

# RESEARCH CAPACITY 2023 **LIVERPOOL**

CAMPUS FOR VIBRANT SOCIETIES

## **EQUITABLE SOCIETIES**

Our research supports and emboldens local multicultural communities. Researchers work with community and government partners from across the region to promote social, gender and sexual equity and inclusion.

### **KEY CAPACITIES**

- Managing Diversity & Social Equity
- Art & Cultural Expression
- Justice & Policing

## **DEEP LEARNING**

Access to affordability of education and related socio-cultural drivers are topics of our co-designed work. Researchers examine how access to digital technology influences literacy, disrupts cultural norms and empowers gender and sexual identities.

### **KEY CAPACITIES**

- Cultures of Learning
- Workplace Gender Equity
- Inclusive Indigenous Communities

## **ADVANCED HEALTH TECHNOLOGY**

We support highly focused, problem-driven and entrepreneurial R&D. Significant investment in health research makes WSU the prime partner for cross-disciplinary, applied health innovation and commercialisation.

### **KEY CAPACITIES**

- Health Data
- Technology Prototyping
- Digital Health Frontiers

## **CRITICAL CARE**

Researchers at Western examine the complex interplay of social, cultural and economic factors on health and wellbeing. We are interested to develop high quality education programs that lead to positive health outcomes at all ages.

### **KEY CAPACITIES**

- Oral Health
- Pressure Injury Management
- Cancer Detection & Therapy

**WESTERN SYDNEY**  
UNIVERSITY

## **SUSTAINABLE DEVELOPMENT GOALS**

### **DID YOU KNOW?**

Health researchers at Liverpool use AI to enhance radiotherapy for cancer detection.
