

PENRITH PRECINCT EDUCATION FOR THE FUTURE

Drawing on research knowledge from STEM and HASS disciplines, our research improves the delivery of progressive education and addresses issues of gender and diversity.

KEY CAPACITIES

- Social Justice and Equity
- International Education
- Effective Teaching Practices
- Digital Learning
- Sustainable Communities

LIVERPOOL DEEP LEARNING

Access to and affordability of education and related socio-cultural drivers are topics of our co-designed work. Researchers examine how access to digital technology influences literacy, disrupts cultural norms and empowers gender and sexual identities.

KEY CAPACITIES

- Cultures of Learning
- Indigenous Knowledge
- Workplace Gender Equity

CAMPBELLTOWN BEST START TO LIFE

The strong links between education and health of children are subject of our research. Our emphasis on translation and implementation science leads to effective programs for children from Western Sydney and around the world.

KEY CAPACITIES

- Childhood Learning
- Childhood and Family Services
- Overcoming Disadvantage

RESEARCH CAPACITY 2023 EDUCATION & WORK

EQUITY, PARTICIPATION AND OPPORTUNITIES

WESTERN SYDNEY UNIVERSITY SUPPORTS THE SUSTAINABLE DEVELOPMENT GOALS

PARRAMATTA DIVERSITY AND WORK

Researchers at Western examine the complex interplay of social, cultural and economic factors impacting access to education and work in Western Sydney, across Australia and globally.

KEY CAPACITIES

- Future Modes of Work
- Life-long Learning
- Youth and Wellbeing
- Power of Language

BANKSTOWN BRAIN AND LEARNING

We use state-of-the-art, non-invasive technologies to study how brains tick to optimise learning. Our research supports teachers and employers to improve inclusiveness for all.

KEY CAPACITIES

- Disability and Participation
- Early Childhood Care and Learning
- Human Behaviour
- Social Justice and Inclusion
