

This unit is an introduction to environmental planning and environmental regulations in local and state governments. It covers the role of planning and enforcement of regulations in protecting the natural environment, enhancing public health and/or encouraging sustainable development practices. Students become familiar with the key legislation for environmental protection and then explore how planning and regulations can assist with achieving optimal environmental outcomes. Current planning and regulations are examined using urban development and planning in Sydney as the primary case study. The unit includes key environmental planning policies and important legislation used by state, local and Commonwealth governments to protect the natural and built environment and to protect public health.

Level: Undergraduate Level 3 subject

Equivalent Subjects: PUBH 2007 Environmental Planning and Climate Change

ENVL 2002 Environmental Regulations and Policy

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 7002 Planning and Environmental Regulation (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl7002/>) **Legacy Code:** 101634

This unit provides students with an understanding of the planning process from both a state and local government perspective. The unit will cover concepts related to the planning process, focusing on development control and regulation issues, planning instruments and development applications. It will also address the areas of planning and environment law, with specific reference to the legal framework that regulates planning and development in NSW.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 7003 Urban Research Report (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl7003/>) **Legacy Code:** 101637

This capstone unit requires students to write a 5,000 word comprehensive research report on a local or international urban planning issue. Students will select a research topic of individual interest, and work to assemble a range of evidence to address the research question. This facilitates an opportunity for students to apply their skills and knowledge acquired in the Master's program, through a high level of work and quality engagement in an authentic and professional context.

Level: Postgraduate Coursework Level 7 subject

Equivalent Subjects: LGYA 1299 - Urban Management Placement Thesis

Restrictions: Please see the Subject Details page for any restrictions for this subject

ENVL 9001 Higher Degree Research Thesis - Environmental Studies (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/envl9001/>) **Legacy Code:** 800067

Level: PhD and Research Masters Level 9 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

Food and Hospitality (HOSP)

HOSP 3001 Approved Industrial Experience (400 Hrs) (0 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/hosp3001/>) **Legacy Code:** HS305A

This is a "Work Experience in Industry" unit, for which no student contribution or fee is charged. Enrolment in the unit will not consume Student Learning Entitlement (SLE). Students in the Bachelor of Hospitality Management are required to obtain at least 400 hours, vocationally relevant, industrial experience during their program of study.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

General Education Programs (GEDU)

GEDU 0001 Tertiary Study Skills in Arts (WSTC Prep) (0 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/gedu0001/>) **Legacy Code:** 700165

This unit is designed to assist students to become successful independent reflective learners. It introduces students to a range of theories and concepts to facilitate the development of practical skills and personal attitudes necessary for success in tertiary study.

Level: Undergraduate Level 0 Preparatory subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

GEDU 0002 Tertiary Study Skills in Business (WSTC Prep) (0 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/gedu0002/>) **Legacy Code:** 700247

This unit is designed to assist students to become successful independent reflective learners. It introduces students to a range of theories and concepts to facilitate the development of practical skills and personal attitudes necessary for success in tertiary study.

Level: Undergraduate Level 0 Preparatory subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

GEDU 0005 Tertiary Study Skills in Construction Management (WSTC Prep) (0 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/gedu0005/>) **Legacy Code:** 700167

This unit is designed to assist students to become successful independent, reflective, lifelong learners. It introduces students to a range of theories and concepts to facilitate the development of practical skills and personal attitudes necessary for success in tertiary study and the workplace.

Level: Undergraduate Level 0 Preparatory subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

GEDU 0006 Tertiary Study Skills in Criminal and Community Justice (WSTC Prep) (0 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/gedu0006/>) **Legacy Code:** 700168

This unit is designed to assist students to become successful independent reflective learners. It introduces students to a range of theories and concepts to facilitate the development of practical skills and personal attitudes necessary for success in tertiary study.

Level: Undergraduate Level 0 Preparatory subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

GEDU 0007 Tertiary Study Skills in Design (WSTC Prep) (0 Credit Points)

Level: Undergraduate Level 0 Preparatory subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

GEDU 0012 Tertiary Study Skills in Legal Studies (WSTC Prep) (0 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/gedu0012/>) **Legacy Code:** 700172

This unit is designed to assist students to become successful independent reflective learners. It introduces students to a range of theories and concepts to facilitate the development of practical skills and personal attitudes necessary for success in tertiary study.

Level: Undergraduate Level 0 Preparatory subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

GEDU 0013 Tertiary Study Skills in Science (WSTC Prep) (0 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/gedu0013/>) **Legacy Code:** 700173

This unit is designed to assist students to become successful independent reflective learners. It introduces students to a range of theories and concepts to facilitate the development of practical skills and personal attitudes necessary for success in tertiary study and beyond.

Level: Undergraduate Level 0 Preparatory subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

GEDU 0014 Tertiary Study Skills in Social Science (Policing) (WSTC Prep) (0 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/gedu0014/>) **Legacy Code:** 700175

This unit is designed to assist students to become successful independent reflective learners. It introduces students to a range of theories and concepts to facilitate the development of practical skills and personal attitudes necessary for success in tertiary study.

Level: Undergraduate Level 0 Preparatory subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

GEDU 0015 Tertiary Study Skills in Social Science (WSTC Prep) (0 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/gedu0015/>) **Legacy Code:** 700174

This unit is designed to assist students to become successful independent reflective learners. It introduces students to a range of theories and concepts to facilitate the development of practical skills and personal attitudes necessary for success in tertiary study.

Level: Undergraduate Level 0 Preparatory subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

Geomatic Engineering (GEOM)

GEOM 2002 Quantity Surveying 2 (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/geom2002/>) **Legacy Code:** 200487

This subject is designed to provide students with an advanced understanding of the various roles of a quantity surveyor. Students will develop an ability to apply the skills necessary to deliver both pre-contract and post-contract quantity surveying services.

Level: Undergraduate Level 2 subject

Pre-requisite(s): GEOM 2001 OR

BLDG 2002

Restrictions: Please see the Subject Details page for any restrictions for this subject

GEOM 3001 Advanced Building Measurement (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/geom3001/>) **Legacy Code:** 301233

This unit is designed to help students develop greater understanding of measurement for complex building works such as commercial and industrial construction. Students will be introduced to measurement used in specialised trades, such as building services and structural steel.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

Graphic and Design (DESN)

DESN 0001 Design Practice (WSTC Prep) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn0001/>) **Legacy Code:** 700223

Design Practice introduces students to the fundamental principles of graphic design practice. This unit investigates how the design process is applied to real-world industry design briefs to create a visual design. Students develop an understanding of the processes and practices used to support collaboration between clients, designers and specialists when designing and producing visual communications. Students are guided through the process of interpreting a design brief, creating and pitching a design response, presenting work for critique, incorporating critique into a design solution and producing highly refined design outcomes to a professional standard. Students work on a number of design briefs using industry standard work practices, including time management strategies, multi-tasking, strict delivery deadlines, brief comprehension and job documentation as well as client/designer coordination and negotiation.

Level: Undergraduate Level 0 Preparatory subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 0002 The Design Process (WSTC Prep) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn0002/>) **Legacy Code:** 700197

The Design Process introduces the elements and principles of design as well as design processes and methods required to explore and creatively apply the design process. The Design Process focuses on the skills and concepts that contribute to interpreting and responding to design briefs, as well as researching, developing and presenting innovative design solutions. The core of any design process is the design brief. The Design Process acknowledges the importance of this and how it informs relationships between the client, designer and specialists engaged to develop the design process. The unit addresses the purpose, sequence, major stages and application of the design process to synthesise solutions relevant to the design industry.

Level: Undergraduate Level 0 Preparatory subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 0003 Critical Thought in Design (WSTC Prep) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn0003/>) **Legacy Code:** 700321

Critical Thought in Design provides students with an understanding of the process designers use to structure their thinking and communicate ideas with clients, target audiences, other designers and specialists. The ability to think critically, creatively and independently is essential for success as a designer in generating and communicating innovative design solutions that meet the needs of the client and target audience. The aim of this unit is to provide students with the skills and techniques necessary to become an independent thinker able to research, analyse, argue and communicate effectively with clients. The unit examines a wide range of critical thinking and design, problem-solving methods including problem definition techniques, idea generation, brainstorming, as well as evaluation and analysis skills.

Level: Undergraduate Level 0 Preparatory subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 1003 Design Histories and Futures (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn1003/>) **Legacy Code:** 102262

This unit introduces students to historical accounts and theories of design from the dominant perspective of Modernism in the first half of the 20th century, through post-war consumerism and the ensuing movements of the 20th century, such as Postmodernism, Punk and New Wave; design reactions to corporate culture, design for change and activism; and the digital design enablers of the 21st century. Students learn a contextual history of 20th century design practice by studying the doctrines around which the modernist movement cohered, and the conditions under which these doctrines are challenged by later movements. The unit explores various roles of the visual designer through history-avant-garde, futurist, revolutionary, utopian design; client-service design; social activism, producer and digital enabler. These roles are expressed across a range of design outcomes such as photography, typography, illustration, print media, graphics, digital design, film and animation. Part of this exploration will examine the impacts of design histories on our past, present and future conditions, as well as changing the future for design. Students will complete visual and writing tasks that aim to build their understanding of design histories and futures, and scholarship in academic research and writing.

Level: Undergraduate Level 1 subject

Equivalent Subjects: DESN 1001 - 20th Century Design Histories
DESN 1004 - Design Histories and Futures (WSTC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 1004 Design Histories and Futures (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn1004/>) **Legacy Code:** 700195

This unit introduces students to historical accounts and theories of design from two dominant perspectives, modernism and postmodernism. Students learn a contextual history of 20th century design practice by studying the doctrines around which the modernist movement cohered and the conditions under which these doctrines are questioned by postmodernism. The unit will explore various roles of the visual designer through history such as the avant gardist, futurist, revolutionary, utopian, client-service designer, social activist, producer and digital enabler, as these roles were expressed across a range of design outcomes such as photography, typography, illustration, print media, graphics, digital design, film and animation over a century and beyond. Part of this exploration will examine the impacts of design histories on our past, present and future conditions, as well as the investments in changing the future for design. Students will complete visual and writing tasks that aim to build their understanding of design histories and futures, and scholarship in academic research and writing.

Level: Undergraduate Level 1 subject

Co-requisite(s): Students enrolled in the combined Diploma/Bachelor courses listed below must pass all College Preparatory units listed in the course structure before progressing to the Year Two units

Equivalent Subjects: DESN 1003 - Design Histories and Futures
DESN 1001 - 20th Century Design Histories

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 1007 Graphic Design: Process and Practice (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn1007/>) **Legacy Code:** 102264

This unit enables students to further develop their understanding of the design process within the context of project briefs that introduce areas of graphic design practice that include branding and identity and information design. Students' understanding of a design brief, the client, and a clearly defined audience will deepen. Students will be introduced to some design specific research skills, such as mood board and persona development, which will help them begin to build a toolkit of methods which they will use throughout their degree. Students will develop their design process and a greater awareness of the role of research in the generation of ideas. Students will be introduced to further lateral thinking techniques and encouraged to develop creative responses to the project briefs within appropriate constraints for both client and audience needs. Further key software will be introduced and supported by online resources, and students will continue to develop their visual design skills in the fundamental areas of type, image and composition.

Level: Undergraduate Level 1 subject

Pre-requisite(s): DESN 1009

Equivalent Subjects: DESN 1008 - Graphic Design Process and Practice (WSTC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 1008 Graphic Design: Process and Practice (WSTC) (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn1008/>) **Legacy Code:** 700194

Level: Undergraduate Level 1 subject

Pre-requisite(s): DESN 1010

Co-requisite(s): Course 6013 - Diploma in Design Bachelor of Graphic Design (Pathway to Teaching Secondary)

Course 6011 - Diploma in Design Bachelor of Design (Visual Communication)

Students enrolled in the combined Diploma Bachelor courses listed below must pass all College Preparatory units listed in the course structure before progressing to the Year 2 units

Equivalent Subjects: DESN 1007 - Graphic Design Process and Practice

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 1009 Graphic Design: Understanding the Principles (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn1009/>) **Legacy Code:** 102261

This unit introduces students to the fundamental principles of visual language and graphic design practice. Through a series of workshops, exercises and project briefs, students will learn how elements such as colour, composition, text, typography and image can be used to communicate meaning in a variety of contexts. Through the project briefs students will begin to develop their awareness of graphic design as a problem solving activity and apply their understanding of the design process in relation to research skills, idea generation, reflective practice, and both written and verbal communication skills. Students will learn the importance of prototyping, developing and refining their ideas through practice, and aspects of the digital print production process will also be introduced. Students will be introduced to design software packages and to support the ongoing development of their digital media skills they will be provided with access to resources for independent online learning.

Level: Undergraduate Level 1 subject

Equivalent Subjects: DESN 1010 - Graphic Design Understanding the Principles (WSTC)

Incompatible Subjects: DESN 1016 Introduction to Typography DESN 1006 Digital Design Production

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 1010 Graphic Design: Understanding the Principles (WSTC) (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn1010/>) **Legacy Code:** 700193

DESN 1011 Image Design (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn1011/>) **Legacy Code:** 102263

This subject introduces students to photographic image making and applications of photomedia in visual communication design contexts. The experience of image making is covered using the first principles of the photographic medium, camera handling and studio procedures. The principles of visual composition are learnt from the dual perspectives of creating and evaluating photographic and digital imagery, using lens and light-based techniques and methods.

Level: Undergraduate Level 1 subject

Equivalent Subjects: DESN 1013 - Image Design Illustration DESN 1015 - Introduction to Photomedia DESN 1012 - Image Design (WSTC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 1012 Image Design (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn1012/>) **Legacy Code:** 700196

This unit introduces students to the use of signification and metaphor in the visual communication of verbal and written concepts. The process of creating and evaluating images is explored through the principles of visual organisation and the experience of image making through photographic and illustrative methods, techniques and mediums.

Level: Undergraduate Level 1 subject

Co-requisite(s): Students enrolled in the combined DiplomaBachelor courses listed below must pass all College Preparatory units listed in the course structure before progressing to the Year Two units

Equivalent Subjects: DESN 1011 - Image Design DESN 1013 - Image Design Illustration DESN 1015 - Introduction to Photomedia

DESN 1018 Visual Storytelling (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn1018/>) **Legacy Code:** 101921

Visual storytelling is increasingly being used in a variety of contexts including websites, magazines, advertising, business and public affairs, exhibitions and events and television, often working across a number of platforms at the same time as requiring responsive design approaches for a diversity of viewing experiences. With access to increasing amounts and types of data, professional communicators need to be able to extract meaning to connect with a variety of different audiences in creative, dynamic, and emotional ways. This Unit introduces students to story archetypes, structure and flow. It encourages metaphorical and analogical storytelling using appropriation making reference to genre and research. This practical unit explores a range of traditional hands-on techniques and digital software commonly used across the communications sector. Students are encouraged to explore and develop their own mark and image making skills aimed at specific target audiences and communication contexts.

Level: Undergraduate Level 1 subject

Equivalent Subjects: LGYA 2353 - Design Principles 2D3D DESN 1005 - Design Thinking DESN 1019 - Visual Storytelling (WSTC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 1019 Visual Storytelling (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn1019/>) **Legacy Code:** 700183

DESN 1021 Web and Time-based Design (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn1021/>) **Legacy Code:** 101922

Students will develop fundamental computer software skills and design understandings appropriate to using major web and time based design technologies such as HTML and CSS. They will develop a working understanding of production literacies for online design and time-based design. Students will engage in practical studies of web authoring. Emphasis will be placed on understanding the roles, functions and features of key screen based technologies, design production context for online delivery, current industry best practices, and a working understanding of the responsibilities inherent in the digital design and production process.

Level: Undergraduate Level 1 subject

Equivalent Subjects: DESN 1020 - Web and Time-based Design DESN 1022 - Web and Time-based Design (WSTC)

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 1022 Web and Time-based Design (WSTC) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn1022/>) **Legacy Code:** 700187

Students will develop fundamental computer software skills and design understandings appropriate to using major web and time based design technologies such as HTML and CSS. DESN 2001 Australian Design (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn2001/>) **Legacy Code:** 101923

This unit continues the focus on academic and visual literacies for visual communication designers initiated in level one units. Students will investigate the Australian visual communication design profession, largely through the documentation of selected output and established methods across industry sectors producing graphic, photographic, illustrative, typographic, broadcast, interactive and online design.

Lectures and selected case studies will outline professional scenarios and support the student in learning about the design industry's organisation and methods. Assessment tasks are designed to develop research and writing skills through the evaluation of professional resources and publications.

Level: Undergraduate Level 2 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 2005 Graphic Design: Interactive Digital Media (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn2005/>) **Legacy Code:** 102265

Digital technology shapes the way we interact with our world. Design of these interactions is a crucial role for today's designers. This unit will develop students' critical interaction and visual design skills in the digital realm, including interface and experience design. Digital design specific research skills, methods and processes are covered. These include user research, persona development, storyboard development, lo-fi and hi-fi prototyping, wireframes and proof of concept methods. Students will engage with problem-based project briefs, and develop solutions that are appropriate for both client and audience needs across a range of devices. Outcomes include app, web and screen designs.

Level: Undergraduate Level 2 subject

Pre-requisite(s): DESN 1021

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 2006 Graphic Design: The Professional Context (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn2006/>) **Legacy Code:** 102270

In this unit, students begin to situate their graphic design practice within a contemporary professional context. Designers today need to collaborate with colleagues or other professionals, and the majority of graphic design briefs require solutions that converge across a variety of media platforms and two, three or four dimensions. Students will undertake projects that extend their design thinking in these areas. Part of the unit requires students to work as part of a team, to develop content and a solution that engages the audience through a range of different media. Throughout this unit, students continue to extend their visual language, and associated material and digital skills.

Level: Undergraduate Level 2 subject

Pre-requisite(s): DESN 1007

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 2007 Illustrating Narrative (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn2007/>) **Legacy Code:** 101017

This unit explores the conceptual, stylistic and format design of illustration for, and as, narrative. Through the design of an individual illustrated book project, students are encouraged to consider the design of different narrative forms, illustrative techniques and styles in relation to content, target audience, client, context, and genre.

Level: Undergraduate Level 2 subject

Pre-requisite(s): DESN 1013 OR

DESN 1011

Equivalent Subjects: LGYA 0045 - Illustrative Narrative 3 and LGYA 0052 - Illustrative Narrative 4

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 2011 Motion Design (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn2011/>) **Legacy Code:** 102273

This unit introduces students to the fundamentals of motion design practice. Students will discover how elements of static graphic design can be incorporated with sequence, time, space and sound to enhance the exchange of information and meaning in a variety of project contexts and kinetic media outcomes. Additionally, students will discover the purpose and function of motion design and be able to identify professional pathways associated with these skills and knowledge. Students will be exposed to a range of motion design preproduction and production methods, from fundamentals and guidelines to experimental and expressive approaches. Students will learn the importance of planning, mapping and evaluating linear narrative, in combination with the introduction of key software supported by online video courses, for successful motion design outcomes.

Level: Undergraduate Level 2 subject

Pre-requisite(s): DESN 1021 OR

COMM 2042 OR

COMM 2051 OR

COMM 2051 AND

COMP 2020

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 2013 Photomedia: Photographic Practice (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn2013/>) **Legacy Code:** 102268

This unit introduces and examines the multifaceted nature of photographic practice. Students will be introduced to current methods of photographic image production and design for the purpose of Visual Communication. It explores the relationship between photographic technique, genre and the reception of photographic imagery. Students will be introduced to photographic studio practice as the means of controlling image reception, through the intrinsic principles of the photographic medium, including the control of light, exposure in a studio situation and digital post production.

Level: Undergraduate Level 2 subject

Pre-requisite(s): DESN 1015 OR

DESN 1011

Equivalent Subjects: DESN 2012 - Photomedia LGYA 0818 - Designing the Image LGYA 0835 - Photo Documentary LGYA 2354 - Introduction to Photomedia

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 2014 Researching the Visual (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn2014/>) **Legacy Code:** 102266

This unit will introduce students to various ways of seeing and reading images in the visual environment. Students will learn how to conduct visual research using a tool kit of methods including semiotic analysis, content and thematic analysis, and basic observational research across the digital and material environments of visual communications design, and to apply their findings in the development of visual concepts. Students will continue to engage as reflective practitioners and learn to position themselves as visual researchers within a particular cultural and personal context.

Level: Undergraduate Level 2 subject

Pre-requisite(s): DESN 1003 OR

DESN 1011 OR

DESN 1021

DESN 2016 Creativity, Design Thinking and Visualisation (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn2016/>) **Legacy Code:** 800237

This cross-disciplinary subject allows students to explore their creative potential and broaden their perspectives of innovation, through the lens of design thinking. Design thinking offers a range of strategic and practical approaches to creativity and innovation, including making use of different 'types of thinking and reflection; leveraging the dynamics of teamwork; and how conversation and dialogue can generate new thinking about complex problems. Students will apply these key ideas methodologies from design thinking and methods of visual communication, to addressing broad social issues in innovative and creative ways.

Level: Undergraduate Level 2 subject

Equivalent Subjects: DESN2002 - Creativity Innovation and Design Thinking

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 3001 Contextual Design Studies (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn3001/>) **Legacy Code:** 102275

Contextual design studies is the study of what happens around design practice - before, during and after - to explain its meaning and effect. Successful communication design has always depended on the connection between form, content, audience and context, and the designer's abilities to analyse, understand and clarify the contexts of communication have become more important to creative practice. In this unit students will learn to apply the theoretical frameworks of semiotic, thematic and rhetorical analysis used by the interdisciplinary field of Design Studies to interpret design's potential as cultural expression and communication. Students will analyse visual signs and conventions as both targeted and tacit responses to a range of contexts revealing design's interests in marketplaces, society and identity. Students will analyse various graphic examples, and design literature, as they investigate the significance and agency of design interactions, media artefacts and systems.

Level: Undergraduate Level 3 subject

Pre-requisite(s): DESN 2014

Equivalent Subjects: DESN 2003 - Design Issues

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 3002 Data Visualisation (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn3002/>) **Legacy Code:** 102269

We live in an era of data. The designer's role is increasingly one of structuring and transforming data into accessible and meaningful information. In this unit students will be introduced to basic techniques for the visual representation of data. This unit covers both how to design successful charts, maps, and diagrams, as well as how to use these graphics to compose cohesive storytelling pieces. Students will also discuss both practical and theoretical issues when visualising data, and how Graphic Design and Interactive Design principles apply to the visualisation of information. Students will learn how to design basic infographics and mock ups for interactive visualisations, and they will develop skills to start producing compelling and elegant infographics and data visualisation.

Level: Undergraduate Level 3 subject

Pre-requisite(s): DESN 1021 OR

DESN 1007

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 3003 Design Research Project (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn3003/>) **Legacy Code:** 102277

This unit offers students the opportunity to develop a self-negotiated design project through exploring a variety of research methods, reflective practice, and concept prototyping. Students will develop a project that focuses on a particular area of interest in order to consolidate their portfolio, and for students enrolled in B Design (Vis Comm), lay the foundation for their fourth year major design project.

Level: Undergraduate Level 3 subject

Pre-requisite(s): DESN 2014 OR

DESN 3013

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 3005 Design Thinking (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn3005/>) **Legacy Code:** 101924

Navigating and addressing the complexity of 21st Century problems and issues requires critical and creative thinking. This unit explores common attributes of design thinking to assist students in developing creative and intelligent responses to the complex scenarios of the contemporary world.

Level: Undergraduate Level 3 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 3006 Graphic Design: Developing a Personal Portfolio (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn3006/>) **Legacy Code:** 102276

This unit focuses on the development of your industry orientated practice and personal portfolio development. Throughout the previous core units and unit pairings you will have developed particular skills and interests that are beginning to define your design practice and your portfolio. The briefs set in this unit offer you the opportunity to specialise further and to develop your portfolio and will, where possible, include live briefs and competitions. You will continue to refine and develop your visual language, material and digital skills, and continue to develop as an independent learner. The unit will culminate in an industry event, where students will have the opportunity to get their portfolios critiqued by design industry representatives.

Level: Undergraduate Level 3 subject

Pre-requisite(s): DESN 2006 OR

DESN 3001 OR

MKTG 2003 OR

MKTG 2003

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 3007 Illustrating Popular Culture (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn3007/>) **Legacy Code:** 102271

This unit explores the powerful qualities of illustration when used as a visual communication strategy in the design of popular culture: within an advertising campaign and as social commentary through editorial illustration. The potential of a range of illustrative styles, mediums and techniques, will be explored through experimentation with a variety of visual strategies that utilize lateral thinking, linked to the design of professional concepts, developmental processes and media considerations.

Level: Undergraduate Level 3 subject

Pre-requisite(s): DESN 1011

Equivalent Subjects: DESN 2008 - Illustration Advertising and Editorial

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 3008 Interactive Design: Apps (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn3008/>) **Legacy Code:** 102267

This unit focuses on design methodology for the development and delivery of interactive media applications (apps). Particular concepts addressed include conceptual integration and convergence of various media forms, screen design, navigational hierarchy and structures, and designing engaging interactive interfaces. General principles of interface, information architecture and interaction design will be introduced, alongside principles of digital media production.

Level: Undergraduate Level 3 subject

Pre-requisite(s): ENGR 1021 OR

DESN 1021

Equivalent Subjects: DESN 2010 - Interactive Design 1

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 3011 Public Memory and Commemoration (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn3011/>) **Legacy Code:** 101253

Throughout history various forms of material culture (such as art, architecture, sculpture, objects and photographs) have been used to memorialize individuals as well as to commemorate events, both personal and national. As such, an examination of commemorative works offer valuable insights into the production of public memory and history. This unit explores the particular contexts of such memorials; their meaning, design and, politics. The diverse expressions of commemoration in Australia and the consequent production of public memory provides the arena for such considerations.

Level: Undergraduate Level 3 subject

Equivalent Subjects: LGYA 0528 - Dangerous Visions LGYA 1028 - Dangerous Visions

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 3012 Publications (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn3012/>) **Legacy Code:** 101013

This unit examines the role of publication design as a promotional tool. Students explore a range of print and online promotional forms and are involved in the design and production of publications for specific target audiences, including approaches to layouts, image and text relationships, typography and graphic forms. Within a studio environment, students gain an understanding of publication production and visual narrative methodologies through the exploration of media areas appropriate to the project requirements.

Level: Undergraduate Level 3 subject

Pre-requisite(s): DESN 1006 OR

DESN 1020

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 3013 Social Design: Research and Practice (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn3013/>) **Legacy Code:** 102274

This unit introduces students to the idea that graphic designers can be agents of change. Set project briefs will focus on social and political issues exploring the potential inherent in graphic design practice to make a real difference to society. The unit will encourage students to go beyond the definition of a problem solver, encouraging them to act as a problem seeker, who can use their design thinking skills to develop ideas that respond proactively to society's problems rather than reacting to a client's set brief. The unit will introduce further design-led, social and participatory research methods, that continue to build on the design process, and further expand the methods that underpin aspects of research and practice during the remainder of the degree. Students will refine and develop their visual language skills, in combination with material and digital skills, facilitating their development as an independent learner.

Level: Undergraduate Level 3 subject

Pre-requisite(s): DESN 2006 OR

DESN 2014

Equivalent Subjects: DESN 3004 Design Research Training

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 4005 Major Design Project (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn4005/>) **Legacy Code:** 102279

This is a 20 credit point year-long subject taken over two terms (10 credit points in each term). In this year-long subject students will develop a self-directed project from proposal to production, in consultation with an academic supervisor. The first semester involves engaging in background research to facilitate creative development. Students will build a field survey of their topic area identifying precedents and contexts, leading to experimentation and exploration of a range of potential options and addressing any arising issues, to develop a sound proof of concept. In the second semester students will develop the work to a finished outcome, through an iterative process of prototyping, reflection and analysis. It is expected that there will be a consistent and documented developmental process undertaken across the year, resulting in the final work, which will be a professional level outcome, realised in a specific discipline field within Visual Communication. Students are expected to be self-motivated, and work as an independent professional practitioners, throughout the major design project work.

Level: Undergraduate Level 4 subject

Pre-requisite(s): DESN 3004 OR DESN 3003

Equivalent Subjects: DESN 4001 - Communication Design Major Project

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 4006 Professional Design Experience: The Individual Practitioner (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn4006/>) **Legacy Code:** 102280

Students will continue to work in the Burrow studio, but in this subject they are positioned as a junior designer who is working individually in response to a range of briefs with their tutor as Creative Director. Students will develop their capacity to manage projects independently from briefing, research, development, costing, and pitching. Through this capstone subject, students will also develop a self-promotion strategy, and increase their understanding of a range of professional practice issues as they relate to the individual practitioner, further preparing them for the industry.

Level: Undergraduate Level 4 subject

Pre-requisite(s): DESN 4007

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 4007 Professional Design Experience: The Studio (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn4007/>) **Legacy Code:** 102278

The Burrow design studio simulates a professional environment where students heighten their design thinking and practice through work-integrated learning. In this subject, the student is positioned as a junior designer who is part of a team working in response to live briefs with real learning partners and tangible outcomes, under the guidance of tutors who act as creative directors. Students will develop their higher level professional design skills through working individually and collaboratively to manage projects from briefing, research, development, pitching, artworking, production and delivery. Through this subject, students will also advance their understanding of what the industry expects of junior designers, providing a bridge between study and work life.

Level: Undergraduate Level 4 subject

Pre-requisite(s): DESN 3006

Equivalent Subjects: DESN 4008 - Professional Design Studio

Restrictions: Please see the Subject Details page for any restrictions for this subject

DESN 9001 Higher Degree Research Thesis - Graphic and Design Studies (20 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/desn9001/>) **Legacy Code:** 800001

Horticulture and Viticulture (HORT)

HORT 1001 Crop Production (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/hort1001/>) **Legacy Code:** 300815

This unit aims to provide students with an understanding of the scientific basis of sustainable crop and food production and security. These include broad-acre cropping, fruits/orchards and vegetables. In this unit students will gain an understanding of the physiological controls on crop yield in the variable Australian environment in which crops are grown. Students will become familiar with the science and practice of sustainable crop production and develop crop management skills through the production of nursery crops, vegetables and fruits. Students will also gain an understanding of processing these crops after harvest, to develop an appreciation of factors impacting upon produce quality and safety.

Level: Undergraduate Level 1 subject

Equivalent Subjects: HORT 1003 - Horticultural Production 2 BIOS 2023 - Fruit Production LGYA 5943 - Floriculture HORT 1002 - Crop Production

Restrictions: Please see the Subject Details page for any restrictions for this subject

HORT 1004 Horticultural Production Systems (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/hort1004/>) **Legacy Code:** 301096

Food represents the single largest part of your environmental footprint. This means our modern, urban-oriented society must begin to reconnect with the sources of our food to create more sustainable future. This unit explores the scientific basis of sustainable crop production by examining fruit, vegetable and grain enterprises. Management of produce from harvest to consumption will also be explored to examine factors that impact upon food quality and safety. Students will compare and contrast growing conditions of the highly variable Australian environment to consider the global context for horticultural industry development. By delving into the world of crop management, students will identify the impacts (opportunities and constraints) of plant physiology on the sustainability of food. Students will also consider how novel food products can prompt consumers to appreciate the environmental, economic and social benefits that can arise from sustainable horticultural production.

Level: Undergraduate Level 1 subject

HORT 1006 Protected Cropping Biosecurity and Pollination (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/hort1006/>) **Legacy Code:** 301214

The protected cropping industry in Australia is a rapidly expanding sector. There is an identified need for trained professionals who have an understanding of the management of plant pests and diseases. Students studying this course will learn industry best practice related to biosecurity, pest and disease management and emergency response procedures. In addition to pest and disease management the challenges of pollination in the context of Australian protected cropping will be explored. Western Sydney University is home to the state of the art National Vegetable and Protected Cropping Centre (NVPC), this facility will be utilized in the on campus components of this course.

HORT 1007 Protected Cropping Plant Nutrition (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/hort1007/>) **Legacy Code:** 301277

Plant nutrition is essential to plant health and defence, productivity and crop quality; this is especially so in the soilless environment employed by the protected cropping industry. This unit will focus on crop nutrient requirements, nutrient deficiencies and their symptoms, practical nutrient monitoring using hand-held technologies and the PRIVA system and correction techniques. This unit also explores soilless substrates and their influence on nutrient loads, nutrient-rich waste water recovery, reuse and environmentally sustainable disposal options. Western Sydney University is home to the state of the art National Vegetable and Protected Cropping Centre (NVPC), this facility will be utilized in the on campus components of this course.

HORT 2001 Greenhouse Technology for Food Sustainability (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/hort2001/>) **Legacy Code:** 301097

Greenhouses are enclosed structures that optimise temperature, light, water and carbon dioxide to maximise plant production. Also called 'greenhouse horticulture', these advanced systems integrate technologies across disciplines (e.g. horticultural, environmental and material sciences; mechanical engineering and design; robotics and computing programming) to create futuristic indoor environments that increase the quantity and quality of plant-derived foods. Controlled environments can significantly reduce reliance on inputs (fertiliser, pesticide, energy and water) and reduce environmental impacts (including 'food miles'). This unit explores a range of greenhouse technologies in Australia and overseas-from simple low-cost options, through to cutting-edge technology in energy and water-efficient production. Students will observe current status and future trends in the industry to examine how advanced technologies can improve sustainability measures along with the reliability of horticultural output. Students will consider how innovative horticultural enterprises can provide consumers with greater capacity to adopt more sustainable diets.

HORT 2003 Plant Production (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/hort2003/>) **Legacy Code:** 301447

This unit will provide you with an understanding of the scientific basis of sustainable plant production in natural and built environments. These include cropping of plants for food production in extensive and intensive systems. In this unit you will gain an understanding of the physiological controls on plant yield in the Australian environment. You will become familiar with the science and practice of sustainable plant production and develop crop management skills through the production of nursery crops, vegetables and fruits.

Level: Undergraduate Level 2 subject

HORT 3001 Postharvest (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/hort3001/>) **Legacy Code:** 300869

This unit explores the factors affecting the retention of quality of fresh fruit, vegetables and cut flowers from grower to consumer. Topics include: the role of fresh produce for the health and happiness of people; the growth and maturation and physiology of fresh produce; the importance of managing temperature and relative humidity of the storage environment; the responses of fresh produce to changes in temperature and water loss; the role of ethylene in fruit ripening and senescence; the practical issues of assessing harvest maturity; packaging; distribution and the control of postharvest diseases and pest and the concepts of market access.

Level: Undergraduate Level 3 subject

Equivalent Subjects: HORT 2002 - Postharvest

Restrictions: Please see the Subject Details page for any restrictions for this subject

HORT 3002 Protected Cropping Technology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/hort3002/>) **Legacy Code:** 301448

This unit will develop your understanding of the role technology plays in underpinning plant production, in built environments, as well as the impact on processing and consumption of established and emerging opportunities. This unit explores the factors affecting growth, maturation and physiology of plant products in the protected cropping environment. Industry issues of controlling pests and disease, assessing harvest maturity, post-harvest management are underpinned by systems modelling and sustainable practices.

HORT 7001 Advanced Greenhouse Technology (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/hort7001/>) **Legacy Code:** 301358

This unit explores a range of advanced greenhouse technologies in Australia and overseas—from simple low-cost options, through to cutting-edge technology in energy and water-efficient production. Students will observe current status and future trends in the industry to examine how advanced technologies can improve sustainability measures along with the reliability of horticultural output. This unit focuses on engineering aspects of greenhouse horticulture systems as well as crop growth and development. The basics of crop growth and development and the physical principles of greenhouse systems at different levels will be taught. The main in depth topics of the unit are: the selection of suitable greenhouse technology, physics of greenhouse climate, greenhouse systems (passive greenhouse, climate controlled, closed or semi-closed greenhouse), cropping systems, cover materials and smart glass technologies, energy saving technologies, water and nutrient recycling, and robotics for de-leafing and picking.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

HORT 7002 Greenhouse Control Systems (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/hort7002/>) **Legacy Code:** 301359

This unit develops an understanding of the leading controlling systems for protected cropping in low, medium and high-tech greenhouses. The main topics are: the integration of hardware and software in a range of different protected cropping systems, management of the aerial environment (e.g. manageable parameters and greenhouse climate engineering, radiation management, energy sources and distribution systems, ventilation, air conditioning and cooling systems, screens, carbon dioxide-sources and distribution), and management of the hydroponic environment (factors, tools, control of water and nutrient balance, water quality, salinity effects). The unit emphasises computing skills, calculation, and analysis that are applicable to a range of different greenhouse control systems.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

HORT 7003 Greenhouse Crop Production (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/hort7003/>) **Legacy Code:** 301360

This unit focuses on key concepts relating to the functioning of a range of greenhouse horticultural crops in their environment, biological mechanisms, crop growth and development, integrated pest management, crop production, quality and postharvest technology. Students will learn concepts and knowledge relevant to plant physiology, environmental sciences, horticultural production, food technology, and postharvest physiology. Students will be able to measure and interpret plant physiological, biochemical, genetic, and produce quality traits in greenhouse experiments in the context of the functional diversity in crops. The students will also integrate knowledge using plant growth modelling techniques, interpret model output, and address questions on functional diversity in crops by combining model output and experimental data.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

HORT 7004 Industry Project (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/hort7004/>) **Legacy Code:** 301361

In this unit, students will complete an industry based project under the guidance of an industry partner and a member of the University's academic staff. Using a project based methodology, students will be required to solve a real world problem on behalf of a protected cropping industry partner. Students will develop skills in scoping, planning, implementing, reporting on the industry project; reflecting on what has been learned in the context of their personal and professional development and how this can be used in their future career.

Level: Postgraduate Coursework Level 7 subject

Restrictions: Please see the Subject Details page for any restrictions for this subject

HORT 7005 Industry Project (Extended) (10 Credit Points)

Subject Details (<https://hbook.westernsydney.edu.au/subject-details/hort7005/>) **Legacy Code:** 301362
