Speaker: Prof Surya Narayan Panda, Chitkara University, India

Abstract: Artificial Intelligence has grown to be very popular in today's world. It is the simulation of natural intelligence in machines that are programmed to learn and mimic the actions of humans. These machines are able to learn with experience and perform human-like tasks. As technologies such as AI continue to grow, they will have a great impact on our quality of life. It's but natural that everyone today wants to connect with AI technology somehow, may it be as an end-user or pursuing a career in Artificial Intelligence. In this talk, we discuss the Artificial Intelligence (AI) concept and applications in various sectors like agriculture, education, healthcare, gaming, finance, security etc. We will also cover the need and challenges of AI implementations and the future scope of AI.

Bio: Prof Surya Narayan Panda is Professor and Director Research, Chitkara University, Punjab India. He is the founder Director of the Centre of Excellence "IOT and Cloud Computing Lab".
