

Making International Evidence Applicable for Local Practice: Barriers, Enablers and How to Succeed

The JBIC Australasia Region are pleased to present a 2-hour webinar on Making International Evidence Applicable for Local Practice: Barriers, Enablers and How to Succeed.

Presenters at this webinar will highlight their experiences of developing and integrating evidence into local practice including sharing examples of projects that have transformed healthcare processes and improved patient outcomes and experience.

This webinar is part of the international JBI gLOCAL Solution Room which is a week-long event held from 3 – 7 June, comprising a series of dynamic and interactive sessions held in numerous different countries and languages designed to provide pragmatic solutions to challenges in getting evidence into practice in clinical settings.

Hosts

The Queensland Centre for Evidence Based Nursing and Midwifery: A JBI Centre of Excellence

The University of Newcastle Centre for Transformative Nursing, Midwifery, and Health Research: A JBI Centre of Excellence

The New South Wales Centre for Evidence Based Health Care Australia

The Centre for Evidence Informed Nursing, Midwifery and Healthcare Practice: A Joanna Briggs Institute Affiliated Group

The Western Australian Centre for Evidence Informed Healthcare Practice

Panel Speaker Information

Dr Grace Xu is a clinician-researcher and emerging implementation scientist. Dr Xu's research is driven by her current clinical background as an experienced front-line emergency department (ED) nurse practitioner, focusing on promoting the best evidence-based practice, vascular access care and healthcare worker wellbeing.

Dr Minh Nguyen is a Registered Nurse with experience working in Vietnam and Australia. Minh completed a PhD on the self-management of chronic conditions of older Vietnam born adults. Minh is building a research program in the areas of chronic disease management.

Ms Dipna Martin-Roberts is a Registered Nurse with a Master of Palliative Care and Graduate Diploma of Oncology Nursing. She is a specialist palliative care nurse, with over 10 years of extensive general medicine and oncology nursing experience. Dipna has initiated and been a co-investigator on multiple research studies in palliative care and bereavement.

Dr Karen Myors is the Clinical Nurse Consultant for Child and Family Health, Central Coast Local Health District. She has been instrumental in the development and in introducing the new 'Child and Family Health Nursing Professional Practice Framework in Australia. Karen has extensive experience working with children and families in Child and Family Health as a clinician, educator, manager and researcher.

Dr Evan Alexandrou is a Clinical Associate Professor with the School of Nursing at The University of Wollongong. Evan coordinates the Central Venous Access Service at Liverpool Hospital. Evan is also a conjoint senior lecturer with the Faculty of Medicine, Southwest Sydney Clinical School for the University of New South Wales and is an Adjunct Associate Professor with the Alliance for Vascular Access Teaching and Research Group at Griffith University.
