

# RESEARCH CAPACITY 2023

# BANKSTOWN

CAMPUS FOR HUMAN PROGRESS

## SOCIETAL HEALTH AND WELLBEING

We operate numerous laboratories that support important community-engaged research programs. Cross-disciplinary research delivered in partnership with diverse local community achieves meaningful positive change in the region.

### KEY CAPACITIES

- Mental Health
- Family & Community Health
- Disability & Participation

## INNOVATING INDUSTRY

Our business incubator Launch Pad, and the Factory of the Future anchors Bankstown to the Western 4.0 advanced manufacturing platform. The focus on innovation, and entrepreneurship is crucial to the region's economy and growth.

### KEY CAPACITIES

- Intelligent Production
- Simulation & Virtualisation
- Value Innovation

## EQUITABLE SOCIETIES

Our research emboldens multicultural communities. Researchers work with community and government partners from across the region to promote social, gender and sexual equity and inclusion.

### KEY CAPACITIES

- Human History
- Art & Culture
- Gender Equity

## LEARN, THINK, PROSPER

Prospering societies require inputs from history and psychology and never stop to learn. Our research supports individual and collective progress.

### KEY CAPACITIES

- Deciphering the Mind
- Evolution of Thinking
- Learning for Teaching

## DID YOU KNOW?

At Bankstown City, we use embodied learning to increase climate change awareness.
