

# Call for Abstracts

"Infant Nutrition And Nurture Across The Early years" (INNATE) conference

Friday 7 August, 2026

Western Sydney Infant and Young Child Feeding Collaborative invites abstracts for their annual conference at the Westmead Innovation Quarter (near Westmead Railway Station). The first 2000 days, from conception, is a critical period for growth and development, and a period when diet quality is more important than at other stages of life.

Abstracts based on current research and clinical innovations, that demonstrate new knowledge in infant and young child nutrition and nurture, will be considered. Submissions should be no more than 250 words and include: Introduction, Aim, Method, Results, and Conclusion. Applicants will be required to set up an Oxford Abstracts account using their email address.

Abstracts due: **Sunday 22 March, 2026**

## Keynote Speakers

**Assoc Professor  
Summer May Findlay**  
University of Wollongong

**Assoc Professor  
Phillip Baker**  
The University of Sydney
